

OVERVIEW

Want to be a part of a growing industry and provide critical support to people who save lives every day? A career in healthcare administration may be what you've been looking for. According to U.S. Department of Labor projections, employment of medical and health services managers is expected to grow by 23 percent from 2012 to 2022, faster than the average for all occupations.*

As the large baby-boom population ages and people remain active later in life, the government projects the healthcare industry as a whole will see an increase in the demand for medical services. Managers will be needed to organize and manage medical information and healthcare staffs in all areas of the industry.*

At ECPI University's College of Health Science, Medical Careers Institute, you can earn your Bachelor of Science Degree in Health Science with a concentration in Healthcare Administration in just 2.5 years through Medical Career Institute's year-round program.
