BACHELOR OF ACCOUNTING

Accounting can be described as the 'language of business'.

Almost every organisation has a demand for someone with accounting skills, from basic bookkeeping to high level strategic planning and analysis. The Bachelor of Accounting provides its graduates with the skills, knowledge and attributes required by accountants to perform effectively in modern business environments.

The degree is designed in accordance with the Australian Qualifications Framework (AQF) and the requirements

of relevant professional associations.

At the core of the Bachelor of Accounting degree are units that provide the financial accounting, management accounting and auditing skills necessary to obtain professional accreditation and employment in the discipline of accounting.

In modern business environments, accountants need to interact with professionals from a range of functional areas. Hence, the Bachelor of Accounting degree also provides education and learning outcomes in

the areas of information technology, marketing, organisational behaviour and operations, as well as allowing students the freedom to choose from a number of business-based electives.

Finally, the Bachelor of Accounting degree provides scope for the development of critical thinking and problem solving skills whilst also emphasising the importance of corporate responsibility, ethics and governance.

BACHELOR OF ACCOUNTING

CAREER OPPORTUNITIES

- Financial Accountant
- Management Accountant
- Auditor Professional Recognitions
 - Business Analyst
- Management Consultant
 - Payroll Officer
 - Tax Accountant
- Accounts Receivables/
Payables Officer

Learning Outcomes:

Apply Accounting Standards

Demonstrate understanding of the regulatory environment for which accounting operates globally and apply accounting processes in a manner that complies with applicable accounting standards

Perform Management and Financial Accounting

Evaluate and apply suitable business (financial and non-financial) tools to assess the effectiveness and efficiency of the organisation, its performance and position in a manner useful for managerial decision-making

Evaluate Problems and Implement Solutions

Apply relevant principles to evaluate business problems and develop creative and competitive solutions to achieve strategic objectives

Communicate Effectively

Apply varied communication tools and techniques to effectively manage relationships and communicate with other management professionals and business stakeholders

Contextualise Accounting Practice

Analyse the broader social, legal, economic and business context within which the discipline operates to develop professional ethical practices

BACHELOR OF BUSINESS

The Bachelor of Business prepares students for a wide range of careers in the world of business.

The course is designed to provide a broad general education relating to business management, which brings together the sub-disciplines of accounting and finance, operations, people and organisations and marketing and strategy.

While the introductory units are each dedicated to one of these areas and

collectively provide a balance of specialised treatments, the higher level units tend to provide a more integrated treatment of all areas in each unit.

Some of the higher level units are generic to management, including those dealing with strategy and governance. Others develop a theme-based approach considering issues around globalisation and the internationalisation of business. These studies are designed to produce graduates who have effective and

industry relevant knowledge and skills and who demonstrate capabilities for leadership in the business area.

To achieve this aim the Bachelor of Business requires graduates to demonstrate both educational and professional outcomes.

BACHELOR OF BUSINESS

COURSE STRUCTURE AND UNITS OF STUDY

Year 1

Accounting for Business Decisions	Foundations of Information Technology	Business Communication	Economics for Management	Foundations of Human Resource Management
Marketing Fundamentals	Organisational Behaviour	Statistics for Professionals

Optimise the efficiency and effectiveness of the organisation

Manage Risks and Opportunities

Manage risk and exploit opportunities that arise from the core competencies and positioning of the organisation

Apply Capabilities

Apply these capabilities across a range of organisations that might be encountered in a typical career and adapt knowledge of management and leadership to new problems and opportunities as yet unforeseen

BUSINESS INFORMATION SYSTEMS

DIPLOMA | ASSOCIATE DEGREE | BACHELOR

This program is a great choice for a secure future. Behind every innovation is an information system.

The Business Information Systems courses have been designed to prepare students for careers in Information and Communications Technology (ICT) focusing on managing information systems in organisations.

Business information systems is an essential element in bringing together technology, people (individuals, groups, or organisations), and data/information to effectively manage organisations. Such systems are used to analyse and facilitate strategic and operational activities in organisations. The courses aim to provide students with cognitive and technical skills to create and manage cohesive business solutions for diverse organisations.

The courses prepare students for entry-level management positions where technical skills in systems analysis, IS service provision, and project management are combined with cognitive skills in core business concepts, problem-solving, communication and team work to produce graduates who understand the role and contribution of information systems in driving and enabling the achievement of business goals and objectives.

Graduates of the Bachelor's degree will be able to continue to develop skills in evaluating, designing, implementing, managing and utilising systems to generate solutions to improve the efficiency and effectiveness of core business operations at an entry level. They will have a developing knowledge of organisations, ethical issues, people

management and communication skills as well as technical and problem solving skills.

Graduates of the Diploma and Associate Degree in Business Information Systems will be able to gain entry level positions in the ICT industry with a basic level of technical skills in systems analysis and IS service provision. They will have rudimentary skills in core business concepts, problem-solving, communication and team work, enabling them to make some contribution to the overall information systems objectives of an organisation. They will be capable of developing further skills to enhance the efficiency and effectiveness of business information systems in a range of organisational and business environments.

Academic IELTS overall band score of 6.0 (with no individual band lower than 5.5) or equivalent English language test such as TOEFL or PTE

OR

Successful completion of one year of tertiary study in Australia (Diploma, Foundation or Higher Education)

OR

Direct entry Academic English or IELTS preparation program for eligible students with one of our partner institutions

HOW TO APPLY

1. APPLY

1. Go to the apply now button on the website and follow the prompts
2. Upload your scanned documents
3. For assistance please contact marketing@aih.nsw.edu.au or one of our authorised representatives

If your application meets entry requirements (including Genuine Temporary Entry) you will receive a letter of offer.

The Letter of Offer will outline:

- the course you have been accepted into
- the starting date of the course
- the fees payable
- the conditions of offer, if any (e.g. IELTS)

If your application is unsuccessful we will also advise you by e-mail.

2. ACCEPT YOUR OFFER

To accept your place at AIH Education, please do the following:

1. Sign the "Offer Acceptance and Payment Advice" form
2. Make a payment of fees as indicated on your offer letter.
3. Forward the above to admissions@aih.nsw.edu.au

3. OBTAIN A STUDENT VISA

Upon receipt of payment and required documentation, AIH Education will issue an electronic "**Confirmation of Enrolment**" (eCOE). Use this document to apply for a student visa as per the guidelines set by the Australian Department of Immigration and Border Protection. www.homeaffairs.gov.au

SYDNEY AND AUSTRALIA

Australia is one of the most popular study destinations among overseas students. AAs well as enjoying a very high quality of education students have the opportunity to participate in the broader Australian community and its culture. During semester breaks students can travel to experience more of Australia's spectacular natural environment and great physical beauty.

Sydney, one of the most spectacular cities in the world!

Good living conditions

Multicultural society

Excellent climate

Plenty to see and do around the city

Relative ease of finding work

International students are allowed to work up to 40 hours per fortnight during study weeks

Estimate of living costs in Sydney

Accommodation
\$200-\$280 per week

Public Transport
\$40-\$70 per week

Food
\$10-\$30 per meal

Overall Cost: Statistics estimate that it costs international students approximately AUD21,000 per year for living costs which excludes the tuition and other miscellaneous expenses such as airfare etc.
