nancy & METZ france

The cities of Nancy and Metz, located at the heart of Europe and only 90 minutes from Paris by High-Speed Train, have, for over 100 years, been imbued with ICN's fundamental values. In both cities, culture plays an important role, with many concert halls and museums: for example, the Centre Pompidou in Metz. Both cities are also in themselves veritable architectural treasures, the historic centre of Nancy being classified as a listed site of world heritage by UNESCO. With student rents being amongst the most affordable in France, a wealth of night life and culture which is the envy of many other French towns, an excellent network of public transportation, and finally, natural landscapes and open spaces in close proximity, it is not surprising that, each year, some 50,000 students choose to come and study here.

PARIS la DÉFENSE france

ICN Business School has chosen the La Défense district of Paris as its center of operations in the French capital, and will have as its neighbours the head offices of the biggest companies in France's CAC 40 stock exchange index.

shanghai china

ICN opted for the cities of Chengdu and Shanghai for its activities in the People's Republic of China. Whether you choose the traditions of Chengdu or the modern-day megalopolis of Shanghai, your Asian experience and your understanding of this undeniably important market will prove to be a distinct advantage on your CV!

NUREMBERG GERMANY

Nuremberg, with over half a million inhabitants, is the second largest city in Bavaria, a region of Germany which combines the attractions and advantages of natural beauty, history, architecture and a wealth of cultural events.

berlin GERMANY (2019)

ICN Business School has chosen to open a campus in Berlin, the capital and the largest city in Germany with 3.5 million inhabitants. Berlin reflects the values of ICN Business School in so many ways: it is open to the world, and it prides itself on its multi-culturalism and its commitment to current problems as well as the issues of the future.
