

WHY HRS?

Be a part of this unique concept in higher education. A Bachelor of Arts Diploma from HRS prepares you for a career as an inventor, artist and entrepreneur. Doing what you love inspires young men and women to develop a great work ethic.

Your class' projects at the school could also create an income for life for you via royalties generated by your successful class project or invention.

ENJOY THE FREEDOM TO EXPRESS YOURSELF WHILE CREATING INNOVATIVE PRODUCTS WHICH ARE PRACTICAL, BEAUTIFUL AND INSPIRING.

WORKING EXPERTS WILL BE YOUR TEACHERS AND MENTORS

You'll work side by side with successful professionals whose main income comes from doing the actual work but also love to teach. Teachers, professors and mentors will be participating in the day to day activities to create prototypes. They will see them through to become final products being sold in the marketplace. Our experienced teachers will help develop workable prototypes of your inventions and designs while keeping your projects viable and profitable.

Expect to create both business and personal relationships to be formed at the Hudson River School of Artists Inventors that will remain with you and become an important part of your life.

HUDSON RIVER SCHOOL OF ARTISTS INVENTORS

THE UNIQUE COLLEGE
WHERE
YOUR IDEAS MATTER!

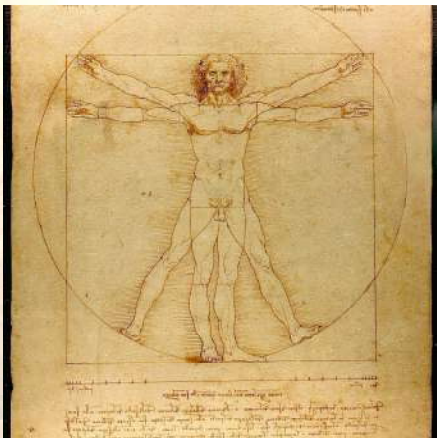

*To my illustrious friend Sir William
of whom I always think and who has
often I never answer!
June 17, 1901. Nikola Tesla*

STUDENTS COMBINE ART AND IDEAS TO
CREATE SOMETHING NEW AND WONDERFUL

WHAT IS SUCCESS?

Your success at the Hudson River School will be based on your output and achievement of the goals you help set - both individually and as part of teams. Grades are not an indicator of your success in life, and so all classes are on a pass or fail basis. The marketplace is the best judge of the value of your work.

Set your own criteria and milestones.
Whatever You Can Dream You Can
Build at the Hudson River School Of
Artists Inventors.

WHAT KIND OF GRADES ARE NEEDED TO ATTEND?

The primary qualification for admission to the HRS is that students will be submitting a portfolio. This could include descriptions of ideas, science projects, inventions, photos of artwork and more.

You are invited to be creative in your portfolio presentation. Our acceptance conditions are based more on your portfolio, ideas and successes than on grades.

WHERE WILL I LIVE?

For the full and best experience, you'll want to attend on campus classes. While HRS does not provide dorms or accommodations, we are connected to housing sources in the community and will help find a place to live.

You may also attend school via distance learning. You'll need a computer and a high speed connection. No, a smart phone is not a good substitute.
