NZQA **CATEGORY 1 PROVIDER**

MIT has been awarded the highest rating, Category One, by NZQA so you will have confidence in MIT as your choice for international study.

WHY CHOOSE TO STUDY AT MIT?

MIT exists to transform the lives of our students, their families and communities. We are the place for all people. Our relationship with our students is a lifelong connection.

We celebrate and draw upon our diversity.

Our cultural traditions, languages, beliefs, and skills draw from many ethnic groups. People from all walks of life flourish at MIT, creating a rich tapestry of understanding and then spreading it out across the world.

At MIT we offer a range of internationally recognised qualifications.

Many of our degrees and graduate diplomas connect our students' hopes and aspirations to job opportunities and career pathways through industry projects and work placements.

If you already have a degree and are looking to further your qualifications, or you have relevant industry experience and are looking to take the next step in your career, MIT offers graduate diplomas that will enhance your skills and knowledge.

Live, learn and play in New Zealand.

New Zealand is a diverse and culturally rich country with a great climate, friendly people and outstanding natural beauty.

Our campuses are based in Auckland, New Zealand's biggest city. Feel at home in this vibrant city with plenty to do and see, you are also just a short journey away from many popular tourist attractions.

The fast growing city has many exciting career opportunities and is in need of skilled workers in a variety of different sectors.

Hands-on skills

At MIT, you will apply classroom learning to real-world situations and graduate with the hands-on skills that are in demand.

Get support from day one

When you join the MIT family you will be supported to learn the skills you need to get the job you want.

Get job security

We work closely with industry and employers to ensure what we teach is what is needed in today's changing market.

MIT degree graduates earn more*

Recently analysed Government data shows that MIT degree holders have the highest employment rates in the country five years after finishing their degrees. They can also expect to be among the best paid.*

ENGLISH

LEVEL 2-5

New Zealand Certificate in English Language (Academic) (Level 2-5)

February, May, July, and October

16 weeks (full-time)

MIT Otago

Entry requirements: **Open entry**

Want to study for a degree or graduate diploma but don't meet the English requirements?

Completion of our English programmes will give you the language skills and prerequisites you need to enter further studies.

You will develop the interpersonal and intercultural skills required to study, work and live in the multicultural environment of Auckland, New Zealand.

BUSINESS

LEVEL 7

Bachelor of Applied Management (Level 7)

(Majors include Accounting, Sales and Marketing, Hospitality Management, Human Resources Management, Operations and Production Management, Project Management, and Tourism Management)

February, May, July and October

Three years (full-time)

MIT Manukau

Entry requirements: **IELTS 6.0**

Open the door to great opportunities in the business world.

Our business programmes are designed to give you the skills and hands-on experience to succeed in today's business environment.

Develop an understanding of core business skills and specialise in the areas of your choice.

You will also get hands-on experience working on a project for a real business.

If you are already working, you can do a project in your workplace.

LEVEL 7

Graduate Diplomas (Level 7)

(Specialisations include Accounting, Sales and Marketing, Hospitality Management, Human Resources Management, Operations and Production Management, Project Management, and Tourism Management)

February, May, July and October

One year (full-time)

MIT Manukau

Entry requirements: **IELTS 6.0**

Accelerate your career in business.

If you already have a degree or relevant industry experience, and you are looking to take the next step in your business career, we have a range of internationally-recognised graduate diplomas that will enhance your skills and knowledge.

Get specialist business skills in the field of your choice.

Your diploma will also include a project for a local business, ensuring you graduate with a qualification and work experience (excludes Professional Accounting).

CAREER OPPORTUNITIES

Accountant, project manager, event manager, communications manager, human resource manager, accommodation or food and beverage manager, business owner, operations manager, production manager, sales and marketing manager, manager of tourism destinations, general manager of a small to medium organisation. Executive-level positions including CEO, director and general manager roles in large organisations.

Choose the business specialisation that will help you land your dream job.

Accounting (CAANZ/CPA pathway)

Take the next step in your accounting career and pathway to becoming a chartered accountant.

You will learn core skills in accounting and get hands-on experience with an accountancy project for a real business.

This qualification meets the educational admission requirements of the New Zealand Institute of Chartered Accountants. We are also one of CPA Australia's globally accredited institutions. This accreditation means your qualification is recognised in 127 countries.

Accounting (non-CAANZ/CPA pathway)

Accounting isn't just for accountants. Today's business leaders also need core skills in accounting.

Managers with core accountancy skills are in demand. They need to be able to make sense of financial reports and make decisions based on the numbers.

If you want to become a Chartered Accountant, you should study the CAANZ/CPA Accounting pathway.

Hospitality Management

Are you ready to take the lead in your hospitality career?

The hospitality industry needs more skilled managers and supervisors. With new cafes, restaurants and bars opening every day, there's always demand for skilled graduates ready to take the lead.

This qualification will give you the tools to lead a team and manage day-to-day operations in all kinds of hospitality businesses. Learn the critical skills in hospitality management that can take you anywhere.

Lead a front-of-house team in a top restaurant or run your own cafe with skills relevant in New Zealand and overseas.

Human Resource Management

If you are a people person and love helping others succeed, consider a career in human resources.

You will play an essential role in helping to hire the right people in all kinds of businesses from start-ups to large corporations.

You will learn the core skills in human resource management you need to get ahead in your career.

Operations and Production Management

What makes a business successful?

Study with MIT and you will learn how people and processes come together to drive results.

Graduate ready for a job as a consultant, supervisor or manager. There are job opportunities for skilled professionals across a range of industries including logistics and manufacturing.

Project Management

There are no limits to where a career in project management can take you.

Most industries need people who can lead, design, execute and complete business projects.

Apply your skills in creating project plans and using project management software tools.

Launch your career in construction, information technology (IT) or engineering. There's also plenty of job opportunities in government, education and not-for-profit organisations.

Sales and Marketing

Are you ready to launch a creative career in marketing?

Develop your marketing ideas and people skills with MIT.

Learn what drives consumer behaviour in the New Zealand and international markets. Develop skills in reaching and selling to specific audiences.

Your career could take you to consultancy or market research, or even public relations.

Tourism Management

The tourism industry in New Zealand is growing fast. This growth is driving demand for more managers and supervisors with the skills to manage tourism businesses and plan for the future.

Get ahead in your tourism career with MIT. You will learn the skills you need to sell world-leading tourism destinations.

The skills you learn will be relevant no matter the market, meaning you can work anywhere in the world.

DIGITAL TECHNOLOGIES

LEVEL 7

Bachelor of Digital Technologies (Level 7)

(Majors in Data Analytics, Networking, or Software and Web Development)

February, May, July and October

Three years (full-time)

MIT Manukau

Entry requirements: **IELTS 6.0**

Are you a natural problem-solver?
Do you keep up to date with the latest technology trends?

Get training in key Information Technology (IT) skills and graduate with a degree in high demand by the industry worldwide.

This degree meets the accreditation standards of the Institute of IT Professionals (IITP), who say it's "the best pathway to industry in New Zealand and abroad".

LEVEL 7

Graduate Diplomas (Level 7) in Networking, Software and Web Development, and Data Analytics

February, May, July and October

One year (full-time)

MIT Manukau

Entry requirements: **IELTS 6.0**

Do you already have a degree and are looking to take your next step in the Information Technology (IT) industry?

Study with MIT to learn practical skills in IT in just one year.

This programme is suitable for graduates from a variety of fields or those with relevant practical experience who want high-level academic training specific to IT.

You will receive strong technical and theoretical training and gain hands-on skills when you complete a real-world project in industry.

Choose the digital technology specialisation that will help you land your dream job.

Networking

Learn about networking, operating and cloud-based systems and dealing with data security.

Get the work-ready skills to link the latest IT knowledge and today's business environment.

You will graduate ready to take on a well-paid job, such as IT manager or software developer.

Software and Web Development

Become a full-stack web or software developer.

Gain the analytical and problem-solving skills to create innovative software and web solutions.

You will be well equipped for a career in this exciting and continually changing field as you learn to use software engineering and web development tools.

Data Analytics

Get the training to use your analytical and problem-solving skills to leverage the true value of data for organisations all over the world.

When you graduate you will be ready for a career in this exciting and constantly changing field as you learn to design, develop and use front and back-end data manipulation, security and data warehousing processes and technologies to support decision making and solve business problems.

CAREER OPPORTUNITIES

Programmer, software developer, systems analyst, quality assurance/software tester, network support specialist, software support specialist, e-commerce web developer, database administrator, data scientist, business intelligence, data analytics and big data professional.

ENGINEERING

LEVEL 6

New Zealand Diploma in Engineering (Civil, Electrical, Mechanical) (Level 6)

 February and July

 Two years (full-time)

 MIT Otara
(MIT TechPark from mid-2020)

 Entry requirements: **IELTS 6.0**

Launch your engineering career.

As part of your studies, you will work on real-world projects. Some of these projects could include a wastewater treatment plant in Samoa and a road widening project in Auckland.

And, just like some of our graduates, this real-world experience could get your foot in the door to international and multinational companies.

This qualification meets New Zealand and international benchmarks for engineering technicians.

Graduates can work at a technician level as outlined by the Dublin Accord (International Engineering Alliance, 2002).

LEVEL 7

Bachelor of Engineering Technology (Civil, Electrical, Mechanical) (Level 7)

 February and July

 Three years (full-time)

 MIT Otara
(MIT TechPark from mid-2020)

 Entry requirements: **IELTS 6.0**

Get qualified to work as an engineering technologist and be in demand in New Zealand and around the world.

From the biggest construction projects to the smallest computer components, engineering graduates from MIT have the skills to make things work.

This is the right programme for students who want to combine engineering theory with practical career skills. This three year degree will get you into the industry faster than the traditional four year degree offered at universities.

When you graduate, you will qualify as an engineering technologist, who will enjoy a rewarding and challenging career that has a high demand in New Zealand and overseas.

LEVEL 7

Graduate Diploma in Engineering (Level 7) (Strands in Civil, Electrical and Mechanical)

 February and July

 One year (full-time)

 MIT Otara
(MIT TechPark from mid-2020)

 Entry requirements: **IELTS 6.0**

Are you a qualified engineer?

This programme caters for engineering graduates and engineering professionals who wish to gain specialist knowledge in a discipline area.

This programme enables graduates to undertake high-level design, specification and project management within a specific selection of subject areas. It provides you with multidisciplinary skills and knowledge covering a number of strands.

This range of knowledge will enable graduates to provide optimal design solutions by being able to compare and evaluate the differing alternatives provided by, and within, each discipline area.

Explore our Engineering study areas to find the specialisation that will help you land your dream job.

Civil

Find out what it takes to create new roads, build bridges and plan other infrastructure projects. When you graduate, you will be ready for a job as a professional engineering technologist.

If you are enrolling in the Graduate Diploma you can also specialise in:

- Structural
- Water and water waste.

Electrical

Electricity is all around us.

In our homes, workplaces and communities, we rely on power everyday.

You will learn how to design and run the electrical systems that power our world.

If you are enrolling in the Bachelor or Graduate Diploma you can also specialise in:

- Electronics
- Power
- Mechatronics.

Mechanical

Professional mechanical engineers know what it takes to design and build machines.

Learn how to investigate problems and faults with machinery and ways to improve manufacturing and energy productions.

CAREER OPPORTUNITIES

Engineering technologist (civil, electrical, mechanical) including technical sales or field services engineering, production manager, or working in a role that supports professional engineering activities including development, design, building operation and/or maintenance of equipment, plants or structures.

SPORT

LEVEL 7

Bachelor of Applied Sport and Exercise Science (Level 7)

- February and July
- Three years (full-time)
- MIT Otara
- Entry requirements: **IELTS 6.0**

There are so many places a career in sport and exercise can take you.

Study our Bachelor of Applied Sport and Exercise Science and get the skills to become a leader in the industry.

You will learn how to motivate, empower and help others achieve their fitness goals.

You can choose from a variety of courses in exercise physiology, coaching and personal training, rehabilitation and sports massage and nutrition.

CAREER OPPORTUNITIES

- Self-employed or employed consultants
- Self employed personal trainers
- Advisors in specialists fields (rehabilitation, personal training, coaching, sports science, community health, nutrition, psychology)
- Employment opportunities at gymnasias, recreation centres, sport trusts, educational institutions, sport medicine and physiotherapist clinics as managers, coaches, consultants, performers, lecturers, teachers, trainers, therapists.

EDUCATION

LEVEL 7

Bachelor of Education (Early Childhood Teaching) (Level 7)

- February and July
- Three years (full-time)
- MIT Otara
- Entry requirements: **IELTS 7.0**

Get prepared for a rewarding career in early childhood education.

Study with MIT to learn the hands-on skills you need to teach in a range of early childhood settings.

You will also develop skills in cultural teaching practices, including Māori and Pasifika worldviews.

This qualification involves plenty of real-world work experience.

Along with 21 weeks of full-time placement, You will spend a minimum of 12 hours a week working in an early childhood centre.

CAREER OPPORTUNITIES

Early Childhood teaching, management of early childhood centres, home-based care co-ordinator.

LEVEL 7

Bachelor of Education (Primary, Pacific) (Level 7)

- February and July
- Three years (full-time)
- MIT Otara
- Entry requirements: **IELTS 7.0**

Are you passionate about working with children?

Study with MIT to learn the hands-on skills you need as a primary teacher.

You will also develop skills in implementing Māori and Pacific teaching methods.

Along with 21 weeks of block practicum experiences, you will spend two days a week working in a real classroom setting.

After completing this programme you are able to apply for Provisional Teacher Certification with the Teaching Council of Aotearoa New Zealand.

CAREER OPPORTUNITIES

Primary or intermediate school teaching. Further training or prior experience may also lead to employment as a principal, careers adviser, counsellor, SENCO team leader, child psychotherapist, youth worker, play therapist or private tutor.

*Pending approval

NURSING AND SOCIAL SERVICES

LOGISTICS

LEVEL 7

Bachelor of Nursing (Level 7)

 February and July

 Three years (full-time)

 MIT Manukau

 Entry requirements: **IELTS 6.5**

Study with MIT to become a registered nurse.

This qualification will get you ready to sit the State Examination and apply for registration as a nurse with the Nursing Council of New Zealand.

You will learn practical healthcare skills and gain hands-on clinical experience.

Our experienced tutors will be on hand to support you throughout your studies.

CAREER OPPORTUNITIES

Registered nurse (hospital-based, community-based, non-patient contact roles). The nursing degree that you obtain in this country can be transferred to a license to practice in most other countries.

LEVEL 7

Bachelor of Social Work (Level 7)

 February and July

 Four years (full-time)

 MIT Otara

 Entry requirements: **IELTS 6.5**

Do you want to make a real difference in your community?

Become a social worker. You will work with all kinds of people to get them the help they need.

This qualification will give you the skills you need to change peoples' lives for the better.

Our experienced tutors will guide you in how to work with different peoples, including Māori, New Zealand/European, Pasifika peoples and new immigrants.

In your fourth year of study, you will be ready to apply for registration as a social worker in New Zealand.

CAREER OPPORTUNITIES

Social work in community, statutory agencies and schools.

LEVEL 7

Graduate Diploma in Supply Chain and Shipping Management (Level 7)

 February and July

 One year (full-time)

 Maritime school

 Entry requirements: **IELTS 6.0**

Fast-track your way to a management job in the supply chain and shipping industry.

If you already have experience, or a relevant qualification in the industry, this qualification is your stepping stone to better career options.

You will build on your existing skills and knowledge in logistics and commercial shipping and learn business analysis and management concepts such as risk and law.

Apply your skills in industry case studies.

When you graduate you will be ready for management roles in the freight, logistics, forwarding and customs brokering industries.

CAREER OPPORTUNITIES

Trade Manager, Logistics Manager, Supply Chain Manager, Risk Manager, Business Analyst.

PASTORAL CARE

SUPPORTING INTERNATIONAL STUDENTS

At MIT we want you to have the best information and advice about your studies. We offer each student individualised support and information.

Our support services and facilities include:

- Course information and programme of study
- Assessment of application
- Providing a plan of study and offer of place
- Providing information on accommodation and arranging homestay or MIT student hostel accommodation
- Orientation and introduction to MIT
- Access to an emergency support 24/7
- Visa processing
- Access to Learning Support Centre
- Career and Employment Solutions
- Library.

Accommodation

Homestay

Boarding is arranged with a New Zealand family. You will be provided with a furnished bedroom, two meals on weekdays, three meals on weekends and shared use of household facilities. You can expect to integrate into the family. This can be a very rewarding experience for students and families.

Student Village

Make yourself at home at the Student Village, MIT's safe and sociable student accommodation available to students of MIT. Our affordable modern accommodation is a great way to become part of a friendly community and to build lifelong friendships. Living at the Student Village puts you right in the heart of student life, so you can make the most of your student journey.

manukau.ac.nz/student-accommodation

Immigration

Full details of immigration requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available from Immigration New Zealand and can be viewed on their website.

www.immigration.govt.nz

Eligibility for health services

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on their website.

www.moh.govt.nz

Accident insurance

The Accident Compensation Corporation (ACC) provides accident insurance for all New Zealand citizens, residents, and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website.

www.acc.co.nz

Employment

International students may be eligible to work 20 hours per week during their studies. For more details contact Immigration New Zealand or visit their website.

www.immigration.govt.nz

Cancellation of a programme

Enrolment in a programme or course is conditional upon and subject to sufficient numbers of students enrolling in that programme or course.

Withdrawal or transfer of International students

If you wish to withdraw or transfer to another course, you must complete the MIT International Student Withdrawal or Transfer Form. The form is available from MIT International:

internationaladmin@manukau.ac.nz

Full copies of MIT policies, procedures and statutes can be found on the MIT website.

www.manukau.ac.nz/student-life

Code of Practice

MIT has agreed to observe and be bound by the Code of Practice for the Pastoral Care of International Students. Copies of the Code are available in 10 languages from the NZQA website.

www.nzqa.govt.nz

HOW TO APPLY

1. CHECK THAT YOU MEET THE ENTRY REQUIREMENTS

Once you have decided on your programme, you will need to provide proof that you meet the entry requirements. Each programme has its own entry criteria based on academic achievements, qualifications and/or work experience. Check these online at www.manukau.ac.nz

Make your experience count

Get ahead in your career and fast track your qualification by acknowledging what you already know with Recognition of Prior Learning (RPL).

RPL may be available to those who can prove competence through work experience, life experience, prior study or a combination of these. Fees may apply.

2. APPLY TO STUDY

Apply at www.manukau.ac.nz

Visit the international students section of our website for more information on applications and supporting documentation.

To apply you will need to contact our International Team. international.application@manukau.ac.nz

You will need to supply:

- Your certified academic transcripts from high school or other education providers (in English)
- A copy of your passport
- Proof of meeting language requirements.

3. ACCEPT AND ENROL

If your application to study is successful you will be emailed an offer. This will include information on tuition fees, insurance fees, method of payment and a copy of the MIT refund policy.

To accept an Offer of Place you must provide the following documents to MIT International:

- Completed invoice and acceptance form
- Completed accommodation form.

4. APPLY FOR STUDENT VISA

Begin your visa application process.

For information on student visa applications contact Immigration New Zealand or visit their website www.immigration.govt.nz

5. PAY YOUR FEES

Payment of the full course fee will be required prior to starting your programme of studies.

NEED HELP?

If you have any queries contact the International Centre. international.application@manukau.ac.nz
