

Your smartest start to top universities worldwide

UniSmarter lets you start the 1st semester of your degree online - which then leads you to study overseas in a world-class university of your choice.

Why UniSmarter?

Entry to multiple global universities

Developed in collaboration with leading international institutions, UniSmarter modules are recognised for admission with advanced standing at top UG and PG programs around the world.

Save cost

By starting online, you can save up to 65% on costs - with no extra housing, living or travel expenses - while you earn credits in your overseas program.

Save time

Start immediately! Get a head start in your program by starting right away. Each module is just 7 weeks in duration, so you can complete them while you prepare to go overseas.

Tailored for student success

With live sessions and your own personal tutor, UniSmarter's flexible online program has a 90% demonstrated success rate. Speak to your tutors 7 days a week on phone, text, email or chat.

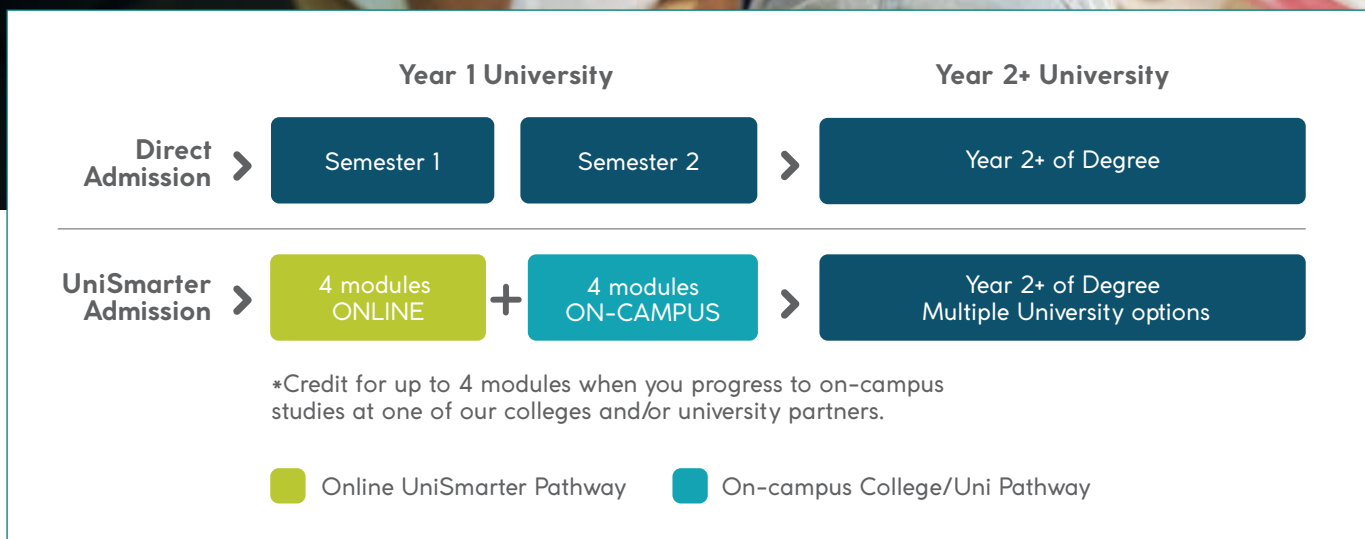

Prepared for overseas education

Demonstrate your commitment to securing an international degree before arriving. Get to know your future university through virtual tours, 'lecturer in the field', and Facebook Live.

Get a dynamic, real-world education online

The virtual learning environment delivers the most relevant and up-to-date content. Get experience for future roles by working remotely and developing peer connections online.

What will you study?

The completion of these modules provides advanced standing in various programs at educational institutions in Australia, UK, UAE, as well as in Sri Lanka.
