

The Campus Center

Gateway to Campus and Community Life
at UMass Boston

Welcome

Access. Diversity. Excellence. These founding principles of UMass Boston are also the foundation of the Campus Center's many programs and services, even its architecture. More than just a building, the Campus Center is an epicenter of activity and a hub for community development.

Here under one roof, students can find a cozy, well-lit place to study, someone to help them with academic and administrative issues, activities and events to enjoy with other students, or a place to eat and socialize with friends. The Campus Center brings together all these things—and more—to support:

Student Life and Student Involvement

Consolidating student activities creates a strong sense of community and provides opportunities for student involvement and development through social, cultural, recreational, and leadership experiences.

Student and University Services

Housing a variety of offices and service areas, the Campus Center facilitates faster, more convenient, and more efficient delivery of academic, administrative, and campus services that support students, faculty, staff, and guests.

A young man with short brown hair and glasses is smiling broadly at the camera. He is wearing a brown t-shirt with the word "ABERCROBIE" printed in yellow. He is sitting at a table with his arms crossed, and a red folder or book is open in front of him. The background is a bright, modern study center with large windows and white walls.

The Campus Center becomes the

during final exam periods in the fall and spring semesters. At those times, common spaces and lounges are open 24 hours a day.
