It also helps to organise a whole array of clubs and societies for students, ranging from football and netball, through to yoga or trampolining, film & TV societies, debating clubs and human rights groups. You can find out more about the Student Association and Student Representatives on **page 15**.

The gender gap has narrowed in recent years and in 2015/16, 62% of new solicitors were female. The Bar Standards Board reported that of barristers called to the bar in 2015/16, 53% were female and 35% were from BAME backgrounds.

We welcome everyone at The University of Law, with the Student Association Liberation Officer and Women's Officer leading the charge to continually encourage our broad representation of students. We also welcome students from all faiths and those of no faith at The University of Law, which is why each of our campuses has a prayer room free for all to use.

All students are automatically members of the University's Student Association (SA). The SA is tasked with enhancing your student and academic experience by having a strong representation of the student cohort.

You can join a Student Association Events Committee to work with your fellow students in developing a full and varied programme of extra-curricular activities, clubs and societies, and much more. The exact mix of events varies at each of our campuses and as it's all put together by our students, it's really up to you what's on offer.

The SA is always looking for new representatives, so why not get involved as a Class Representative or even a Student Association Vice-President to attend the Student Parliament and represent your campus?

OUR EXCELLENT CAREERS AND EMPLOYABILITY SERVICE

Helping you become employable is a central aim of our law degrees and embedded in every aspect of our courses. Employability is reflected in the tasks you're required to do and the skills you'll need to develop: communication, understanding people, knowing the right questions to ask.

You'll work towards understanding what is required by employers and what your own strengths and challenges are. This will help you identify the field of work you're interested in and create a personal plan of action to secure your first job. You'll also get help with identifying and applying for relevant work experience to improve your employability prospects.

EMPLOYABILITY AND PROFESSIONAL DEVELOPMENT SESSIONS

Key components of the programme are also taught in Employability Workshops and large group sessions, covering the following elements:

- **Competencies of a lawyer**
- **Targeting legal employers**
- **CVs and covering letters**
- **Application forms**
- **Networking skills**
- **Interview skills**
- **Assessment tests**

STAYING AHEAD TO KEEP YOU AHEAD

The legal world never stands still and we consult regularly with law firms and chambers to ensure we keep pace, adapting our courses to give you the skills and commercial awareness that will set you apart.

And, in an increasingly global economy, we make sure that we have an international outlook. We work with renowned global law firms and have close links with a wide range of barristers' chambers. We have also built strong links with law schools and professional bodies throughout Europe and the rest of the world.

DRIVEN BY INNOVATIVE TEACHING

WE SPECIALISE IN TEACHING, NOT RESEARCH. OUR FOCUS IS ON DEVELOPING INNOVATIVE AND HIGHLY EFFECTIVE TEACHING METHODS THAT ARE ENDORSED BY EMPLOYERS.

With a team of professionally qualified tutors leading your classes you'll be a part of an established teaching methodology that focuses on the knowledge and practical skills proven to develop a successful career. Our teaching team consists of more than 250 tutors and visiting professors and lecturers across our seven campuses. Over 90% of our tutors are qualified as solicitors, barristers or judges, with many still practising, so you'll benefit from their insights into today's legal world.

We like to keep our teaching interesting, which is why throughout your degree you will experience a combination of workshops and lectures to energise your learning in a more interactive environment with a focus on problem solving. Our online course offers a variety of ways for you to interact with the learning materials, other students on the programme and extensive opportunities for one-to-one supervision of your work by your tutors.

By working closely with employers, we have ensured that you'll be taught how to apply academic legal principles to deliver client-focused advice in a commercial context. You'll be given the opportunity to practise your skills in real-life scenarios with regular constructive feedback.

To make sure you're getting the best that you can from the course and all that the University has to offer, we will assign you a personal tutor. You'll have regular one-to-one meetings where you can get advice on the course and your career aspirations. And, as resident tutors are based on our campuses, they operate an open door policy, so you can talk to them whenever you need to.

YOUR ROUTES TO PRACTICE

THE TRADITIONAL ROUTE TO BECOMING A BARRISTER OR SOLICITOR IS BY TAKING A QUALIFYING LAW DEGREE (LLB)

Alternatively, you can take a degree in another subject and still become a lawyer by taking a one year law conversion course (GDL - Graduate Diploma in Law) or our Masters course (MA Law) after you have graduated.

There is no disadvantage to entering the profession via this route.

You may have heard that the path to becoming a solicitor is going to be changing with the introduction of the SQE assessment. Well don't worry; estimated dates for the new route are not until at least 2020 and any qualifications you start before then will remain valid.

LEGAL APPRENTICESHIP

You will be employed as a solicitor apprentice and complete an LLB (Hons) Legal Practice & Skills course over six years.

Our courses are designed to ensure you gain a formidable range of essential skills that are welcomed throughout the business world. From working in multinational companies, banking and finance, to technology, media and charities, a legal qualification is highly regarded by employers across a variety of sectors.

You can expect to learn valuable commercial and practical skills, taught by qualified lawyers, often in small group workshops. We also place strong emphasis on individual tutor contact and feedback.

We offer a range of full-time or part-time degree courses, some with a Foundation Year and all of which are Qualifying Law Degrees. We also offer LLB Law degrees with a specialisation in a particular area to give you a head start in whichever career option you choose to pursue, plus as an online course, which allows you to fit your studies around your lifestyle.

An Apprenticeship route gives you the opportunity to earn whilst you learn. As a solicitor apprentice you will complete an LLB (Hons) Legal Practice & Skills course over six years. WHAT FINANCIAL HELP IS AVAILABLE TO ME?

FEES

You may take out a Tuition Fee Loan from the Student Loans Company (SLC) to help pay for the costs of your course. As The University of Law is a privately funded institution, UK and EU nationals can apply for a loan towards tuition fees up to a maximum of £6,165 per academic year for a full-time course or £4,625 per academic year for a part-time course. For courses beginning in September 2018 the University will make a contribution to fees*, which along with the SLC funding will fully cover the cost of fees, with the exception of the two year Accelerated course**. Arrangements for courses beginning in 2019 are still to be confirmed; eligible students will be able to fund the full fee amount via the SLC and/or a University Contribution to Fees*. The loan is not means tested which means all students will be entitled to this support, unless you already have a degree qualification.

HOW DO I PAY MY FEES?

You can pay your annual fee in a lump sum just before you start studying with us in September, or you can pay in instalments. These instalments are equal in cost and are paid at the start of each term. If you decide to take out a Tuition Fee Loan, The University of Law will be able to collect the value of the fee loan directly from the Student Loans Company, provided that you confirm your individual student support number with the SLC.

MAINTENANCE SUPPORT

Also known as living cost support, if you're on a full-time course you're able to apply for maintenance support to help you with your living costs – i.e. accommodation, food and travel.

The amount you receive is affected by your household income and circumstances, and where you reside within the UK prior to starting your University of Law course. Unfortunately, EU and part-time students are not eligible for living cost support.

The Maintenance Loan is not required to be repaid until you have left the course and are earning an income.

To see the full amounts that could be available to you, use a student calculator. You will then be able to work out how much you are entitled to and what the repayments may be.

Visit: gov.uk/student-finance

Please note, there is a different process if you're a student from Northern Ireland, Scotland or Wales or if you're an international student. You can find out more on the relevant websites.

Northern Ireland: studentfinancenl.co.uk

Scotland: saas.gov.uk

Wales: studentfinancewales.co.uk

or our website:

law.ac.uk/undergraduate/funding-options

REPAYING MY LOAN

The main things you need to know about repayments are:

- You don't start repaying your student loan until you're in work and earning over £25,000 a year
- Your Tuition Fee Loan and Maintenance Loan are added together so you repay both at the same time
- Repayments are automatically deducted through the tax system
- Outstanding payments are written off after 30 years
- Repayments are affordable and easy to manage – you only repay 9% of your income over £21,000
- You should be aware that these details, your repayment arrangement options and related terms and conditions may change in accordance with the Government's student loan policy.

SO HOW DOES IT WORK?

Repayment is based on your ability to pay rather than how much you owe. So the more you earn, the more will be deducted from your pay packet and therefore the more quickly you will pay off your loan. If at any point you stop earning – such as if you decide to go travelling – or if your earnings drop below £21,000, your repayments will stop.

WHAT MIGHT I PAY BACK PER MONTH?

This depends on your earnings. If your income is £27,000 you would repay £15 per month.

*Terms and conditions apply. For more information visit: law.ac.uk/finance

**Fees for the Accelerated 2 year course are higher, in this instance it is your responsibility to pay the remaining balance to the University.

IS THERE ANY INTEREST?

The Student Loans Company will charge interest on your loan but it is lower than an ordinary loan. While you're studying, interest is charged at the rate of inflation + 3%. In the April after your course finishes, the rate of interest will depend on your earnings. This will be a maximum of RPI +3%. If you'd like more information about loans, grants and repayments, and about other support available, visit: gov.uk/student-finance

SCHOLARSHIPS

The University of Law has one of the most comprehensive scholarship schemes in legal education, whether you are a UK, EU or International student. For the current year we are offering over 100 awards and a £600,000 fund across our undergraduate and postgraduate courses.

Details of our scholarship programme for 2019 will be on our website. Visit: law.ac.uk/undergraduate/scholarships

INTERNATIONAL STUDENTS

International students pay slightly higher fees. The two year course costs £15,500 per year and the three year course is £13,000 per year. If you're an international student, you won't be eligible for the UK government funding scheme. However, your local British Council office can provide you with details of scholarships and other sources of funding that you can apply for. You can find out more at britishcouncil.org Or visit our website: law.ac.uk/undergraduate/funding-options

If you require a Tier 4 Student visa, we must issue you with a Confirmation of Acceptance for Studies (CAS) before you can apply for your visa. You will need to pay £3,000 by way of pre-payment of your Course Tuition Fee before The University of Law can issue your CAS. You will receive an email from our admissions system asking you to make this payment, once the University has confirmed you are eligible for Tier 4 Sponsorship.

PATHWAY OPTIONS

If you're interested in a particular area of business then we offer you the chance to specialise by choosing from one of our Pathway options in Finance, Marketing or Human Resource Management. The first year of the course is the same across all Pathways (and for year 0 and year 1 if taking a Foundation Year). There will therefore be an opportunity for you to switch to a more specialist Pathway or to the generic programme should your aspirations change.

FOUNDATION OPTIONS

We also offer our degrees as a four year course which incorporates a Foundation Year to prepare you for undergraduate study. These courses have been designed for those who are looking to boost their business knowledge and study skills.

For more detailed information about each of the courses we offer, the module content, entry requirements and study modes, you'll find everything you need to know in The University of Law Business School Prospectus.

BUSINESS HUB

The Business Hub is an interactive space which offers you the chance to get involved in a number of activities and events so you can develop a fully rounded understanding of

business in the real world, whilst enhancing your business knowledge and skills. Our entrepreneurship events involve guest speakers to enable students to develop a more entrepreneurial attitude. In your final year you can also take advantage of the Hub's Business Clinic when planning real life business initiatives. It's also an area to seek advice on boosting employability prospects, including securing internships.

A DYNAMIC CURRICULUM

So that you gain an understanding of what goes on in the real world of business, we ensure that our curriculum remains dynamic, with content covering the latest issues facing organisations. Our workshops are conducted by business speakers and guest professors who are actively engaged in business research. You'll be visited by major recruiters and have the chance to participate in field trips to major organisations. Previous visiting companies have included IBM, Price Waterhouse Coopers (PwC) and The London Insurance Market, and we've recently had field trips to Arcadia, CIMA and Lloyds of London.

IN THE HEART OF THE CITY

The Business School is based in four of our campuses; London Bloomsbury, Birmingham, Leeds and Manchester. We've made sure there's plenty on offer beyond your studies, and with a range of societies, sports teams and social events available you're bound to find plenty to keep you busy and having fun between lectures.

ACCOMMODATION

We guarantee you accommodation in the first year of your undergraduate degree if you've accepted us as your firm choice and applied for accommodation by the end of March in your year of entry.

Typically you'll have a shared kitchen/dining room, including fridge-freezer, oven, hob, dishwasher, kettle and microwave. There's usually a separate shared lounge area with comfy sofas and TV.

You'll have your own fully-furnished bedroom, which will typically include a study area and en-suite bathroom. Most locations have laundries and some have on-site gyms.

*Arrangements for the Guildford campus are subject to change, please check the website for further information. Also please note if you apply after 31 March 2019, we will provide support to help you find suitable accommodation, but cannot guarantee this will be successful. Our guarantee of an offer of accommodation may either be at any advertised accommodation provider, subject to availability, or, in the event that the advertised accommodation provider is not available, we shall guarantee you an offer of accommodation at an alternative UK student accommodation provider. Please note that applications from students under 18 years of age are considered on an individual basis in collaboration with our third party accommodation providers.

SECURITY

Security is taken seriously at our accommodation sites. Door entry and intercom systems restrict access and CCTV surveillance gives added protection. Most accommodation sites have dedicated management staff available on-site to help you. For further assistance, some locations have student wardens, usually second-year students who are happy to provide extra support, especially if you're living away from home for the first time.

ACCOMMODATION COSTS

Accommodation costs vary depending on location. As an indication, weekly rental costs for 2017/18 are around £305 per week in London and £125 to £190 per week for locations outside London. For the most up-to-date information see our website:

law.ac.uk/undergraduate/accommodation

Representatives from accommodation providers will often be available for you to speak to at our Open Days, where you'll be able to find out more about living in student accommodation and arrange a tour of the facilities.

STUDENT ACCOMMODATION SERVICE

We have an online accommodation service to aid your property search: Studentpad.

Studentpad provides helpful advice on choosing a suitable property and local information about things to see and do around your campus. The website is available in multiple languages to assist international students and includes useful web links and tips for living in the UK. Once you've selected us as your first choice on UCAS, you'll be provided with the password to search our property listings. Property listings will vary by campus but typically include student accommodation with private providers, private sector rentals from estate agents and individual landlords and rooms with a landlord-lodger arrangement.
