Our reputation

TRIPLE TOP 10

Lancaster is placed among the top ten universities in the UK, being ranked 6th in The Times and Sunday Times Good University Guide 2019, 7th in The Guardian University Guide 2020 and 7th in The Complete University Guide 2020. There are 165 higher education institutions in the UK.

WE'RE GLOBAL

Lancaster has a wide range of teaching and research links around the world which provide exciting opportunities for students to study or work abroad. **We have strong links with universities in the US and China. Lancaster also has partnerships in Germany, Ghana, India and Malaysia.**

We are ranked 7th for teaching excellence in Europe according to the Times Higher Education Europe Teaching Rankings 2019.

WE'RE RESEARCH DRIVEN

Lancaster University is a research-intensive university. The UK government's latest independent review, the 2014 REF, ranked 83% of our research as either internationally excellent or world leading. Our outstanding reputation attracts some of the brightest minds from all over the world, and our degree programmes are taught by experts to give you access to a high quality learning experience.

WE'RE HERE TO SUPPORT YOU GETTING A JOB

Supporting students into employment or further study is central to our purpose. Throughout your time at Lancaster, we will help you to develop the skills you need to succeed in your future job search through CV writing workshops, mock interviews and the opportunity to work on company projects and undertake work experience. And, as a Lancaster graduate you will benefit from lifetime access to our Careers Service.

WE HAVE HAPPY STUDENTS

Lancaster is ranked in the top ten of UK universities for overall satisfaction according to the 2018 National Student Survey. The university attracts students from a wide range of backgrounds and from more than 100 countries. Our student accommodation has been awarded the International Quality Mark, which is given to providers that achieve higher than 90% satisfaction from overseas students.

Welcome to Lancaster

We are delighted that you are considering to study at Lancaster University. By studying here, you will be part of a university with a global outlook and a community that extends far beyond our campus.

For us, Lancaster University is everything a university should be. It's a campus that's both well connected and set apart, a modern structure in a green setting. It's a centre of knowledge, where students come to learn, researchers come to discover and teachers come to share. Above all, it's somewhere you can belong - a community to join, with a collection of colleges that offer a close-knit support network and a proud identity.

As a top ten university, we set high standards, but we open our doors to all - it's your capacity to learn about the world that matters. We challenge, pushing our students to new heights. However, we also support - guiding people throughout their studies, research and careers.

By choosing to study at Lancaster, you will be joining a global community that seeks to make a global impact to improve lives and communities.

Why Lancaster?

Academic excellence

We are proud of our high quality teaching and aim to provide the best quality learning experience to all our students. This is reflected in our award of Gold in the UK government's latest Teaching Excellence Framework in 2017. This accolade was awarded for our outstanding teaching, learning environment and for delivering excellent employment outcomes for our students.

All members of our academic staff are current experts within their respective fields and work on a philosophy of research-led teaching. In the most recent Research Excellence Framework in 2014, 83% of our research was rated as either internationally excellent or world leading. This strong research culture results in pioneering contributions that translate into an active and stimulating environment for you to learn in.

Wellbeing and support

Studying at university is exciting, but also demanding. At Lancaster, we aim to provide you with a wide support network to help you not only settle into your studies in a new country, but with all aspects of university life. This support includes academic help, in the form of Learning Developers, Faculty Librarians and IT technicians alongside more personal support to help with you with such things as money, disability issues and your wellbeing.

Heritage

Lancaster is built on foundations that stretch back millennia, from Romans and Saxons to the Tudors and Georgians. In the past, it's been the home to thriving commerce, bloody wars and military strongholds (sometimes all at the same time).

Today, the cityscape is dominated by the 12th century Lancaster Castle, while the city centre is criss-crossed with cobbled streets and dotted with fine examples of 18th century architecture.

Careers

As part of our community, our students have the setting and the support to explore and realise their own potential and to push the boundaries of their own ability and understanding. Our impact lasts much longer than the few years you will spend with us. We aim to provide the right platform and starting point for high-achieving careers.

We have a dedicated careers team on hand to offer professional support, advice on career planning, and a range of events to foster professional networks. We help our students find the placements and industry experiences that provide the practical understanding and skills fundamental to rewarding careers. We aim to help students transform from students into professionals. This is reflected in our ranking of third best amongst universities for graduate prospects by The Times and Sunday Times Good University Guide 2019 and The Complete University Guide 2020.

A perfect location

Lancaster is the perfect base to explore the surrounding area whether it be regionally, nationally or internationally. With good rail connections, you'll be able to experience the musical and historical heritage of cities such as Manchester and Liverpool, take a walk in the Lake District or even visit Scotland.

Lancaster Castle

Ashton Memorial

Lancaster high street

The Lake District

Morecambe Bay

Dalton Square

City, hub and heartland

This is a region that rises from a stunning coastline up to dramatic mountains. It's criss-crossed by canals and the River Lune, and dotted with towns and villages full of character and heritage. At the heart of it all, you'll find Lancaster.

It's a place where history is written into the city streets. Take a walk from Queen's Priory, around Lancaster Castle, past the fine Georgian architecture and through Williamson Park up to the Ashton Memorial – it's a journey through time, from the medieval age to today.

The past is fascinating, but there's an exciting future here too – with innovative industry, dynamic start-ups and free thinkers all producing something new, every day. Here, there's room for free spirits and creative thinkers. The bookish, the outgoing, the trendsetters. With an eclectic range of busy bars, laid-back coffee houses and independent shops, there's a place for them all.

And, always in the background, there's the spectacular coastline of Morecambe Bay, the open countryside of North Yorkshire and the mountains of the Lake District.

Lancaster has so much to offer, we're sure there's something for everyone.

Find out more about Lancaster's story at www.lancaster.uk.com

For the food lover

From a full English breakfast and a traditional Sunday roast to a cup of late-night coffee and a bowl of noodles. Lancaster offers a range of international cuisines to suit most tastes. You can find wholesale cooperatives, food stalls, traditional bakeries and Atkinson's Coffee Roasters who have been roasting coffee beans for more than 180 years.

For the sociable

So much of your university experience is about spending time with friends. Lancaster makes this easy for you with our many cafes and nine college bars. You will find more places to socialise in the city centre itself where you can discover a mixture of cafes, bars, clubs and the Sugar House, the Students' Union's own nightclub. If you fancy a bigger city then Manchester, Liverpool and Glasgow are easy to reach by train.

For the explorer

Lancaster is surrounded by beautiful countryside and the Lake District, a UNESCO world heritage site, is less than an hour away. You'll find many beauty spots to explore, including the Forest of Bowland, which is an official Area of Outstanding Natural Beauty, and the rugged coastline of Warton, Grange-over-Sands and Silverdale. If you want to venture further afield, then you can travel up to the Cumbrian countryside, to the Pennines or the Scottish Highlands.

For the culture lover

As well as everything that you'd expect to find in a city centre, you'll also discover a scene that is less mainstream. Independent shops and a street market offer the shopper an alternative to the more well known high street stores. Film, theatre, literature and art can be found at Lancaster's larger venues of the Storey, the Dukes and Lancaster Arts, but you can also find smaller exhibitions and performances in Lancaster's many pubs, cafes and outdoor spaces.

For the homebody

For those that don't want to venture far there are many options available on campus to keep you entertained. We have variety of cafes, a gym and swimming pool, a student-run cinema and lots of outdoor spaces for you to enjoy. It all adds up to offer a community feel, with everything you need for your home from home.

Teaching and learning

Academic support

An essential part of your study at university is developing the academic skills for study in a UK context.

At Lancaster, you will find a range of opportunities designed to support you in achieving your academic potential. The modules and programmes you study will help you to develop new skills and you'll receive support from within your faculty as well as from professional services staff.

Learning Developers, Faculty Librarians and members of Information Systems Services provide a range of workshops, one-to-one tutorials and student mentoring schemes. You will be supported to develop your academic writing, English language, critical reading, library and research skills. You will also have access to mathematics support, where this is part of your programme of study, and you will develop your use of learning technologies.

In the departments, there are advisers who can help with issues concerning registration, timetables, accessing course materials and other matters related to your programme. All our undergraduate students are also allocated a college adviser who can give general advice on academic as well as welfare matters.

A flexible undergraduate approach

We offer a flexible approach to help you get the most out of your studies.

For most degrees, it means you'll have options for a minor subject from the very start – whether it's a subject within your major degree programme, or in another subject altogether. Some of these options come with entry requirements, while others don't. However, for some degrees such as Medicine, Physics or Engineering, your timetable may not allow you to study additional subjects within your main degree programme.

Studying these options gives you the chance to explore an area that interests you, whether it's something you enjoyed at school or something completely new. Either way, they help put your studies in a wider context, providing a breadth of understanding that can appeal to many employers.

Above all, these options can enrich your studies and help you to appreciate your degree in a wider context. This breadth is also appealing to future employers of our students.

It's worth thinking about your choices now, but you don't have to commit until just before your course starts.

Your postgraduate study options

At Lancaster we offer a wide range of both taught and research degrees designed to broaden your experiences and improve your career prospects.

Taught degrees

Our taught postgraduate degrees normally involve a combination of taught modules, coursework and a research dissertation. Some programmes may enable you to carry out a real-life research project for a company or organisation instead of a dissertation.

While most taught programmes enable you to build upon your undergraduate studies, some academic programmes are open to students with little or no prior academic experience in the subject.

Research degrees

Our postgraduate research students are an important part of our research culture and make up nearly a third of our student population. We have a range of research options at Lancaster including:

Doctor of Philosophy (PhD)

Taking between three to four years to complete, most doctoral students at Lancaster work on a traditional PhD by Research. This includes research training and an emphasis on conducting original research leading to a written thesis.

It is also possible to conduct original research and produce a series of peer refereed academic papers for publication, rather than a thesis. This leads to the degree of PhD by Alternative Format.

Some of our PhD programmes also have variants that make them particularly suitable for part-time study.

Professional Doctorates

We offer two types of professional doctorates: Doctor of Medicine (MD), taking two years to complete and the Doctor of Clinical Psychology, which takes three years to complete.

MSc by Research

A Masters by Research differs from a traditional taught degree as it offers the opportunity carry out an in-depth research project. It is designed to prepare students for doctoral or PhD research and allows students to develop a programme that is based on their own personal interests.

Integrated degrees (1+3)

Several of our courses offer students the option to take a bridging approach to postgraduate study. Known as Integrated Degrees, or 1+3, they can be followed at Masters level before progressing directly to PhD level.

Although there is a taught component to these courses, they are ideal for anyone who already has a clear idea of the field they would like to research and they are assessed primarily by dissertation.

International Foundation Year and Pre-Masters Programmes

Based on campus, the International Study Centre provides students that need it with the opportunity to take a foundation course, or top-up course, so that they can prepare for a degree at Lancaster University the following year.

International Study Centre

Our International Study Centre programmes are delivered by Study Group in partnership with Lancaster University. When you join the International Study Centre, you will begin your journey towards gaining a degree from a top UK university and a rewarding career.

An International Foundation Year allows you to progress to a broad range of undergraduate degree choices at Lancaster University, and our Pre-Masters Programme enables you to progress to postgraduate study at the University. The programmes are carefully designed to combine academic modules and, where needed, English language training with the study skills you will need to progress to degree study.

The programmes are not just about your academic studies, they are designed to help you to settle into your new environment and encourage you to get fully involved in campus life and the community at Lancaster University. From day one, you will be part of the University: living, studying and socialising within our close and friendly community. You will also live in one of our colleges with other students. You will also have access to the University's excellent facilities such as the new library and the sports centre, and Students' Union activities.

Study structure

We have six Foundation routes and two Pre-Masters routes, each leading to degree study in a related subject. Options include:

- Business and Management
- Engineering and Computing
- Law
- Life Sciences
- Mathematics and Statistics
- Social Studies

Or a Pre-Masters Programme in:

- Business, Law and Social Sciences
- Engineering, Computing, Mathematics and Science

At the International Study Centre, you will study a combination of core units and subject-specific units that focus on the academic areas most relevant to your chosen degree.

Improve your English

If you need to top-up your English before starting your Foundation Year or Pre-Masters Programme, you can join our English Language Preparation programme or English for Pre-Masters programme for one term. At the end of the programme, you will be ready to start on your chosen pathway at the International Study Centre.

University-style teaching

You will learn in a university-style environment. This includes participating in group lectures, seminars and tutorials and undertaking independent study. This style of teaching really helps you to prepare for degree study and feel confident about progressing to undergraduate study.

Regular assessment

To ensure you make steady progress throughout the programme and achieve the grades you need, we will give you regular assessments. This includes exams, coursework assessment, presentations and extended essays.

For more information, please visit:
www.lancaster.ac.uk/isc or join our social community www.facebook.com/isclancaster

A global outlook

Lancaster University has over 4,000 international students from over 100 different countries on campus. Our global reach goes beyond the borders of the UK. Working with partner universities and institutions, currently in China, Germany, Malaysia and Ghana, we have developed Lancaster pathways to allow students the opportunity to access Lancaster's academic excellence in teaching and research in their own countries.

Our European campus

Lancaster University's first campus in mainland Europe will allow European and international students the opportunity to access Lancaster's academic programmes in Leipzig, Germany. As part of its first phase of development, Lancaster University Leipzig will offer four Lancaster accredited Bachelor of Science programmes taught by the University, and a University accredited foundation programme operated by our partners Navitas.

For more information about studying for a Lancaster degree overseas, please visit www.lancaster.ac.uk/global-lancaster

Pathways to Lancaster

In collaboration with our overseas partners, we offer a number of undergraduate and postgraduate access and articulation programmes in a variety of subject areas in different countries. Students will spend one or two years of study in their own country followed by a period of study at Lancaster, leading to a single or double degree award.

For further information about these programmes, please visit www.lancaster.ac.uk/transfer-programmes

Your Global experience

Lancaster University also offers a number of global experiences for current Lancaster and visiting students such as Study Abroad, Summer Schools and vacation travel.

For more information about the global experiences we offer, please visit www.lancaster.ac.uk/study/global-experiences

A global education

You will learn from world-leading academics from around the globe, as over a third of our team are from outside the UK and are researching the global challenges we face. Coming to Lancaster is an opportunity to broaden your horizons. It's not just about learning new subjects, it's also about finding new perspectives and discovering new experiences too. It will allow you to make friendships and connections that cross borders and continents. You will rub shoulders with students from more than 100 countries, whether you're doing group work, getting involved with one of our student societies or walking in the surrounding countryside with classmates.

Overseas programmes

In collaboration with Lancaster University's partner universities and colleges overseas, we have a variety of programmes that give students in their home country access to degree schemes here at Lancaster. We currently offer a range of 1+3 and 2+2 programmes in China, India and Nigeria – with more being developed each year.

Leipzig Town Hall

Study and work abroad

For further details, please visit
www.lancaster.ac.uk/study/global-experiences

Studying at Lancaster is all about broadening your horizons, finding new perspectives and discovering new experiences. At Lancaster, you get to be part of a community that starts with your college and stretches beyond the campus and right round the world.

You'll have opportunities to make international connections of your own, living and studying with students from more than 100 countries. You could be doing group work, getting involved with one of the student societies or enjoying a night off at a large or small social event. You'll learn from world-leading staff from around the globe who are working on ground-breaking research, which is recognised internationally.

You might spend a few weeks abroad as part of your course, or study for a year at one of our partner universities around the world. When you graduate, you'll join an alumni network that spans the globe in 180 countries.

We have developed a range of opportunities for you to travel overseas as part of your degree experience.

As an undergraduate, you can study or work abroad to broaden your cultural understanding, develop new skills and enhance your employability. We have over 120 approved partners in Europe and worldwide for semester- or year-long study.

Masters students in the Management School have the opportunity to compete for a place on the postgraduate study abroad programme. Destinations are worldwide and vary each year.

For further details, please visit
www.lancaster.ac.uk/global-experiences/outgoing

For updates, please visit
www.lancaster.ac.uk/lums/postgraduate/study-abroad

We also have an increasing number of vacation opportunities where you can spend time at one of our overseas campuses or partners with fellow Lancaster students and staff. Destinations include Malaysia, China, India, Ghana, Germany, France, New Zealand and the USA, as well as degree specific field trips in Italy, Iceland, Switzerland and New York.

Other postgraduate degrees may offer field trips or overseas visits. Opportunities for studying abroad at postgraduate level vary widely across departments. If you are considering studying abroad during your postgraduate degree, please discuss your options with your department.

For further details, please visit
www.lancaster.ac.uk/global-experiences/vacation-travel

For further details about study abroad opportunities, please email
globalexperiences@lancaster.ac.uk

Support and wellbeing

Everyone needs support from time-to-time. Lancaster offers a range of services to help you make the most of your time with us.

Student services

www.lancaster.ac.uk/sbs

Our services aim to enhance your student experience. Our one-stop enquiry desk, right in the heart of the campus, provides friendly and expert advice on a range of academic and non-academic issues.

We offer a range of specialist support services, help with financial matters and careers advice. If you have a disability, our Disability Service will assess your needs and put in place appropriate adjustments for your studies. Our counselling and mental health advisory service can provide short-term support to help you to engage in your studies during emotional and mental health issues. If you need a visa, our visa and immigration team will provide you with all the necessary documentation for you to apply for your visa once you have an unconditional offer. We have a medical practice on campus and a pre-school offering a range of services for parents, and our multi-faith centre is open to all students.

We offer access to getting paid work whilst you study, and we work in partnership with your academic department and your college to ensure you receive the right support at the right time.

Chaplaincy

Our multi-faith Chaplaincy Centre is a welcoming and engaging place for people of all faiths and none. It offers a space for exploring issues of spirituality and building community, or just a quiet place to eat your lunch.

Your Students' Union

All students at Lancaster can find a sense of belonging and many opportunities to get involved in university life through the Students' Union. It's here to represent you and support you.

Everything it does has students at its heart – working to be a force for positive change, supporting wellbeing and helping you to have a great experience while you're with us.

Societies, sport, volunteering, academic support, welfare advice and much more, the Students' Union does it all making sure you have all the opportunities you need to enjoy a fulfilling student life.

When you come to study at Lancaster University, you will automatically become a member of Lancaster University Students' Union. However, if you do not wish to join, you also have the right to opt out of membership.

To find out more, please visit
www.lancastersu.co.uk

International societies

The Students' Union supports a wide range of international student groups, with the largest including the Chinese Students and Scholars Association and the African and Caribbean Society.

For a full list of international societies, please visit
www.lancastersu.co.uk/international

Sport Lancaster

Conveniently located on campus, our Sports Centre offers a fantastic range of indoor and outdoor facilities for you to train and play.

Indoor facilities include a 25-metre swimming pool, an 8.5-metre climbing wall and bouldering cave as well as a health and fitness suite and sports hall. In 2019, we opened our new Strength and Conditioning room, a space designed for high-performance packed with innovative conditioning equipment. Outside, you can find a range of courts and pitches including a 3G pitch, crown bowling green and tennis courts. Plus, if you're looking for ways to enjoy some fresh air we also have a 2.6 mile woodland walk and a challenging outdoor trim trail.

Whether you enjoy competitive or recreational sport, keeping healthy in body and mind or simply enjoy being active, we have something for you.

"One of the reasons I love the Students' Union is because of the voice it gives to students. Becoming an Academic Rep helped me understand that students actually have a say in what goes on at the university – I could see the results of my campaigns come to life and affect the daily lives of my course mates."

Abiola Adelabu (Nigeria)

Your home

All our students belong to one of our nine colleges, which means you'll find yourself in a friendly, supportive environment from your first day. At Lancaster, all of our accommodation is located within our college communities so living in student accommodation can be a good way to settle into university life.

Each of our colleges has their own personality, but picking which one to join usually comes down to the type of accommodation you want and the facilities you need. Our accommodation has been named Best University Halls in the National Student Housing Awards seven times since 2010. It includes townhouses, studios, en suite rooms, catered accommodation or even furnished family flats, so we hope there will be something to suit everyone.

But it's more than just a place to stay. It's where you'll study and socialise too. So, when you've finished your work for the day, you can meet your friends in the social space, settle down to a film or even see a band play. If you can find the time in your schedule, your college's events and activities can fill it. Languages, quizzes and even cooking classes. And, even if you don't live on campus, you can always come and join in – your college is yours wherever you're staying.

So it's a great place to spend time. It's as much a group of people as it is a building, it's your team, your university family. It might take a little time to get to know the others on your course, or to figure out which clubs to join, so your college is a ready-made set of friends. You live together, study together and compete together, in everything from sports to debates to business. And because these are the people you get to know first, they're often the friendships that last the longest.

During your time at Lancaster, your college offers the first port of call for any support. There are staff on duty round the clock, ready to help – whether it's a friendly word of advice, or you need some support.

Find out more about our colleges, please visit www.lancaster.ac.uk/colleges

Example 2019/20 room rates:

Room type	Cost per week	College
Basic Standard with wash basin	£91.70	Bowland
Standard with wash basin	£107.03	Bowland, Furness, Grizedale, Pendle and Graduate
Superior Standard with wash basin	£121.03	County and Bowland
Townhouses	£128.31	County, Grizedale and Graduate Colleges
Basic En Suite (private shower/WC)	£126.84	County and Bowland
En Suite (private shower/WC)	£136.85	Bowland, Fylde and Graduate
Superior En Suite (private shower/WC)	£140.35	All Colleges

Bowland, County, Lonsdale and Cartmel Colleges all offer some accommodation with catering, you will need to add about £50 per week to the costs listed above.

For more information about the accommodation options available and the current prices, please visit www.lancaster.ac.uk/accommodation

Lancaster University Homes

If you prefer to live in the city, then Lancaster University Homes can help you to find suitable student housing. With a comprehensive list of approved city-centre houses, flats and halls, you can be safe in the knowledge that we have inspected all properties included in the scheme to ensure that they meet ours and the UK government's standards.

To find out more, please visit www.lancasteruniversityhomes.co.uk

Careers

Students and graduates of Lancaster University benefit from a Careers Service that offers life-time advice. For as long as you need it, help and advice are available.

Supporting your future

Preparing for life beyond university is a central part of our student experience. The Careers team work with the Students' Union, employers, alumni, faculties and academic departments to deliver a proactive and tailored service for all stages of your career planning.

Part-time work for students

Lancaster University has a professional recruitment agency within the Careers Service to provide you with more opportunities and support to find temporary paid work on campus and in the local area.

Working during your studies

Most international students are permitted to undertake some work in the UK whilst they are studying at university. If you have a Tier 4 visa you can usually work up to 20 hours a week. However, it is your responsibility to check any restrictions on your student visa before undertaking any employment.

For more information, please visit www.gov.uk/browse/visas-immigration/student-visas

The Lancaster Award

The Lancaster Award is an innovative award scheme designed to ensure that you are noticed in the competitive graduate world. Achieving the Lancaster Award is a major advantage when applying for jobs or further study. It recognises your achievements outside of your studies that have enhanced your employability and helps you demonstrate this to potential employers.

Many employers attach considerable importance to your participation in activities outside of your programme of study. Examples include work placements, volunteering, extra-curricular courses, societies and sports. The Lancaster Award helps you to record these and reflect on the skills that you're developing so you can articulate them effectively to future employers.

For further details, please visit www.lancaster.ac.uk/lancaster-award

Helping you identify and secure the right career path after you graduate

We offer a range of workshops, information, advice, and one-to-one guidance to help you explore your career options. We can also introduce you to graduates and employers who have first-hand knowledge of the sectors that interest you.

You can book consultation appointments with our staff to help you to develop your careers plan, ensure that your applications are tailored and effective, and help you practise every stage of the graduate recruitment and selection process.

You can also book onto our regular Careers Workshops, which give you the opportunity to develop specific skills, such as CV writing, interview skills, searching for jobs and work experience, and how to prepare for assessment centres. At these sessions, we'll guide you in how to acquire these skills, generate ideas, and apply them to your career planning. We also run regular Enterprise Events ideal for students intending to start a business.

For further details, please visit www.lancaster.ac.uk/careers

Go online

As a Lancaster student, you'll have access to a wealth of careers information through our online services that offer a range of licenced digital products to help you manage your graduate career. We also offer an eGuidance service, online workshops, and employer events and appointment bookings. We advertise all our part-time and full-time graduate vacancies on line.

Get work experience

Internships, work placements and work experience are highly valued by employers. These not only help you to make informed choices about job sectors and specific occupations, but can also demonstrate your ability to potential future employers. Our friendly Careers staff can help you identify and secure the right work experience for you. The University's Employment and Recruitment Service, where you can look for paid part-time work while you study, is part of the Careers Service as well.

Meet graduate recruiters

We run a range of careers fairs throughout the year, including some specialising in a particular sector or type of work, eg Law, Teaching, or the more multi-subject autumn and spring Careers Fairs, and our Part-Time Jobs Fair.

Prospective employers also come on campus individually to run skills workshops and to talk about their opportunities for students and graduates. These are a great chance to develop your skills and learn more about different organisations to inform your career planning.

Over 200 employers and alumni offer their services every year to individually mentor students who would like one-to-one help with progressing their career goals. Careers Service staff match interested students with mentors very carefully so both can experience a productive and beneficial mentoring relationship between November and May.

Alumni – a network for life

As a Lancaster student and graduate you will join a global alumni community. We have 148,000 Lancaster alumni in 180 countries across the globe and 40+ alumni groups around the world.

Starting during your student days, you will get opportunities to connect with alumni that continue well beyond graduation.

We run a vibrant international alumni events programme, have a team of dedicated alumni volunteers and you'll find alumni activities for you in over 40 cities worldwide.

2018/19 saw alumni events in China in Beijing, Hong Kong, Guangzhou and Shanghai. Alumni also gathered in Singapore, Seoul, Dusseldorf, Paris, London, Taipei and many more places.

Our groups and events provide a way for you to develop your professional and social networks and to keep you connected with fellow graduates wherever you end up in the world.

Fees and funding

Our fee structure for overseas students is variable and the cost depends on the area of study. The fee you pay will depend on the programme and level you choose to study.

Undergraduate annual fee ranges (2020 entry)

EU

£9,250 The fee for EU students

Overseas

The fees vary depending on the degree programme you study. Please check online for specific fees.

£18,700 Arts and Social Sciences

£19,474 Management School (excluding Accounting and Finance)

£20,865 Accounting and Finance

£22,550 Health and Medicine/Science and Technology

£34,700 Medicine - International students entering in 2020-21 will be required to pay an additional annual supplement to cover the cost of clinical placements. At the time of printing this was unconfirmed but the additional supplement is likely to be around £10,000 - £25,000 per annum. The Medical School will confirm the exact amount as soon as this is known.

Please note: the tuition fee rates outlined are only applicable to those programmes that attract the standard fee rate. To find out how much your tuition fees will be, please find the degree you are interested in studying in our online course search www.lancaster.ac.uk/study/undergraduate/courses

For students starting at the University for the 2020 session, subsequent year's fees may be subject to increases. For undergraduate courses, this will be capped at 4% from the previous year.

Postgraduate annual fee ranges (2020 entry)

	Standard Fees			
	Taught degrees		Research degrees	
	EU	Overseas	EU	Overseas
Full-time: for courses and research in Science and Technology	£10,450	£22,550	TBC	£20,230
Management School (dependent on programme)	£13,000 - £16,500	£20,000 - £23,000	TBC	£16,095
MBA	£33,000	£33,000	N/A	N/A
Full-time: all other subjects	£8,920	£18,800	TBC	£16,095

Please note: the tuition fee rates outlined are only applicable to those programmes which attract the standard fee rate. To find out how much your tuition fees will be, please find the degree you are interested in studying in our online course search www.lancaster.ac.uk/masters

For students starting at the University for the 2020 session, subsequent year's fees may be subject to increases. For taught postgraduate courses, this will be capped at 4% from the previous year for all students. For continuing postgraduate research students from the UK or EU any increases will be tied to the Research UK standard fee stipend, whereas the fees for international postgraduate research students will be capped at 2.5% per annum.

Funding

Postgraduate scholarships and bursaries

To help with study and living costs, Lancaster University offers postgraduates a range of scholarships, studentships and bursaries.

- Alumni Loyalty Scholarship – this scholarship offers a reduction in the tuition fees of taught Masters programmes and it is open to all our Alumni. The reduction available is determined by the level of the undergraduate award that you achieved with us.
- University Scholarships – we offer a range of scholarships awarded directly through our faculties and departments. The majority of these scholarships offer support towards fees, although some may also contribute towards living costs. Competition for these scholarships is mainly based around academic performance and the number of scholarships and studentships offered varies from year to year.

For further details visit:
www.lancaster.ac.uk/international-fees

Other sources of funding include Chevening Scholarships and the British Council.

University funding for scholarships is limited. Most scholarships take the form of a partial tuition fee reduction.

Living costs

At Lancaster living costs tend to be lower than many other places in the UK. The amount you need to spend on accommodation, household costs and social expenses will depend on your own personal circumstances and the lifestyle you choose to lead.

When you apply for a visa to study in the UK, the UK government will require you to have a minimum level of money to cover living expenses in addition to your tuition fees. For more information about the requirements for living costs in the UK, please contact our Visa and Immigration team or visit www.lancaster.ac.uk/sbs/visa

The budget below aims to show the estimated costs you can expect as a single student whilst living and studying at Lancaster. Please note that the example budget does not include entertainment and insurance costs or tuition fees.

Item	Estimated weekly cost
Rent	£115
Bills	£20 - £25
Food and toiletries	£45
Books and stationery	£15
Clothes	£10
Telephone	£10
TV licence	£4
Laundry	£5

It is important to also note that the costs detailed in the example budget do not include travel to and from your home country. You will need to budget for any trips home in addition to these listed living costs.

Students undertaking Postgraduate Research Programmes should budget towards the upper end of these estimated costs to cover research-related field trips, visits to off-campus libraries and attendance at conferences.

For further detailed information on budgeting, please visit
www.lancaster.ac.uk/sbs/money/budgeting/living-costs

How to apply

Undergraduate

Please apply through UCAS
www.ucas.com

Applicants applying for UK undergraduate courses are required to apply through the UK centralised application system UCAS (Universities and Colleges Admissions Service). When applying, you can select up to five different courses, either at the same or different universities. UCAS will notify you once a decision has been made on your application. Once you receive a decision from each choice, you will be asked to choose a firm and an insurance course while you wait for your results. Your 'firm' choice is your top choice, and your 'insurance' choice is the course you would like if you don't get the required grades for your firm choice. If you meet the conditions of your offer, your place on the degree programme will be confirmed.

For entry in autumn 2020, we would advise you to apply through UCAS between 1st September 2019 and 15th January 2020. You will be able to submit applications until 30th June, but after January, if we fill all spaces it is possible for courses to close. If you are applying from outside the EU then application deadlines and procedures may be more flexible so please read the advice from UCAS carefully. Please be aware that the application deadline for the Medical School will be 15th October 2019.

Postgraduate

Our aim is to make the application process as simple and efficient as possible for you.

We would encourage you to apply online using the My Applications website at www.lancaster.ac.uk/postgraduate-applications

Using My Applications to apply

Using your account on the My Applications website, you are able to submit applications for the postgraduate programme(s) which you wish to study, and upload supporting documentation. A small number of programmes require an application through a different route, for example the Doctorate in Clinical Psychology (DClinPsy) and the PgDip/MA in Social Work. If you have any queries, please refer to our website or contact our Admissions Team.

What do I need to include with my application?

The My Applications website will guide you through the details that you need to provide and the supporting documentation screen will provide you with a list of required documents.

These will usually include:

- + Degree certificates and transcripts of previous higher education (college/university) degrees. For transcripts in languages other than English, a certified English translation will be required
- + Personal Statement
- + References (we can automatically contact your referees once you have submitted your application, if you ask us to)
- + Research proposal (for research degrees)
- + For those where English is not their first language, copies of English language test results

For detailed information on the English language qualifications we accept, please visit: www.lancaster.ac.uk/pg-english-requirements

Current Lancaster students

If you are a current Lancaster student, or you have recently graduated from Lancaster, we can reduce the amount of information that you will need to provide as part of your application.

Get in touch

If you have any questions about how to apply, please contact our Admissions Team via pgadmissions@lancaster.ac.uk or, +44 (0)1524 592032.

Entry requirements

Lancaster has been welcoming students from around the globe for many years. We have a lot of experience with the different education systems across the world. To study at Lancaster you would need to ensure you meet our academic entry requirements. If your first language is not English, you will also be asked for a recognised English language qualification.

Undergraduate

For undergraduate study, the exact grades that we require will vary according to the degree scheme and some courses may require you to have a qualification in a specific subject.

If you are studying A levels or the International Baccalaureate you will find our entry grades at www.lancaster.ac.uk/study/undergraduate/courses

You will find a detailed list of other qualifications required for entry at www.lancaster.ac.uk/study/international-students/find-your-country

If you are unsure, or if your country isn't listed, then please contact the Admissions Team for advice: ugadmissions@lancaster.ac.uk

Foundation courses

If you are from a country where the secondary (High School) education system is broader than that of the UK, or is one year shorter, you may need to take a foundation course, or 'top-up' course, before you are considered ready to enter a UK undergraduate degree scheme. These kinds of programmes are normally one year in duration and are offered by a wide variety of educational institutions.

For more information about the Foundation course offered at Lancaster please visit www.lancasterisc.com

Postgraduate

For postgraduate study we accept a range of international qualifications, please visit our website for details.

For a detailed list of how Lancaster University academic entry requirements match the qualifications from your country, please visit www.lancaster.ac.uk/study/postgraduate/international-qualifications

English Language requirements

If your native language is not English you will need to ensure that you meet our minimum English Language standards. The level we require will depend on the programme you wish to study.

For detailed information on the qualifications we accept please visit www.lancaster.ac.uk/study/international-students/english-requirements

Pre-sessional English courses

If you have taken an approved English Language test but do not meet the minimum entry requirements for your chosen degree scheme you may be eligible to take one of our pre-sessional English Language courses to bring you up to the required level.

For more information please visit www.lancaster.ac.uk/pg-pre-sessional

If you have any queries, please contact the Admissions Team: pgadmissions@lancaster.ac.uk

Our courses

We have 600 undergraduate and postgraduate courses to choose from. Many of our undergraduate courses also offer an option of a four-year study abroad, placement year or industry variant; please visit our website for further information.

We also offer a range of four-week and 10-week English language courses and a range of foundation courses to help you prepare you for university-level study. For more information on what is on offer, please visit www.lancaster.ac.uk/pre-sessional

The Engineering Building – Opened in 2015

HIGHLY RANKED

Ranked 128th in the QS World University Rankings 2020

Ranked 146th in the Times Higher Education World University Rankings 2019

Rated Gold for teaching quality in the UK government's latest Teaching Excellence Framework (2017)

OUR STUDENTS

Number of students – 12,960

Number of overseas students – 3,212

Number of students we have studying for a Lancaster degree outside the UK – 6,648

Students from more than 100 countries

ACCOMMODATION

Our accommodation has been named Best University Halls in the National Student Housing Awards seven times since 2010

EMPLOYMENT

3rd in the UK for graduate-level employment in The Times and Sunday Times Good University Guide 2019 and The Complete University Guide 2020

Term dates for 2020 – 2021

Michaelmas Term

2 October to 11 December 2020
(Intro week 28/09/20)

Lent Term

8 January 2021 to 19 March 2021

Summer Term

16 April 2021 to 25 June 2021

Important information

The information in this publication relates primarily to 2020/21 entry to the University and every effort has been taken to ensure the information is correct at the time of printing in August 2019. The University will use all reasonable effort to deliver the courses as described but the University reserves the right to make changes after going to print. You are advised to consult our website at www.lancaster.ac.uk/study for up-to-date information before you submit your application. Further legal information may be found at www.lancaster.ac.uk/compliance/legalnotice.

Our Students' Charter

We believe in the importance of a strong and productive partnership between our students and staff. In order to ensure your time at Lancaster is a positive experience we have worked with the Students' Union to articulate this relationship and the standards to which the University and its students aspire. The Charter and other policies are available at www.lancaster.ac.uk/terms.
