Amelia Aitkin-Deane
Bachelor of Business (event management and marketing)

Be

*curious, contemplative,
clever, creative, courageous,
collaborative, connected,
confident, progressive,
purposeful, personal,
assured, engaged, inspired*

Remarkable.

*Ranked in the
top 2% worldwide*

*Rated 5 stars for
student experience*

*6
campuses*

*Globally
connected*

*Australia's most
awarded teachers*

*50,000
students*

*Industry
focused*

*200,000
graduates*

*Ranked in the top two per cent worldwide**

We're consistently ranked in the top 300 of the largest and most credible world university rankings—placing us in the top two per cent worldwide.

Australia's most awarded teachers†

Learn from the best, with teachers who have won more Australian Government awards, citations, and fellowships than any other university in the past five years.

Five stars for student experience^

Griffith students give us top marks for their university experience.

Industry focused

Graduate with valuable contacts, and the skills, knowledge and experience that employers want.

Flexible study options

Take control of your study with trimesters that allow you to pace your study to suit your needs, or fast-track and finish sooner. You can also study, learn, and connect face-to-face, online, or a combination of both.

Globally connected

Be prepared to work almost anywhere with our world-class degrees and opportunities to study abroad.

50,000 students of all ages

Enhance your learning when you study with people just like you.

200,000 skilled graduates

Your Griffith degree is your passport to a global network of opportunity.

* Based on the International Association of Universities – World Higher Education Database, listing more than 18,500 institutions of higher education. Current as at February 2019.

† Based on Learning and Teaching results from the Department of Education and Training.

Pathways to postgraduate study

There is more than one pathway to postgraduate study at Griffith. We recognise professional experience as well as previous study.

QUALIFICATIONS AND EXPERIENCE

I have five years of professional experience

Get recognition for your experience and advance your career with a formal qualification.

I have a bachelor degree

Expand your qualifications in a new or related discipline. Build on existing skills and knowledge or change your career direction.

I have a bachelor degree with honours or postgraduate qualifications with a research component

Take your research experience to the next level.

DEGREE ELIGIBILITY

Graduate Certificate

Even if you haven't studied at university before, you may be able to use your extensive work experience as a foundation and study four courses (subjects) to complete a graduate certificate in as little as one trimester. It's a qualification in its own right, or you can use it as a pathway to a masters degree.

Duration:

6 months full-time or
1 year part-time

Graduate Certificate/ Graduate Diploma

Use your bachelor degree as a pathway to building specialised knowledge in a new or existing discipline or professional area. Take the next step towards a masters degree and expand your career options.

Duration:

Graduate Certificate: 6 months full-time or 1 year part-time

Graduate Diploma: 1–2 years full-time or 2–4 years part-time

Masters by coursework

Give your career a real advantage and become an expert in your field. Build on your bachelors degree knowledge or develop knowledge and skills in another discipline through a coursework masters degree. Graduates have advanced knowledge for professional practice.

Duration:

1–2 years full-time or
2–4 years part-time

Masters by research

Carry out a significant piece of supervised research in your area of specialisation and present advanced findings in a thesis.

Duration:

1–2 years full-time with
part-time options

PhD (Doctorate)

Develop original knowledge in a chosen field through advanced research and preparation of a thesis of original findings.

Duration:

3–4 years full-time with
part-time options

Note. This page is a guide only—entry requirements and durations vary between degrees. See degrees.griffith.edu.au for full details of entry requirements for specific degrees.

Why choose Griffith?

We're known for delivering an outstanding student experience, our high-quality degrees, welcoming environment, and flexible study options.

Students come first

Griffith students are supported, from help with study skills to personal support services, scholarships, and career advice. The Good Universities Guide awarded us five star ratings for overall university experience, teaching quality, skills development and graduate salaries.*

Learn from the best

You'll learn from some of the best teachers in the country. In the last five years, our teachers have won more Australian Government awards, citations and fellowships than any other university, including the 2018 Australian University Teacher of the Year award.†

Get the skills and knowledge employers want

Innovative degrees

Our future-focused degrees are designed to prepare you for new opportunities in a fast-changing world.

We've introduced Australia's first degrees in a wide range of important areas, including: Asian studies, environmental science, forensic science, aviation, Australian Indigenous arts and dental technology.

Work opportunities and industry placements

Griffith students put what they learn in the classroom into practice, with the opportunity for industry experience included in many of our degrees. Depending on what you study, you could learn through work placements, overseas field trips or industry projects for real clients.

Take control of your study

Griffith is known for its flexibility. Depending on your degree, you'll have the choice to study in person at one of our campuses, online through our Digital campus, or a combination of both, either part-time or full-time over two or three trimesters.

Trimesters

You can study across three 12-week trimesters each year. Depending on your degree, you can pace your study or fast-track and graduate earlier. We have degrees starting in February, July or October.

Study online

Our online study options mean you can study, learn and connect when it suits you. Around 40% of our students study at least one course (subject) online.

Global connections

Many of our degrees have an international focus, preparing you for work almost anywhere in the world.

Be part of an exceptional community

When you study at Griffith, you'll join a community of like-minded students. Once you graduate, your Griffith degree will be your passport to a global network of contacts.

You will join an alumni community of more than 200,000 graduates who span the globe. Working in every field, they range from groundbreaking medical researchers to gold medal-winning athletes, from professional musicians to company executives.

* Good Universities Guide 2019.

† Based on Learning and Teaching results from the Department of Education and Training.

Griffith mathematics educator Dr Kevin Larkin has been named Universities Australia 2018 Australian University Teacher of the Year. Dr Larkin has spent the past seven years inspiring and motivating pre-service teachers and has transformed how mathematics is taught. He said his overarching goal was to inspire the next generation of creative, motivated and knowledgeable teachers who recognise the importance of developing numerate citizens. 'The power of good teaching lies in its ability to change people's lives. Education is critical for everyone in our society—it gives them the skills to create a better Australia and a better world,' he said.

Dr Kevin Larkin

Senior Lecturer (Mathematics Education)
First Year Adviser, Bachelor of Education

Perfect balance

It was while completing his honours in psychology at a Gold Coast school that Phillip Pearce first realised teaching would become his *raison d'être*. 'I always had a passion for child developmental psychology, and I discovered I loved being in a school environment, so I enrolled in the Master of Primary Teaching at Griffith,' he says. The flexibility of the Master of Teaching enables him and other students to work while studying. 'I can structure my timetable around work. It's intense but manageable.'

My study has given me the perfect balance of practical knowledge and theory. The lecturers come from the classroom, so they are all very experienced. We can be discussing various pedagogical theories, and they can relate it to real life. It's made me more confident in my pracs, and I know teaching is the right career for me.'

Phillip Pearce
Master of Primary Teaching

Postgraduate study

Achieve your career goals and reach your potential with a postgraduate degree from Griffith.

Benefits of postgraduate study

Postgraduate study at Griffith provides a wide range of benefits for the duration of your study, upon graduation, and well into the future. Whether you're interested in broadening your skills, becoming a specialist or changing careers, we offer an extensive range of postgraduate study options.

You might be more qualified to study a postgraduate degree than you think; we recognise the knowledge gained through work experience, as well as prior study. And with full-time, part-time, online and accelerated study options, you can tailor your study to fit in with your lifestyle.

Advance your career

Be prepared for new job opportunities and take the next step in your career. Gain the broad knowledge needed to step into management roles or hone your skills to take on work as a specialist. Depending on your field, a postgraduate qualification may be needed for professional accreditation or registration, opening the door to more opportunities.

Change careers

Further study can be the catalyst for you to move into a new career.

Increase your earning capacity

A postgraduate degree is an investment in your future earning potential. According to the Australian Government Department of Education and Training 2018 Graduate Outcomes Survey, people with a postgraduate qualification earn an average of \$22,000 a year more than those with a bachelor degree. Plus, 2017 CEO Tracker reports that more than half of Australia's highest-earning and highest profile CEOs have completed postgraduate studies.

Build your network

Studying at postgraduate level is a great way to make valuable contacts that can lead to job opportunities and lifelong friendships.

Develop skills for life

As well as financial and career benefits, postgraduate study is a stimulating experience and can introduce new concepts and ways of thinking that you can apply in all aspects of your life.

Make your experience count

If you don't have formal qualifications, you may be eligible for entry to a Griffith postgraduate degree based on your personal, work and life skills. You can also apply for credit for prior learning, which can reduce the time it will take to complete your degree. Credit can be awarded for formal study, non-formal learning such as workplace training, and informal learning such as work, social, family, hobby and leisure activities.

Continuing professional development

Postgraduate study refreshes your qualifications by providing the latest skills and knowledge and can count toward your Continuing Professional Development (CPD) points.

← *'I can structure my timetable around work. It's intense but manageable.'*

Q and As

Here's the top questions asked about being a postgraduate student.

Q. *Where do I start?*

A. There are three steps to consider when thinking about postgraduate study:

- **Step 1: Decide what you want to achieve**—Are you interested in taking your career to the next level, getting formal recognition for your experience, or changing careers completely? Some postgraduate degrees are designed to help broaden your skills to prepare you for management positions, while others allow you to specialise further to become an expert in your field. If you're looking to take your career in a new direction, you can investigate our career change degrees, which can put you on a new path.
- **Step 2: Explore pathways**—We recognise the knowledge gained through work experience, prior study as well as other forms of formal, informal and non-formal learning, which means that you may be more qualified to study a postgraduate degree than you think. If you have five years of relevant experience, you may be eligible for entry into a graduate certificate, which is a qualification in its own right and can also lead to further study, such as a masters degree. See our pathways table on page 06.
- **Step 3: Develop a tailored study plan**—Work out how much time you can commit to study, taking into account your learning and lifestyle needs. You may be able to study full-time, part-time, online or through intensive workshops, depending on what you study.

Q. *What's the difference between coursework and research?*

A. The type of study you undertake will depend on what you are trying to achieve as follows:

- **Choose coursework if you are looking to advance your career, or change career direction**—A postgraduate coursework degree, such as a graduate certificate, graduate diploma or masters by coursework is for you. Coursework builds on the skills and knowledge you've gained through professional experience and previous study. You'll study courses (subjects) that may involve lectures and tutorials, laboratory practice, or fieldwork.
- **Choose a research degree if you want to discover new solutions**—A research degree, such as a Doctor of Philosophy (PhD) or Master of Philosophy (MPhil), will prepare you for a research career. You'll complete a significant piece of research under supervision.

Q. *How much time does study take?*

A. Many of our postgraduate students also work full-time and balance a range of other life and family commitments with their study. Most of our degrees offer flexible options so that you can study where and when you want to. For example, you may choose to pace your study and complete one course (subject) each trimester, with approximately three hours of on-campus time plus out of class time for readings and assignments required each week. Or you could fast-track your study by picking up extra courses each trimester and finish sooner. We also offer intensive study mode for some courses, in which you'll complete the bulk of the course over a weekend. For more information visit degrees.griffith.edu.au

Q. *What will it cost?*

A. There are scholarships and government support options to assist you with financing your postgraduate study.

If the degree relates to your current job, you can find out if your employer will provide an allowance or support you with study leave for exams. Costs also vary depending on the type of study as follows:

- **Coursework**—All postgraduate coursework degrees attract tuition fees. These fees differ depending on whether you are an international or domestic student. Student services and amenities fees are also charged as part of your postgraduate tuition fees. Indicative costs for specific degrees are available at degrees.griffith.edu.au. Find out more about tuition fees for all postgraduate coursework degrees at griffith.edu.au/fees-charges
- **Research degrees**—The Australian Government Research Training Program and Griffith University funding covers the tuition fees of Australian students for most research degrees. For more information about tuition fees for research degrees visit griffith.edu.au/research-study

Deferring costs with FEE-HELP

FEE-HELP is a government loan that, depending on citizenship or residency status, allows you, as a domestic student, to defer the costs of study and pay your student contribution when you are earning more money. You repay your FEE-HELP debt through the tax system so that, other than study materials such as textbooks, there are no other up-front costs.

Financial assistance

Once you are at university, our welfare and student liaison officers can help you plan budgets, apply for loans and equity schemes (if you qualify), and explore other financial options, such as Centrelink payments. For more information visit griffith.edu.au/welfare

Scholarships

You may be eligible for a scholarship based on your background, chosen study area, hardships you've experienced or achievements. For more information visit griffith.edu.au/scholarships or email scholarships@griffith.edu.au

'My lecturers and friends were brilliant and helpful in guiding me and making me feel like I belonged despite not having studied for more than 30 years.'

Despite not having higher education qualifications, a 30-year career across a wide range of business endeavours reaped dividends for Kate Crouch. 'I had started a Bachelor of Business degree before a "eureka moment" arrived through a casual conversation with one of my lecturers. It was a pleasant shock when my lecturer told me my work history enabled me to apply for a postgraduate degree,' Kate says. The mother of three became the proud holder of both a Griffith Graduate Certificate in Marketing and a Master of Marketing two years on. 'I highlighted my event management experience as well as the ownership of two successful businesses. To top it off, the credits I earned while doing my Graduate Certificate were transferred to my Masters which meant I graduated with two degrees. My lecturers and friends were brilliant and helpful in guiding me and making me feel like I belonged despite not having studied for more than 30 years.'

Kate Crouch

Graduate Certificate in Marketing and Master of Marketing

Be supported

We offer a wide range of support services to help you feel confident and succeed in your postgraduate studies.

Learning support services

Our libraries are the perfect place to study, providing spaces that are adaptable and comfortable. You can access services and resources, meet up for group study or find a space for individual work. In all our libraries we provide computers, laptops you can borrow, or you can connect your own device to the wireless network. Participate in our Early-bird workshops or upskill at your own pace with the libraries' study modules designed to develop your academic, digital and library research skills.

For more information visit griffith.edu.au/library/study

Academic skills

Our learning advisers can help you understand the expectations of university study and develop reading and study skills, time management and organisational skills, and critical thinking, academic writing and oral presentation skills.

Library research skills

Find your way around the library with our specially designed research skills workshops. You'll learn how to find items on your reading list, use the library catalogue and electronic databases, and research effectively for assignments.

Self-help resources

We have a range of self-help resources including the referencing tool and recorded workshops that you can access and view any time.

Study Smart

Study Smart is an online tutorial designed to develop skills in researching, writing, referencing, group work and exams.

For more information visit griffith.edu.au/library/study

International students

If you're from a non-English speaking background, you can improve your skills through EnglishHELP (English Higher Education Language Program). This free service offers individual support to help you build confidence with speaking and listening, improve your knowledge of grammar and your pronunciation, and learn to write a scientific report.

Explore EnglishHELP's free online resources at griffith.edu.au/englishhelp

You'll also have access to our International Student Advisers, who offer personal support and can help you with study-related issues. For more information visit griffith.edu.au/international-student-advisors

Personal support services

When you need it, our personal support services are ready to help. Our services include job search and career development, counselling, health services, chaplaincy and spiritual support, and welfare and financial assistance.

For more information visit griffith.edu.au/student-services and griffith.edu.au/careers

Aboriginal and Torres Strait Islander students

The GUMURRII Student Support Unit (SSU) is a dedicated support unit for Aboriginal and Torres Strait Islander students. Our staff members assist students with recruitment, orientation and graduation, and provide undergraduate and postgraduate support, including tutorial assistance.

Servicing each of Griffith's campuses, with officers who also assist online students studying through the Digital campus, GUMURRII SSU offers a safe and culturally appropriate learning environment.

For more information visit griffith.edu.au/gumurrii

Students with disabilities

We provide disability support services on all campuses.

These services, coordinated through our Student Services office, enable students with disabilities to access and participate in our learning environment.

Future students should contact the Disabilities Service:

Phone: +61 (0)7 3735 7470

Email: disability@griffith.edu.au

If you are deaf or hard of hearing, please contact the Disabilities Service Officer directly on:

Phone: 0419 987 639

Email: deafstudentsupportprogram@griffith.edu.au

Childcare

Griffith is a family-friendly university committed to supporting its students, with the Nathan campus providing two childcare centres. For more information, visit griffith.edu.au/childcare or email childcare@griffith.edu.au

Childcare facilities are also available close to the Logan, Mt Gravatt, Gold Coast, and South Bank campuses. For more information visit mychild.gov.au website.

‘Right from being accepted into the MBA program, the assistance has been amazing.’

As the Director of Clinical Education at the Wesley Hospital, Wendy Zernike knows all too well the benefits of a personal touch. Whether dealing with patients, workers, families or other stakeholders in her day-to-day duties, Wendy believes in the importance of a supportive environment, something she experienced firsthand during her MBA studies at Griffith. ‘Right from being accepted into the MBA program, the assistance has been amazing,’ she says. ‘If you’re worried about how you’re going to cope, are stressed about how you might get your assessment done, or need some help with what to do next, the comforting thing is that it all works out because the Griffith staff are so helpful.’

Wendy Zernike

Master of Business Administration

Griffith Online

Fitting study into your life is easier than you think.

A leader in online education

Griffith is one of Australia's leading providers of online education. Our Digital campus is a hive of activity that has transformed the learning experience of online students. Located at your fingertips, you will connect with a vibrant, virtual community and have the flexibility to study when and where you like, with access to expert knowledge from award-winning academics. With more than 100 online degrees to choose from in areas such as nursing, arts, law, business, aviation and teaching (to name a few) there is sure to be a degree that suits you. Of course, even if you choose to study online, you can still come to campus to take advantage of all the great facilities we have to offer.

Study-life balance

Griffith's online degrees are designed to be flexible, so you can fit your passion for learning into your schedule. Choose from a range of online study options so you can slow down, accelerate or switch mode because of other commitments in your life. Your options are:

- **Online only**—you can study anywhere, anytime. No matter where you are located, all learning materials and assessments are accessible, wherever you choose to study.
- **Accelerated online**—your degree is broken into short, intensive bursts to make your learning experience more focused. You are able to work through your degree one course (subject) at a time over a six week block and still graduate in two years.
- **Fully-flexible**—this is the most flexible way for you to gain a degree, and suits people who want the option to switch study modes (that is, part-time or full-time, online or face-to-face or a combination of both) to match their changing needs.

See the table on the adjacent page to find the study mode that suits you.

Study, learn and connect

Studying online doesn't mean studying alone. No matter where you are located you can be part of the conversation. You'll engage with a community of like-minded students and staff in an interactive and collaborative digital learning environment. All courses have dedicated discussion boards and live online tutorials, so you'll be able to network, share ideas and ask questions.

Enhancing your digital literacy skills and growing your confidence and capabilities to work remotely are qualities highly valued by modern organisations.

Dedicated support

When you study online through our Digital campus, you'll have plenty of support including:

- academic and student support advisers
- access to IT support and self-directed learning tools
- online tools including 24/7 access to online library and digital resources such as eBooks and journals
- financial assistance
- health and medical, equity, welfare, counselling and chaplaincy services.

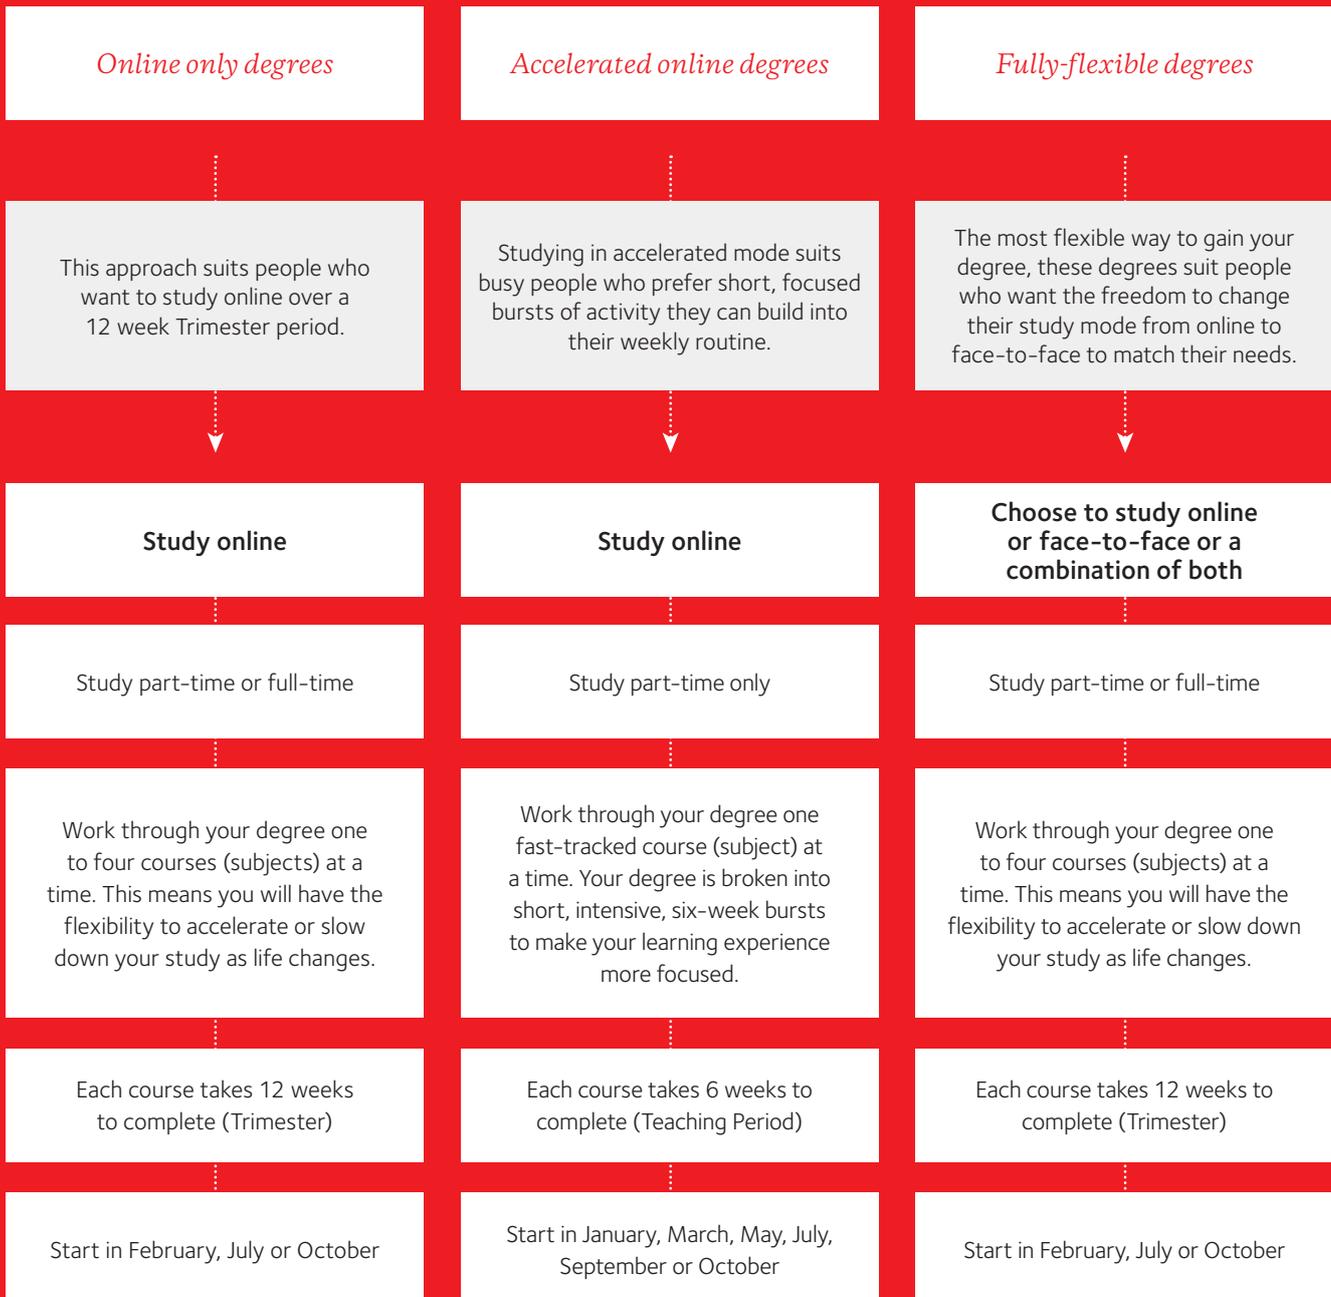

Koda-Jo Berry-Stewart had just graduated from a Master of Social Work at Griffith when she decided to head back to university. 'I found out about the Master of Mental Health Practice at my graduation ceremony, and it was a light bulb moment,' she says. 'Not only will this degree add value to my job, but it will also allow me to explore my passion for mental health.' After graduating from her first Masters degree, Koda-Jo found employment at Neami National, which provides community-based mental health services. She combines full-time employment with her studies thanks to Griffith's flexible online study options. 'The resources are great, and the faculty is amazing. I wouldn't have been able to juggle work and study any other way.'

Koda-Jo Berry-Stewart
Master of Mental Health Practice

Which online study mode suits you?

Whether you're balancing work, family or just life in general, we understand that study isn't your only commitment. That's why we offer three ways to study online and give you the freedom to mix-and-match to suit your changing needs:

For more information visit griffith.edu.au/online and explore our study planner.

Postgraduate coursework degrees

A Griffith postgraduate degree can take your career to the next level —or in a new direction.

Many of our degrees offer opportunities for professional development in specific fields, giving you the chance to build on previous studies and experience.

◊ Griffith recognises the knowledge gained through prior learning and work experience, as well as other forms of formal, informal and non-formal learning, as part of assessing candidates for admission to a range of our postgraduate degrees. An overview is provided in the following tables. Please refer to the 'Notes' section for guidance.

↻ If you're thinking of a career change, the degrees marked with this icon can help you take off in a different direction.

📶 If you're after online study, degrees marked with this icon can give you the flexibility to study where and when suits you.

Find out more about postgraduate study at Griffith at griffith.edu.au/postgrad

Note. The admission requirements listed in this guide are an overview only. See degrees.griffith.edu.au for more detailed admission requirements.

'I will have the qualifications I need to keep doing the work I love.'

Studying a Master of Social Work online at Griffith allows Silas Pollard to hold down a full-time job and pursue further studies from his home on the NSW Central Coast. 'I'm based in NSW and have three young kids and a full-time job, so studying on campus just isn't an option,' he says. Silas works for Headspace, a National Youth Mental Health Foundation, and has recently moved into a new role that requires a formal social work qualification. 'After I complete the Master of Social Work, I will have the qualifications I need to keep doing the work I love, and it opens up my options.'

Silas Pollard
Master of Social Work

Architecture and planning

‘Education influences your life personally and professionally, and Griffith has certainly done that for me.’ →

Lifelong learner

Queensland Fire and Emergency Services Commissioner Katarina Carroll APM wanted to be a community cop when she started her policing career. Instead, she rose through the ranks, becoming a trailblazer for women in the male-dominated police and fire services. She became Australia's first female fire commissioner in 2015 and will be Queensland's first female Police Commissioner when she takes up this position in July. 'I think wherever you go you should leave a legacy and make the organisation a better place,' she says. At QFES, Commissioner Carroll said her greatest inspiration was her people and serving the community.

'One of my greatest joys is being a leader of a fantastic group of people. I literally have people putting their life on the line for the sake of others, and it makes me extraordinarily proud.' An impressive alumnus, Commissioner Carroll was named Griffith University's Outstanding Alumnus Award winner 2018. 'I'm a lifelong learner, and a lot of that has been done through Griffith. Education influences your life personally and professionally, and Griffith has certainly done that for me.'

Katarina Carroll APM

‘Upon completion of my masters and my footballing career, I plan to apply to the Australian Federal Police and begin the next phase of my criminology career.’

Clare Polkinghorne, pictured right in yellow, has played football (soccer) at the highest level. She is currently captain of the Brisbane Roar and is also co-captain of the Matildas, having represented her country at two FIFA World Cups and the 2016 Olympic Games in Rio de Janeiro. Clare has also completed undergraduate study in criminology with a double degree in psychological science, and found she enjoyed it so much she wanted to study further. She is now undertaking a Master of Criminology and Criminal Justice at Griffith. The flexibility of external study at Griffith has enabled Clare to pursue both academic and sporting goals and cope with the demands of long distance travel. ‘Upon completion of my masters and my footballing career, I plan to apply to the Australian Federal Police and begin the next phase of my criminology career.’

‘Griffith has a wonderful reputation for its outstanding education degrees, so it was my first choice.’ →

For the love of children

From a young age, Tamara Sullivan knew she wanted to pursue teaching as a career. 'I loved caring for children, so it was always my calling in life,' she says. 'Griffith has a wonderful reputation for its outstanding education degrees, so it was my first choice.' Her degree at Griffith enabled her to develop a broad repertoire of teaching skills that saw her well placed for her future years. She is now the Head of Academics and Innovation at Ormiston College where she facilitates the College's directions in 21st-Century teaching and learning.

'I have a passion for innovative professional learning, and I feel honoured to work with education thought leaders in Australia and around the globe.' Along the way, she has gathered many teaching accolades including an Excellence in Educational Leadership Award from the Australian Council for Educational Leaders, an Australian College of Educators Fellowship Award and the Australian Council for Educational Leaders New Voice Scholarship.

A perfect match

Undertaking postgraduate study at Griffith has changed Martina Bateson's career path. After relocating from Austria, where she was a middle-school teacher, she found her true passion after enrolling in a Bachelor of Child and Family Services, and later a Master of Human Services. 'I found courses that matched what I was passionate about, and Griffith was the only one that offered it,' she says. Martina now works in an alternate high school in Brisbane that caters to students from disadvantaged backgrounds—an area she has been able to research further as part of her Masters dissertation.

'This has given me amazing insights and research experience, and it's a chance to contribute to the knowledge base around the experience that students from disadvantaged backgrounds have in mainstream schooling. I'm now considering enrolling in a PhD after I graduate—I'm so passionate about social justice in education.'

Martina Bateson
Master of Human Services

Next level skills

After completing a pharmacy degree at Griffith, it didn't take long for Angela O'Riordan to continue her studies by enrolling in Griffith Health's Master of Pharmacy at the Gold Coast campus. 'I am loving the postgraduate degree because it's challenging, and the clinical work is at the next level,' she says. Angela is complementing her studies with work at a local pharmacy where she's putting her skills to the test.

'I love health care and helping others, and look forward to moving into my internship after my postgraduate degree is completed.'

Note. The degree information listed in this table is an overview only. See degrees.griffith.edu.au for more detailed information.

[^] This degree is next offered in 2021. It has intakes in odd years only.

[†] The 2020 intake for this degree will only be available to students who have completed the pre-physiotherapy stream of the Bachelor of Exercise Science at Griffith. New students are referred to the Bachelor of Physiotherapy at Nathan or the Gold Coast.

* This degree provides the option to graduate sooner with an alternate qualification such as a graduate certificate or graduate diploma, upon successful completion of relevant courses. See degrees.griffith.edu.au for details.

[§] A range of different durations is offered depending on your previous studies.

* Admission will not normally be granted for studies that have been completed more than ten years prior to the time of application for admission. If studies were completed more than ten years prior to the time of application, applicants must have completed a minimum of 40 credit points (equivalent to Bachelor degree level or above) at a higher education institution within ten years of applying for admission.

‘I often get told that Griffith graduates are resilient, work well in teams and are good problem solvers.’

Nami Hirano has worked in remote and urban Indigenous health settings since graduating with a Master of Physiotherapy in 2015. Nami is now a Generalist Physiotherapist, and Acting Physiotherapy Clinic Lead at the Institute for Urban Indigenous Health in Brisbane. ‘Working in this space is really stimulating and also very rewarding,’ she says. ‘It has been an ongoing learning curve; client humour and openness make each day enjoyable.’ Nami has found that Griffith physiotherapists are highly regarded in the industry, and she traces that back to the supportive learning experience that the University provides. ‘I often get told that Griffith graduates are resilient, work well in teams and are good problem solvers. I’m grateful to every graduate that has built that reputation, and to the lecturers and the University for making it possible.’

Nami Hirano

‘A degree like this gives you the space to be creative, and there are lots of amazing mentors who encourage and support your projects.’ →

World-first collaboration

As part of his Masters degree at Griffith Film School, Morgan Healy got the chance to be part of a world-first collaboration with filmmakers across Asia. Postgraduate filmmakers from Griffith Film School, the Beijing Film Academy and Dankook University Film School created a three-part adaptation of the classic Chinese novel, *Rickshaw Boy*. 'On The Move' had its Australian premiere at the Brisbane International Film Festival after screening at the Beijing International Film Festival. 'It's exciting to be part of an international co-production like this,' Morgan says.

He credits the Masters course with giving him the opportunity to pursue projects. 'A degree like this gives you the space to be creative, and there are lots of amazing mentors who encourage and support your projects. Coming back as an older student, I am determined to work on as many projects as I can.' Morgan believes having a Masters will give him the edge he needs in a competitive industry.

Morgan Healy
Master of Screen Production

PhDs and research degrees

Follow your passion with a PhD or research degree at Griffith.

As a research candidate at Griffith, you'll have the opportunity to learn from researchers who are making significant contributions to 21st-century challenges and global issues.

We host more than 30 research centres and institutes across five campuses and with more than 1,700 experts conducting research, we provide multidisciplinary and practical research supervision. We're committed to providing high-quality research training and opportunities to explore collaborative, interdisciplinary and socially responsive research through your research program.

Areas of strategic focus include water science, criminology, health and chronic diseases, drug discovery, quantum physics, climate change adaptation, music, nursing, sustainable tourism, environment and education.

Discover the benefits of studying a research degree at Griffith at griffith.edu.au/research-study

Doctorates

Doctor of Philosophy

As the highest level of education achievable, the Doctor of Philosophy (PhD) is our premier research training degree.

The PhD is awarded based on a thesis, prepared under supervision, that makes an original, significant and extensive contribution to knowledge and understanding in your field of study. Your thesis will be judged by independent experts applying accepted contemporary international standards. We also offer a combined Doctor of Medicine/ Doctor of Philosophy.

Professional Doctorates

A professional doctorate is an integrated degree program of professional and research work that incorporates a supervised research project and an advanced program of study related to your practitioner settings and responsibilities. The degree will prepare you for leadership in an area of specialised practice in either your profession or other applied fields.

We offer the following professional doctorates:

- Doctor of Philosophy in Clinical Psychology
- Doctor of Philosophy in Organisational Psychology
- Doctor of Education
- Doctor of Musical Arts
- Doctor of Visual Arts.

Doctor of Philosophy by Prior Publication

This degree can give you formal recognition for your scholarly work if you're an established researcher of international standing and do not already hold a doctoral level qualification. You need to have a substantial standing in your field, based on your record of academic publication. The degree will be awarded if you have, through published work, made an original scholarly contribution to knowledge and demonstrated a capacity for independent research in a research area of strategic importance to the University.

Masters by research

Master of Philosophy

You'll be awarded a Master of Philosophy (MPhil) based on a thesis, which you'll prepare under supervision. Your thesis will present your original research and demonstrate knowledge of the research topic and the disciplines it embraces.

Specialist masters by research

We offer the following specialist masters by research degrees:

- Master of Arts Research
- Master of Design Research
- Master of Education and Professional Studies Research
- Master of Medical Research
- Master of Music Research
- Master of Science
- Master of Visual Arts.

'We got the chance to work beside artists and curators and had access to all of the galleries. Opportunities like this are the reason I wanted to study at the QCA.'

Pathway programs

If you don't meet the direct entry requirements for a research degree, you may consider a Graduate Diploma of Research Studies, which provides an alternative pathway into our research programs. You'll undertake coursework and a dissertation in the discipline area relevant to your research area of interest.

We offer the following pathway programs:

- Graduate Diploma of Arts Research Studies
- Graduate Diploma of Criminological Research Studies
- Graduate Diploma of Health Research
- Graduate Diploma of Law Research Studies
- Graduate Diploma of Research Studies in Business
- Graduate Diploma of Research Studies in Engineering
- Graduate Diploma of Research Studies in Environment
- Graduate Diploma of Research Studies in Information Technology
- Graduate Diploma of Research Studies in Science
- Graduate Diploma of Visual Arts Research Studies.

How to apply

You can apply for entry into a research degree at Griffith directly via our website. Visit griffith.edu.au/research-study to apply online.

Before you apply, visit our website for help to develop your research proposal, find a supervisor with expertise in an area that fits your project, and confirm they are available to act as your supervisor.

Visit experts.griffith.edu.au to find a potential supervisor in your chosen discipline or field of research. You can browse by research area, researcher, or publications. We also recommend that you check your scholarship eligibility before you apply.

What will it cost?

The Australian Government Research Training Program and Griffith University funding covers the tuition fees of domestic students for most research programs. For more information about tuition fees and charges for all research degrees visit griffith.edu.au/research-study

Scholarships

Research degree scholarships can cover tuition fees, overseas student health cover, living allowances paid as stipends and relocation allowances.

The majority of scholarships are awarded in the annual scholarship round which opens at the beginning of July.

Some scholarship opportunities will also be offered throughout the year for particular research areas, and there are also additional scholarship schemes available to current candidates. For more information visit griffith.edu.au/research-study

Postgraduate Fine Art students received an exclusive 'behind the scenes' look at the blockbuster Asia Pacific Triennial of Contemporary Art (APT9)—spending several days installing work at the Queensland Art Gallery/Gallery of Modern Art (QAGOMA) alongside artists and curators. The exhibition encompasses never-before-seen installations, paintings, sculptures, photographs and videos from emerging and senior artists, together with leading works from Indigenous communities and artists. 'Our close partnership with QAGOMA has opened up once-in-a-lifetime opportunities for our students,' said QCA Director, Professor Derrick Cherrie. QCA doctoral candidate Christine Ko said the experience had been inspiring. 'It's been great to be immersed in world-class art; it inspires you to aim higher.'

Christine Ko

Doctor of Philosophy (Fine Art)

How to apply for postgraduate study

Take the next step in your career and apply for postgraduate study at Griffith in 2020.

The following information relates to applying to study a postgraduate coursework degree as a domestic student. This includes:

- Australian citizens
- Australian Permanent Residents (holders of all categories of permanent resident visas, including Humanitarian Visas)
- New Zealand citizens.

If you're an international applicant, you can apply for postgraduate coursework degrees directly to Griffith International. Find out more at [griffith.edu.au/international](https://www.griffith.edu.au/international)

1 Choose your degree

Search our comprehensive range of postgraduate degrees at degrees.griffith.edu.au to find your chosen degree.

If you have any questions, call us on 1800 677 728 and talk to our study advisers.

2 Check admission requirements

Check the detailed admission requirements for each degree on degrees.griffith.edu.au. Make sure to check what supporting documents you need to provide with your application.

If you have any questions, contact the program director or our study advisers.

3 Submit your application online

Applications for postgraduate study are submitted online directly to Griffith. You can apply for multiple degrees at the same time via degrees.griffith.edu.au. Closing dates vary between degrees, so make sure you check the details. The online application form will prompt you to provide specific items. You will also receive emails during the process prompting you to complete your application.

Note. Master of Primary Teaching and Master of Secondary Teaching applicants need to apply via QTAC. In addition, applicants will undertake online tasks through QTAC to demonstrate their motivation and suitability to teach.

4 Apply for credit for prior learning

Once you have an offer to study, you can apply for credit for prior formal, informal and non-formal learning.

Applications for credit may be lodged at any time. However, we strongly advise applying as soon as possible after you receive your offer, as it may impact on which courses you enrol in.

To find out more, visit [griffith.edu.au/credit](https://www.griffith.edu.au/credit) or email credit@griffith.edu.au

5 Search our scholarships

You may be eligible for a scholarship based on your background, chosen study area, hardships you've experienced or achievements. Visit [griffith.edu.au/scholarships](https://www.griffith.edu.au/scholarships) to see if you're eligible, and to apply.

If you're an international student, visit [griffith.edu.au/international-scholarships](https://www.griffith.edu.au/international-scholarships)

6 Accept your offer and enrol

Once your application has been assessed, you'll be notified of the outcome by email. The offer email will advise you how to enrol.

Enrol as soon as possible so you can select your classes and create a timetable.

Congratulations!

Key dates

APPLICATIONS

Closing dates for applications vary between postgraduate degrees. To check the closing date for your chosen degree, visit degrees.griffith.edu.au
