

INTERNATIONAL GUIDE 2019-2020

赫特福德大学欢迎您

University of
Hertfordshire **UH**

QUINTIN MCKELLAR CBE

WELCOME FROM THE VICE-CHANCELLOR

I hope this International Guide will help you make the right choice and show you all the many things that are great about studying at the University of Hertfordshire as an overseas student.

Everything we do at Hertfordshire is about transforming lives. You'll have the opportunity to gain professional

work experience, build a global friendship network and develop your confidence and work-based skills.

Studying with us is a life-changing experience and we take pride in knowing that you'll leave us with the skills, knowledge and attributes to make a real difference in the world.

JULIE NEWLAN MBE

WELCOME FROM THE PRO VICE-CHANCELLOR

We're a thriving, modern British University just 25 minutes from Central London, with an excellent reputation for our courses, teaching and student experience.

We're already home to over 3,800 international students from over 100 different countries - and we really hope that you'll join them.

Our students develop the powerful skills and experience to make a real difference in our rapidly changing world.

We want you to experience our practical courses, learn from businesses from across the world and enjoy life within the UK.

WHERE TO FIND US

The University of Hertfordshire's welcoming, modern campus is in the town of Hatfield in Hertfordshire, in the South East of England. Hatfield is just a short 25-minute train ride from London's King's Cross station and not far from the A1(M), one of the UK's major north-south motorways.

Thanks to these strong transport links, it's easy to travel to and from London, and the rest of the UK. We also have fast links to London's major airports – Heathrow, Gatwick, Stansted and Luton – so wherever you're flying from, it's easy to reach us when you land.

For more maps, travel advice and information about Hatfield, just visit go.herts.ac.uk/where-to-find-us

25 MINUTES FROM LONDON BY TRAIN

**A GOLD RATED UNIVERSITY
FOR TEACHING
EXCELLENCE**

COLLEGE LANE CAMPUS

College Lane is home to our science and creative arts subject areas. Students in our School of Engineering and Technology, School of Computer Science, School of Life and Medical Science, School of Health and Social Work, School of Physics, Astronomy

and Mathematics or School of Creative Arts will study on this campus.

In addition, this is home to many of our student services and our International Foundation College.

KEY FACILITIES

- 7 25 Metre Swimming Centre

CAMPUS LIVING

A THRIVING COMMUNITY ACROSS 125 ACRES

Over the past few years, we've made a huge investment in innovative, cutting-edge facilities and on-campus student accommodation. You'll study and live in stunning contemporary spaces across 125 acres, use the latest technology and benefit from round-the-clock resources, all on a green campus on the doorstep of the nation's capital.

Right across our campuses, you'll find breathtaking new buildings, filled with bright, inspiring learning spaces. From our £50 million Science Building opened in 2016 to our £120 million student accommodation village, it's a campus designed to give you the best experience while you're in the UK.

TEACHING EXCELLENCE

INTERNATIONALLY ACCLAIMED TEACHING EXCELLENCE

Our country's education system is highly respected all over the world, and a strong British degree really is a passport to a rewarding career, wherever you want to live and work.

British higher education qualifications are rigorous and intellectually challenging. They have to be because we're continuously assessed to make sure we give you the exceptional education you deserve. We know that coming to university – especially one overseas – is a major investment of time and money, so we make sure you graduate with the best possible knowledge, experience, skills and career prospects. Our lecturers have a wealth of experience in their field;

not just in an academic setting, but also out in the working world – whether that's in business, law, healthcare, sciences, engineering or the creative industries. They've built businesses, developed technologies, saved lives, pushed boundaries and made a real difference. Now they're here to help you do the same.

In 2018, we were awarded the top accolade of Gold in the Teaching Excellence Framework (TEF), a government ranking of how well students are taught at British universities. The prestigious Times Higher Education (THE) and QS World Rankings also rank us as one of the Top 150 Universities under 50 Years Old in the world.

We were also announced as one of 17 finalists in the world for the prestigious Global Teaching Excellence Award 2018.

There's also good news if you're looking for postgraduate research opportunities. Our strong reputation for research means you'll have the chance to work with innovative, leading thinkers who are exploring world-changing new ideas. Over 90% of our research has been judged to be of international quality. It's changing the way people think, work and live across the world. All of that acclaimed research informs our teaching and gives you access to the latest concepts and developments in your subject.

73% OF EMPLOYED GRADUATES EARN OVER £20,000 PA WITHIN 6 MONTHS

AWARD-WINNING FACILITIES ON CAMPUS

Over the past 20 years, we've invested almost half a billion pounds in our campuses to offer students everything they could need.

Those wishing to have a bite to eat can choose from two restaurants, four cafes and two pubs. You can also pick up essentials at our numerous shops. However, if you're looking to burn off some of those calories you can visit the de Havilland Sports Village, with cardio and weights areas, 25m swimming pool, climbing wall, and sports courts. If you're on College Lane you can train at the gym any time, night or day during term time.

If you're a night owl and prefer to study in the evening, then you can at Hertfordshire.

Both of our libraries are open 24/7 and nearly every day of the year meaning you can study at 2pm or 2am depending on your learning style. Once you've completed your work, you can treat yourself by visiting the EleHouse, SU Nightclub or The Forum, which hosts lots of social events throughout the week. If your course runs into the summer term when the University is quieter, we still keep plenty of our facilities open.

Of course it's not just social activities we've invested in; our teaching and learning spaces are among the best in the country.

Recently, we've invested in new engineering facilities, a Cyber Security Centre, a new Science Building with

simulation suites, and our replica British Crown Court for law students. Just a few miles away from campus is our observatory, used by our astronomy and life science students.

You'll find all of our facilities are really easy, safe and quick to get to, no matter where you're based.

Joined by a network of pathways and cycle routes - or take the University's free shuttle bus if you don't want to walk - our de Havilland and College Lane campuses have been completely designed with our students in mind.

STUDY JUST 25
MINUTES FROM CENTRAL
LONDON BY TRAIN

MAKING HERTS YOUR LONDON CAMPUS

If you're looking for a university with a great location, you've found it. We're just 25 minutes from the heart of London via King's Cross Station, with all the opportunities and excitement our colourful, multicultural capital brings.

Spend your spare time wandering through London's amazing museums, discovering art galleries or visiting vast libraries. Relax in beautiful parks, browse vintage markets and visit some of the world's most famous historic sights

– there's something different to do every day.

London provides amazing backdrops for our photography students, fantastic experiences for music and film students and is home to some of the world's biggest employers for those looking to secure a placement or graduate job.

If you're into your sports then you can visit Arsenal's Emirates Stadium, Chelsea's Stamford Bridge or even the Olympic Park

in East London! All of which are easily accessible via the London Underground.

Wherever you're flying in from, it's easy to get to our campuses. We're not far from London's Heathrow, Gatwick, Stansted and Luton airports, with fast transport links that make life easier for international students. During orientation week, we offer airport collection too.

GRADUATE & PLACEMENT SUPPORT

Logos are representative of companies supporting some of our courses, or our past and current students.

The Careers and Employment Team at the University is committed to supporting the employability of our international students. The team can help you prepare for job applications and also a series of job fairs on both campuses throughout the year.

You can also discuss your future career goals or placement options with our experienced and professional advisors, who have close links with employers and keep up to date with the latest trends in graduate employability.

Placements are an excellent way of complementing your studies. Data collected by the University shows that 86% of our students who take a year's placement achieve a first or 2:1 in their degree, compared to 62% for those who didn't take a placement.

Careers and Employment advertises a wide range of excellent placement opportunities in a variety of different sectors at Bachelor's and Master's level. Many of these placements are with employers who work exclusively with us and specifically want our students.

The University also provides placement opportunities within various internal departments such as Finance, Careers and Employment, Study Abroad and Office of the Vice-Chancellor.

The University's courses won't just fire your imagination, they'll help you develop the skills and experience you need to go far once you graduate. And whether you know where you're heading or need some direction, our careers and employment team is always happy to help.

ONE OF THE WORLD'S **TOP**
150 UNIVERSITIES
UNDER **50** YEARS **OLD**

PART-TIME WORK

EARN WHILE YOU LEARN

The University's online portal, CareerHub, advertises many part-time jobs in a wide variety of sectors and locations. You can also find internal opportunities at the University, including student ambassador roles and jobs with our various business units.

Additionally, the Students' Union offers a number of roles across their departments which are designed to fit around your studies.

Our Careers and Employment Team also hold job-search and CV events, including those specifically for part-time work, to help you make the most of your applications.

LIFE

LIFE

34 Clubs & Societies

36 Sports

40 Accommodation

CLUBS & SOCIETIES

University isn't just about getting an incredible education; it's also about exploring ideas, trying new things and meeting lifelong friends. At the Students' Union (SU), there's lots to get involved with – and plenty of support when you need it too.

The Students' Union is the social heart of the University. It runs club and live

music nights at the Forum, one of the region's most exciting venues. It also has lots of student-run societies where you can meet people interested in the same things as you – from astronomy to roller skating!

We want to deliver an amazing student experience by encouraging you to engage with different cultures, new

activities and make the most of your time in the UK. We have hundreds of societies and clubs for you to join while you study at Hertfordshire, you just have to choose which ones most suit your interests!

You can find out more at hertfordshire.su/societies

SPORTS

Sport and exercise can not only help you stay in shape, but they can also support your general health and wellbeing.

One of the easiest ways to exercise at the University is to visit the Hertfordshire Sports Village on the de Havilland Campus.

The spacious, air-conditioned gym is equipped with a range of resistance and cardio Matrix Fitness machines, along with a large free weights area and multi-use functional training rig – there are so many ways to train! Our fully qualified Health and Fitness team are always on

hand to provide expert advice and support.

The gym also houses two group exercise studios, consultation rooms, BodyBalance Physiotherapy and Sports Injury Clinic.

ATHLETIC UNION

One of the best ways to meet like-minded people, have fun and broaden your horizons is to join a sports club. At the University of Hertfordshire we currently have 28 clubs offering a variety of sports for all abilities.

The Athletic Union is the organisation, supported by the

University and the Hertfordshire Students' Union, through which the clubs and other student sporting activity is managed. Whether you're trying a sport for the first time or you're an experienced player, you can join an Athletic Union sports club.

The majority of our sports clubs represent the University by competing in the British Universities & College Sport (BUCS) programme and fixtures, which are usually played on Wednesday afternoons or weekends across the country. Some clubs will also participate in regional or national competitions outside of BUCS.

Are you a nationally ranked athlete or have you achieved national or regional recognition in your sport?

If so, you could be eligible for a University of Hertfordshire Sports Scholarship. Sports Scholarships combine a range of support and services for exceptionally talented athletes to successfully train, compete and achieve both sporting and academic aspirations. If you wish to be considered for a Sports Scholarship please fill in a form. All applications are assessed on an individual basis and awards may differ between athletes.

SPORTS CLUBS

- Trampolining
- Ultimate Frisbee
- Volleyball

ACCOMMODATION

As soon as you've received an offer of a place to study, you can apply for your accommodation.

We guarantee a room on campus for all international students. Living on campus is safe, convenient and great for your social life. You'll be close to lectures, the libraries and entertainment, and will save money on transport too. There are also shops and laundry facilities on site. What more could you need?

You can choose to live on either College Lane or de Havilland campus, regardless

of where you're studying. Both campuses offer a great mix of accommodation, all with Wi-Fi.

Inside our halls are individual flats for six to 12 students, with a choice of single or double bedrooms. These are either en-suite or have shared bathrooms.

You'll share a kitchen but have your own food locker. There are also some single studio rooms, separate to the flats, with their own kitchen and bathroom.

You can apply for accommodation to live on campus for 42 or 50 weeks.

As an international student we advise that you apply for a 50-week contract so you can have a room during the summer term. Options are available if you're studying with Hertfordshire International College or on Pre-sessional English courses.

GRADUATE STORIES

WHAT'S YOUR CURRENT ROLE AND HOW DID YOU GET TO THIS POINT IN YOUR CAREER?

Trainee tax consultant. And I got here thanks to my degree, using what I'd learned, support from careers advisors, the support of my tutors and my work experience. Also, hard work and determination.

HOW DID YOUR STUDIES AT THE UNIVERSITY OF HERTFORDSHIRE HELP SHAPE YOUR CAREER?

A competitive study environment complemented by the ever-supportive careers guidance team. I got involved in a wealth of extracurricular activities which helped me become more confident and develop more skills.

WHAT MADE YOU DECIDE TO STUDY AT THIS UNIVERSITY?

Positive recommendations that it was a highly competitive and friendly environment for international students. Also the great facilities!

WHAT WAS THE BEST OR MOST USEFUL THING ABOUT YOUR COURSE?

The content of the degree and the pathway study option, which prepares international students for a new environment at a foreign university.

WHAT'S YOUR STAND-OUT MEMORY FROM YOUR TIME AT THE UNIVERSITY?

My first day at University meeting so many people from completely different backgrounds, which was very exciting, terrifying and memorable! Other stand-out memories include taking up a role as the part-time business school officer; my internship and graduation.

WHAT ADVICE WOULD YOU GIVE YOUR YOUNGER SELF IF YOU WERE STARTING AT THE UNIVERSITY TOMORROW?

Keep your eyes on the prize! Work hard and be bold and try new things, challenge yourself, network and enjoy your time.

DO YOU HAVE ANY ADVICE FOR GRADUATES WHO ARE CONSIDERING A CAREER IN YOUR INDUSTRY?

Do thorough research about your course and the industry and find out what you're passionate about the most. Ask for advice from lecturers or other professionals before deciding if you want to specialise in the finance or accounting side. Try to get as much work experience as possible in that field so that you become more employable and strengthen your skills.

WHAT ARE YOUR FUTURE CAREER PLANS / AMBITIONS?

I hope to be an advisor at the World Bank one day and start my own consulting firm.

KEEP YOUR EYES ON THE PRIZE

GRADUATE STORIES

WHAT'S YOUR CURRENT ROLE AND HOW DID YOU GET TO THIS POINT IN YOUR CAREER?

I'm presently an International Alumni Ambassador for the University in Kolkata. I'm also the Chief Chairman of my family-owned guest house in Kolkata.

HOW DID YOUR STUDIES AT THE UNIVERSITY OF HERTFORDSHIRE HELP SHAPE YOUR CAREER?

My studies not only educated me but also played a major role in shaping my career and grow my confidence in whatever decisions I take. I also now feel a social responsibility to bring betterment to mankind. I'm ever thankful for my studies.

WHAT MADE YOU DECIDE TO STUDY AT THIS UNIVERSITY?

At the University, students of different races and religions are equal. And with its advanced technologies, University prepares all students for future challenges that may arise.

WHAT WAS THE BEST OR MOST USEFUL THING ABOUT YOUR COURSE?

The course has the best group of lecturers and laboratory teachers. This course taught me the evolution of

diseases, which plays a very harmful role to human beings.

WHAT'S YOUR STAND-OUT MEMORY FROM YOUR TIME AT THE UNIVERSITY?

I was very lucky to get lecturers who guided me in understanding the subject material. They even took care of me outside the course and made me comfortable with the subject and how I should approach the subject material. I was also lucky to have some brilliant class mates from different parts of the world who were equally supportive. I remember how much fun it was to unwind on Friday nights at the Forum.

ARE YOU STILL IN CONTACT WITH FRIENDS YOU MET AT THE UNIVERSITY?

Yes, absolutely! I'm in touch with many of them, usually through Facebook, video calling and WhatsApp. We also catch up when we visit each other's cities.

WHAT ADVICE WOULD YOU GIVE YOUR YOUNGER SELF IF YOU WERE STARTING AT THE UNIVERSITY TOMORROW?

Instead of feeling homesick, feel lucky that you are at the best time of your life

and make the most of it. The University of Hertfordshire is not only about studies, it also offers you the perfect chance to create lifelong friends and make wonderful business contacts for the future.

DO YOU HAVE ANY ADVICE FOR GRADUATES WHO ARE CONSIDERING A CAREER IN YOUR INDUSTRY?

Never feel that it's impossible to achieve! Biomedical science has a great future and there are endless jobs in this career. There are hospitals and medical labs who are gradually reaching out to young graduates in recruiting. An opportunity not to miss!

WHAT ARE YOUR FUTURE CAREER PLANS / AMBITIONS?

My future plan is to build a medical centre with a pathology lab in my hometown or anywhere suitable. I want to make tests free of cost to the less fortunate people of my town. I also wish to become a known face for the University and become a member of office, sharing my views and experiences with prospective international students at the University!

GRADUATE STORIES

WHAT'S YOUR CURRENT ROLE AND HOW DID YOU GET TO THIS POINT IN YOUR CAREER?

Currently I work for Shell in Malaysia as an Operations Specialist, where I take care of clients in retail and commercial fuels. After I graduated I tried a few industries, as it wasn't easy to find something I really wanted to do. My part-time work helped me while I was exploring opportunities.

HOW DID YOUR STUDIES AT THE UNIVERSITY OF HERTFORDSHIRE HELP SHAPE YOUR CAREER?

My studies prepared me mentally and emotionally for my career life. But I also took the opportunity to work part time in the food and drinks industry. It really boosted my confidence and helped me think diligently about customers' wants and needs. Most importantly my communication skills have levelled up in many ways, since English is not my first language.

WHAT MADE YOU DECIDE TO STUDY AT THIS UNIVERSITY?

I chose Hertfordshire because of its location – it was perfect place for studying. There wasn't a lot of distraction, the neighbourhood was very calm. If I wanted to go out and have

fun, Central London was only 25 minutes away. I didn't have to travel far like my other Malaysian friends, who had to spend more time and money to get to London.

WHAT'S YOUR STAND-OUT MEMORY FROM YOUR TIME AT THE UNIVERSITY?

My stand-out memory was when I was elected to be Vice-President of the Malaysian Society. Being food lovers, the committee and I decided to hold a gathering among Malaysians, called Jom Makan 1.0, where we cooked our own local dishes and played games to entertain the students.

ARE YOU STILL IN CONTACT WITH FRIENDS YOU MET AT THE UNIVERSITY?

It's important to keep the friends you make during university. You never know when these people can help you in terms of your career or your own business. So yes, I'm very much active in keeping contact with my friends from Hertfordshire!

WHAT ADVICE WOULD YOU GIVE YOUR YOUNGER SELF IF YOU WERE STARTING AT THE UNIVERSITY TOMORROW?

Never give up on your passion! Passion is an emotion that comes from within you. It's your enthusiasm, your drive and your motivation.

Never let go of your passion, even when you're busy with your studies. Make sure you have a good balance between what you love to do and studying. Practising this fair balance will make you happy and satisfied and help you succeed at everything you pursue.

DO YOU HAVE ANY ADVICE FOR GRADUATES WHO ARE CONSIDERING A CAREER IN YOUR INDUSTRY?

Grab every single opportunity that comes your way! Don't put a limit on yourself, be an excellent team player, stay humble and you will shine.

WHAT ARE YOUR FUTURE CAREER PLANS / AMBITIONS?

My goal right now is to be in a position at Shell where I can grow and take on new challenges over time. Ultimately, I would like to assume more management responsibilities and get involved in product and customer strategy. Some of the most innovative thinkers in the industry work at Shell, and that's a big reason why I'd love to build my career.

NEVER GIVE UP ON YOUR PASSION

PLACEMENT STUDENT STORY

WHAT'S YOUR CURRENT ROLE?
I'm currently an intern in special events with UNICEF USA.

HOW DID YOUR STUDIES AT THE UNIVERSITY OF HERTFORDSHIRE HELP SHAPE YOUR CAREER?
Studying at the University improved my career prospects in a huge variety of ways. It offered new opportunities to me as an international student out of my comfort zone, and gave me opportunity to diversify and expand the group of people I know in my career. That has been a great advantage.

WHAT MADE YOU DECIDE TO STUDY AT THIS UNIVERSITY?
I did my research about universities in the UK and Hertfordshire caught my attention. Also, a lot of people from my home country came to this University.

WHAT WAS THE BEST OR MOST USEFUL THING ABOUT YOUR COURSE?
The most useful thing about my course is that I can work anywhere in the world.

WHAT'S YOUR STAND-OUT MEMORY FROM YOUR TIME AT THE UNIVERSITY?
That I made wonderful friends and the staff were very supportive.

ARE YOU STILL IN CONTACT WITH FRIENDS YOU MET AT THE UNIVERSITY OF HERTFORDSHIRE?
I'm still in contact with a couple of them.

WHAT ADVICE WOULD YOU GIVE YOUR YOUNGER SELF IF YOU WERE STARTING AT THE UNIVERSITY TOMORROW?
Take risks and don't take life too seriously.

WHAT ARE YOUR FUTURE CAREER PLANS / AMBITIONS?
To save the world, one child at a time.

ACCOUNTING, FINANCE & ECONOMICS

Studying accounting, finance or economics can provide you with career opportunities that could take you around the world. You'll leave the University as a commercially focused and numbers-driven graduate, who can make high-level decisions within your role. You'll develop excellent communications skills and have exposure to live projects and briefs set by industry professionals.

Our business students gain practical experience through the numerous professional bodies that Hertfordshire Business School works with, as well as exposure to an extensive careers and employability programme. You can combine your studies with a

GRADUATES NOW WORK FOR:

Apple, HSBC, BMW Financial Services, Santander Bank & deVere Group

one-year work placement at both undergraduate and postgraduate level in the Business School, allowing you to leave with both a British degree and experience of a year in industry.

Our accounting degrees offer valuable exemptions from the professional qualifications required after graduation to become a qualified accountant. Notably, our BA (Hons) Accounting and Finance carries the most exemptions of all of our degrees with nine, and therefore is the most suitable course for those wishing to seek a career as a chartered accountant. You can also combine our programmes to study the areas that interest you the most.

AEROSPACE & AUTOMOTIVE ENGINEERING

Aerospace engineering is fundamental to the University – in fact we started life as a technical college teaching engineers of the de Havilland Aircraft Company in the 1950s. Since then, the University has expanded its teaching into a variety of engineering sectors including automotive engineering.

Aerospace engineering and aerospace systems engineering give you the opportunities to work for some of the world's biggest companies in either the civilian or the defence sides of the aerospace industry. You can even combine some of these programmes with professional training to achieve your pilot's licence. Our graduates have worked on major projects such as the Airbus A380, the Typhoon (EFA), missile systems, satellites

and space vehicles, displaying how valuable Hertfordshire graduates are to the aerospace industry.

The automotive sector is very varied and dynamic and offers excellent career prospects in large corporations, as well as their supply chain companies. You'll gain practical skills using our modern laboratories and even put your training into action with our highly successful Formula Student team. Our students get the opportunity to use facilities such as industry-standard simulators and 3D printing equipment. Our graduates have secured positions with Formula One teams in the past and our alumni can be found employed around the globe by a range of major vehicle manufacturers.

ART & DESIGN

Art and design at the University of Hertfordshire is a diverse area combining modern arts with traditional styles and training. We'll support your creativity and allow you to share your work with industry professionals and experts. We celebrate our students' success in our annual Degree Shows, which are open to the public and members of the artistic community. Alongside the Degree Shows, we also host an annual fashion show and music festival, showcasing

the amazing work our final-year students produce.

You'll also have the opportunity to attend exhibitions at numerous venues in London and across the UK. Many of our programmes are accredited by professional bodies, showcasing the quality and relevancy of our programmes to the industry they sit in. So follow in the footsteps of our Oscar- and BAFTA-winning alumni and explore your creativity with us at Hertfordshire.

BIOLOGICAL & ENVIRONMENTAL SCIENCES

Our biosciences degree programmes will give you a sound foundation in the major aspects of biological theory, techniques and practice - from molecules and organelles, to organisms and ecosystems.

The environmental management degrees - which can be combined with a degree in agriculture - are designed to develop your understanding of environmental processes, their measurement, and the techniques used to better manage the inter-relationships between society and the environment.

Teaching, learning and assessment is focused on the practical use of skills

and knowledge that you'll gain from industry-experienced researchers and practitioners. You'll also have the opportunity to benefit from using the professional-standard laboratory facilities in our new Science Building.

With an increasing demand from both the government and the public for nutritional and dietetic education, the role of dietitians is becoming increasingly important. As a dietitian through our BSc (Hons) Dietetics course, you'll work with individuals with special dietary needs, inform the general public about nutrition, evaluate and improve treatment and educate clients, doctors, nurses and other health professionals.

BUSINESS & MANAGEMENT

Every element of our flexible courses helps you develop sought-after skills and opens up a huge range of career possibilities in organisations all over the world. You'll have the chance to explore diverse business disciplines, carve out your own career path, spend an optional year on a work placement or studying abroad, and even graduate with a new language under your belt. Our courses provide you with amazing opportunities to prepare for your future career in a wide variety of business disciplines.

You'll be taught by Hertfordshire Business School's respected

GRADUATES NOW WORK FOR:

Vodafone, Volkswagen, Shelley Capital Management, Sky, Metro Bank, Tesla Motors, Thomas Reuters & BAE Systems

academic team, who've built excellent contacts with a huge variety of innovative organisations. Together, their insights have shaped a degree curriculum that gives you exactly the skills today's employers are looking for. Students can combine their studies with a one-year work placement at both undergraduate and postgraduate level, allowing you to leave with both a British degree as well as a year in industry. Whether you're interested in management, human resources or even entrepreneurship, the skills you'll learn will allow you to shape your career.

CLINICAL AND PHARMACEUTICAL SCIENCES

All courses within pharmacy, pharmacology and postgraduate medicine have a strong emphasis on professionalism and patient-centred outcomes.

We partner closely with the NHS and the pharmaceutical and biotech industries to ensure all of our students benefit from courses designed to meet the ever-changing demands of their future employers.

A wide range of NHS practitioners and industry professionals are involved in

the design and teaching of all of our courses, ensuring they stay up to date with the latest issues and challenges faced in the world of employment.

We invest heavily in student placements from the very beginning of most degree courses, and we use clinical simulation so that you can practice your skills in a safe environment before you come into contact with patients. Inter-professional working and collaboration is a central theme of the department.

COMPUTER SCIENCE, CYBER SECURITY & ARTIFICIAL INTELLIGENCE

Our computer science, cyber security and AI teaching is focused on the practical applications of such skills. Your teaching will be reinforced by new research which forms part of the ever-changing curriculum. You'll develop new, innovative skills such as ethical hacking and robotics, but still learn the fundamentals. Whether you'll be developing mobile applications, AI for cutting-edge research or identifying weaknesses in organisational security systems, you'll be taught by leading academics in their field. You can also combine

your studies with a one-year work placement at both undergraduate and postgraduate level, allowing you to leave with both a British degree as well as a year in industry.

Notably, the University of Hertfordshire is home to the Cyber Security Centre, which undertakes research on security and digital forensics, as well as carrying out threat assessments. You'll also get to work alongside our robot KASPAR, which has recently been on display at the Science Museum

EDUCATION

Pursuing a career in education is one of the most rewarding paths you can take. However, the courses will go beyond how to pass on knowledge to others. Within our courses you'll explore contemporary issues in education and society, learning theory, studying education literature and enhancing your professional development. The School of Education has been highly rated by external bodies such as the Quality Assurance Agency and Ofsted and is taught by staff who are actively engaged in a wide range of ongoing research and

educational enquiry. You'll be provided with the ideal opportunity to gain in-depth knowledge and understanding of the field of education both within and beyond the school context. We provide an excellent foundation for anyone wanting to work in educational administration and management and some of our courses also provide workplace experiences. These will give you the opportunity to develop critical thinking skills and other transferable skills and knowledge that can enhance your employability.

FILM, PHOTOGRAPHY & ANIMATION

Film, photography and animation allow you to explore your creativity while being taught by leading professionals within their respected fields. You'll study in modern, well-equipped facilities and be taught in line with industry practices, preparing you for your career. The University is home to some of the leading academic schools in the sector and is a great place to kick-start your career in the creative industries.

During your time here, you'll gain experience using relevant software and specialist equipment and build your experience by combining academic learning with practical

projects for industry. Every year we host a film and photography festival, as well as an extensive Degree Show on campus, showcasing the amazing work our final year students produce.

You'll also have the opportunity to attend film festivals at numerous venues in London and across the UK. Many of our programmes are accredited by professional bodies, demonstrating the quality and relevancy of our programmes to industry. So follow in the footsteps of our Oscar- and BAFTA-winning alumni and explore your creativity with us at Hertfordshire.

HEALTH, NURSING, PHYSIOTHERAPY & SOCIAL WORK

Our students develop not only the practical skills relating to health but also how to practice in line with the core values of the National Health Service. We offer an extensive range of specialist courses delivered by an experienced and passionate teaching team, many with years of experience within the health services.

Students are taught in state-of-the-art teaching facilities including simulation wards and intensive care units. These

GRADUATES NOW WORK FOR:
NHS & London Ambulance Service

practical facilities mean that students develop the skills required to excel in their career without the need to go straight into clinical practice. You'll also combine your University education with time on clinical placement within health trusts. This will give you the experience of working with patients during your degree.

Graduates from these fields are highly employable and often go on to excel in this highly rewarding career.

HUMANITIES, MEDIA & COMMUNICATIONS

The University is home to a wide variety of humanities, linguistics and social science programmes, cover anything from history to mass communications. Studying with us is about exploring, interpreting and enjoying different aspects of culture and we're proud to have created a flexible, supportive learning community where you're always encouraged to be intellectually ambitious and creative.

Across the portfolio we have over 150 modules for you to choose from, and there's the opportunity to specialise as your studies progress. Whatever you choose, it's good to know you will receive stimulating, first-class tuition. Over the past ten years we've achieved top grades in independent national assessments for English Language and Communication, English Literature, History and

Philosophy, and we support our staff in producing research of national and international excellence.

Our flexible humanities courses let you shape your studies around your personal interests and academic or career development needs. As an undergraduate, you can choose a single subject honours degree or broaden your horizons by studying two, three or four subjects on a combined studies programme. For postgraduate students we offer MA degrees, certificate and diploma programmes in English Literature, Creative Writing, Journalism & Media Communications, Film & Television Aesthetics and Teaching English to Speakers of Other Languages (TESOL) as well as exciting research opportunities.

LAW & CRIMINOLOGY

There's something very special about Hertfordshire Law School and we are lucky to have a great academic and student community. Whether you see yourself studying law or criminology, working as a barrister, solicitor, in the police or security services, as a youth worker, or shaping policy, our courses are designed to give you the best possible career advantage. You can also be reassured that our degrees are accredited or recognised by professional bodies within the field.

During your time here, you'll learn through tutorials, workshops, online lectures and weekly surgeries with our experienced academics, who provide an excellent teaching and learning environment. Our curriculum is enriched with guest lectures,

GRADUATES NOW WORK FOR:

masterclasses, field trips and opportunities to spend time studying abroad during your degree. We also offer a wide range of co-curricular activities, a range of placements and work experience opportunities, and a careers programme tailored to your personal ambitions from day one of your studies.

Over the past decade, the School has earned an excellent track record in these mooted competitions, regularly beating teams from Oxbridge and Russell Group universities and winning national trophies. This is an invaluable experience to include on your curriculum vitae.

MARKETING, EVENTS & TOURISM

By studying these highly practical subjects, you can develop the skills you need to prosper in this creative field. We recognise the importance of marketing, event and tourism as contemporary management functions. This is reflected in the number of academics who teach the subject and the breadth of their expertise, gained through a mixture of practical, industrial and commercial experience and scholarly activity.

Our undergraduate and postgraduate courses encourage you to develop management skills, including team building and team work, communication skills through report writing and delivering verbal presentations. Our students gain valuable work experience during their third year by working for companies such as Disney, TUI, Gatwick Airport, Olympic Holidays, Thomson Reuters, Whitbread,

Sandals Resort, lastminute.com and Porsche. You can also take a placement year at both undergraduate and postgraduate level within events and tourism, improving your employability prospects.

Across the events and tourism courses, field visits have also always formed an important part of teaching and learning.

In addition to your academic studies, you have the opportunity to qualify for professional qualifications; as we are an accredited centre for the Chartered Institute of Marketing and the Market Research Society. This means that our graduates can leave the University with both an academic degree and also a series of professional qualifications recognised by industry.

MUSIC & MUSIC TECHNOLOGY

Music at Hertfordshire comprises vibrant, passionate and experimental courses that are constantly evolving to stay on top of, and ahead of, the industry.

The programme is made up of intertwining threads spanning six distinct areas which, together, make up today's thriving audio and music industry. Each individual pathway gives you the chance to develop your creative identity and expand your skill set, while making valuable connections and forging memorable

industry experiences that will benefit you for years to come.

You'll find no boundaries here. Experimentation is strongly encouraged, and our position within the School of Creative Arts provides an easy route to a range of exciting interdisciplinary opportunities. Whether this is through collaborations across a range of art forms, or exploration of emerging technologies or contrasting subject areas, you can challenge yourself and your peers to pioneer something new and push the margins of innovation.

PHYSICS, ASTROPHYSICS & MATHEMATICS

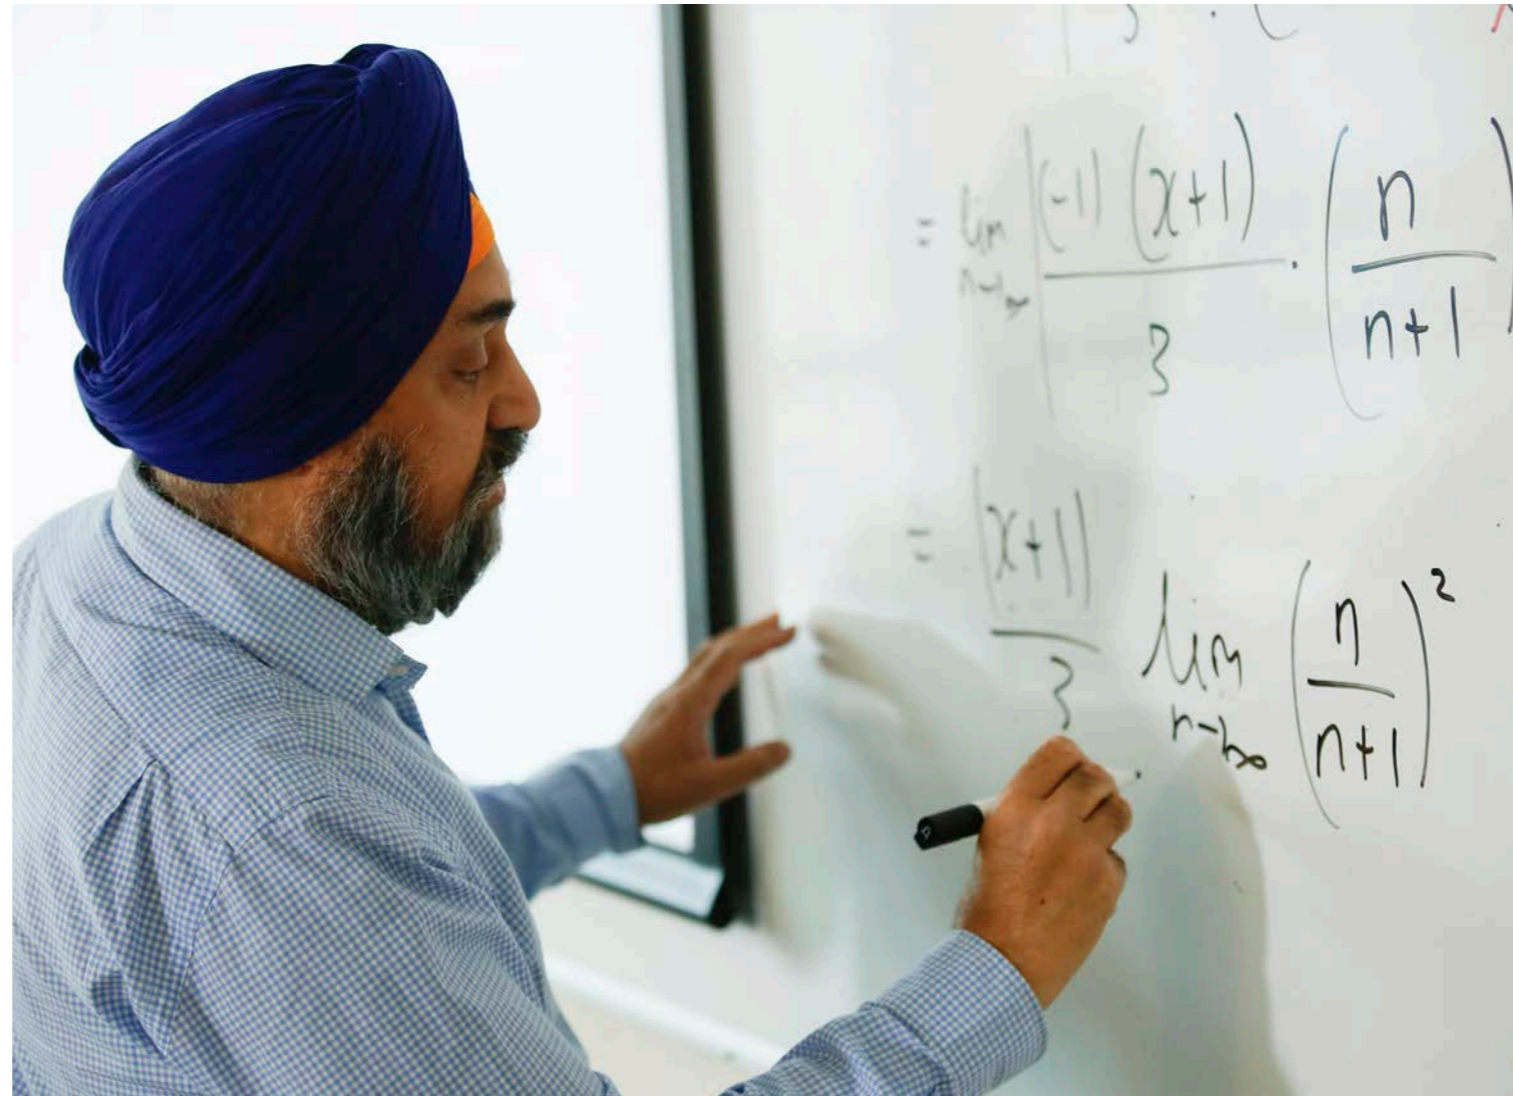

Home to some of the UK's best teaching facilities, our School has a planetarium and fully equipped undergraduate laboratories and our Bayfordbury Observatory is recognised as one of UK's best.

You'll be taught by exceptional mathematicians and scientists and will have great opportunities to put your skills into practice, including during a year-long work placement in the UK or abroad and through working with our industry partners on innovative new projects.

GRADUATES NOW WORK FOR:

GlaxoSmithKline (GSK), Investec & Lloyds Banking Group

Our research activity - which continually feeds into teaching - is very diverse. It covers some of the most exciting topics in modern science, including the astrophysics of stars, galaxies and black holes, quantum computing, atmospheric physics, climate change and modelling, measuring our impact on the atmosphere, and mathematical areas including financial modelling, among others.

PSYCHOLOGY & SPORTS SCIENCES

The Department of Psychology and Sports Sciences has built an excellent reputation both for its teaching and innovative research. By investing in people at the top of their subjects we've created an exceptional and richly resourced environment for learning. Across both subject areas our partners from commerce, industry and the public sector access this specialist knowledge through short courses, consultancy, applied research and training courses.

Our psychology courses range from the BSc (Hons) Psychology degree to higher-level specialised degrees in Industrial and Work Psychology, Research methods in Psychology, and Research in Clinical Psychology and

the Doctorate in Clinical Psychology. We also offer the Psychology Conversion Master's programme for graduates from other disciplines wishing to switch to a career in psychology. We hold Accreditation from the British Psychological Society for Graduate Basis for Chartered Membership.

Our sports courses include Sports and Exercise Science, Sports Therapy and Sports Studies. Each one of these unique areas covers a specialised area in the study of sport and has its own dedicated specialist facilities to help our students get the most up-to-date and practical experience during their degree.

FOUNDATION DEGREES

HERTFORDSHIRE INTERNATIONAL COLLEGE

If you haven't quite got the academic qualifications you need to join one of the University's courses, you can start your studies at Hertfordshire International College (HIC). The College is based on the University campus and is popular with students from all over the world, offering accessible, alternative ways to begin undergraduate or postgraduate study.

HIC offers you a modern and dynamic educational experience. We're committed

to providing educational pathways and support services in an environment that encourages you to achieve excellence in your studies.

By choosing to study with HIC, you'll have access to a wide range of courses and an exciting choice of modules – all designed to prepare you for your chosen degree. HIC also gives you the chance to make friends with other students from a variety of backgrounds and cultures.

At HIC, you never have to deal with your problems alone. We have a friendly team dedicated to giving you the help you need, from financial advice to confidential counselling.

ADMISSION REQUIREMENTS

All requirements can be found on hic.navitas.com or if your country's is not listed, please contact the HIC Admission Office by emailing: admissions@hic.navitas.com

ENGLISH LANGUAGE SUPPORT

PRE-SESSIONAL ENGLISH

If you've not yet achieved the required English language level for entry to your chosen degree course, you can take a pre-session English course.

These courses help to develop your academic language and study skills so you can study effectively at either undergraduate or postgraduate level. We offer pre-session English courses before both our September and January intakes.

On successful completion, you can progress directly on to your degree without having to re-take an IELTS test. Find out more about levels of entry and start dates at go.herts.ac.uk/prep

IN-SESSIONAL ENGLISH

If you need guidance with your academic English, our team of experts at the Centre for Academic English provides daily drop in sessions as well as a series of workshops on writing and study skills. We can guide you through all aspects of academic English to help you to achieve success with your studies.

RESEARCH DEGREES

The University of Hertfordshire is internationally recognised for its original, high-quality research. We're committed to finding inspiring, sustainable solutions to the 21st century's most fundamental global challenges, making a real impact every single day.

JOIN OUR THRIVING RESEARCH COMMUNITY

Study for your PhD, MPhil, Master's by Research or professional doctorate with us and you'll be joining a highly respected research team. Together, we're helping to shape policies, inform government guidelines and drive exciting innovation across the UK and beyond. It's a fantastic opportunity to change the way we understand the world, as well as the way we live, long into the future.

RESEARCH DEGREES

We provide opportunities to study the following research degrees:

- Doctor of Philosophy (PhD)
- Master of Arts by Research (MA by Research)
- Master of Philosophy (MPhil)
- Master of Science by Research (MSc by Research)
- PhD with Industry Experience
- Doctorate in Business Administration (DBA)
- Doctorate in Clinical Psychology (DClinPsy)
- Doctorate in Design (DDes)
- Doctorate in Education (EdD)
- Doctorate in Engineering (EngD)
- Doctorate in Fine Art (DFA)
- Doctorate in Health Research (DHRes)
- Doctorate in Heritage (DHeritage)
- Doctorate in Management (DMan)
- Doctorate in Medicine (MD)

HOW TO APPLY

When submitting your application you should include all the following documents:

- Completed application form
- Research proposal
- Academic transcripts
- Evidence of English language qualification
- Personal statement
- Two academic references
- Copy of passport photo page
- Proof of sponsorship, if applicable

Before you apply you need to contact the Doctoral College to discuss your research proposal at research-degrees@herts.ac.uk. You will need to quote the name of the tutor who has agreed to support you with your research on your application form.

Our research centres on six key themes:

FOOD

Our interdisciplinary research applies science, technology, social and cultural investigation to food consumption and production, helping industry, policymakers and the public tackle it head on.

GLOBAL ECONOMY

We're addressing major issues in the global economy, including innovation, development, energy and economic growth.

HEALTH AND WELLBEING

Poor health impacts not only patients and their families, but also health systems and societies. Our research focuses on improving mental and physical health and wellbeing across the human lifespan.

HERITAGE, CULTURES AND COMMUNITIES

Our work explores our cultural history and heritage and the ways in which contemporary, interconnected communities create identity and social cohesion.

INFORMATION AND SECURITY

In our rapidly changing world, information is vital to innovation. Our research spans robotics, artificial intelligence, algorithms, biocomputation, cyber security, biodefence and civil protection.

SPACE

Our researchers work in diverse areas of astrophysics, atmospheric physics and mathematics, expanding human knowledge on scales ranging from microscopic quantum physics to the structure of the universe.

APPLY

- 124** Applying To Hertfordshire
- 126** Country Offices & UK Team
- 130** Fees & Scholarships
- 134** Study Abroad
- 136** Visa Information
- 138** Terms & Conditions
- 142** Find Us On Social Media

APPLYING TO HERTFORDSHIRE

Once you've made the decision to come to the University of Hertfordshire, you should apply as soon as you can to ensure you have plenty of time to prepare to move to the UK.

THERE ARE TWO MAIN WAYS TO APPLY:

You can complete an application form and submit it to us as admdec@herts.ac.uk. You can apply through one of our approved representatives – these can be found on the region pages at: www.herts.ac.uk/international

With your application form, you'll also need to send us the following:

- An academic reference
- A personal statement, outlining why you wish to study in the UK, at Hertfordshire and why you wish to do the course you've chosen and how this matches your career aspirations
- A scan of your passport photo page
- A scan of all of your academic qualifications
- A scan of your English language qualification

THE APPLICATION PROCESS

Step 1
Submit application

Step 2
Receive conditional or unconditional offer

Step 3
If conditional, submit outstanding documents

Step 4
Pay tuition fee deposit

Step 5
Book your accommodation

Step 6
Receive CAS

Step 7
Apply for Tier 4 visa

Step 8
Receive visa

Step 9
Book flight to the UK

Step 10
Attend orientation week and enrolment

YOU'LL NEED STRONG ENGLISH SKILLS TO STUDY AT UNIVERSITY LEVEL, SO FOR MOST COURSES, WE ASK FOR ONE OF THE FOLLOWING:

GCSE/IGCSE English Language at grade C or above IELTS score of 6.0 (with no less than 5.5 in any band) for undergraduate courses, IELTS 6.5 (with no less than 5.5 in any band) for postgraduate courses Pearson Test of English 51 (with no less than 42 in any band) for undergraduate courses, 58 (with no less than 42 in any band) for postgraduate courses Indian Standard XII English language (65% undergraduate / 70% postgraduate) Malaysian SPM1119 Advanced English grades 1-6 or A-C Nigerian WAEC / NECO C6 (1-6 or A-C)

This isn't a complete list, so please visit herts.ac.uk/international to find out more. You can find out visa and immigration requirements there too.

ACCOMMODATION

It's vital that you book and secure your accommodation before you arrive in the UK to start your course.

TRAVELLING TO THE UK

The UK welcomes overseas students, however, immigration control can be rigorous and there are sometimes delays at the airport when you arrive. You can help by keeping all of your important documents together and in your hand luggage. Be prepared to answer questions about where you are staying, and why you have come to the UK. The Border Force Officer must also be satisfied that you speak English at the required level without the need for an interpreter. You may also be fingerprinted if you supplied biometrics for your visa application.

Most major airlines will fly into either Heathrow or Gatwick Airports. The University offers a free collection service to students travelling to Heathrow on certain dates for January to September. You need to book your place in advance. The University is in Hatfield, Hertfordshire, 25 minutes by train from central London. The nearest train station is Hatfield

(direct route from King's Cross Station). The University is a short taxi journey or bus ride from Hatfield railway station.

IMMIGRATION AND VISA

Most international (non-European Economic Area – EEA) students need a visa / entry clearance to study in the UK. You can self-assess online at the UK Government's Home Office website to see if this is relevant to you. EEA nationals don't need a visa or entry clearance to study in the UK. If you're an EEA national you can travel into the UK using your passport or national identity card.

ORIENTATION WEEK

To help you settle into life at the University, we run a free Overseas Students' Orientation Programme (OSOP). The programme has been designed to familiarise you with all aspects of living and studying in the UK. It'll give you all the advice and information you need to make the most of our time in the country and at the University.

FEES & SCHOLARSHIPS

Like every other UK university, we charge tuition fees for our courses. These are different for UK, EU and international students. Our standard tuition fees are based on full-time courses taught on campus.

INTERNATIONAL UNDERGRADUATE FEES

Our standard tuition fees for courses starting in 2019 are £12,350 per year for all standard courses, both classroom based and laboratory / workshop based.

INTERNATIONAL TAUGHT POSTGRADUATE FEES

Our standard tuition fees for courses starting in 2019 are £12,650 per year for all standard courses, both classroom based and laboratory / workshop based.

INTERNATIONAL POSTGRADUATE RESEARCH FEES

Our research tuition fees can be found on our website.

EU UNDERGRADUATE FEES

Our standard tuition fees for EU students for courses starting in 2018 are £9,250 per year for full-time undergraduate study.

EU POSTGRADUATE STUDY

Our standard tuition fees for EU students for courses starting in 2019 are £8,400 for full-time postgraduate study.

ONLINE LEARNING

Our tuition fees are different for online courses, so please check your course information at go.herts.ac.uk/uhonline-fees

DEPOSIT AND REDUCTION FOR PAYING IN FULL

You'll be required to pay a £5,000 deposit to secure your place with us. If you're able to pay for the whole year in full when you enrol, we'll give you a reduction of £500 for each year.

HOW DO I PAY?

You can pay online, by bank transfer, by Western Union transfer, by cheque or in person. For all the details on how to do this, please visit go.herts.ac.uk/how-do-i-pay

It's a good idea to think about any extra costs that might be involved with your course, like laboratory equipment, materials or trips. To find out more, look up your course at go.herts.ac.uk/courses

INTERNATIONAL SCHOLARSHIPS

Every year we offer a limited number of scholarships to international students. These are worth up to £4,000 and are designed to make studying with us more affordable. We also offer graduate scholarships for international students who have already taken an undergraduate degree here and now want to take a Master's course with us. This is the equivalent of a 20% reduction in your tuition fees.

Find out more at go.herts.ac.uk/international-scholarships

US LOANS

The University of Hertfordshire is able to accept US Federal Direct Loans and US Veterans' Educational Benefits (GI Bill) for students from the United States. These students may be exempt from the deposit payment. For information on supporting your loan application contact usloans@herts.ac.uk.

STUDY ABROAD

A TRULY INTERNATIONAL DEGREE

If you're thinking about travelling to the UK for your degree, you might not realise that you can spend part of your course in another country too. It's a great opportunity to make your student experience even more international.

WHERE COULD I GO?

We've more than 160 partner institutions in USA, Canada, Latin America, South Africa, China, Korea, Japan, India, South East Asia and Australia. Subject to the UK remaining part of the Erasmus Programme, which is part of the UK Brexit negotiations, you also have the chance to study at a partner institution in one of around 20 European countries. We're always adding new destinations too.

HOW LONG CAN I STAY?

It depends on your course and where you would like to go. You can study for three months, a semester or a year, and even take a work placement too. We also offer summer schools in Europe and Asia.

CAN'T STUDY ON CAMPUS? LEARN WITH US ONLINE

Studying online gives you the freedom to study with us even if you're thousands of miles away. It's a flexible way to study that lets you fit your learning around work and other commitments. We offer online undergraduate degrees in: Business Administration, Business and Sport Management (for sports professionals), Computer Science and IT, and Education. Find out more at go.herts.ac.uk/online

WANT TO STUDY WITH US FROM AN OVERSEAS UNIVERSITY?

Our thriving study abroad programme welcomes students from all of our partner universities. So if you're taking a degree overseas and you would like to spend part of your course with us, just check our website to see if your university is a partner. Even if it's not, you can still apply as a fee-paying student. Find out more at go.herts.ac.uk/study-abroad

EARN A HERTFORDSHIRE DEGREE - IN A WHOLE DIFFERENT COUNTRY

You can even study for a University of Hertfordshire degree in a completely different country. We have collaborative partners in Canada, Malaysia, Russia and Singapore. They're respected universities that run degrees designed by us, from their campuses around the world. Find out more at go.herts.ac.uk/international-partners

VISA INFORMATION

If you're an EU, EEA or Swiss national, you don't need a visa to study in the UK, but if you're from a non-EEA country you do.

TIER 4 GENERAL STUDENT VISA

The Tier 4 visa is part of the UK's visa and immigration points system. For your application to be successful, you'll need to meet the government's immigration rules and achieve 40 points.

You'll be given 30 points for your Confirmation of Acceptance for Studies (CAS), which we'll send to you once you've met all the conditions of your offer.

You'll be given another 10 points for maintenance, which means proving you have enough money to pay your fees and living expenses.

WHEN DO I NEED TO APPLY?

If you're applying for a Tier 4 visa, you'll need to do this before you leave your home country. If you're applying for a short-term study visa, you may also need to apply from home, depending where you're from.

The earliest you can apply for either visa is three months before you come to the UK. Don't leave it too late though, it'll usually take at least 15 days to process your application and over the summer (June, July and August) it can take much longer.

HOW DO I APPLY?

TERMS & CONDITIONS

THIS GUIDE

This guide is primarily intended for use by prospective students who are interested in applying for a place on a course at the University of Hertfordshire starting in our 2018–2019 academic year. We try our best to make sure that the information in the guide is accurate and up to date at the time of publication (October 2018). However, we cannot guarantee that it does not contain any errors and to the fullest extent permitted by law we do not accept liability for such errors. If you believe you have found an error, please let us know at ask@herts.ac.uk.

Even where the information was accurate at the time of publication, we may need to update it from time to time, for example as a result of the way in which we continually seek to improve our academic provision and take on board feedback from students and other stakeholders, or in order to take account of circumstances that have changed since publication.

For the most up-to-date information about courses and life at the University please view our website at www.herts.ac.uk.

Any corrections or updates to course information in this guide will also be set out on our website at go.herts.ac.uk/guidechanges.

YOUR RELATIONSHIP WITH US

Please note that nothing in this guide is intended to constitute an offer of a place to any prospective student. If you wish to study with us, you will need to make a formal application, following which we will inform you whether we are able to offer you a place.

If you are offered and accept a place as a student of the University of Hertfordshire, you will become a member of a community which enjoys many rights and privileges. You will also be expected to accept a number of responsibilities in the interests of the community as a whole. These rights and responsibilities form part of the contractual relationship that will exist between us.

You can find further information about the nature of this relationship in our Key Facts document for students, which is available on our website at www.herts.ac.uk/apply/becoming-a-student.

Please note that depending on when you visit our website, the displayed version of this document may not necessarily be the version that will apply to you if you are offered and accept a place as a student. The version that will apply to you will be sent to you if we offer you a place.

The following three sections (taken from the 2019–2020 version of the Key Facts document) explain the standards we strive to meet for students accepting an offer of a place for entry in our 2018–2019 academic year, and the circumstances in which we may make changes to (or occasionally even discontinue) a course before a student finishes.

THE EDUCATION WE PROVIDE

Our goal is to ensure that you are taught, supervised, assessed and supported by staff who are appropriately qualified and experienced, taking into account your needs, the needs of other students and the nature of your course. We will use every reasonable effort to provide your educational and other related services in the manner and to the standards set out in our prospectuses, on our website, and in our other published materials. We recognise that you expect to receive the educational service you are paying for. However, we cannot make an absolute commitment to provide our services at all times in this manner and to these standards because, for instance, there may be circumstances outside our reasonable control which have a detrimental effect on how we provide our services to you. These could include, by way of example, industrial action (including by members of our own staff), civil commotion, severe weather conditions, changes in the law and/or actions taken by a government or public authority, damage or destruction to our buildings or facilities, failures by our suppliers or sub-contractors,

or interruption or failure of utility services. If circumstances such as these arise, we will use every reasonable effort to minimise any disruption to you.

CHANGES TO YOUR COURSE OR MODULES

Although it is never something we do lightly, we may in certain circumstances make changes to the advertised content or structure or methods of delivery of your course or individual modules after you have accepted an offer, which may in certain cases include discontinuing a module. We cannot cover here every possible example of when we might decide to do so, but in normal circumstances it would only be for one or more of the following reasons:

- To reflect changes to the theory in an area of research or practices around the subject or its delivery
- To improve a course or a module (for example, to take account of feedback from students)

- To safeguard academic standards
- To comply with the requirements of an external professional, commissioning or accrediting body (for example, a requirement that certain course content be added, changed or removed or that a particular module is discontinued or included)
- To comply with legal, regulatory or governmental requirements
- Where insufficient students have chosen an optional module, making it unviable, or where a member of staff whose expertise was required to run it is no longer available
- Where the change results from other circumstances outside our reasonable control (for example, an external provider no longer being available to contribute to the course or a module).

If we decide to make a change (other than one which is minor or insignificant) before you have registered on the course for the first time, we will inform you as soon as

reasonably practicable so that you can decide whether or not you still wish to study with us. If as a consequence you decide not to study with us, we will refund any tuition fees and/or deposit that you have paid in advance in respect of the course in question. For further details regarding our refund policy please see our Fees and Finance Policy.

If we decide to make a change (other than one which is minor or insignificant) after you have registered, we will similarly inform you as soon as reasonably practicable, and we will also use every reasonable effort to minimise any adverse effect it may have on you. If in spite of our efforts the change is likely to have a serious adverse effect on you (for example, by prejudicing your future choice of career), we will try to find you a suitable alternative course or module with us or (if you prefer) we will try to suggest a suitable alternative course with another education provider. If you change course or module in these circumstances (or simply withdraw from your course), any entitlement you may have to a refund in tuition fees you have already paid will be determined in accordance with our Fees and Finance Policy.

In the case of a material change to a course or module, we will also in appropriate circumstances try to consult with student representatives with a view to identifying options for, and minimising any adverse effect on, affected students.

Some optional modules may have capacity issues and therefore we may not be able to guarantee you a place on your first choice.

More information about how we will protect your interests in the event of changes to your modules or programmes can be found in our Student Protection Plan at <http://www.herts.ac.uk/apply/becoming-a-student>.
