

YOU BELONG HERE Here, you don't have to wait to finish university before you put your stamp on the world. Your Mount Royal experience will be as original as you.

This is your time.

This is your university.

# Innovation + a long history

Since our beginnings more than 100 years ago, we've been committed to quality post-secondary education. Mount Royal has transformed since then, but some things will never change. We are committed to providing future-focused programs and the highest quality education in classes led by passionate professors. We've grown to meet the needs of students from Calgary and around the

## The best of

Not only does Calgary rank in the top five most livable cities in the world, MRU has been twice named Calgary's best post-secondary institution. MRU was awarded Best of Calgary's "Best Educational Institute" in 2018 and the *Star Metro's* "Community Choice Award" in 2019. Students consistently rank Mount Royal University among Canada's best universities for quality of teaching and overall educational experience.

## The Mount Royal experience

You want a program that aligns with your passions, opens doors and gives you a great experience. Your MRU might take you up the side of a mountain, behind a camera or to the centre of community-minded research. You'll enhance your abilities and dive deeper into what makes our world remarkable.

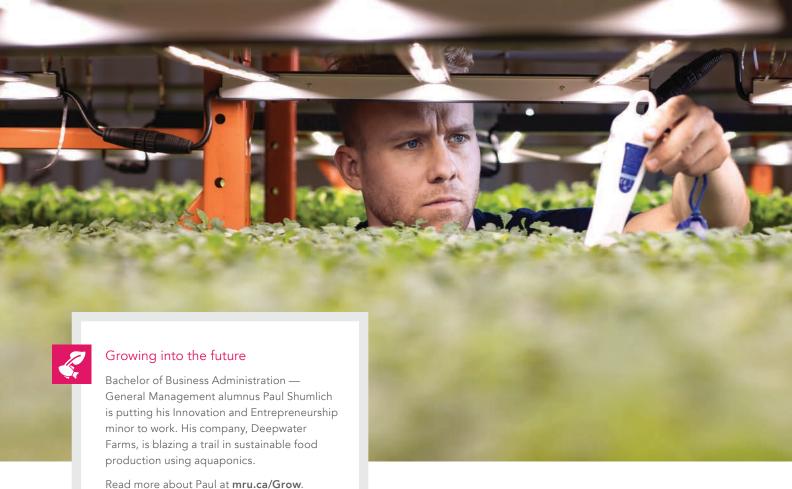

You can get ready for your dream job, prepare for grad school or inspire a movement. And, you're going to have some fun along the way, because what's university without a little fun, right?

Learn about the students, alumni and faculty featured in this book at mru.ca/Belong. You never know, it might be you we're talking about next year.

## Be captivated by your surroundings not overwhelmed by your class size Our average class has 31 students, so you won't feel squeezed even when balancing work, life and school leaves you a little pinched. Some classrooms have four walls, some have none While you'll definitely sit in a few classrooms, some of the best hands-on learning is done in nature or in one of our state-of-the-art simulation, computer and science labs.

## Learning happens everywhere

Whether you're in a sociology or business class, your professors will use innovative teaching practices to both challenge and support you. You know that feeling when you solve a problem or see something in a new light? Yeah, that happens a lot here.

We have extinct marine reptile casts hanging from the ceiling, a rockscape dedicated to learning more about rock formations and the new Riddell Library and Learning Centre. Oh, did we mention the community garden? Explore every corner and you'll find something new.

## Get involved in your community

MRU awards a Community Service Learning (CSL) citation to students who complete three courses that employ community service learning for a minimum of nine credits. Annually, one quarter of students participate in CSL projects with hundreds of partner organizations each year, totalling more than 300,000 hours of community service.

Read more about how you can get involved in your community and earn credits at mru.ca/CSL.

Mount Royal has student clubs for (almost) everything! Whether you like to ski, or debate, or help local charitable organizations, you can meet up with others who share your interests. Visit the students' association at samru.ca to

## Balance on campus

University life has study time and downtime. With student support services and fun spaces to hang out, you can achieve academic success and a social life beyond Snapchat.

## Study focus

Get advice from your academic advisor

Polish your resumé and interview skills with Career Services

Talk to someone from Student Counselling

Get help with your academic writing at Student Learning Services

Become a student leader at the Office of Student Success

Get the full list of academic supports and what they can do for you at mru.ca/AcademicSupport.

Grab a coffee at Barrow Espresso & Tea

Play Frisbee at the front courtyard

Get a bite at West Gate Social restaurant and bar

Meet with friends at the Wyckham House Students' Association student centre

Enjoy a game of table tennis

Find your rhythm during a drum circle

And more ...

learn more.

## More than a library

The Riddell Library and Learning Centre has so much more than books. It is a transformational learning and research environment that brings together students, expert faculty and staff, and a wide range of technology and resources. Within these walls, you'll be able to discover, understand, create and share. Check out the:

- » 360° Immersion Studio
- » Interactive visualization walls
- » Tech support and training for students
- » Peer learning program
- » Writing and learning workshops
- » 3D printers and laser cutters
- » Treadmill workstations
- » Fireplace lounge

# Virtual or physical, research brings environments to life

As an undergraduate student, you'll participate in research early in your studies, giving you a solid foundation for higher learning.

Mount Royal professors bring their journeys back to the classroom — sharing their creativity, experience and passion with you. Research will open your mind to a world awaiting exploration.

## Working with industry to reclaim the land

An ecosystem scientist, Assistant Professor Felix Nwaishi, PhD, is exploring how plants, soil and water interact in natural and disturbed environments. His aim is to identify ecosystem functional indicators, which regulators can use to assess the recovery of sites, especially in the Alberta oilsands region.

Using virtual reality, Nwaishi is working to bring the wetland to the classroom to create a field school experience for his students, even in winter months.

## Discovery and changemaking

There's a difference between us and the big guys. As a mid-size undergraduate institution, Mount Royal offers research as part of the classroom experience, not as something a professor does in a lab down the hall.

We believe in creating change in our communities and making waves around the world. Whether you're aiming to discover more about the environmental impact of the Olympics in Rio de Janeiro, investigate body image in the queer community, or understand the role of pets in adolescent mental health (just a few real examples from our students), Mount Royal will fuel your curiosity.

Don't keep your discoveries bottled up! Here, with the help of your professors, you're encouraged to publish your work and attend conferences to showcase your findings alongside peers in your field.

## Ashoka U Campus

A Changemaker Campus operates in socially and environmentally conscious ways to address local and global challenges. Mount Royal received the Ashoka U designation in 2017.

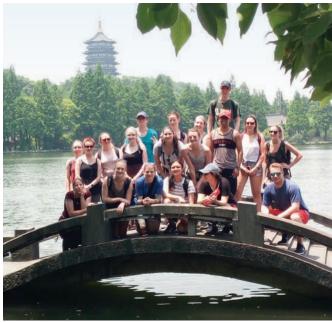

Discover the diverse research being conducted at MRU and satisfy your curiosity at mru.ca/Seek.

## Study + travel Get to know your own backyard, too While you can travel as part of your program, you don't Get the best of both worlds: credit for your courses and have to go far to learn amazing journeys. This is serious business. Your trip may new ways to experience include community service learning, business development, and think about the world. environmental sustainability initiatives and more. Get General Education courses, a requirement for every your thinking cap on and your suitcase ready as you gain Mount Royal degree and perspective — here or on the other side of the planet! diploma program, broaden your understanding and deepen your appreciation for learning. These stay with you, no matter where you go. From Kananaskis to Scotland Hear from a few students who travelled to Scotland to compare and contrast approaches to conservation at mru.ca/LaceUp.

Students are guaranteed financial support from the MRU International Mobility Award of up to \$1,000 for study abroad opportunities.

## Where in the world?

There's a long list of things to do while you're here. Add "renew passport" to your checklist. Only one decision left: where will you go? Fulfill your wanderlust at mru.ca/Destinations.

## Learning + adventure

## Field schools

Integrated into many programs, international field schools can offer a hands-on learning opportunity in your field of interest, so you can apply what you learn abroad to the work you do at home.

## Study abroad exchange programs

Experience different cultures, develop intercultural competence and find new friendships. Plus, earn credits while you study abroad.

## International work experience opportunities

Pump up your resumé with high-impact international work experiences such as a co-op, practicum or internship. Work or volunteer abroad to expand your skills and experience to boost your employability.

You don't need to be a sports fan to feel the energy of Mount Royal. Cougars pride is about confidence, community spirit and being your best self. Get amped at a game or feel the rush of a well-earned grade.

## First day jitters?

Nervous? We have lots of activities in the first 30 days to get you ready for university life.

Events like New Student Orientation, the Clubs and Campus Expo, and workshops will help you navigate campus, meet your professors and make new friends

Find more at mru.ca/Events.

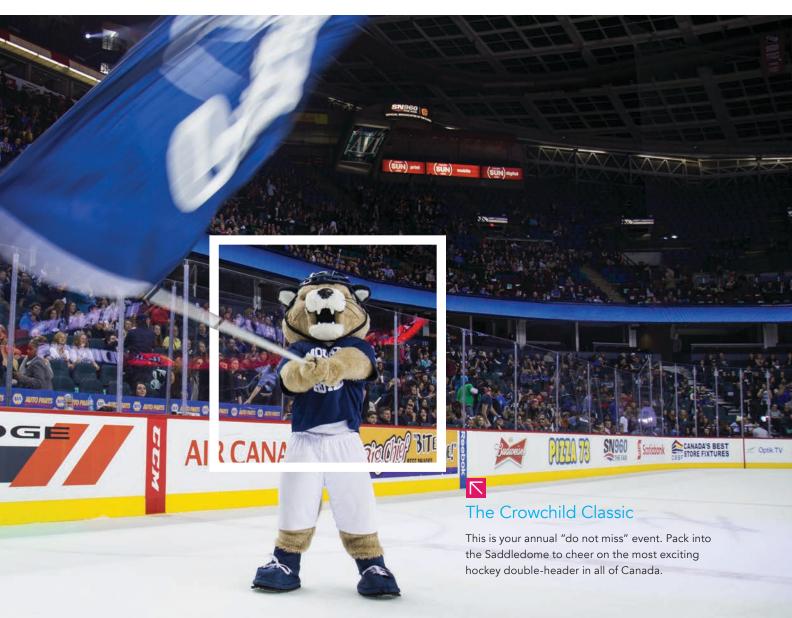

## We are the Cougars!

Everyone in the Mount Royal community is part of the Cougars. Belonging to Cougnation means you're connected to a tight-knit family of people who learn, work and play hard. Take in a Cougars basketball, hockey, soccer or volleyball game and cheer your face off. Or, just wear the colours with pride. Together #WeAreTheCougars. Bleed blue!

Feel the pride at mru.ca/WeAreTheCougars.

Looking to make the team? Visit mrucougars.com to find out how to connect with a coach. If playing sports at a national level isn't quite your speed, try MRU Recreation club teams or intramurals. mru.ca/Intramurals mru.ca/RecClubs

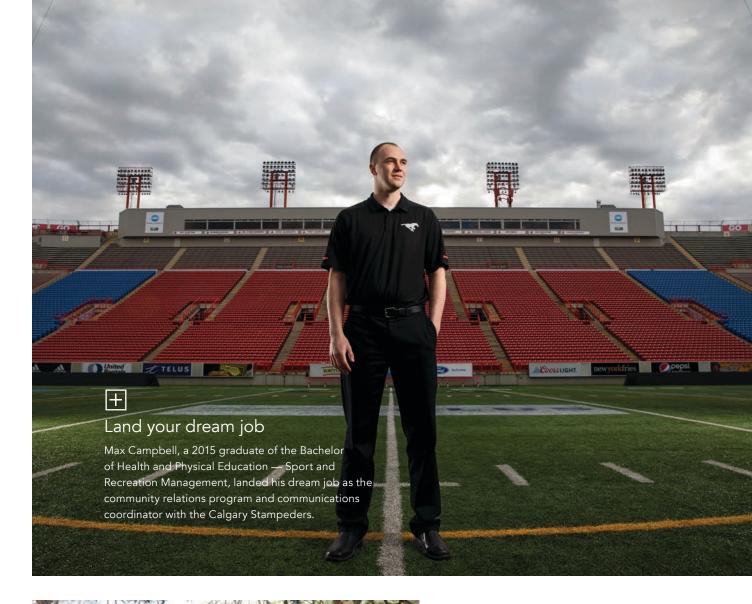

No matter what you're planning next, you can hit the ground running. Mount Royal's four-year degree programs offer skills that prepare you for your career and academic dreams. A blend of hands-on learning and intellectually challenging curriculum gets you ready for your next step.

## Start your own business

Alumna Jameela Ghann, graduate of the Bachelor of Business Administration — General Management program, began making jewelry while still in university. She merged her creative style and business acumen to create Alora, a jewelry company that helps transition women out of poverty.

Read more about alumni who own their own business at mru.ca/Marketplace.

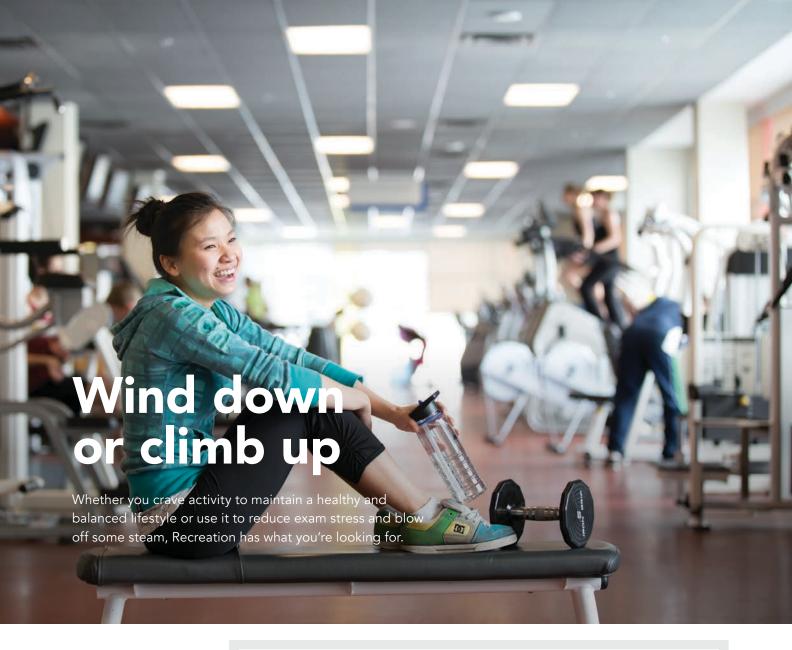

## Go to graduate school

Corrie Butler's post-secondary experience has taken her from Calgary, to Kenya, and to Wales. The Bachelor of Communication — Information Design graduate combined her work at the Canadian Red Cross, her passion to help people in need and undergraduate knowledge to complete a Master of Arts — International Public Relations and Global Communication Management at Cardiff University in 2015.

## **DID YOU KNOW?**

Full- and part-time credit students have access to Recreation as part of their tuition. So, you can reach your academic and personal goals at the same time. Get Rec'd!

## Find your active

## Fitness centre and track level

With a large selection of weight machines, free weights, cardio machines, stretching areas and a 200-metre running track, our fitness centre is the perfect space to get your sweat on.

## Fitness classes

Whether you're looking to get toned in a muscleconditioning class or want to move your way through a dance class, we've got you covered.

## Intramural leagues and drop-in sports

With a variety of leagues, including basketball, football, ice hockey and more, you get the chance to try something new in a safe and fun environment.

## Aquatic centre

Features a hot tub and a 25-m x 25-m salt water pool with eight lanes and an open dive tank area.

## Beach volleyball and tennis courts

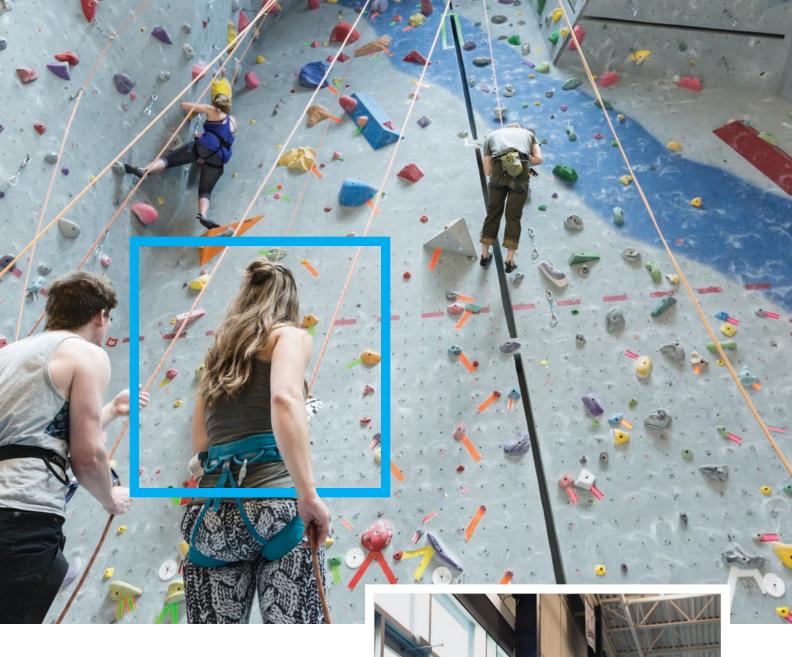

Get outside! You have access to the outdoor courts. The best part? We have all the equipment available to rent at our Customer Service Centre.

## Squash courts

Change up your routine with a match on one of our six international squash courts.

## Personal training

With the help of an experienced, certified personal trainer you can get trained and achieve your fitness goals.

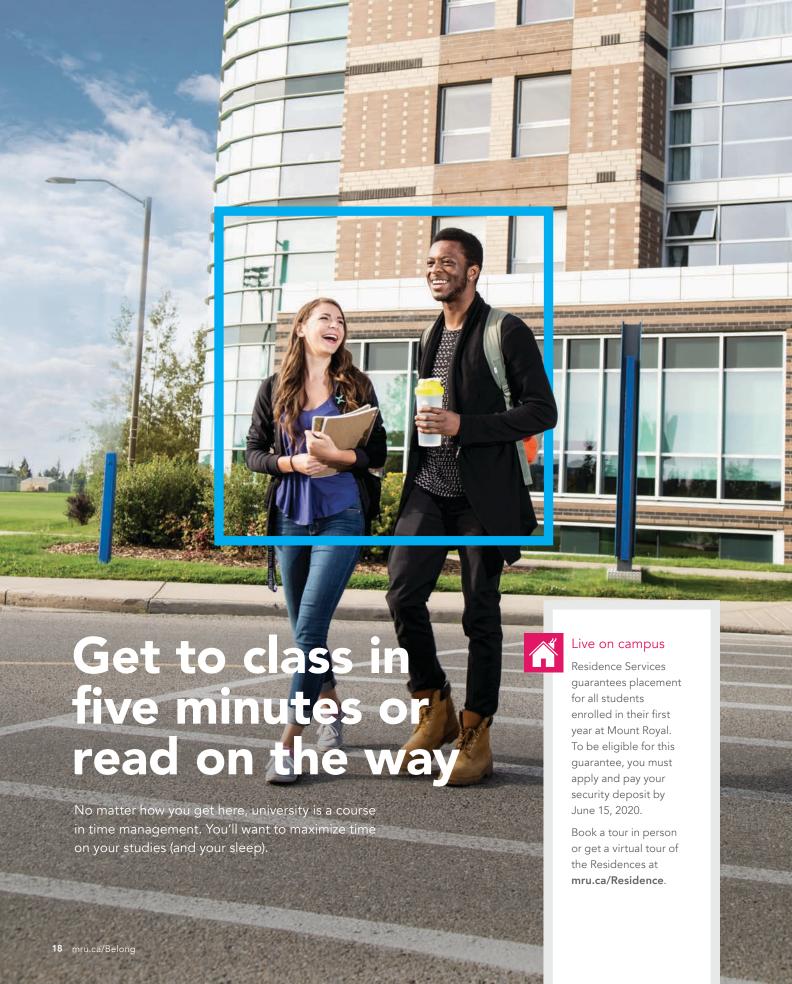

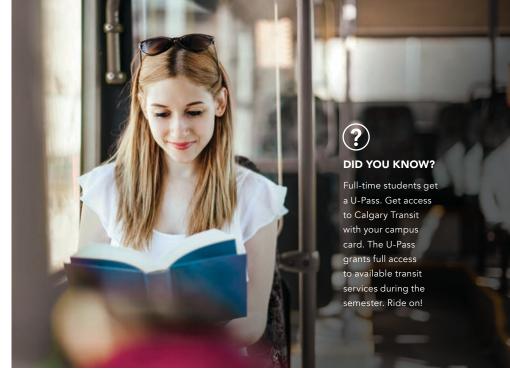

## Get elevated

Our 40-foot climbing wall features varied terrain including top rope and lead climbing that challenges both novice and experienced climbers. University is about trying new things. If you're just starting out, you can try the auto-belay units or the bouldering cave on your own.

Learn more about the facilities and activities MRU Recreation has to offer at mru.ca/Recreation.

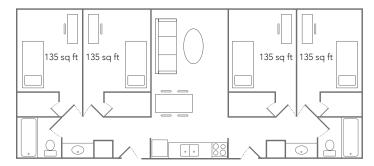

## Your home away from home

Settle in. Not only can you sleep in a little longer, you'll have quick access to campus services (like the Library or the doctor's office). Live-in staff ensure a positive and safe environment for living and learning.

## West residence four-bedroom apartment

## **About Calgary**

## Largest city in Alberta

More than 1.2 million people call Calgary home

## Relatively mild

Average daytime high in July, 24 celsius Average daytime high in January, -3 celsius

## Very sunny

Canada's sunniest major city with an average of 333 days of sun each year

## Perfect for snow sports

On average, 128 cm of snow per year

## Diverse

More than 200 ethnic backgrounds make Calgary a diverse city

## Fun

More than 30 major festivals each year, the Calgary Stampede and four professional sports teams to cheer for

## Extensive parks and pathways

Cycle or walk more than 905 kilometres of pathways and 95 kilometres of trails the largest bikeway network in North America Study your passion + earn more than letters after your name

At Mount Royal we recognize one size does not fit all. We offer a variety of programs so you can discover the one that suits you best.

Combine your classroom learning with practical experience to prepare you for whatever comes next a dream job, grad school or a startup venture.

What are you waiting for? mru.ca/Apply

## **Programs**

## What makes up a program?

## Major/Core

Each program has a major or core area of focus made up of required courses.

## **General Education**

Students select General Education (Gen Ed) courses from four clusters:

- » numeracy and scientific literacy
- » values, beliefs and identity
- » community and society
- » communication

## Electives

Students choose their own courses from hundreds of possibilities.

## Number of courses

## Degree — 4 years

Major: 16 to 31 courses Gen Ed: 4 to 12 courses Electives: 0 to 12 courses

## Diploma — 2 years

Core: 14 to 16 courses Gen Ed: 5 courses

## Enhance your education

## Work placement opportunities

At Mount Royal, we want to prepare you to hit the ground running in your career, and there's no better way than giving you the chance to experience the real world while you complete your studies.

Many of our programs include required or optional work placements. Put new knowledge to work in your field of study and potentially gain credit towards your program.

Programs with a w offer formal work placement opportunities.

## Honours

Certain degrees offer an honours stream to prepare you for academic challenges associated with graduate and professional schools.

Programs with an H offer an honours stream.

## Concentrations

Some degree programs offer concentrations that make up part of a major. Concentrations consist of 6 – 10 courses designed to enhance your focus on a specific area of study and personalize your degree towards your future career.

## **Minors**

Students in degree programs can gain knowledge outside of their major by including a minor. Minors allow you to explore other interest areas and can help you target specific fields for employment or graduate studies. With more than 40 minors to choose from, you can customize your education to suit you.

## Which program might fit you?

Who you are can help shape what you want to study. No matter what your personality type is, deciding on the right program can be a challenge. Your interests, values and skills will help point you there.

We've used the research of John Holland, PhD, to show how Mount Royal programs fit into six broad personality traits. Keep in mind that any personality type may be suited to any program, but one or more might feel like a better fit than others.

Use this guide to find out which program might be a good fit for you.

## Three things to consider...

- You may fit into more than one category.
- You can learn more about careers and where you might excel by reviewing occupational profiles at alis.alberta.ca.
- You can get further information and program details from our Admissions and Recruitment Office by visiting us at mru.ca/Admission or by calling 403.440.5000.

## **Artistic**

Are you creative, independent, expressive and original? Do you like to draw, write or perform? Do you value freedom of expression, unstructured environments, aesthetics and creative activity?

## Logical

Are you orderly and good at following a set plan? Do you like detailed procedures, rules, numbers, concrete data and policies? Do you value clear guidelines, systems, organization and defined situations?

## Realistic

Are you practical, mechanical and realistic? Do you enjoy working with tools, machines, animals and plants? Do you value structure, clear goals and results you can see or touch?

## Enterprising

Are you energetic, ambitious, organized, convincing and sociable? Do you like to lead and sell ideas or things? Do you value managing, leadership and tangible results?

Are you idealistic, friendly, trustworthy, generous and helpful to others? Do you like to help people and solve social problems? Do you value teamwork, social responsibility, honesty and generosity?

Investigative

Are you curious, precise, scientific and independent? Do you like working on puzzles, solving mathematical or scientific problems and analyzing theoretical data? Do you value abstract ideas and challenges?

## **BACHELOR OF ARTS (BA)**

4-YEAR BACCALAUREATE DEGREE

A Mount Royal BA gives you the foundation to analyze past, present and future issues with an open and creative mind. These skills will open doors to a variety of professions as well as graduate or professional studies. Focus your interests by choosing from six majors.

## Anthropology #

Investigate what it means to be human from past to present and into the future. Explore human existence through culture, social organization and the reconstruction of our past. Innovative researchers work with evidence from field work, literature, songs, film, skeletal remains and artifacts.

## Career possibilities:

- » Community development worker
- » Historic resources officer
- » Cultural resource manager
- » Museum/gallery curator

## English #

Study historical and contemporary literature, film and culture. Learn how to write and express yourself with clarity and style. Explore elements of storytelling in popular culture from graphic novels to modern fantasy and film, from indie to mainstream. Flex your creative writing muscle from poetry, fiction to non-fiction. Participate in field schools, student publications or communityengaged projects.

## Career possibilities:

- » Writer
- » Researcher
- » Editor

## History **H**

Understanding the past prepares you for the future. Studying history teaches you to communicate and research in ways that are valuable for a variety of careers. With opportunities for travel, hands-on field work and independent projects, a major in history will help you develop the skills you need to navigate a changing world.

## Career possibilities:

- Teacher (when combined with a B.Ed.)
- Public administrator
- » Lawyer (when combined with a J.D.)

## Policy Studies W H

Understand the need for effective, responsive policies in government, business or non-profit sectors. Gain practical experience during a semester work term in the world of policy-making.

## Career possibilities:

- » Economic analyst
- » Policy consultant
- » Political aide
- » Government bureaucrat

## Psychology #

Gain the scientific foundation and critical thinking skills that will give you insight into how people perceive the world and interact with others. Discover how social. cognitive and biological factors affect and are affected by the development of typical and atypical behaviour from infancy through old age.

## Career possibilities:

- » Health or human services worker
- » Counsellor
- » Research analyst
- » Psychologist (when combined with an M.A. or M.Sc.)

## Sociology #

Engage in the study of society and cultural life to better understand social structures, human interaction and social change. Learn sociological research methods and theories with a focus on social justice, diversity and inequality.

## Career possibilities:

- » Human or social services officer
- » Emergency management consultant
- » Social data analyst
- » Community outreach coordinator

## **BACHELOR OF ARTS** — **CRIMINAL JUSTICE**

(BA — CJ) **™** <sup>H</sup>

4-YEAR BACCALAUREATE DEGREE

Study in Alberta's only four-year Bachelor of Arts — Criminal Justice program and expand your understanding of law enforcement, community outreach and victim services. Through theory and hands-on learning, such as court visits and mock trials, gain a strong foundation for the workplace or graduate studies. In the latter part of the degree, gain work experience in a justice-related agency with practicum opportunities.

## Career possibilities:

- » Police officer
- » Crime analyst
- » Community outreach worker

## **BACHELOR** OF INTERIOR DESIGN

(BID) •

4-YEAR BACCALAUREATE DEGREE

Create environments that shape how we live, work, play and learn. Informed by theories of design, an understanding of building systems and the application of technology, you will develop critical design thinking skills. Through assignments, exercises and studio-based projects, apply and expand your design abilities. Gain industry experience with a required 450-hour paid internship.

## Career possibilities:

- » Interior designer (interior design or architectural firms)
- » Facility planner
- » Manufacturer's representative
- » Design consultant (home builder, developer or retail)

## **BACHELOR OF BUSINESS ADMINISTRATION** (BBA)

4-YEAR BACCALAUREATE DEGREE

If business is your passion, a Mount Royal BBA will help you build a solid foundation for success in the global economy through a combination of theory and practical experience. As a BBA student, you start in general management and have the option to focus your interests by choosing from seven majors. You can also enhance your degree by selecting a minor that suits your personal and career interests.

## General Management W H

Accounting W H

Understand the "big picture" in a variety of business sectors. Choose from a wide range of courses to obtain a general business education. In addition to 16 core courses, students enrolled in the general management major are encouraged to complete one of the following concentrations:

## Innovation and Entrepreneurship

Designed to graduate curious and entrepreneurial minds who are innovative drivers of business development in dynamic, growth-oriented companies that they join or start.

## Social Innovation

Provides graduates with experience to lead, design and execute highimpact, transformative change in our communities.

## Career possibilities:

- » Business development analyst
- » Management consultant
- » Client services specialist

With the expanding global economy, changing tax regulations and new financial reporting standards, accountants are in high demand. Gain knowledge to meet the need for skilled accountants in many organizations and get an edge with practical, hands-on experience. Graduates are eligible to apply to enter into the Chartered Professional Accountants (CPA) designation education program.

## Career possibilities:

- » Auditor (internal and external)
- Public management or tax accountant
- » Controller

Meet a few MRU grads turned entrepreneurs at mru.ca/Innovators.

## Finance W H

Gain a solid foundation in analytical finance to prepare for growing demand in banking investment management and data modelling. Students in the finance major select from one of two concentrations:

## Financial Analysis

Graduates gain a comprehensive grounding in analytical finance through a combination of theory and application using advanced modelling and financial data management systems.

## Career possibilities:

- » Commercial banking
- » Corporate financial or treasury analyst
- » Securities evaluator
- » Marketing and trading asset management

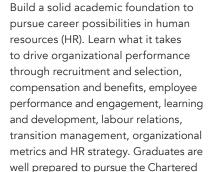

## **Financial Services**

Graduates earn a thorough education in both the principles and practices of financial services supplemented with a broad knowledge of the general principles of investments and the corporate finance function.

## Career possibilities:

- » Retail banking
- » Financial planning
- » Securities trading
- » Wealth management

## Human Resources W H

## Career possibilities:

designation.

Training and development consultant

Professionals in Human Resources (CPHR)

- Labour relations advisor
- » Compensation analyst

## International Business W H

Put your business skills to work anywhere in the world. Through a combination of theory and application, students enrolled in the international business major will gain an in-depth knowledge of global trade, crosscultural management, international supply chain management, international marketing, finance, trade management and foreign market entry strategies.

## Career possibilities:

- » International trade commissioner
- » Import/export compliance advisor
- » Management consultant
- » International trade policy analyst

## FACULTY OF BUSINESS AND COMMUNICATION STUDIES

## Marketing W H

Professional marketers navigate the dynamic world of brands, evolving stakeholder attitudes, media industry transformation, design trends, competitor innovation and global economic shifts. Gain the knowledge needed to become a marketing professional who can effectively blend insight, strategy and creativity to help bring extraordinary products, services and campaigns to the marketplace.

## Career possibilities:

- » Advertising account executive
- » Marketing director
- » Brand manager

## Supply Chain Management W H

Stay ahead of trends in globalization, international trade and the growing need for businesses to develop worldwide distribution processes. Students selecting the supply chain management major will develop a comprehensive understanding of production planning, logistics management, purchasing, inventory management, material handling, transportation, enterprise resource planning and global logistics.

## Career possibilities:

- » Procurement analyst
- » Distribution scheduler
- » Process designer
- Operational performance manager

## **AVIATION**

2-YEAR DIPLOMA

Be fully equipped to handle the role of a pilot, both in the air and on the ground. While making flights across Western Canada, you'll earn the training and flying time that will prepare you to take the Transport Canada commercial pilot licence exams. A Canadian Private Pilot Licence is required for entry into this program.

## Career possibilities:

- » Commercial, charter or corporate pilot
- » Airline administrator
- » Flight instructor

## DID YOU KNOW?

In addition to 420 hours of aviation education and 200 hours of total flying experience with the Mount Royal fleet, Mount Royal also provides training on a state-of-the-art flight simulator with high-resolution visuals on a 250-degree wraparound screen.

## **BACHELOR OF COMMUNICATION** (BCMM)

4-YEAR BACCALAUREATE DEGREE

Mount Royal's Bachelor of Communication is Canada's only four-year communication degree to offer majors in four distinct fields: Broadcast Media Studies, Information Design, Journalism and Public Relations.

#### Broadcast Media Studies @

Develop the technical skills and theoretical understanding to produce professional and engaging audio and video content for a variety of audiences. Take advantage of state-of-the art video production facilities and an online radio station while learning to write and produce commercials, news, documentaries, podcasts, advertising, corporate video and reality television.

#### Career possibilities:

- » Digital news writer
- » Audio and video producer
- » On-air media host/anchor
- » Current affairs reporter

#### Information Design

Use human-centric design processes in problem-solving, design-thinking, writing, data visualization and usability testing to plan and deliver the right content, at the right time, to the right audience. Learn to develop information products that are clear, concise and visually engaging in online, print, mobile and even augmented and virtual reality environments.

#### Career possibilities:

- » Information designer
- » User-experience designer
- » Content strategist
- » Graphic and web designer

#### WHAT IS **INFORMATION DESIGN?**

Information designers translate complicated information (data) into simple, understandable and useful content for business and citizens, advocating for all users.

#### Journalism 🚾

Establish a professional foundation through communication theory and direct practice. Learn to structure information for different audiences and produce multimedia projects to a high standard as you gain new skills in gathering information, interviewing, writing, editing, reporting, photography, digital design and online delivery.

#### Career possibilities:

- » Multimedia journalist
- » Social media specialist
- » Communications manager

#### Public Relations

Focus on areas such as interpersonal and organizational communication, crisis and issues management, and communication planning. Learn how to successfully build and maintain relationships with key audiences and create strategic programs — skills that are integral to an organization's success.

- » Corporate communications specialist
- » Strategic social media adviser
- » Community relations coordinator
- » Media relations specialist

## **BACHELOR OF CHILD STUDIES (BCST)**

4-YEAR BACCALAUREATE DEGREE

Mount Royal's distinctive four-year BCST emphasizes strong theoretical foundations in working with children, youth, families and communities. The Child and Youth Care Counsellor and Early Learning and Child Care majors provide experiential learning opportunities with organizations serving children, youth and families.

#### Child and Youth Care Counsellor

Make a difference in the lives of vulnerable young people and their families. Learn the skills of counselling and advocacy in working with at-risk children and youth. Gain knowledge and experience in areas such as relational practice, child and adolescent development, mental health, and assessment and intervention strategies.

#### Career possibilities:

- » Child and youth care counsellor
- » Youth justice worker
- » Family and behavioural support worker
- » Inclusion specialist

#### **Early Learning** and Child Care

Develop a holistic understanding of early childhood education and care. Students will learn through classroom instruction and practical experience with children, families and professionals working in community settings. Gain knowledge and experience in child development, planning responsive learning environments, curriculum and program design, and advocacy.

#### Career possibilities:

- » Early childhood educator
- » Licensing officer
- » Family dayhome consultant
- » Family support worker/parent educator

## SOCIAL WORK @

2-YEAR DIPLOMA

Blend theory and application as you learn to work with individuals, families and communities to assess, intervene and provide support. Graduates are eligible to apply for registration with the Alberta College of Social Workers and/ or pursue a degree in social work.

- » Social worker
- » Case worker/case manager
- » Counsellor

## **BACHELOR OF EDUCATION** — **ELEMENTARY**

(B.Ed. — Elementary) 

■

4-YEAR BACCALAUREATE DEGREE

A blend of educational theory and classroom experience will prepare you to teach kindergarten through middle school. The Bachelor of Education — Elementary provides students with extensive weekly experiential learning opportunities with partnered schools in the community during years one and two. This means you'll see things from a teacher's perspective from the start. Practica in years three and four provide further integrated and extended experience to develop your skills as an innovative, reflective teacher.

#### Career possibilities:

- » Teacher
- » Tutor
- » Curriculum developer/administrator

## **BACHELOR OF MIDWIFERY**

(B.Mid.) •

4-YEAR BACCALAUREATE DEGREE

In Alberta's only midwifery degree program, students work with faculty and practising midwives to blend theory with practice, providing care to childbearing women and their families. This degree prepares you to become a primary-care provider in the growing field of midwifery. Graduates are prepared to write the Canadian Midwifery Registration Examination and become registered midwives.

#### Career possibilities:

- » Midwife
- » Health educator or researcher
- » National health worker

## **BACHELOR OF NURSING**

(BN) •

4-YEAR BACCALAUREATE DEGREE

Learn about health, wellness, collaborative health care, and how to effectively engage with communities. Prepare for professional practice in a variety of health-care settings and capitalize on the demand for nursing graduates in Alberta, Canada and around the world. Graduates are prepared to write the required National Council Licensure Examination and become Registered Nurses.

- » Registered Nurse (RN)
- » Health administrator
- » Health education specialist

## **BACHELOR OF HEALTH** AND PHYSICAL EDUCATION (BHPE)

4-YEAR BACCALAUREATE DEGREE

With a comprehensive perspective on health and physical education unique to Western Canada, Mount Royal's BHPE presents a balanced emphasis on both health and wellness. Going beyond traditional program offerings, the BHPE focuses on creating experienced and well-rounded graduates prepared to be leaders in their community. As a BHPE student, you can focus your interests by choosing from one of four majors.

#### Athletic Therapy

Focused on the prevention and care of injuries, athletic therapists work closely with athletes and active individuals to contribute to their overall health. Graduates are prepared to take the Canadian Athletic Therapists Association board exam or follow a career in a related health-care field.

#### Career possibilities:

- » Certified Athletic Therapist
- » Graduates may also pursue medicine, physiotherapy or graduate school in kinesiology

#### Ecotourism and Outdoor Leadership

Learn in a unique program that explores sustainable tourism, business, sociocultural heritage, outdoor adventure, leadership and communication. Experience real-world, adventure-based learning with backpacking, canoeing and your choice of experiences such as mountain biking, skiing, wilderness survival or rock climbing.

#### Career possibilities:

- » Ecotourism planner
- » Parks interpreter
- » Outdoor leadership quide

## Physical Literacy

Combining the foundations of a physical education degree with a comprehensive focus on health promotion and disease prevention, you will be prepared to be a leader in your community. Your distinctive education will allow you to make a difference in the lives of Canadians through a holistic approach to good health that has nutrition, exercise and life balance at its core.

#### Career possibilities:

- » Health educator
- » Coach
- » Fitness trainer or instructor
- » Graduates may also pursue medicine, physiotherapy, education or other professional programs

#### WHAT IS **PHYSICAL LITERACY?**

Physical literacy is the motivation, confidence, physical competence, knowledge and understanding to take responsibility for — and value - engagement in physical activities for life.

#### Sport and Recreation Management @

Get the best of both worlds as you benefit from an innovative blend of theory and real-world experience, working with sports teams or in recreational facilities. Develop business acumen that will prepare you to launch your own business venture or bring an entrepreneurial perspective to an organization.

- » Sport marketer
- » Community recreation programmer or administrator
- » Sport and recreation consultant

## **BACHELOR OF SCIENCE** (B.Sc.)

4-YEAR BACCALAUREATE DEGREE

Extensive lab and field work, undergraduate research opportunities and faculty who are passionate about science and one-on-one teaching will ready you to excel in scientific, business, legal and professional workplaces. This degree will also prepare you for professional or graduate studies. Pursue a general science major or focus your interests by choosing from one of five other direct-entry majors.

#### General Science

The general science major will introduce you to the major disciplines in science, mathematics and technology. Choose from a range of courses to obtain a general science education. As part of the program, you will complete two of the following six concentrations:

#### Biology

A concentration in biology provides students with the opportunity to learn about the science of life in one of three areas: anatomy and physiology, cellular and molecular biology, and ecology and evolution.

#### Chemistry

Students who choose a concentration in chemistry will receive a mix of classroom and practical laboratory instruction with a focus on organic chemistry and spectroscopy (the study of molecular structures).

#### Geography

In the Geography concentration, students can take courses in either physical geography and conservation, or mapping and geographic information systems (GIS).

#### Geology

Students in the geology concentration can select courses in physical geology, paleontology, hydrogeology, and others.

#### **Mathematics**

A concentration in mathematics gives students the tools needed to understand the mathematical basis of all sciences. Students will take courses in algebra, calculus, modelling and statistics.

#### **Physics**

In the physics concentration, students study mechanics, waves and optics, leading up to a capstone course in quantum mechanics.

#### Career possibilities:

- » Teacher (when followed by a B.Ed.)
- » Physician (when followed by an MD)
- » Laboratory technician
- » Data administrator

#### Biology

The biology major gives you a solid foundation in the study of living organisms and allows students the ability to take a number of courses, including: genetics, cell biology, microbiology, molecular biology, ecology, evolution, anatomy and physiology. Enhance your Biology major through hands-on, practical learning experiences. Enjoy the flexibility to specialize your degree by completing courses leading to concentrations in cellular and molecular biology, anatomy and physiology, or ecology and evolution.

- » Veterinarian (when followed by DVM program)
- » Genetic counsellor (when followed by a graduate degree)
- » Physician (when followed by an MD)
- » Food quality inspector

## **BACHELOR OF COMPUTER INFORMATION** SYSTEMS (BCIS) ©

4-YEAR BACCALAUREATE DEGREE

#### Chemistry

Gain a deeper understanding of the molecular processes behind the machinery of life. Enjoy kinaesthetic learning, get into the laboratory and see how science is practised in the community. Learn how to design the newest materials and pharmaceuticals to improve quality of life for people throughout the world.

#### Career possibilities:

- » Professional chemist (with work experience)
- » Analytical lab services (with work experience and/or a graduate degree)
- » Pharmaceutical/medicinal scientist (with a graduate degree)
- » Physician (when followed by an MD)

#### **Computer Science**

Graduates of a computer science major will be able to pursue high-demand technical jobs in a rapidly transforming economy. Enjoy a variety of courses including computing, mathematics, programming, computing theory, operating systems and networking. Beyond the computer, you'll enhance your Computer Science major with skills like communication, creativity, critical thinking and collaboration.

#### Career possibilities:

- » Software developer
- » Software engineer and designer
- » System architect
- » IT manager

#### Environmental Science

Make a positive mark on the environment by studying issues related to climate change, environmental protection, mitigation and management, and environmental policies. Steer stakeholders in the right direction with your knowledge of environmental science and sustainable development. Graduates are eligible to register as a professional agrologist.

#### Career possibilities:

- » Environmental scientist
- » Resource manager fisheries, forestry and wildlife
- Enivronmental monitor
- Reclamation specialist

#### Geology

Gain knowledge that prepares you for work in the exploration and development of Earth's resources in an environmentally responsible manner - in the classroom, out in the field and through research. Graduates may apply to become a member of the Association of Professional Engineers and Geoscientists of Alberta (APEGA).

#### Career possibilities:

- » Petroleum geologist
- » Mineral exploration geologist
- Environmental geologist
- » Geological surveying and other research positions

Focus on the practical application of computer systems in a business environment. Develop a double skill set that combines technical understanding with solid business acumen in software development, systems analysis and project management.

- » Business analyst
- » Web/mobile application developer
- » Network administrator

"One of the biggest things MRU has going for it is its small classes, which foster an environment of working with peers. You're not just in it for yourself."

**BRANDON SHOKOPLES** 

Bachelor of Science graduate

## **UNIVERSITY ENTRANCE OPTION**

Are you planning to pursue a bachelor's degree or diploma and need to boost your grades or complete missing admission requirements?

Keep your education moving forward while becoming a stronger applicant for a Mount Royal degree or diploma. The University Entrance Option (UEO), which may include taking Grade 12 equivalent courses, provides a structured curriculum to get you started on your universitylevel coursework while you prepare for admission into your intended degree or diploma program.

While the University Entrance Option doesn't quarantee admission to a subsequent degree or diploma at Mount Royal, it does provide an advantage for most programs. You may be eligible to meet a pre-established admission grade point average (GPA) depending upon your post-secondary course taking pattern.

Learn more at mru.ca/UEO.

## **OPEN STUDIES**

Do you want to explore your options for an academic program? Take courses that will help you choose your eventual program of study or pick up courses to meet admission requirements. Open Studies gives students interested in a flexible learning structure the freedom to explore different courses and program options.

Expand your knowledge and work toward further education by completing Grade 12 equivalent courses to meet admission requirements for your chosen program. Or, complete courses that may be transferable to a Mount Royal degree or diploma program.

Learn more at mru.ca/OpenStudies.

## INTERNATIONAL **STUDENT PATHWAY**

Are you an international student currently living outside of Canada who is missing one or more admission requirements for your intended degree or diploma program? The International Pathway Program provides an opportunity to complete Mount Royal's highest level of the English language program while completing missing high school course requirements. At the same time, you can begin taking post-secondary courses towards your intended degree or diploma. You may also qualify for a conditional offer of admission to your future program at MRU.

Learn more at mru.ca/InternationalPathway.

## **INDIGENOUS** UNIVERSITY **BRIDGING PROGRAM**

Get a feel for post-secondary while you complete courses and/or boost your grades to prepare for admission to your intended program. The Indigenous University Bridging Program supports you with tutorial services, academic advising, social events and diverse cultural teachings led by Iniskim Centre staff.

Learn more and apply directly through the Iniskim Centre at mru.ca/IUBP.

## **OCCUPATIONAL DIPLOMAS AND CERTIFICATES**

#### (Ministry approved)

Mount Royal University's Faculty of Continuing Education and Extension offers the following credit-free diplomas and certificates for individuals interested in these specific careers. Applicants apply through Apply Alberta for these offerings.

- » Funeral Service Diploma
- » Funeral Director Certificate
- » Embalmer Certificate
- » Massage Therapy Diploma
- » Personal Fitness Trainer Diploma

Learn more at

mru.ca/OccupationalPrograms.

### **CERTIFICATES**

Mount Royal University certificates are primarily for individuals who have previous post-secondary education, such as a degree or diploma.

- » Advanced Studies in Critical Care Nursing
  - » Critical Care Nursing
  - » Emergency Nursing
- » Athletic Therapy (Advanced Certificate)
- » Bridge to Canadian Nursing
- » Business Administration
  - » Advanced Accounting
  - » Human Resources
  - » Marketing
- » Environmental Science

# Become a **Mount Royal student** in a few easy steps

#### Let's get to know each other

- Create an mr4u.mymru.ca
  - » get more information on your areas of interest
  - » book a campus tour
  - » read important messages and updates from us
- Follow MRU on social media
- Attend an Admission Information Session and take a campus tour
- held in October every year
- Meet with a recruitment officer

## Discover program options

- ☐ Explore your interests (refer to pages 28 to 29)
- Review program information (refer to pages 30 to 43)
- Review the admission requirements chart at the back of this book

## Complete your application

- ☐ Apply online
  - » Apply for early admission Oct. 1, 2019 to Feb. 1, 2020 at mru.ca/Apply
  - » Apply for Residence beginning Oct. 1, 2019 at mru.ca/Residence
  - » Apply for scholarships and bursaries Oct. 1, 2019 to March 1, 2020 at mru.ca/Awards
  - » Check your application status at mr4u.mymru.ca or the applicant tab at mymru.ca

# **Application process**

#### mru.ca/Admission

Apply for admission (choose one or two programs)	Apply for early admission Oct. 1, 2019 – Feb. 1, 2020 (applications continue to be accepted beyond this date for most programs)
Receive acknowledgement email	Within one week of application
Apply for scholarships and bursaries	Oct. 1, 2019 – March 1, 2020
Apply for residence	Oct. 1, 2019 – ongoing
Application assessed by MRU	Ongoing: Nov. 1, 2019 – Aug. 31, 2020
Receive conditional admission offer	Ongoing: Nov. 1, 2019 – Aug. 31, 2020
Accept your admission offer/pay Tuition Deposit	Within two to three weeks of offer

Contact Accessibility Services (if needed)  Get advised and register for classes using mymru.ca  Apply for student loans  Final, official transcripts due	April – May 2020  June 2020  Aug. 1, 2020

# Invest in your future

## Plan your budget for life as a Mount Royal student

Estimated expenses <sup>1</sup>	Living on campus	Living at home	Living off campus
Tuition/fees for Canadian citizens or permanent residents <sup>2</sup>	\$6,600	\$6,600	\$6,600
Tuition/fees for international students <sup>2</sup>	\$21,900	n/a	\$21,900
Books and supplies	\$1,500	\$1,500	\$1,500
Residence/rent <sup>3</sup>	\$5,992 – \$8,440 4	n/a	\$6,000 – \$8,000
Food	\$3,000	\$3,000	\$3,000
Transportation	Calgary Transit U-Pass included in fees	Calgary Transit U-Pass included in fees	Calgary Transit U-Pass included in fees
Clothing/personal care	\$1,100	\$1,100	\$1,100
Entertainment	\$600	\$600	\$600
Total for Canadian citizens or permanent residents	\$18,792 – \$21,240	\$12,800	\$18,800 – \$20,800
Total for international students	\$34,092 – \$36,540	n/a	\$34,100 – \$36,100

<sup>&</sup>lt;sup>1</sup> Average estimated costs for eight months (one full academic year) based on 2019/20

#### **DID YOU KNOW?**

If you are an Alberta resident, you can apply for government loans online at studentaid.alberta.ca beginning in June.

If you live outside Alberta, look into applying for student loans assistance from your home province or territory.

<sup>&</sup>lt;sup>2</sup> Estimated costs based on five courses per semester. Additional fees may apply for specific programs.

<sup>&</sup>lt;sup>3</sup> Based on a variety of circumstances, from shared accommodation with multiple roommates to independent apartment living

<sup>&</sup>lt;sup>4</sup> Includes application and programming fees

## Scholarships and bursaries

Post-secondary education is an investment in your future and we believe tuition should not be a barrier to meeting your goals. Academic success, your financial situation and extracurricular participation are considered when determining your eligibility for various awards.

Mount Royal offers hundreds of awards, providing students with more than \$3 million in scholarships and bursaries.

Learn more at mru.ca/Awards.

Entrance award	Criteria	Amount
President's Scholarship	Academic achievement, extracurricular activities and leadership	\$7,500 (\$3,750 Fall Semester; \$3,750 Winter Semester)
Entrance Awards for Academic Excellence	Academic achievement — 90% in top two Group A subjects (competitive admission average) 80% final average in five appropriate courses	\$1,000
Entrance Bursaries	Financial need	\$1,000
Additional Scholarships and Bursaries	Criteria vary	\$500 – \$6,000

### How to apply for scholarships and bursaries

To be eligible for scholarships and bursaries, apply for early admission from Oct. 1, 2019 to Feb. 1, 2020 at mru.ca/Apply. Your MRU student ID number, sent to you by email, is required to apply for awards. Apply for scholarships and bursaries from Oct. 1, 2019 to March 1, 2020 at mru.ca/Awards.

#### INDIGENOUS STUDENT FUNDING

Indigenous students may qualify for third-party funding. In addition, scholarships and bursaries dedicated to Indigenous students are also available at mru.ca/ISF.

Bachelor of Education — Elementary <sup>4</sup>	ELA 30-1 65% Math 30-1 or 30-2 or a language 30 50%	85-90%	70%
Bachelor of Health and Physical Education (Athletic Therapy [AT], Ecotourism and Outdoor Leadership, Physical Literacy, Sport and Recreation Management)	ELA 30-1 60% Math 30-1 or 30-2 50% Biology 30 50%	70-80% [AT] 90-95%	65%
Bachelor of Interior Design <sup>3 P, 4</sup>	ELA 30-1 65% Math 30-1 or 30-2 50%	70-75%	65%
Bachelor of Midwifery <sup>3 N, 4</sup>	ELA 30-1 65% Math 30-1 or 30-2 65% Biology 30 65% Chemistry 30 65%	95-100%	70%
Bachelor of Nursing <sup>4</sup>	ELA 30-1 60% Math 30-1 or 30-2 60% Biology 30 60% Chemistry 30 60%	93-98%	70%
Bachelor of Science (General Science [GS], Biology [BI], Chemistry [CH], Environmental Science [ES], Geology [GE])	ELA 30-1 60% Math 30-1 60% Chemistry 30 60%	[GS, ES, GE] 65-70% [BI, CH] 85-90%	65%
Bachelor of Science — Computer Science	ELA 30-1 60% Math 30-1 65%	80-85%	65%
DIPLOMA			
Aviation <sup>3 M</sup>	ELA 30-1 60% Math 30-1 60%	65-70%	60%
Social Work	ELA 30-1 65% Social Studies 30-1 or Aboriginal Studies 30 60%	80-85%	60%
OTHER OPTIONS			
University Entrance Option	Admission requirements same as degree programs, with the exception that students may present an alternate Group A instead of ELA 30-1.	60-65%	60%
Open Studies	No specific course requirements		

<sup>1</sup> Competitive average range is based on your top two Group A courses. This range is based on Fall 2019 competitive admission average and is a guideline only.

<sup>&</sup>lt;sup>2</sup> Minimum final average is based on the five courses required for high-school admission category applicants (see next page)

<sup>&</sup>lt;sup>3</sup> Additional non-academic requirements: N — Interview P — Portfolio M — Class 1 Aviation Medical and Canadian Private Pilot License

 $<sup>^{\</sup>rm 4}$  Application and document deadline Feb. 1, 2020

## **Admission categories**

#### High school applicant

You will be considered a high school applicant if you are in your final year of high school, if you have left or completed high school, and if you have completed fewer than eight post-secondary courses. Your competitive (conditional) admission average will be based on your top two Group A courses at time of review.

#### Post-secondary applicant

You will be considered a post-secondary applicant if you have completed four or more transferable post-secondary courses by Dec. 31, 2019 and will have completed eight or more by June 30, 2020. Your competitive (conditional) admission average will be based on your four most recently completed transferable post-secondary courses as of Dec. 31, 2019.

#### Mature applicant

You will be considered a mature applicant if the previous categories do not apply to you and you are at least 21 years old by Sept. 1, 2020. Your competitive (conditional) admission average will be based on your top two Group A courses at the time of review.

#### Course requirements

For specific courses required by each program, see the admission requirements chart on the previous page.

#### High school applicant

#### Degree programs

Specific courses required by the program must be included in your five subjects below:

- ☐ English Language Arts (ELA) 30-1
- ☐ Group A course
- ☐ Group A course
- ☐ Group A or B course
- ☐ Group A, B or C course

#### Diploma programs

Specific courses required by the program must be included in your five subjects below:

- ☐ English Language Arts (ELA) 30-1
- ☐ Group A course
- ☐ Group A, B or C course
- $\square$  Group A, B or C course
- $\square$  Group A, B or C course

#### Post-secondary applicant

Specific courses required by the program must be presented for admission.

#### Mature applicant

Specific courses required by the program must be presented for admission:

- $\hfill \Box$  English Language Arts (ELA) 30-1
- ☐ Group A course

#### Course categories

#### Group A

- » English Language Arts 30-1
- » Mathematics 30-1 (or Mathematics 30-2 if accepted by the program)
- » Mathematics 31
- » Biology 30
- » Chemistry 30
- » Physics 30
- » Science 30
- » Aboriginal Studies 30 (5 credit)
- » Social Studies 30-1
- » French 30, 31, French Language Arts 30, Français 30
- » All other languages 30

#### Group B (courses must be five-credit)

- » Art 30 or 31
- » Computer Science 3 or 4 (CTS Advanced)
- » Drama 30
- » Music 30 (choral, instrumental, general)
- » Physical Education 30
- » Religious Studies 35
- » Social Studies 30-2

#### Group C

- » Other five-credit Grade 12 courses or a combination of two three-credit Grade 12 courses
- » Five credits of advanced career and technology courses

#### Note

- » Special projects cannot be used for admission
- » You cannot use two courses from the same subject area, with the exception of Math 30-1 or 30-2 and Math 31

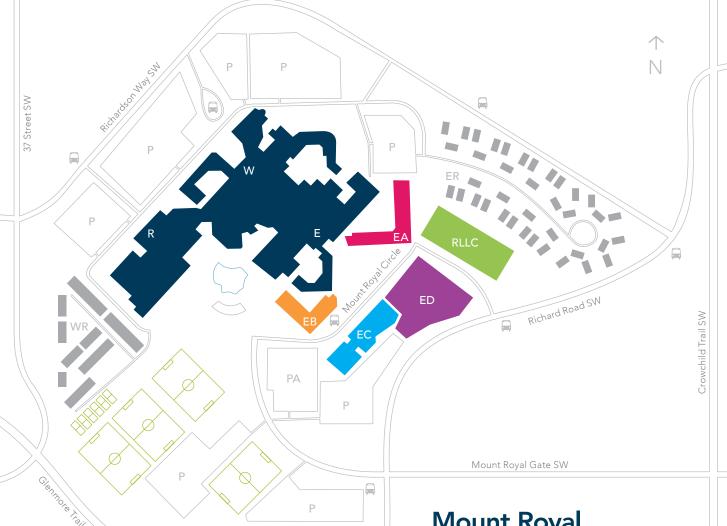

## International Baccalaureate (IB) and Advanced Placement (AP)

Students in IB or AP courses are required to provide a final, official transcript. Courses presented for admission with minimum required grades may be used for admission and transfer credit. mru.ca/Admission

This information was correct at time of publication. Please check with the Admissions and Recruitment Office or visit mru.ca/Admission for up-to-date information on the admission requirements and curriculum for the program and semester in which you intend to enrol.
