“

Hi y'all! This is Song, who graduated in May 2019 at NSU. I am working at University of Nebraska at Omaha, Nebraska after graduation. I have always thought NSU is a small but nice university throughout the five years I was there. After graduation and working at a bigger city for one year, this impression is not faded away but only gets reconfirmed.

NSU is just the right size with an extremely convenient commuting distance, up-to-date teaching/learning devices and professional university employees. Going back to visit NSU is definitely on my bucket list.

“

Hello NSU! This is Dev from India, an MBA grad who never stopped dancing on campus. Currently I'm in India working for CISCO as an Analyst. I was an off-road motorcycle enthusiast before joining NSU and had to give it a break until I graduated with my master's degree. But, once I was back home and started working, I realized I had to go after my dreams of becoming a national champion. How did i do it? It was the skills and knowledge I gained from my experience at NSU on how to manage things and be organized.

One key lesson I learned at NSU is, 'If you wanna achieve something, take that first step towards it and the whole world will support you.' That's exactly how I was able to host the events with the support of International office, student affairs, etc. on campus. I had an idea of showing my culture and the whole NSU made it happen. The best years of my life are the ones I spent at NSU.
