‣ Culinary Arts (AASCA)

AVAILABLE PROGRAMS
FOR INTERNATIONAL STUDENTS

Since 1966, nearly 4,000 employers have hired ECPI University graduates. For many of them, we are the first place they look for job-ready applicants. Why? Because we listen. Each campus has an academic advisory board for each program it offers, comprised of industry professionals. Twice a year, they meet and review curriculum and make recommendations to ensure that it aligns with their needs as employers.
