course guide

In the right hands, it can inspire an exciting new journey.

It can offer you clever ways to feed your curiosity and challenge your thinking.

It can even map out a personalised experience that develops every part of you.

At La Trobe University, we teach you the technical skills to land your dream job, in courses designed with industry. We offer Work Integrated Learning to build your professional experience. And we help you develop the soft skills employers value most: passion, resilience, empathy and curiosity.

That means a winning edge in today's competitive job market. All delivered in a diverse, supportive environment at one of the world's best universities.

Don't just take
our word for it...

WE'RE HOME
TO SOME OF
AUSTRALIA'S MOST
DISTINGUISHED
SCIENTISTS...

'My career in genetics kicked off at La Trobe. I want to help the University strengthen its commitment to attracting and retaining talent so that other young scientists have the same opportunity.'

Professor Jenny Graves

La Trobe University geneticist, Distinguished Professor and VC's Fellow. Awarded the Prime Minister's Prize for Science 2017.

...PLUS THE NEXT
GENERATION
OF COMMUNITY
LEADERS...

'La Trobe helped me build my soft skills and prepared me for employment. I developed time-management skills and learnt how to balance social commitments, study and work.'

Stephen Leitch

Part of the first Aspire cohort to graduate in 2017.

...AND HIGHLY
EMPLOYABLE
STUDENTS.

'I'm really lucky. There aren't many placements where you get to work with elite athletes pushing their bodies in extreme ways. I've loved the experience.'

Madeleine Hook

La Trobe physiotherapy student. Madeleine went on a placement with The Australian Ballet to discover how medical expertise can enhance ballet technique.

Ten reasons why choosing La Trobe is a clever move

There are many fantastic reasons to pursue study: broadening your mind, advancing your skills, specialising in your area of interest and increasing your earning and career potential. But that doesn't mean it's easy to decide when and how to study – or which university is the best fit for you.

Here are ten clever reasons why it makes sense to choose La Trobe.

Our Career Ready program, developed with industry leaders

What you do at university is important to us. However, it's what you do after university that interests us the most. Studying is a significant investment, so we're committed to making sure you graduate job ready. Our Career Ready program helps you actively prepare for life beyond La Trobe. We work closely with industry to find out what they want in graduates – now and in the years to come. For more on Career Ready, see page 8.

Our Work Integrated Learning program

Entering the workforce can be nerve-racking. You need to learn not only practical skills and knowledge, but also how to conduct yourself professionally. Our Work Integrated Learning (WIL) program gives you hands-on industry experience while you're studying, bolstering your chances of success in the job market.

High employability

Our graduates are highly sought after. Our strong relationships with industry leaders, such as Optus, The Australian Ballet and the Carlton Football Club, deliver exceptional results and open doors for our students. Many of our courses are accredited by industry peak bodies and designed in close consultation with industry leaders.

Our Accelerator Program for budding entrepreneurs

Almost half of Australia's jobs are at high risk of being affected by automation. How can you prepare? One way is to take advantage of the La Trobe Accelerator Program. Successful applicants receive up to \$20,000 funding (equity-free) to fast-track business ideas and pursue a lean start-up business model. Create a market strategy, connect with business leaders and community decision-makers, and be mentored by accomplished professionals.

Formal recognition for leadership and community skills

Whether you're helping your local club or campaigning for asylum seekers, altruism is good for your community, your wellbeing and your career. Aspire, La Trobe's Early Admissions Program, rewards your volunteer and community work with an early conditional offer into La Trobe. For more on Aspire, see page 13.

Our friendly, supportive environment

We take pride in providing a diverse, friendly, supportive and safe learning environment for all our students. We offer a range of on-campus services, such as chaplaincy, LGBTQI support and counselling, Muslim prayer rooms, gender-neutral bathrooms and access and support for people with disabilities. There's also the Ngarn-gi Bagora Indigenous Centre, a dedicated, culturally safe learning space for Indigenous students at the Bundoora campus.

Our 23 double degrees

Choosing a degree can sometimes be a battle between your inner idealist and your inner pragmatist. Your dream job might call for a nuanced skillset that one degree alone can't deliver, or you might want to explore your passion while also making practical decisions. Never fear: our double degrees boost your employment potential, diversify your skillset and allow you to combine your passion with your chosen profession.

Our strong global reputation

We're internationally renowned for academic excellence and innovation. We're one of Australia's research leaders, with our highly respected teaching and research staff celebrated for addressing some of the most significant issues of our time. This has been recognised in the 2018 QS World University Rankings, placing La Trobe in the top 1.4 per cent of universities globally.

Flexible study

Our lifestyles are all different, and that's why we tailor study to suit you. We offer a range of flexible study options including online study, blended learning, distance learning and flexible timetables including evening and weekend classes.

Our student-run clubs and societies

Our clubs and societies (over 90 at last count) are terrific for connecting with like-minded people. Sign up to as many as you like. Meet incredible people with diverse interests. Form lifelong friendships. And don't forget: joining a society related to your course could boost your career, as they often host careers nights and professional networking events. Learn more on page 12.

‘Career Ready hones in on your existing work experience, connecting the dots from what you’ve done to what employers are looking for. I really love the program because it’s genuine. The Career Ready team definitely care about whether we get jobs, and because of that I really felt that La Trobe was invested in me.

I highly recommend Career Ready. It does make a difference and it will set you apart. If you’re feeling unprepared, or you don’t know what to do to land a job, it’s such a great program to tap into.’

Sarah Gonzalez

Bachelor of Arts graduate,
now working as a marketing
support officer.

Get **Career Ready** while you study

At La Trobe, our Career Ready Advantage program prepares you for the future of work well before you graduate. From day one of your university experience, you'll develop the skills and attributes employers have told us they're looking for in graduates.

Designed in consultation with a wide range of employers, Career Ready Advantage helps you become highly employable. Our focused program of activities allows you to:

- manage your career
- gain valuable work experience
- develop essential skills
- build your professional network
- connect with employers, mentors and recruiters
- create a personalised portfolio to showcase your success.

How we support you to be career ready

As a La Trobe student, you'll have exclusive access to our full range of Career Ready activities, including:

Career Ready mentoring

You'll be matched with industry professionals who will provide you with valuable insights into your future field of employment – all while you grow your professional network.

Career Ready advisers

Our team gives you advice on finding a job, choosing a career path and developing your skills. They also help you access online resources to find part-time and casual roles, work placements and volunteering opportunities, and link you to networking events for meeting employers.

Tutorials by Lynda.com

You'll have access to Lynda.com, LinkedIn's online library of high-quality video tutorials that help develop your skillset in a wide range of areas.

On-campus recruitment with Unitemps

Earn money while you study through Unitemps, our on-campus recruitment agency. Our expert recruitment consultants help you find flexible work that suits your skills, availability and career goals.

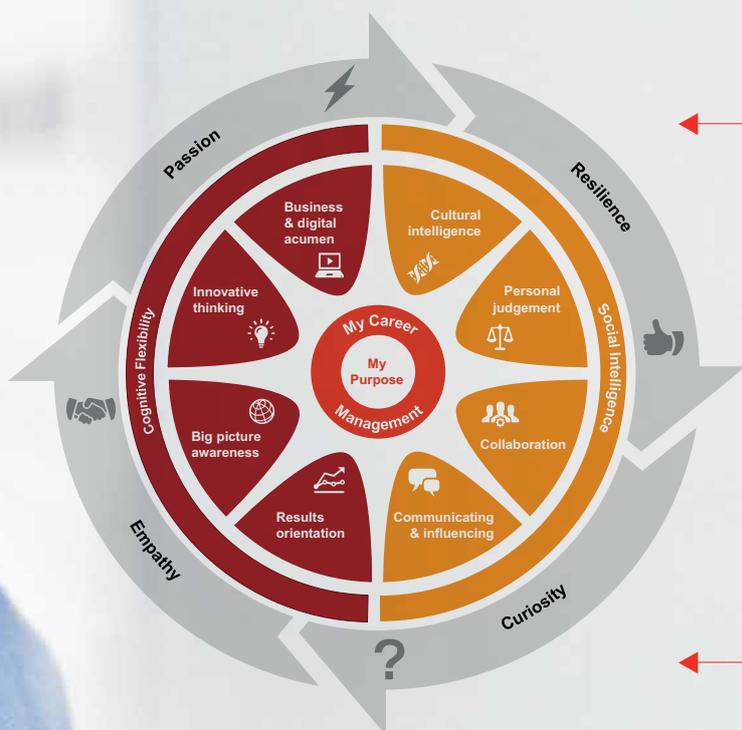

Industry-aligned work placements

Our Work Integrated Learning (WIL) program places you with organisations where you can apply your knowledge in the workplace. Gain work experience with accomplished industry partners including The Australian Ballet, National Gallery of Victoria and Melbourne Rebels.

Career Ready Advantage Award

This Award recognises your participation in online courses, work placements, volunteering and workshops, and is a fantastic way to showcase your skillset to future employers. Along the way, you'll gain a competitive edge by unlocking rewards such as priority access to internships, LinkedIn workshops and networking opportunities.

Career Ready Advantage and MyLaTrobe

Download the MyLaTrobe app (via Apple and Google Play) to track and assess your progress through a personalised Career Ready Advantage dashboard. The dashboard allows you to take control of your growth and development by building a portable skills portfolio that you can show employers when you graduate.

Watch our Career Ready Advantage video to learn more: latrobe.edu.au/advantage

Our campuses

Our seven campuses across Victoria and New South Wales offer a diverse mix of settings and experiences, from the bustling cafe culture and nightlife of the capital cities to the beautiful landscapes and welcoming communities of our regional centres.

No matter which campus you choose, we're committed to helping you achieve your academic and career goals in a supportive environment with world-class facilities.

Melbourne Campus

Nestled among beautiful parkland and waterways, La Trobe's Melbourne Campus is one of Australia's largest. Students from across the world take advantage of state-of-the-art facilities, including our new Donald Whitehead Building, the La Trobe Institute for Molecular Science and our very own Wildlife Sanctuary. Within the campus is a vibrant community, bustling with cafes, restaurants, a cinema and a multi-level library.

27,000+
STUDENTS

Bendigo Campus

Bendigo is La Trobe's second-largest campus and, with more than 5,000 students, the region's largest provider of higher education. Located close to the Bendigo CBD and with a choice of more than 50 degrees, the campus provides you with the perfect place to live and learn. The campus is currently undergoing a \$50 million upgrade, so you'll benefit from world-class learning facilities as you prepare for your future career.

5,000+
STUDENTS

Albury-Wodonga Campus

Located on the banks of the Murray River, Albury-Wodonga is Australia's largest inland regional centre. This thriving region provides a range of employment, cultural and sporting opportunities, making it a great place to live and study. With easy access to university-wide resources and personalised support from staff, you'll have everything you need to succeed.

800+
STUDENTS

Mildura Campus

Mildura is a fantastic place to live, study, work and play. The area boasts a strong arts community and is also the gateway to natural attractions including Mungo National Park and Perry Sandhills. La Trobe has strong ties to the local community through industry partnerships and Work Integrated Learning (WIL) opportunities, adding up to a personalised learning experience.

500+
STUDENTS

Shepparton Campus

Our campus is located in the heart of Shepparton, a large regional centre that offers a relaxed and affordable lifestyle. With strong community and industry links, we provide you with a personalised study experience and Work Integrated Learning (WIL) opportunities. Our main campus building features fantastic teaching, study and communal meeting spaces, and a clinical learning unit with highly advanced teaching technologies.

700+
STUDENTS

Sydney Campus

Our new \$10 million Sydney Campus is located in the heart of the CBD, close to work and internship opportunities and just minutes away from shopping centres, vibrant cafe districts and the city's world-renowned icons. With over 800 students, the campus provides a friendly and supportive community. We also offer a range of pathways as well as Bachelor's and Master's degrees.

800+
STUDENTS

City Campus

Our recently expanded City Campus spans three levels, in the heart of Melbourne's business district. The campus is designed to help advance or relaunch your career with postgraduate courses available in business, health and law, as well as our suite of cybersecurity degrees. You'll benefit from a personalised, service-focused experience with modern facilities and resources.

800+
STUDENTS

Our education partners

La Trobe University has teamed up with VET and TAFE providers around Australia to give you more opportunities to advance your learning and strengthen your career options – all with the flexibility of studying in your region.

ACTIVE CLUBS AND
SOCIETIES ACROSS
OUR CAMPUSES

Aspire Early Admissions Program

Aspire to be your best with our Early Admissions Program, which rewards skills and experience gained through community contributions with an early conditional offer into La Trobe.

Benefits of Aspire

The Aspire Program is designed to give you the tools to succeed at La Trobe and beyond. You'll receive:

- an early taste of university life with special on-campus events
- the chance to meet and connect with like-minded students
- access to our expansive library and campus resources
- induction into our Enrichment Program to prepare for what's to come.

Successful Aspire applicants receive an early conditional offer into their chosen course. For Year 12 students, this includes a minimum ATAR of 50 for entry into our courses (with some exceptions to select professional degree programs). For non-Year 12 students, Aspire offers the benefit of minimum entry requirements. This could be your ATAR or equivalent academic performance achieved through further study.

Who can apply?

We accept applications from people who can demonstrate experience in volunteerism, leadership and community engagement and are:

- current Year 12 students (domestic and on-shore international)*; or
- non-Year 12 applicants (including mature-age applicants).

Types of community contribution

There are many ways you can contribute to your community, and we take these into account when assessing your Aspire application. Examples include:

- community service or volunteering
- leadership and service in sport, performing arts or charity fundraising
- participating in social justice groups or a school leadership role
- religious or cultural group activities.

I-Aspire

If you're an Indigenous student with a passion for giving back to your community, then I-Aspire is for you.

I-Aspire is a dynamic leadership program that gives you a pathway towards an early Aspire offer at La Trobe.

/ Learn more: latrobe.edu.au/i-aspire

'I was volunteering at a community radio station and coordinating a number of fundraisers. My careers teacher told me about Aspire, so I got to applying!

I loved that my offer came earlier than the VTAC offers, which meant I walked into my exams knowing there was a spot waiting for me at La Trobe.

Aspire held a number of events to make us feel welcome, and as soon as I walked onto the campus I felt at home.

The Aspire program helped me realise that academic results are really important, but helping the community gives you skills you can't get in a classroom.'

Kelsey Wilson
Current Aspire student

Our partnerships

La Trobe has partnerships with the Country Fire Authority (CFA), the Duke of Edinburgh's International Award, Scouts Victoria and St John Ambulance. Your involvement with these organisations is officially recognised by the Aspire Program.

Important dates

- Applications open
Friday 1 June 2018
- Applications close
Friday 31 August 2018
- Notification of outcome
Mid-September 2018

For more information on the Aspire Program and how to apply, visit: latrobe.edu.au/aspire

Preparing you for the digital workplace

Digital health

With digital technology revolutionising the healthcare industry, health graduates must be ready for the jobs of the future. At La Trobe, we're equipping our graduates with the skills needed to practice in the emerging field of digital health.

As the Australian health system becomes digitally enabled, health professionals need a core set of digital skills to enable them to work safely, efficiently and effectively.*

The trend towards digitally enabled healthcare is also creating new job opportunities, such as analytics and cybersecurity, for graduates with technical qualifications seeking a career in the health sector.

Working in the rapidly evolving healthcare industry, you'll be at the centre of exciting innovations supporting the health of millions. You could find yourself working on projects such as the Australian Digital Health Agency's 'My Health Record' system: an online platform for patients to record their vital medical information for access by health professionals, providing the best in patient care.

At La Trobe, we continue to stay at the forefront of healthcare education to ensure you're equipped with the future-ready skills required to succeed in the digital health industry, in areas including:

- nursing
- physiotherapy
- remote care
- predictive health analytics
- health information management.

Find out more about our health courses on pages 30-35.

*Australia's National Digital Health strategy (Australian Digital Health Agency 2017)

Bachelor of Cybersecurity

Become the innovative problem solver and cyber-savvy security professional that organisations need to protect intellectual property, data and people.

Our Bachelor of Cybersecurity has been co-designed with industry to address the global shortage of cybersecurity professionals. It equips you with skills across IT, business, law, policy and strategic communication.

Learn about the history of hacking and explore the various methods used to defend and protect against malicious cyber threats. You'll also cover the sophisticated techniques cyber criminals use to access confidential information online.

To inspire your creativity and help build your adaptability, we've made our course structure highly flexible, allowing you to combine cybersecurity with complementary areas of study such as psychology, management, linguistics and international studies.

Engage in a range of simulated attacks via Cyber Games, an immersive gaming environment created by La Trobe in collaboration with Optus and Cisco. You'll also design and develop a project for a real client, preparing you to step straight into a career in cybersecurity.

After you graduate, you could work almost anywhere in the world. You might be protecting government networks or national security, shielding a bank from online criminals or guarding an organisation's most critical data.

Step inside the mind of a hacker with our new double degree

The Bachelor of Cybersecurity/Bachelor of Psychology gives you a deeper understanding of how cyber technology will change human cognition, communication and behaviour. The extra skills and knowledge you'll gain in this double degree will give you a real edge when you start your career in cybersecurity, working in rapidly emerging areas such as cyber investigation, social media research and human behaviour.

'La Trobe has brought together experts across a range of disciplines to prepare you for one of the most in-demand jobs globally.'

In the future workforce, cybersecurity professionals will need to have knowledge, skills and experience in law, policy, business and technology. La Trobe's new cybersecurity program allows you to develop these core skills and then specialise in the area where you're most passionate.

I'd recommend La Trobe's Bachelor of Cybersecurity to anyone looking for an exciting career in a highly employable field.'

Professor Jill Slay AM

La Trobe University Optus Cybersecurity Chair

Arts, social sciences and communications

Challenge ideas, rethink common sense and answer society's most essential questions. Open your mind to clever thinking with subjects ranked in the top one per cent worldwide.* Expand your horizons with specialist degrees – everything from communications to creative arts.

Whatever your interests, you'll develop the knowledge and skills to enrich your life and enhance your future. You'll graduate ready to examine all dimensions of human life, express your creativity and communicate confidently within the fast-paced workplace of the future.

What's in it for you?

- Learn from accomplished scholars at the top of their fields.
- Transform theory into practice with exclusive work placements in Australia and overseas.
- Take advantage of our reputation for excellence. La Trobe is ranked in the top 100 worldwide for archaeology and sociology and in the top 200 for communication and media studies, history, linguistics and philosophy.**
- Develop cultural agility, embrace different opinions and master new languages through our student exchange and Study Abroad programs, many of which are financially supported.
- Access valuable facilities including the Upstart Media Hub, which hones your craft using media and studio equipment for live broadcast.

‘As soon as I left uni, I knew I was ready for my career. LaTrobe arts gave me the ability to work with people, to work to deadlines, to communicate. Everything I could possibly need I’d already learnt at LaTrobe.’

Madison Siladi

La Trobe graduate/
Freelance editor and videographer

Experience that counts

Gain real-world experience through Work Integrated Learning, and take advantage of study tours in places such as Italy, the US and the UK, and exchange opportunities in 54 countries.

Leading facilities

La Trobe provides you with world-class computer labs, video and editing suites, a multi-camera television studio, large studio spaces and an on-campus gallery.

Specialise your degree

Tailor your studies in journalism, sport journalism, public relations or media industries, while gaining the latest insights from industry experts.

*See online for a full list of entry requirements, including ATAR and non-Year 12 students

Business and commerce

Studying business and commerce at La Trobe delivers more than just a degree. You'll be rewarded for ambition and determination, whether you're a budding entrepreneur with a global vision, a driven stockbroker with the future in sight or a data analyst in the making.

Whatever your aspiration, the insights, experience and connections gained at La Trobe will help shape your career. Complement your studies with work placements, international study tours, business simulations, industry-related learning, field visits and mentoring.

You'll thrive at La Trobe. We innovate in teaching and research, and as a Business School student, you'll graduate with the technical and enterprise skills to gain a competitive edge in the evolving world of business.

Our Business School is one of the few in Australia to offer courses with the prestigious EPAS accreditation. Awarded by the European Foundation of Management Development, the accreditation is given only to high-quality business and management programs with an international perspective.

What's in it for you?

- Transform learning into practice through our Work Integrated Learning program.
- Work with our Professors of Practice: influential and high-achieving industry professionals who co-design and teach our degrees.
- Develop a global perspective on specialised international study tours.
- Study in a learning environment that provides you with the work-ready skills and agility to succeed in the jobs of the future.

‘La Trobe gave me opportunities to intern at a variety of firms across the business sector, honing the skills I’ll take into the workforce.’

James Lalios
Bachelor of Commerce/Bachelor of Laws student

Leading tourism and hospitality program

We’re ranked in the top 50 in the world for hospitality and leisure management (2017 QS World University Rankings by Subject).

Real-world learning and problem solving

You’ll diversify your skillset by working in multidisciplinary teams, connecting with business leaders and industry experts throughout your degree.

Gain valuable international experience

With partner universities in over 30 countries, our student exchange program gives you a global perspective on finance.

Education and teaching

Use your knowledge to transform lives. If your passion is education, our courses give you the skills and practical experience for a successful and rewarding career.

By studying with us, you'll make a difference in the field of your choice. Join a professional network of school teachers in a primary, secondary or early childhood setting. Influence education policy with leadership, communication and research skills. Or take students on new adventures by teaching in the great outdoors.

We've re-imagined our education and teaching courses to prepare you for careers in schools, communities and beyond.

You'll learn from passionate educators who pride themselves on high-quality research, community partnerships and industry connections.

What's in it for you?

- Accelerate your career with a foundational first year that introduces you to national numeracy and literacy standards.
- Balance work, life and study with flexible online courses.
- Exceed your potential with a curriculum that redefines teaching, shaped by partnerships with educational institutions across Victoria.
- Gain a global perspective through overseas placements that pair you with local students and schools.
- Join our Excellence in Professional Practice program, working in partner schools, building professional networks and experiencing the rhythms of a full school year.

'La Trobe gave me the theoretical knowledge, practical experience and ability to walk into a classroom and engage students.'

Chantelle Speight

La Trobe graduate/
Art educator, Bendigo South East College

Flexible study while you work

Designed to fit around your working life, this degree is delivered 100 per cent online.

Practical classroom experience

Our teaching model gives you 80 days of professional experience, so you'll graduate career ready.

Gain valuable career experience

Hone your teaching and leadership skills in the outdoors, with around 150 days of fieldwork in regions such as Bendigo, the Victorian Alps, the Grampians and the Murray-Darling Basin.

Health

A La Trobe health degree rewards ambition and builds your future career. You'll benefit from our industry partnerships, graduating with the practical experience to forge a competitive edge.

We'll give you the skills and knowledge to protect and promote health in organisations, workplaces and local communities. Studying health with us is a holistic experience. There's the theoretical rigour provided by our highly regarded academic staff, but there's also the chance to do clinical placements in leading hospitals, community centres and more.

You'll study at a university with a reputation for excellence in health research and education. We're rated well above world standard for our research in neurosciences and other medical and health sciences* and our nursing and sports-related subjects are ranked in the top 100 globally.**

What's in it for you?

- **Develop a three-dimensional view of global health through Study Abroad opportunities.**
- **Get career ready beyond city limits. The La Trobe Rural Health School provides enhanced career opportunities and study choices for students in rural and regional communities.**
- **Learn with the best at our Clinical Schools embedded in Victoria's leading hospitals.**
- **Gain valuable hands-on experience through on-campus allied health clinics including facilities for podiatry and speech pathology students.**

*Excellence in Research for Australia (ERA) 2015

**QS World University Rankings by Subject 2017

'I did a lot of research into which university would suit me best, and after reading about LaTrobe's affiliations with some of Melbourne's acute hospitals, I decided on LaTrobe. Currently I'm employed by The Alfred, where I work in the adult burns unit. It's challenging, it's fast-paced, and it's amazing.'

Alana Ginnivan
La Trobe graduate/
Registered nurse, The Alfred Hospital

Boost your career

Expand your global career opportunities by gaining a Master's qualification.

Graduate career ready

Ninety-two per cent of our graduates were employed in full-time work within four months of graduation (2016).

Learn from clinical experts

Learn from highly respected clinicians and some of the best researchers and academics in the world.

Valuable learning opportunities

Gain practical experience through our diverse industry and sports partnerships.

*See online for a full list of entry requirements, including ATAR and non-Year 12 students

‘The knowledge I gained at La Trobe meant I was career ready heading out into the profession. The university instilled in me a great sense of adaptability in applying my knowledge.’

Sally Richardson

La Trobe graduate/
Health information manager

Highly employable

There is a long-term shortage of health information managers. In the past five years, 43 per cent of students had secured jobs while still studying their degree.

Hands-on hospital experience

Get hands-on learning experiences at some of Australia’s leading hospitals such as The Alfred, The Austin, Royal Melbourne Hospital, The Northern Hospital and Bendigo Health.

Exclusive learning opportunities

Experience opportunities in elite sport with La Trobe’s exclusive partnership with the AFL Players’ Association.

Information technology and engineering

At La Trobe, a world of opportunity awaits you. Our information technology and engineering courses place you ahead of the curve. They're widely recognised for world-class teaching and research standards, and immersive project-based learning. With industry experience and work placements, our courses grow your professional networks before you enter the job market.

Information technology

This fast-paced industry thrives on creativity and innovation. Digital disruption means that traditional jobs will disappear and new ones will arise, requiring advanced computer knowledge. We equip you with not just technical skills, but also the global perspective to understand why change occurs – and to meet it head on.

Engineering

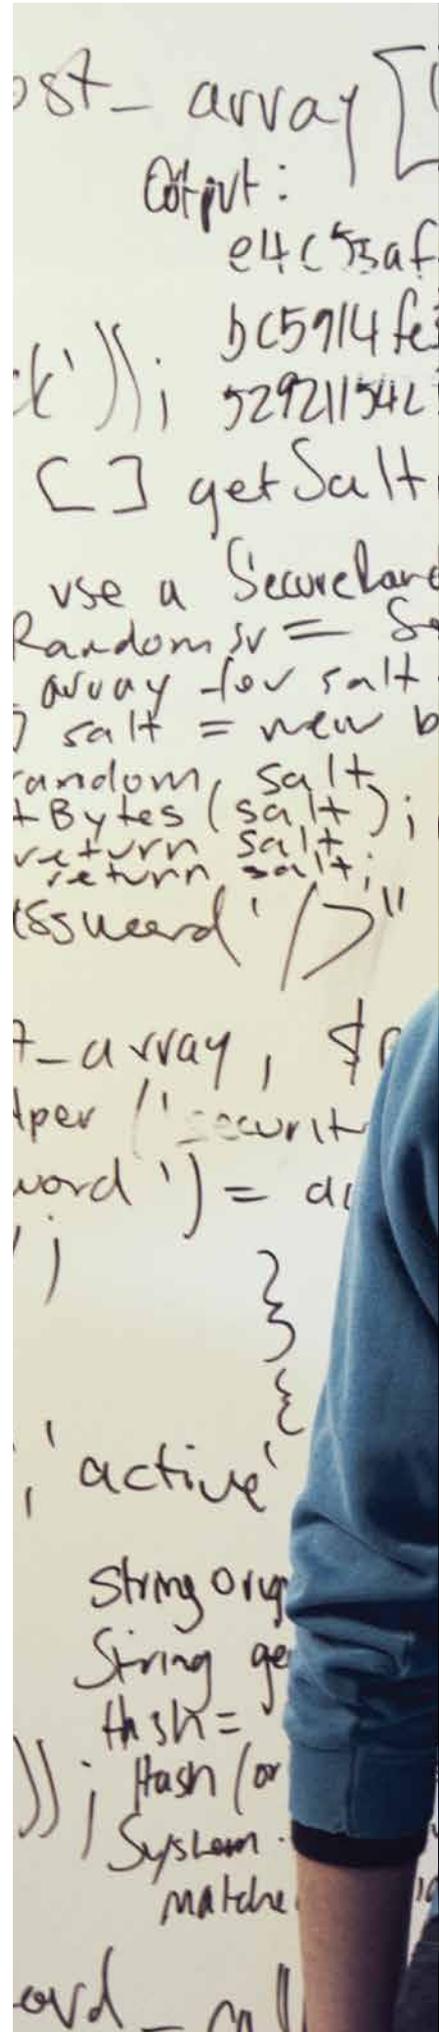

As new industries and technologies emerge, engineers must be versatile and adaptable, working internationally and across traditional engineering disciplines. That's why we've partnered with industry, designing degrees that address the profession's growing complexity.

The options are exciting and varied, with our partners including leading technology and engineering organisations. Your placement might be with federal and state government departments and agencies, multinational corporations or start-up ventures.

What's in it for you?

- **Test your skills:** present your computer science, information technology and engineering projects to industry, academics and their peers at our annual Engineering and IT Showcase.
- **Work on cutting-edge projects.** Past students have created everything from a self-transforming mobile robot to a climate prediction tool.
- **Benefit from state-of-the-art engineering, computer science and IT networking labs, including 24/7 lab access for collaboration and assignment work.**
- **At our Bendigo Campus, our new engineering building includes innovative teaching spaces and academic workstations, and next-generation research spaces designed to attract and maximise industry collaboration.**

Career outcomes

We've designed our multifaceted suite of degrees to enrich your career potential. Here are some of the jobs that could be yours:

Information technology

- Business analyst
- Cyber intelligence analyst
- Cybersecurity consultant
- Database engineer
- Digital strategy analyst
- Mobile app and games developer
- Network security engineer
- Project manager
- Risk management specialist
- Systems analyst
- Web developer

Engineering

- Civil engineer
- Engineering consultant
- Geotechnical engineer
- Industrial engineer
- Large-scale project manager

Information technology and engineering

Course title	Location/course code	Intake	Prerequisites
Bachelor of Civil Engineering (Honours)	Melbourne (SHCE) Bendigo (SHCEB)	Sem 1, Sem 2 Sem 1, Sem 2	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (any) or Maths: Specialist Mathematics.*
Bachelor of Engineering Honours (Industrial)	Melbourne (SHENI) Bendigo (SHENIB)	Sem 1, Sem 2 Sem 1, Sem 2	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (any) or Maths: Specialist Mathematics.*
Bachelor of Applied Information Technology	Online (SBAIO)	Monthly	See online for entry requirements.
Bachelor of Business Information Systems	Melbourne (SBBiy)	Sem 1, Sem 2	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.*
Bachelor of Commerce/ Bachelor of Computer Science	Melbourne (LZCCS)	Sem 1, Sem 2	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (any) or Maths: Specialist Mathematics.*
Bachelor of Computer Science	Melbourne (SBCS)	Sem 1, Sem 2	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (any) or Maths: Specialist Mathematics.*
Bachelor of Cybersecurity	Melbourne (SBCY)	Sem 1	Minimum ATAR of 60.00. VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.*
Bachelor of Cybersecurity/ Bachelor of Psychological Science	Melbourne (SZCyps)	Sem 1	Minimum ATAR of 70.00. VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.*
Bachelor of Information Technology	Melbourne (SBIT) Bendigo (RBC) Sydney (SBITSd) Dandenong (SBITD) 	Sem 1, Sem 2 Sem 1, Sem 2 SP1, SP2, SP3 ^ Sem 1, Sem 2	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.*
Bachelor of Information Technology (Professional)	Bendigo (SBITL)	Sem 1, Sem 2	Minimum ATAR of 80.00. VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; Units 3 and 4: a study score of at least 20 in any Mathematics.*

'I started my study at another university, and I found that experience a bit impersonal. I then came across to La Trobe, which rekindled my passion for engineering. I'm now enjoying my career as a civil engineer, and I can't wait to step into a higher management role.'

Chris Sawyer
La Trobe graduate/
Graduate engineer, Fulton Hogan

Industry insights

Gain six months' industry experience, supported by a \$10,000 scholarship, through our Work Integrated Learning program.

One million job openings

La Trobe's cybersecurity partner, Cisco, estimates there are one million information security job openings worldwide.**

Industry Based Learning (IBL)

Spend up to 10 months in paid scholarship placements or employment, gaining workplace experience and developing strong industry networks.

Law and criminology

As one of Australia's most dynamic, technically driven and innovative law schools, we offer high quality clinical legal education and assessments that test your practical skills.

Gain practical experience while completing your degree. Work with a community legal centre or a private law firm. Take part in an international mooted competition. Be mentored by experienced practitioners including barristers, solicitors and judges. Our courses give you opportunities to practise what you learn, and a future-focused environment in which you'll positively thrive.

Our Law School is Victoria's third oldest, with a proven track record of producing work-ready graduates. Our students have landed top positions in prestigious law firms, the Victorian Bar, judicial administration, government and corporate bodies, Victoria Legal Aid, community legal services and public interest advocacy groups.

What's in it for you?

Law

- Experience genuine small group teaching in our tutorials.
- Dispute Resolution is a core subject in both the law and criminology degrees.
- Access immersive learning experiences in the real world through our clinical program.

Criminology

- Benefit from the only Victorian criminology program to include forensics subjects as core components of the degree.
- Apply your skills and knowledge in real-world settings through our Work Integrated Learning program.
- Gain a global perspective by going on an international exchange, exposing yourself to a completely different legal system and maybe a totally different culture.

‘La Trobe is second to none for industry placements. I had seasonal placements in big law firms in the city, and a six-month placement at Legal Aid. Having a career-driven, adaptable degree has been fantastic in giving me the opportunity to get where I want.’

Mira Stammers
La Trobe graduate/
CEO, Legally Yours

A difference that counts

The only criminology degree in Victoria with forensics as a core component.

International opportunities

As a law and criminology student, you can gain a global perspective through our international exchange program involving universities from all around the world.

Science

Defend biodiversity. Secure the future of food. Be at the centre of cutting-edge cancer research. Our leading academics bring scientific breakthroughs within your reach.

As a next-generation scientist, you'll step into exceptional learning spaces, from wetlands to bushlands to multi-million dollar molecular science labs. Learn directly from elite academics, whose research rates well above world standard in over 15 scientific fields.* Put your discoveries into practice through industry programs linking you with the best and brightest scientific minds.

Build your career from the ground up. Our introductory subjects give you a solid framework for exploring all the opportunities and challenges that science offers. Our strong industry connections give you practical experience in your chosen field so you graduate job ready.

What's in it for you?

- Access outstanding research centres, including our \$100 million La Trobe Institute for Molecular Science.
- We're also home to the \$288 million Centre for AgriBioscience, Australia's first integrated agricultural systems biology research centre.
- There's also the 30-hectare La Trobe Wildlife Sanctuary. It's essentially our outdoor laboratory, where you can study indigenous plants and animals.
- Collaborate with clever peers and smart academics. Enjoy hands-on lab work and interactive teaching in small-sized lab classes.
- Build academic and professional networks with leading researchers and accomplished guest lecturers.
- Be mentored by alumni, peers and higher-year science students.

*Excellence in Research for Australia 2015 report

Career outcomes

A career in science doesn't always begin or end in the lab, with the many and varied job roles including:

Agricultural and environmental sciences

- Agribusiness manager
- Agronomist
- Aquaculture producer
- Biodiversity officer
- Conservation officer
- Environmental consultant
- Environmental educator
- Soil scientist
- Vigneron
- Wildlife biologist

Physical and chemical sciences

- Chemist
- Geoscientist
- Pharmacist
- Physicist
- Statistician

Medical and psychological sciences

- Biomedical researcher
- Dietitian
- Psychologist
- Speech pathologist

Molecular and biological sciences

- Animal welfare officer
- Animal technician
- Biotechnologist
- Plant scientist
- Zoologist

‘La Trobe has one of Australia’s greatest practical science programs. Coming out of La Trobe, I had those two really important elements: the practical skills I learned in lab class and the industry placement. These came together to result in fantastic job opportunities.’

Daniel Stalker
La Trobe graduate/
Applications scientist, FOSS Analytical

Well above world standard

La Trobe is the only university in Victoria rated well above world standard for research in Agricultural and Veterinary Sciences.**

Leading science facilities

Learn from world-leading researchers in state-of-the-art facilities including the multi-million dollar La Trobe Institute for Molecular Science.

Diverse work placements

Obtain valuable industry experience through placements with leading partners such as Thermo Fisher Scientific, Hexima, and AdAlta.

Science

Course title	Location/course code	Intake	Prerequisites
Bachelor of Cybersecurity/ Bachelor of Psychological Science	Melbourne (SZCYPS)	Sem 1	Minimum ATAR of 70.00. VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.*
Bachelor of Laws/Bachelor of Psychological Science	Melbourne (LWLPHY) Bendigo (LWLPHYB)	Sem 1, Sem 2 Sem 1	VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.*
Bachelor of Laws/Bachelor of Science	Melbourne (LWLSC) Bendigo (LWLSCB)	Sem 1, Sem 2 Sem 1, Sem 2	VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL and a study score of at least 20 in Mathematical Methods or Specialist Mathematics.*
Bachelor of Pharmacy (Honours)	Bendigo (SHPB)	Sem 1	VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in any Mathematics.*
Bachelor of Psychological Science	Melbourne (SBPS) Bendigo (SBPSB) Albury-Wodonga (SBPSW)	Sem 1, Sem 2 Sem 1, Sem 2 Sem 1, Sem 2	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.*
Bachelor of Psychology (Honours)	Melbourne (SHP) Bendigo (SHPYB) Albury-Wodonga (SHPYW)	Sem 1 Sem 1 Sem 1	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.*
Bachelor of Science	Melbourne (SBSC) Bendigo (SBSCB) Albury-Wodonga (SBSCW)	Sem 1, Sem 2 Sem 1, Sem 2 Sem 1, Sem 2	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in any Mathematics.*
 Majors	<p>Melbourne: Biochemistry Botany Chemistry Environmental geoscience Genetics Mathematics Microbiology Nanotechnology Physics Statistics Zoology</p> <p>Bendigo: Mathematics Molecular biology Pharmaceutical chemistry Physics</p> <p>Albury-Wodonga: Biomedical science Pharmaceutical chemistry</p>		
Bachelor of Science (Wildlife and Conservation Biology)	Melbourne (SBSWCB) Albury-Wodonga (SBSWBW)	Sem 1 Sem 1	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.*
Bachelor of Science/Bachelor of Business	Bendigo (SZSBB)	Sem 1, Sem 2	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.*
Bachelor of Science/Bachelor of Science	Melbourne (SZSS) Bendigo (SZSSB)	Sem 1, Sem 2 Sem 1, Sem 2	VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in any Mathematics.*
Bachelor of Veterinary Nursing	Epping (SBVN) 	Sem 1	See online for entry requirements.

*See online for a full list of entry requirements, including ATAR and non-Year 12 students

‘The hands-on experience La Trobe provided was something I found really rewarding. I had a six-month placement at the Epworth Clinic, which has now turned into a part-time position as a psychologist.’

Nikita Kettlewell

La Trobe graduate/
Psychologist, Epworth Clinic

Learn by doing

Gain practical knowledge and hands-on experience through our Work Integrated Learning program.

La Trobe University's Outdoor Laboratory

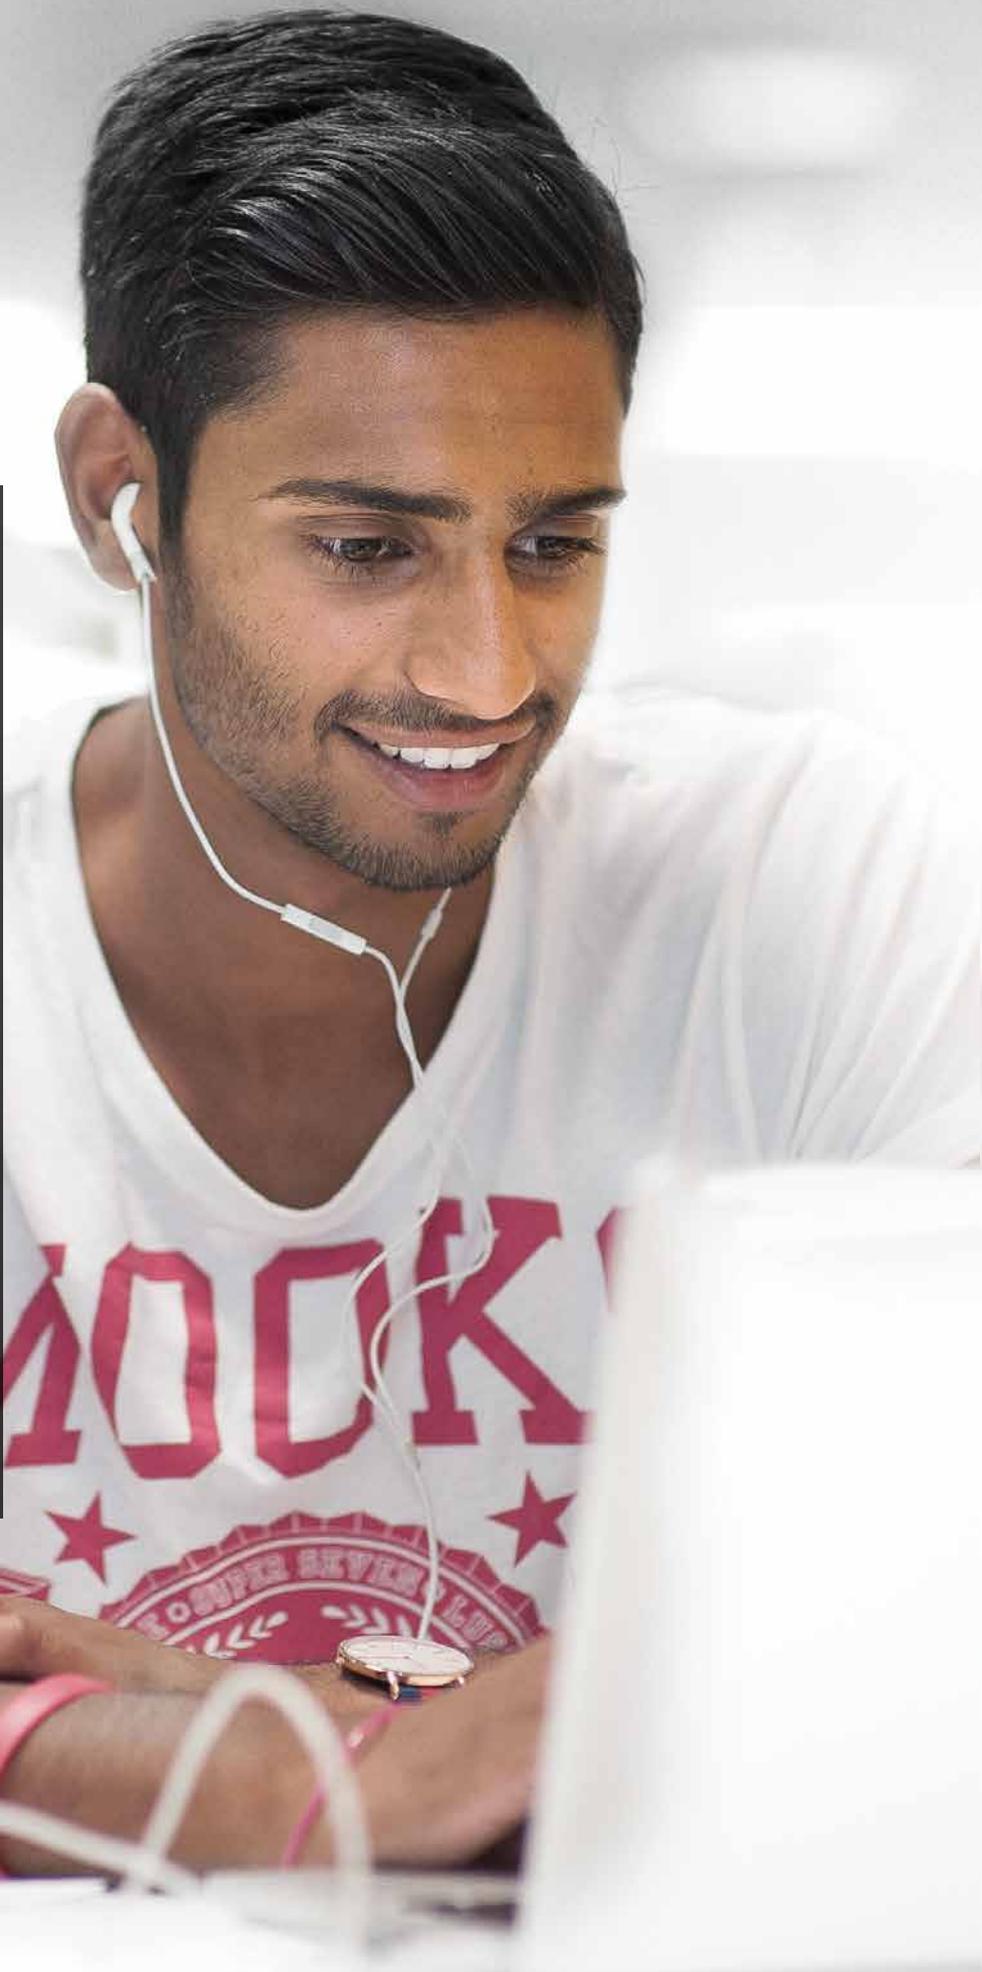

Based at our Melbourne Campus, the Wildlife Sanctuary is made up of over 30 hectares of bushland. Here, you'll undertake research projects and learn the importance of preserving our indigenous flora and fauna.

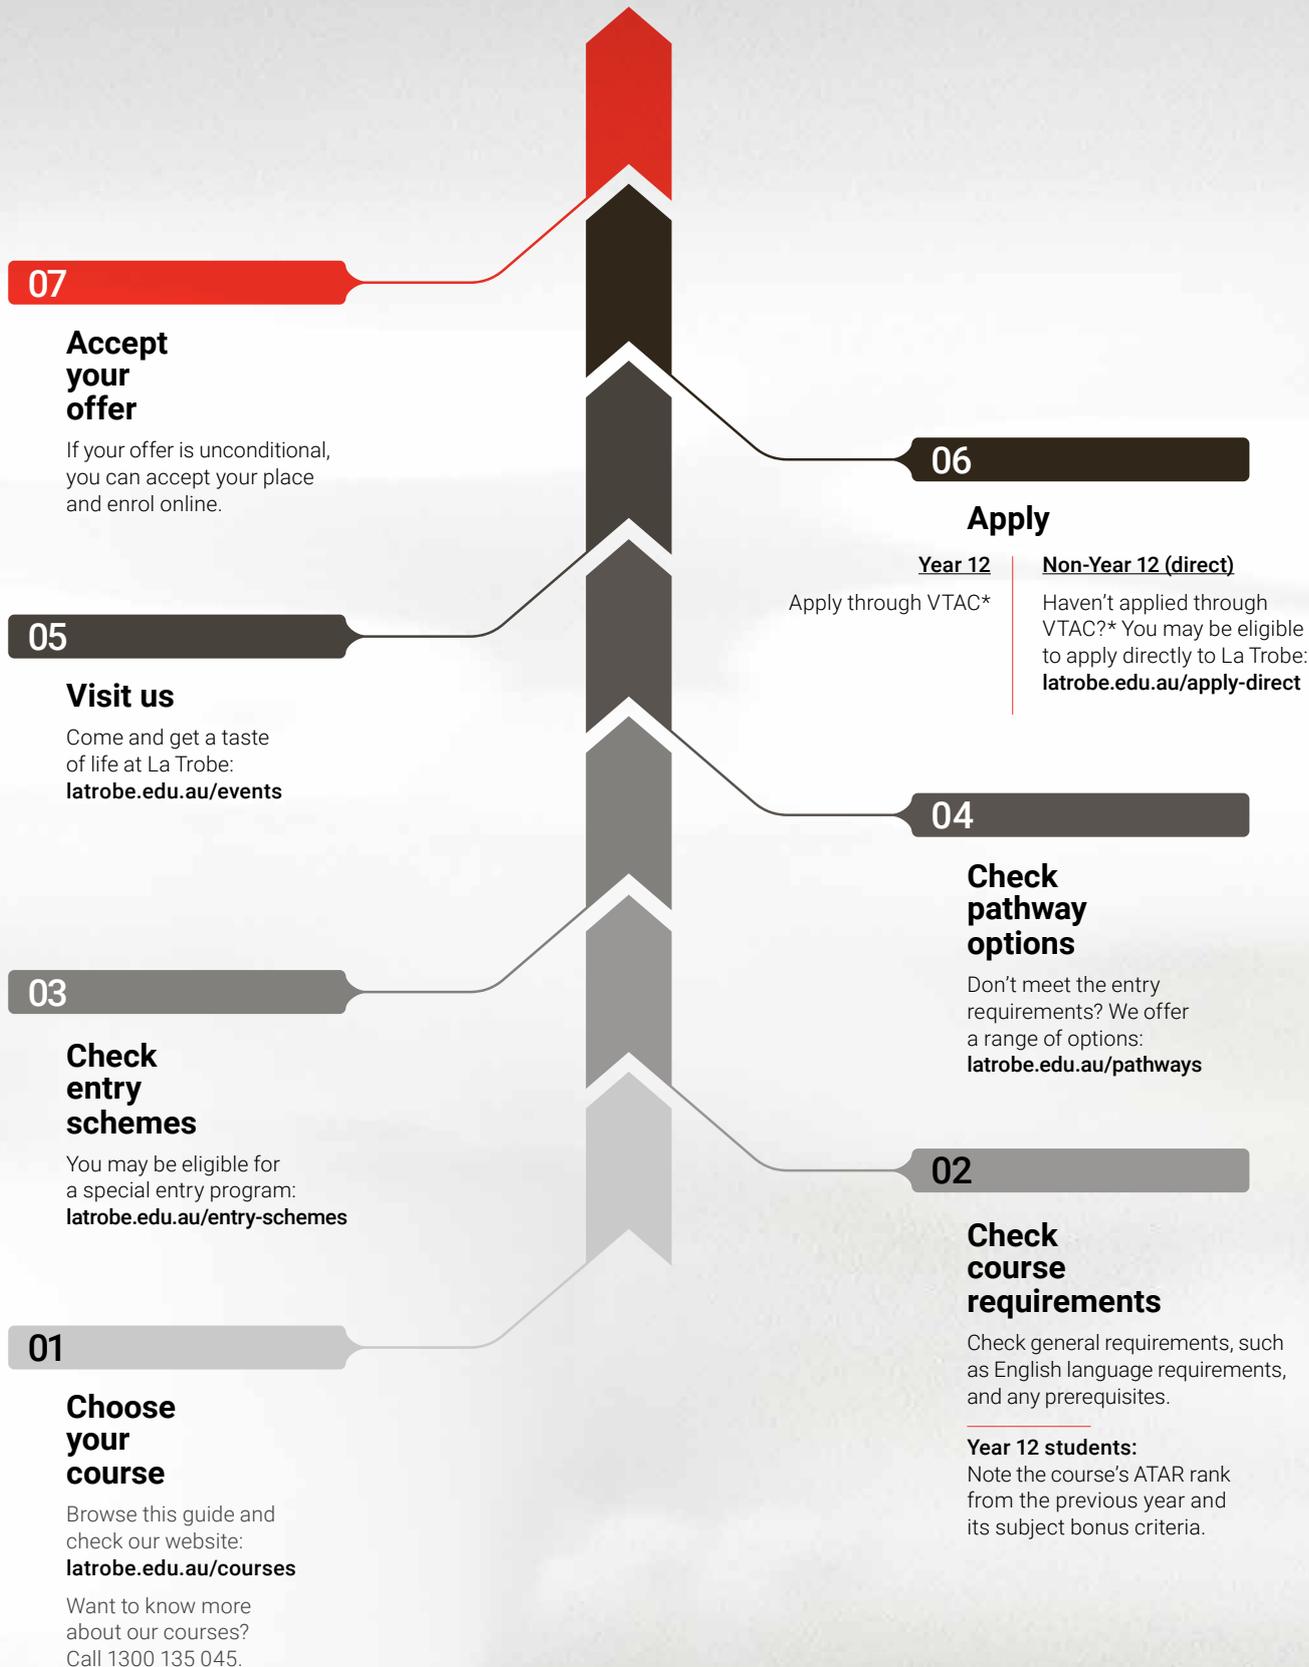

How to apply

—
'I knew I wanted to study at La Trobe, but choosing the right course was daunting. Before applying through VTAC, I received great support at La Trobe's Open and Experience Days, and when things got really serious, I booked a one-on-one consultation to make sure all my questions were answered. I got an offer into my dream course and was guided through all the stages of becoming a student. I'm now studying applied science and occupational therapy, and I haven't looked back!'

Sarah Andrew

Bachelor of Applied Science/Master of Occupational Therapy student

Start here

*Apply through UAC for courses offered at the Mildura, Albury-Wodonga or Sydney campuses

Alternative ways into university

There's more than one way into La Trobe.

If you didn't receive the ATAR you were hoping for, or you're returning to study from the workforce, or raising a family, there are pathway options to explore.

We also have our Aspire Early Admissions Program, which rewards you for your community service, and VCE Plus, where Year 12 students can study uni subjects to boost their ATAR.

Whatever your story, we offer a range of pathways and entry schemes to help you gain entry into your ideal degree.

La Trobe's pathway college

Study an eight or 12-month pathway program at La Trobe's Melbourne or Sydney campus and go direct to second year of a La Trobe Bachelor's degree. With small class sizes and extra teacher support, our programs offer guaranteed entry into more than 30 degrees, subject to minimum grade requirements.

/ Learn more:
latrobe.edu.au/college

Dual enrolment degrees

La Trobe has partnerships with a range of TAFE providers that allow you to co-enrol in a Diploma and a Bachelor's degree at the same time.

/ To find out more about dual enrolments and get a listing of our education partners, visit:
latrobe.edu.au/dual-enrolment

TAFE/VET

Many of our students come to us after completing Vocational Education and Training (VET) studies at TAFE providers, including our partner Chisholm Institute, adult and community education providers, industry skills centres and commercial training providers.

/ Learn more:
latrobe.edu.au/tafe-vet

Aspire Early Admissions Program

Our Aspire and I-Aspire Programs recognise the positive impact you make within your school or community with an early offer at La Trobe.

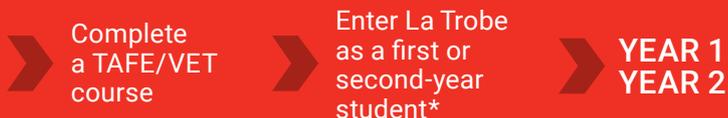

/ Learn more on page 13 or visit:
latrobe.edu.au/aspire

VCE Plus

Our extension studies program allows Year 12 VCE students to complete two first-year university subjects and have them recognised as part of their VCE.

/ Learn more:
latrobe.edu.au/vceplus

Entry Schemes

There are a range of access schemes that may grant special consideration to your application due to your personal circumstances. These include:

- **Special Entry Access Schemes (SEAS)** – entry schemes that help you gain entry to La Trobe if you have experienced educational disadvantage.
- **Special Tertiary Admissions Test (STAT)** – an aptitude test that helps us assess your academic potential.
- **Work Recognition Program** – this takes your previous work experience into account as part of your application.
- **Tertiary Enabling Program** – a free preparation program for gaining entry to university.

/ Learn more:
latrobe.edu.au/entry-schemes

Managing the **costs** of study

University costs include the contribution you need to pay towards the overall cost of your course, a compulsory administration fee, money for textbooks and equipment, and living expenses.

Course costs

Commonwealth Supported Places

The Commonwealth Government subsidises undergraduate uni places for all Australian students, so you only have to pay part of the cost of your course. These are known as Commonwealth Supported Places (CSPs).

/ Learn more:
latrobe.edu.au/costs

Student Services and Amenities Fee

La Trobe University charges a compulsory Student Services and Amenities Fee (SSAF) in two half-year periods.

/ Learn more:
latrobe.edu.au/ssaf

Textbooks

Textbook prices can vary widely, so to help with expenses, all prescribed textbooks are available from the La Trobe library. Many are also available from second-hand bookshops.

/ Learn more:
latrobe.edu.au/library

Financial assistance

HECS-HELP

You may be eligible for a loan via the government's HECS-HELP scheme, which allows you to borrow the amount of your student contribution and pay it back once you're earning over a certain amount.

/ Learn more:
studyassist.gov.au

SA-HELP

You may also be eligible to defer payment of your SSAF by applying for an SA-HELP loan. SA-HELP works in a similar way to HECS-HELP, where repayments are made through your income tax when you're earning over a certain amount.

/ Learn more:
studyassist.gov.au

Student loans

If you need help covering the cost of books, equipment, computer software and hardware, or even work placements, you can apply for a student loan.

/ Learn more:
latrobe.edu.au/loans

Scholarship opportunities

We believe in making university accessible to everyone, so we offer a huge range of scholarships to help students succeed.

At La Trobe, we offer a range of scholarships recognising exceptional academic or sporting performance, or significant contributions to your community. Others are designed to support students experiencing financial hardship or disadvantage.

Winning a scholarship can help you pay your HECS debt and assist with the cost of living so you can focus on your studies. Scholarships can include funds towards accommodation, uni start-up costs or other expenses.

They often involve non-financial support as well, such as mentorships, paid or unpaid work experience, as well as the opportunity to be a paid university ambassador and access to industry contacts.

You can also access exclusive scholarships if you're from a regional area, if you're an Indigenous Australian, if you live on campus at a residential college, if you're studying at a regional campus or if you're enrolled in a particular course.

/ Learn more:
latrobe.edu.au/scholarships

La Trobe Access Scholarship

If you're commencing tertiary studies for the first time and have experienced financial hardship and/or educational disadvantage, then La Trobe's Access Scholarships are for you.

You'll receive \$3,000 each year of full-time study over your course to help with the expenses involved with starting university.

Your home on campus

La Trobe is more than just a place to study. As part of a supportive and social on-campus community, you'll have memorable experiences and develop lifelong friendships.

On-campus accommodation is convenient, economical and secure, and comes with a built-in social and support network.

If you're living away from home for the first time, our dedicated support staff will make sure your move to campus life is smooth and stress free.

Classes are only a short walk away, and you'll have access to free academic mentoring and support.

We offer a variety of on-campus accommodation options including residential colleges and self-contained units.

Our facilities include study areas, computer labs, gyms, gaming and cinema rooms, and chill-out areas for relaxing after a busy day at uni.

Check out on-campus accommodation in person at our Open Days and other La Trobe events. Applications for 2019 on-campus accommodation open in August 2018.

There's high demand, so apply as early as you can.

Glossary

Advanced Standing

If you've done relevant formally recognised studies at another uni or TAFE, you may get credit – or Advanced Standing – for some or all your studies when you enrol at uni. This means you may finish your degree faster.

Australian Tertiary Admissions Rank (ATAR)

VTAC or UAC gives you an ATAR (a number between 0.00 and 99.95) to rank your Year 12 results against other students' results.

Commonwealth Supported Place (CSP)

When you're offered a CSP, the government subsidises your course fees and you only need to pay for part of your tuition – known as the 'student contribution amount'. All domestic undergraduate places at La Trobe are CSPs.

Core subjects

The compulsory subjects in any given course.

Entry requirements

These include general entry requirements such as English language and course entry. Course prerequisites and other extra requirements such as interviews and portfolios are outlined on our website:

latrobe.edu.au/courses

Offers of admission into La Trobe courses are made on the basis of academic merit, likelihood of success and the number of places available.

HECS-HELP

An Australian Government loan scheme to help eligible students enrolled in a CSP pay their student contributions.

Honours

Honours studies are advanced studies attached to undergraduate degrees, giving you a higher qualification than a three-year degree. Many people do Honours so they can go on to postgraduate studies, and most La Trobe undergraduate courses offer Honours. Depending on your course, this may involve an additional year of study, although some courses have it built in.

Major

A sequence of related subjects spread over the duration of an undergraduate course. You'll usually undertake at least one subject from your major each semester, and you have to pass each subject in order to move onto the next one in the sequence.

Non-Year 12 applicants

There are many entry schemes for applicants who are not recent Year 12 students. These include the Special Tertiary Admissions Test (STAT), Work Recognition Program and Tertiary Enabling Program.

Pathways

The different educational options leading to a particular qualification. For example, Year 12 is one pathway to a uni course. Year 12 to TAFE to uni is another pathway. Read more on pages 52 and 53.

Postgraduate

The second level of university study. Usually, you can only begin postgraduate studies once you've completed an undergraduate degree.

Prerequisites

The subjects you must have completed at school (and/or any other qualifications you need) to be eligible for consideration in a specific uni course.

Undergraduate

The first level of university study. This usually refers to a three-year single Bachelor's degree, although it also includes Honours studies, which can take an additional year. There are also double degrees that usually take at least four years full time.).

Work Integrated Learning (WIL)

WIL and work placements integrate educational theory and workplace experience, preparing you to be work ready, world ready and future ready.

LaTrobe University acknowledges that our campuses are located on the lands of many Traditional Custodians in Victoria and New South Wales. We recognise their ongoing connection to the land and value their unique contribution to the University and wider Australian society.

LaTrobe University is committed to providing opportunities for Aboriginal and Torres Strait Islander people, both as individuals and communities, through teaching and learning, research and community partnerships across all our campuses.

The wedge-tailed eagle (*Aquila audax*) is one of the world's largest, and the Wurundjeri people – Traditional Owners of the land where our Melbourne campuses are located – know the wedge-tailed eagle as Bunjil, the creator spirit of the Kulin Nations.

There is a special synergy between Bunjil and the LaTrobe University logo of an eagle. The symbolism and significance for both LaTrobe and for Aboriginal people challenges us all to gamagoen yarrbat – to soar.

OPEN DAY 2018

Melbourne | 5 August | 10am–4pm

Bendigo | 26 August | 10am–3pm

Albury-Wodonga | 12 August | 10am–2pm

Shepparton | 3 August | 3–7pm

Mildura | 15 August | 3–7pm

Sydney | 30 August | 4pm–7pm
