Other initiatives taken up by CVRU

Solar Power

To promote the usage of renewable sources of energy, CVRU has a 10KW solar power generation system installed in the departments and established a 5KW capacity Solar Photovoltaic cell.

Rain Water Harvesting

A facility for the purpose of ground water reverse osmosis has been installed with a capacity of 500 litres per hour. About 50% of the rainfall is harvested and stored in a 15 lakh litre capacity tank for use in hydraulics and other laboratories.

NSS

CVRU has adopted two villages near the university, named 'Pandakapa' and 'Amne' to create awareness and develop a sense of civic and social responsibility.

Bio Gas

A biogas plant with the capacity of 1003 cm³, which can handle 300kg to 400kg of waste, has been installed and the biogas produced has been put to use in the laboratories of various departments of the university.

Bio Tech Park

The CVRU campus has a green herbal garden with around 425 different plants of essential medicinal value and 20 different types of herbs and shrubs, contributing to the "Go Green Campus" strategic plan of the university.

NSDC

To ensure that the students have an extra edge in the job-sector with sound vocational skills, CVRU has collaborated with NSDC. In partnership with NPTEL, it has introduced e-learning through online web/video courses designed by IIT faculties.

Placement Support

Our ultimate goal is to craft every young aspirant into a polished professional with the capacity to find his own way through the challenges that stand forth. We not only aim at producing employable candidates but also create job-creators of tomorrow by imparting technical and soft skills training.
