COMMERCE COURT CAMPUS

WEST PARRY SOUND CAMPUS

Welcome to Canadore College!
***Great Things Happen Here* is more than a slogan – it is our promise to you.**

We are here to prepare you for an exciting and meaningful career just as we have done for more than 47,000 alumni working across the globe.

I know that Canadore College will live up to this promise because I, too, am a proud Canadore graduate.

A handwritten signature in black ink that reads "George Burton". The signature is written in a cursive, flowing style.

George Burton, President and CEO
askthepresident@canadorecollege.ca

North Bay is Closer Than You Think

In the **City of North Bay**, you can enjoy good restaurants, movies, shopping, live theatre, community festivals and events, and a vibrant nightlife. The City is also home to OHL team, the North Bay Battalion.

Endless Outdoor Activity

Our countless lakes, rivers, forests, canoe routes and trail systems provide endless outdoor activity. The City is nestled between two beautiful lakes, Lake Nipissing and Trout Lake, presenting limitless water recreation opportunities. We also have a ski hill and a number of golf courses, parks, baseball diamonds and soccer fields. And, for the avid jogger, cyclist or in-line skater, the Kate Pace Way and the Kinsmen Trail combine to offer 28 km of multi-use paved trails stretching from one end of the City to the other.

The City of North Bay Helps You Get Around

Bus service is available to our three local campuses, and all full-time students receive a bus pass with tuition for travel from September through April.

SUPPORTIVE LEARNING

At Canadore, we care that you succeed. We focus on 360-degree student development. From finances to family life, we have supports in place to help you every step of the way.

Affordable Education

Canadore has an extensive financial assistance program for both full-time and part-time students, with approximately **\$1.7 million in scholarships and bursaries being awarded annually.**

Scholarships, Bursaries and Awards

Canadore has many scholarships, bursaries and awards available, based on merit, financial need and emergency funding. Submit the online scholarship application to apply. canadorecollege.ca/money

Don't forget: External organizations also provide awards, scholarships and/or bursaries. Application procedures and deadlines are specific to each one of these awards.

OSAP Ontario Student Assistance Program

Visit osap.gov.on.ca to complete an application form. Financial assistance is provided to students through the provincial and federal governments for residents of Ontario.

Campus Employment for Students

Students have the opportunity to find employment on campus throughout the school year and over the summer.

HigherEd Points

You may be eligible to redeem loyalty points toward payment of your Canadore tuition. Check out higherredpoints.com

Learning Library

The Harris Learning Library has many services to support your learning.

- Friendly and helpful staff
- Information resources including books, games, streaming videos, audio books and electronic resources
- Access to materials from other libraries through InterLibrary Loan
- Individual and group study work spaces
- WiFi
- Copying and printing

www.eclibrary.ca

Student Success Services

canadorecollege.ca/studentsuccessservices

We provide student-focused services to help guide you to success in your studies. Staff provide support through learning strategies, mental health and wellness events, and by reducing and/or removing educational-related barriers through accommodation planning with students with disabilities.

Access and Inclusion

canadorecollege.ca/inclusion

We welcome you! We support all individuals no matter their religion, race, ethnicity, age, gender identity, gender expression or sexual orientation.

We help facilitate campus celebrations, promotion of events, customized classroom presentations and workshops, First Generation services and much more!

On-campus Support Services

- Mature student testing
- Individualized guidance, consulting and support
- Peer tutoring, academic supports
- Media resources
- Open access computer labs
- Student success resource centre
- Emergency food bank
- Summer transition program
- Co-curricular record
- Mental health triage nurse
- Ontario Telemedicine Network

Accessible Campuses

All of our campuses are fully accessible.

- Designated parking for physically disabled persons
- Electronic doors
- Elevators
- Specifically equipped fountains and washrooms
- Fully accessible units in residence

International Office

International@canadorecollege.ca
705.474.7600 ext. 5425
canadorecollege.ca/international

Students come to Canadore from as far away as Brazil, China, India, Malaysia, Peru and Africa. We welcome new international students and provide orientation and transportation upon arrival in North Bay. We offer students from around the world the unique opportunity to experience a culture that is truly Canadian.

Health Services

The **Campus Health Centre** provides students with convenient access to a wide array of medical services including: illness/primary care, sexual health, immunizations, first aid and sutures, communicable disease screening, TB testing and disease prevention. We have a physician, a nurse and medical laboratory services on site.

canadorecollege.ca/health-centre

Ontario Telemedicine Network: Students can connect with their family doctor or specialist via a confidential and secure video conference right on campus, located within Student Success Services.

Canadore Students' Council Health Care Insurance: Registered full-time students are automatically enrolled in the health plan. guard.me/canadore

*Note: International students must purchase a separate plan.

Food on Campus

dineoncampus.ca

Prepare meals in your fully-equipped residence kitchen or choose from one of the on-campus options like the cafeteria or food court that includes Tim Hortons and Subway. Meal plans are available.

Campus Shop

bkstr.com/canadorecampusstore

All of your supply needs can be taken care of with one stop at the Campus Shop. Traditional books, textbook rentals, stationery, software, hardware, gifts, clothing and accessories are available year-round. We offer online books, textbook rentals, eTexts and book borrowing.

Canadore Students' Council

canadorestudentscouncil.ca

The CSC is made up of representatives from the student body. The Council's goal is to develop and deliver cohesive on-campus programming that encourages cultural, educational, social and athletic leadership to improve the quality of life for all students at Canadore.

Light Therapy Lounge

Our unique Light Therapy Lounge, equipped with specialty daylight spectrum lighting and lamps, is designed to help combat health challenges like seasonal affective disorder, general lack of energy, depression and insomnia.

Safe and Inclusive Campuses

On-site security, 24-hr video surveillance, safety initiatives, Campus Walk program and emergency telephones

Be a Part of Canadore

Me to We canadorecollege.ca/we-leadership

Canadore and WE have partnered to create a learning community that supports leadership development both on campus and within the local and regional communities. The leadership program brings students together from different cultures and empowers them to become better local and regional citizens.

Canadore Volunteers canadorecollege.ca/canadore-volunteers

Canadore Volunteers is an initiative that encourages the entire Canadore College Community, from students to employees to business partners, to engage in meaningful community service.

For students, a **Co-curricular Record** documenting each student's volunteer work can be managed and validated by Canadore's Centre for Career Development in cooperation with campus departments and community agencies.

Experiential Learning canadorecollege.ca/experiential-learning

Experiential learning provides students with hands-on experience in real and/or simulated work environments. Whether an experiential learning opportunity occurs at the college, in the community, or within a field-related workplace or industry, the purpose of these opportunities is to better prepare students for the workforce. At Canadore College, our experiential learning opportunities enrich the student experience and provide students with exposure to their future careers.

Residence

canadorecollege.ca/residence

One of the only college residences in Ontario to offer full kitchens.

Choosing to stay in residence is a great way to meet new people and make lifelong friends. Canadore offers some of the newest residences in Ontario. Our three secure apartment-style residences accommodate 675 students and are wheelchair accessible.

Located at the bottom of College Drive, our residences provide single rooms allowing you to have your very own space. Each residence offers: a full kitchen, telephone, mail service, Internet access, and access to transportation and laundry facilities. Hydro and other utilities are included.

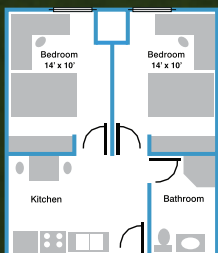

Apply online by May 1, 2021 for guaranteed residence.

All first-year students are guaranteed a spot!

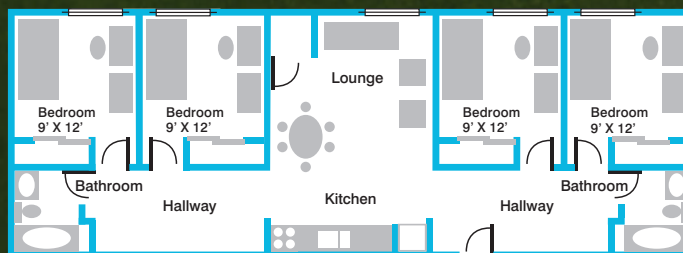

Virtual tour: canadorecollege.ca/residence

Living Learning Communities

Living Learning Communities are designed to support student success in residence through specialized academic and social programs. Programs can include exam review sessions, teambuilding, personal and professional development and more.

4 Bedroom Layout

First Peoples' Centre

canadorecollege.ca/FPC

At Canadore many Nations are represented, including Ojibway, OjiCree, Cree, Algonquin, Métis, Mohawk and Inuit. We welcome approximately 1,000 Indigenous students annually from across the country.

Many services are available for First Nation, Métis and Inuit students, including personal and academic counselling, advocacy, elders' programs, mentorship and peer tutoring. Our goal is to offer cultural relevancy within postsecondary programming to increase student and graduate opportunities. Our Indigenous Preparatory Studies, Indigenous Pre-Health and Indigenous Wellness and Addictions Prevention programs are unique to the province.

Come visit us at the First Peoples' Centre Student Lounge!

Specialized support available for Ontario Works Clients. canadorecollege.ca/IPREP

AVIATION TECHNICIAN

Aircraft Maintenance

Two Years - Ontario College Diploma

Your Experience: Learn from experienced professors with an emphasis on practical training.

Train hands-on on actual aircraft! The aviation industry is growing, and skilled professionals are in high demand. Learn to troubleshoot vital aircraft components and systems, including piston and turbine engines, electrical systems, hydraulics, and navigation and communication systems. Study the challenging complexities of fixed and rotary wing aircraft while gaining the theoretical knowledge you need for apprenticeship employment. This program is approved by Transport Canada.

Note: Graduates receive 18 months of accreditation towards a Transport Canada-issued Aircraft Maintenance Engineer's Licence, Category M. Class attendance is mandatory.

Your Future Career

- Aircraft and helicopter maintenance
- Aircraft manufacturing
- Component overhaul
- Maintenance management and oversight

What You Learn

- Fixed wing and rotary wing aerodynamics
- Turbine and reciprocating engine theory and maintenance
- Aircraft inspection, maintenance and troubleshooting
- Electrical and avionics systems operation and troubleshooting
- Aircraft metal and composite inspection and repair

Recognized by the
Canadian Armed Forces
CAF-ACE

AVIATION TECHNICIAN

Avionics Maintenance

Two Years - Ontario College Diploma

Your Experience: Train to repair navigation, surveillance and flight guidance systems.

Canada's aviation industry is predicting a huge shortage of skilled aircraft maintenance personnel across the country over the next two decades. Train under skilled professionals to repair and maintain aircraft electrical and electronics systems. This program is approved by Transport Canada.

Note: Graduates will receive 18 months of accreditation towards a Transport Canada-issued Aircraft Maintenance Engineer's Licence, Category E. Class attendance is mandatory.

Your Future Career

- Avionics repair stations
- Aircraft manufacturing
- Air carriers – local, regional and international

What You Learn

- Science and aerodynamics
- Navigation systems and aircraft instrumentation
- Communication and surveillance systems
- Flight management and flight guidance systems
- Equipment installation practices and techniques
- Airframe and power plant maintenance

ALUMNI PROFILE

Dallas Smith

*Manager, Line Maintenance
Porter Airlines*

Aviation Technician – Avionics Maintenance Graduate

"It was the first few steps at Canadore, teaching not only the technical portion of aircraft maintenance, but also instilling the values of what it means to be an Aircraft Maintenance Engineer, and supporting their students to ensure success in this industry, that has led me down this very satisfying and exciting career path."

AVIATION TECHNOLOGY

Aircraft Maintenance and Avionics

Three Years - Ontario College Advanced
Diploma

Your Experience: Receive theoretical and practical training on fixed and rotary wing aircraft.

The aviation industry is growing and skilled professionals are in high demand. Learn all of the complexities of aircraft maintenance with an advanced specialization in avionics in this multidisciplinary program. Receive theoretical and practical training on components and systems including the engine, hydraulics and landing gear. Intensive avionics training in the third year includes learning to install and configure aeronautical sub-systems and components contained within aircraft structural, mechanical, electrical, hydraulic, communication, navigation, surveillance and flight guidance systems.

Your Future Career

- Senior maintenance management positions
- Aircraft mechanic/inspector
- Aircraft instrument, electrical and avionics mechanics, technicians and inspectors
- Aircraft servicing, repair and maintenance
- Aircraft manufacturing
- Component overhaul

What You Learn

- Flight management systems
- Navigation and communication systems
- Aircraft instrumentation
- Avionics systems
- Aerodynamics
- Aircraft hydraulic systems
- Gas turbine and reciprocating aircraft engines
- Sheet metal and composite structures and repairs
- Aircraft handling, ground running and taxiing

Program Contact

Brian Boettger, Professor

☎ 705.474.7600 ext. 5941

by the **Canadian Armed
Forces CAF-ACE**

AVIATION TECHNOLOGY

Aircraft Maintenance and Structures

Three Years - Ontario College Advanced Diploma

Your Experience: Learn all the complexities of aircraft maintenance with an advanced specialization in the repair and overhaul of airframe structures.

This multidisciplinary program offers theoretical and practical training on fixed and rotary wing aircraft. Learn to troubleshoot vital aircraft components and systems including the engine, hydraulics and landing gear. Intensive structures training in the third year includes: damage inspection and evaluation, manufacturing and repair techniques, and advanced fitting and assembly procedures.

Your Future Career

- Senior maintenance management positions
- Aircraft mechanic/inspector
- Aircraft servicing, repair and maintenance
- Aircraft manufacturing
- Component overhaul

What You Learn

- Aircraft wood, tubular and fabric repair
- Aircraft structural assembly
- Advanced sheet metal and composite repair and fabrication processes
- Technical drawing
- Avionics systems
- Aerodynamics
- Aircraft hydraulic systems
- Gas turbine and reciprocating engines
- Aircraft aluminum and composite structures and repairs
- Aircraft handling, ground running and taxiing

Program Contact

Brian Boettger, Professor

☎ 705.474.7600 ext. 5941

✉ brian.boettger@canadorecollege.ca

Note I: These programs have been designed to enable students to enhance their education and build upon their aircraft maintenance skills with an additional specification in Avionics or Structures. The first two years of the program are common with the Aviation Technician – Aircraft Maintenance program. Transfer opportunities exist for graduates of a Transport Canada accredited school who have met the applicable requirements of STD566.10.

Note II: Successful completion of these programs will result in 24 months accreditation toward an Aircraft Maintenance Engineer (AME) Category M Licence. These are the first programs of their kind in Ontario and the first in Canada to be eligible for the full 24-month accreditation granted by Transport Canada. Class attendance is mandatory.

AVIATION PILOT – ROTARY WING

Helicopter Flight Training

One Year

Your Experience: Learn all aspects of helicopter operations.

The partnership between Canadore and Essential Helicopters offers a unique blend of academic, operational and hands-on training. The college-structured classes combined with extensive practical training, both on the ground and in the air, will provide you with the skills, knowledge and attitude necessary to operate helicopters safely and efficiently under various flight conditions and in remote geographical locations. Our graduates are in demand, and the school's diverse fleet of aircraft, certified training equipment and experienced instructors will help you hone your skills for a range of exciting career opportunities in Canada and across the world.

Note: Graduates will receive a Transport Canada Commercial Helicopter Pilot Licence, Canadore College Pilot Preparedness Certificate, and complete numerous industry-recognized courses.

Essential Helicopters

Your Future Career

- Timber cruising
- Mining and exploration
- Air ambulance
- Police services
- Search and rescue

What You Learn

- Flight training
- Ground school
- Airframes, engines and system classes
- Winter survival training
- Underwater egress
- Chainsaw safety and tree felling techniques

First Peoples' Aviation Technology – Flight

Three Years - Ontario College Advanced Diploma

Your Experience: Receive hands-on flight training.

Become a qualified, professional pilot in a unique learning environment. This program is the only Indigenous postsecondary program of its kind in Canada. The First Nations Technical Institute (FNTI) Aviation Diploma program is offered in partnership with Canadore College. The curriculum meets the Ontario Ministry of Education and Training requirements for postsecondary studies as well as Transport Canada regulations and standards for flight training.

Training takes place at the Tyendinga Aerodrome – a one-of-a-kind facility including state-of-the-art classrooms and technology, and on-site student residence.

Note: Graduates will hold a commercial licence with their rating of choice and will also meet the eligibility criteria to obtain a Flight Dispatcher designation and a Two-Crew and Cruise Relief Pilot (IATRA) certification.

Your Future Career

- Commercial pilot
- Charter/bush pilot
- Flight dispatcher
- Air traffic control
- Airport manager

What You Learn

- Flight training
- Navigation
- Radio operation
- Flight and simulator training
- Private and commercial pilot licence requirements

Prepare for frontline practice as a health professional in social and health agencies in this highly collaborative and experiential program. Specific topics include interviewing and counselling, crisis intervention, and recovery strategies. Main themes include trauma-informed practice and concurrent disorders. In-class training is followed by a 420-hour community placement. Available for applicants with a university degree in a related field, and internal graduates from a related program (e.g., Indigenous Wellness and Addictions Prevention, Community and Justice Services, Social Service Worker).

Personal Support Worker

One Year - Ontario College Certificate

Offered in North Bay and Parry Sound

Your Experience: Hands-on learning and field placement opportunity.

This program trains students to offer personal care and home management services to clients in community or institutional settings. Personal support workers provide services to clients with physical, cognitive, emotional and behavioural challenges. Learn hands-on in the classroom, on community placements and in the home environment simulation lab equipped with high-end fidelity audio/visual equipment and interactive mannequins. PSWs are highly sought after as health care providers, working collaboratively as part of the health care team or in a supported independent living environment.

Your Future Career

- Long-term care facilities
- Community/home care
- Hospitals
- Hospice

What You Learn

- Nutritional menu planning
- Clinical and community care (hospital and long-term)
- Simulation and lab work
- Diseases and pharmacology
- Patient client home care

Practical Nursing

Two Years - Ontario College Diploma

Offered in North Bay and Parry Sound

Your Experience: Interprofessional collaboration and diverse clinical placement opportunities.

Train for a career in this important health field in Canadore's leading-edge simulation nursing laboratories. The high fidelity labs are equipped with interactive mannequins that speak and replicate real symptoms, on which students act out common medical emergencies. Training culminates with a seven-week, pre-graduate placement experience working with a registered practical nurse. Our graduates are sought after all over the world working independently or as part of a health care team.

Successful Practical Nursing graduates have a bridging option to the Bachelor of Science in Nursing program.

Your Future Career

- Hospitals and acute care
- Psychiatric settings
- Long-term care facilities
- Community home health agencies
- Doctors' offices and clinics
- Telehealth and online nursing

What You Learn

- Nursing theory and practice
- Pharmacology
- Interprofessional health care and collaboration
- Anatomy and physiology
- Canada's First Peoples/cultural safety and sensitivity
- Developmental psychology

College of Nurses (CNO)
approved curriculum

COLLABORATIVE NURSING

Bachelor of Science in Nursing

Four Years - BScN

Your Experience: Learn nursing theory and practice, including eight clinical practicums.

This integrated, collaborative nursing program leads to a BScN awarded by Canadore's partnering institution, Nipissing University. This training will prepare you to meet the present and future needs of health care. Graduates will be eligible to write the nurse registration examination, and upon successful completion, can apply for registration with the College of Nurses of Ontario and will be able to practise as beginning professionals in a variety of clinical settings. This program offers students an innovative way of learning that incorporates the best of both college and university learning experiences.

Note: Students must apply to Nipissing University through the Ontario Universities' Application Centre (www.ouac.on.ca). Inquiries may also be directed to the Nipissing University Admissions Office at 705.474.3450 ext. 4761.

Your Future Career

- Hospitals
- Clinics
- Long-term care facilities
- Public health
- Home nursing

What You Learn

- Nursing theory and practice
- Human anatomy and physiology
- Microbiology, molecular and cell biology
- Nursing in specialized settings
- Pharmacology
- Developmental psychology

Occupational Therapist Assistant and Physiotherapist Assistant

Two Years - Ontario College Diploma

Your Experience: Several placement opportunities in settings such as hospitals, private clinics and home care.

Start a career in this rewarding health field. OTAs and PTAs work with people who have limited or impaired functionality due to injury, illness, disabilities or aging. Learn in a hands-on environment to develop the skills you need to work in clinical and community-based settings under the guidance and supervision of registered occupational therapists and physiotherapists.

Your Future Career

- Hospitals
- Nursing homes
- Senior living centres
- Clinics
- Rehabilitation centres
- Extended care facilities

What You Learn

- Occupational/physiotherapy skills
- Anatomy and physiology
- Function and movement specialized training
- Therapeutic exercise
- Rehabilitation practice
- Human lifespan development
- Mental health concepts and techniques

brenna.beard@canadorecollege.ca

Respiratory Therapy

Three Years - Ontario College Advanced Diploma

Your Experience: Placement opportunities including hospitals, community care and sleep labs.

Learn to evaluate, treat and manage the care of patients with cardiopulmonary abnormalities. Respiratory therapists are an integral part of the health care team providing ventilation and airway management, cardiopulmonary resuscitation, oxygen therapy, and assisting with high-risk births and anesthesia in the operating room. The third-year placement, which has included the Hospital for Sick Children and Holland Bloorview Kids Rehabilitation Hospital, allows students to gain practical experience in neonatal and pediatric settings. Graduates enter this in-demand, lifesaving field and find employment in a variety of dynamic settings.

Your Future Career

- Hospitals
- Diagnostic labs
- Community clinics
- Home care
- Education and research

What You Learn

- Anatomy and physiology
- Pathophysiology and pharmacology
- Patient assessment
- Airway and ventilation management
- Invasive vascular procedures
- Cardiac and pulmonary diagnostics

Study in The Village's brand new Mobility Clinic!

SSW and SSW Gerontology programs share a common first year. Students can easily transfer between programs.

Social Service Worker Intensive (accelerated)

10 Months - Ontario College Diploma

This 10-month intensive program is intended for graduates of university degree programs in the Humanities or Social Sciences or diploma programs in a related human services field. Applicants must have completed 40 hours of direct experience with clients in a social agency. Following the eight-month in-class portion, students will have a two-month field placement opportunity in a community agency.

Social Service Worker

Two Years - Ontario College Diploma

Your Experience: Field placement opportunity in community agency setting.

This program will give you the knowledge and skills you need to enter this rewarding career field. Learn skills and methods that will prepare you to work in different settings and challenging situations. Themes include social justice, empowerment of marginalized citizens and ethics. You will also be introduced to Indigenous history and culture through the Canada's First Peoples course. Graduates can go on to work with individuals or groups in a variety of community settings.

Community placement opportunity.

Note: Graduates may apply to register with the Ontario College of Social Workers and Social Service Workers (OCSWSSW).

Your Future Career

- Residential facilities
- Children's programs and services
- Programs and services for youth
- Mental health and developmental services
- Transition houses and shelters

What You Learn

- Trauma informed practice and crisis intervention
- Human development
- Group dynamics
- Substance abuse training
- Canada's First Peoples
- Ethics
- Methods for dealing with personal violence

Social Service Worker – Gerontology

Two Years - Ontario College Diploma

Your Experience: Field placement opportunity.

Train hands-on for this in-demand career field and gain the skills necessary to work with Canada's aging population. As the baby boomer generation ages, there is an increased demand for professionals with knowledge and expertise in aging. This program will teach you the skills and knowledge required by social service workers to assist older adults in maintaining their independence and enhancing their quality of life.

Note: Graduates may apply to register with the Ontario College of Social Workers and Social Service Workers (OCSWSSW)

Your Future Career

- Long-term care facilities
- Retirement home and assisted living settings
- Community care
- Hospice
- Adult day programs

What You Learn

- Gerontology
- Mental health across the lifespan
- Leisure, recreation and health promotion
- Canada's First Peoples
- Family dynamics
- Therapeutic case management
- Interpersonal skills related to death and bereavement

Pre-Health Sciences

PATHWAY TO CERTIFICATES AND DIPLOMAS

One Year - Ontario College Certificate

Your Experience: Learn hands-on from amazing professors.

Obtain the knowledge you need to make an informed program choice, and the necessary skills and prerequisites to start your academic career in the health sector. This program will prepare you for further college studies in the health sciences sector. Graduates of this program are prepared to meet the eligibility requirements for a number of Canadore programs including: Practical Nursing, Biotechnology Technologist, Occupational Therapist Assistant and Physiotherapist Assistant, and Environmental Technician - Protection and Compliance.

Note: Certain programs will require a minimum program GPA or minimum grades in specific courses. The Pre-Health Sciences Certificate at Canadore College is a pathway to certificate, diploma and advanced diploma programs at Canadore or within the college system.

1,000

Canadore welcomes approximately **Indigenous students** annually from across the country.

Indigenous Wellness and Addictions Prevention

Two Years - Ontario College Diploma

Your Experience: Program-led culture camps.

Gain the skills and knowledge you need for employment in a variety of addiction settings through practical, hands-on learning. The curriculum is based on the holistic teachings of the Medicine Wheel, with a focus on the root causes of addiction within Indigenous communities. You will learn both cultural and mainstream approaches to addictions counselling. Training ranges from pharmacology to traditional methods including Sacred Circles, Teaching/Learning Circles and the use of the four sacred medicines – tobacco, cedar, sage and sweetgrass.

Flexible Exit Options: Exit with a College Certificate after one year or exit with an Ontario College Diploma after two years.

There is a placement component in this program.

Your Future Career

- Traditional medicine
- Alcohol and drug treatment units
- Family resource centres
- Young offender residential centres

What You Learn

- Traditional healing, learning and teaching
- Culture specific helping
- Challenges facing Indigenous communities
- Interviewing, reporting and documenting
- Addictions counselling skills
- Relapse preventions
- Multiculturalism
- Psychology and sociology

Program Contact

Whether you want to pursue a career working in outdoor recreation, sport and fitness, recreation therapy or recreation and leisure, we have the training you need to make your goals a reality. Our professors are highly skilled and innovative, and many of our programs are also available completely online.

over **400 hours**
of experiential learning in the two-year
diploma programs

Online training available

Recreation Programs – Fast Track

College and university graduates are eligible to fast-track any of Canadore's three recreation-related diploma programs: Recreation and Leisure Services, Recreation Therapy and Strength and Sport Conditioning. Applicants receive a one-year block transfer and can complete the diploma in as little as one year.

Visit us online for more information.

Recreation and Leisure Services

Two Years - Ontario College Diploma

Your Experience: Complete 400 hours of applied work experience.

Train for an exciting career that could take you anywhere in the world. As a recreation professional, you could find yourself planning special events or organizing activities and programs for all age groups at resorts, camps or even on cruise ships – the possibilities are endless. Your training will include organizing community events, participating in hands-on workshops, and the potential to earn various certifications in career-related areas.

✉️ brian.bennison@canadorecollege.ca

Dual Diploma Option! Canadore graduates of this program are eligible to complete the Recreation Therapy or Strength and Sport Conditioning program in one year.

Your Future Career

- Sport and recreation associations and facilities
- Community agencies
- Parks and Recreation departments
- Fitness centres
- Youth and seniors' organizations
- Tourism and resort industry

What You Learn

- Leadership and program planning
- Community development
- Fundraising
- Sports and special events
- Recreation facilities
- Marketing

Available in-class and online! All classes recorded for future playback.

..... ALUMNI PROFILE

Sue Weltz
Recreation Activation Specialist
Sumac Lodge, Sarnia, ON

Recreation Therapy Graduate

“The online diploma program allowed me to return to college after being out of school for many years. It was a difficult decision, as I was raising a family and working full time. The online classes prepared me to work in the field of recreation. I was also given the opportunity of a lifetime, travelling to Guiyang, China for two months to study and build relationships with the country’s students and faculty. Canadore’s Recreation Therapy program was the most rewarding part of my educational career and I owe so much gratitude to my professors. I am now doing what I am passionate about and love. Thank you Canadore!”

Recreation Therapy

Two Years - Ontario College Diploma

Your Experience: Receive Inclusion and High Five Leadership certifications.

Train for a career in one of the fastest-growing professions. This is a rewarding, health-centred field where you will have the opportunity to make a positive impact on the quality of life of an individual with an illness or disability. Through assessment, planning and delivery of programs, you will help people lead more fulfilling and independent lives. This specific training will prepare you for a career in clinical and community-based settings.

Students complete 400 hours of applied work experience.

Dual Diploma Option! Canadore graduates of this program are eligible to complete the Recreation and Leisure Services or Strength and Sport Conditioning program in one year.

Your Future Career

- Long-term care facilities
- Municipal recreation centres
- Hospitals
- Social services agencies
- Children's treatment centres
- Centres for addiction and mental health

What You Learn

- Program design and supervision
- Disabilities and aging
- Leisure education and counselling
- Recreation facilities
- Sports and special events
- Leadership and program planning

Available in-class and online! All classes recorded for future playback.

Strength and Sport Conditioning

Two Years - Ontario College Diploma

Your Experience: Complete 400 hours of practical applied work experience.

There is an increasing need for certified professionals in strength and sport conditioning. This specialized program will teach you the skills and techniques needed to help athletes or sports teams reach their maximum physical potential. Strength and sport conditioning is athletic training aimed at greater strength, power, speed, agility, coordination and balance. You will learn general exercise principles, speed development and sport-specific science, along with practical training in weightlifting, agility, plyometrics and sprint training for athletes.

Dual Diploma Option! Canadore graduates of this program are eligible to complete the Recreation and Leisure Services or Recreation Therapy program in one year.

Your Future Career

- Personal trainer
- Sports team consultant
- Fitness facility manager
- Olympic-style weightlifting coach

What You Learn

- Agility, plyometric and speed training
- Science of sport conditioning
- Resistance training for athletes
- Powerlifting and weightlifting
- Leadership and program planning
- Sports and special events

Trades and Information Technology

Building Construction Technician

42 Weeks - Ontario College Diploma

Your Experience: Build full-size houses in the carpentry lab.

Complete a two-year diploma in just 42 weeks! Canadore has one of the largest carpentry labs in Ontario with over 14,000 sq. ft. of training space – large enough to have two full-size houses built within its walls. In this program you will gain the hands-on skills needed to work in the growing building construction industry. You will learn how to operate the tools and equipment of the trade, lay out and construct wood frame structures, apply interior and exterior finishes and much more.

Includes a two-week work placement.

Program Contact

Jill Rydall, Professor

✉ mary.rydall@canadorecollege.ca

Your Future Career

- Commercial and residential carpentry
- Project design, planning and management
- Construction companies
- General contracting
- Self-employment

What You Learn

- Site layout and foundation systems
- Interior and exterior finishes
- Estimating
- Wood framing
- Stair construction
- Ontario Building Code

Graduates of many of our programs may receive, at the discretion of the employer, advanced standing in their apprenticeships, based on their on-the-job performance. Visit us online for more information.

Civil Engineering

Technician

Two Years - Ontario College Diploma

Technology

Three Years - Ontario College Advanced Diploma

Your Experience: Hands-on lab and classroom training.

Civil engineering technicians are highly sought after in a number of industries including construction, mining, transportation and road construction. This in-demand career has unlimited employment options in both the public and private sectors. Many of the things we use every day are impacted by civil engineering, including dams and power stations, water and sewage treatment plants, roadways, and structures both large and small. This program will provide you with the tools of the trade to be successful in this diverse profession.

Your Future Career

- Structural/municipal engineering
- Construction design and supervision
- Highway and transportation engineering
- Water resources engineering
- Geotechnical engineering
- Environmental protection

What You Learn: 2 yrs

- Computer-aided drafting and design (CADD) - 2D and 3D
- Surveying and GPS
- Highway/road design and planning
- Design and construction of infrastructure
- Applied strength of materials

What You Learn: 3 yrs

- Highway design
- Environmental engineering
- Project management and design
- Hydrology and soil mechanics
- GIS

Computer Programmer Analyst

Three Years - Ontario College Advanced Diploma

Your Experience: Work on industry-based projects.

Train for this highly in-demand field. Computer systems are everywhere and are used in virtually every industry. Learn to create the programs and software for devices that people use every day. Training includes application software, systems development, and computer programming with a business focus.

Contact for Both Programs

James Ronholm, Professor

📞 705.474-7600 ext. 5360

✉️ james.ronholm@canadorecollege.ca

Your Future Career

- Website designer
- Desktop application programmer
- Systems/business analyst
- Database administrator
- Support specialist

What You Learn

- Systems analysis and design
- Computer programming (in multiple programming languages)
- Desktop application programming
- Website design
- Internet enabled software
- Operating systems (client and server)

Computer Systems – Networking

Technician

Two Years - Ontario College Diploma

Technology

Three Years - Ontario College Advanced Diploma

Your Experience: Work on industry-based projects.

Network technologies are used in every modern communication tool from computers to mobile phones, automobiles to home appliances. Train for this dynamic and in-demand field and learn how to develop, maintain and support these networks. Learn all aspects of networking and prepare for a career in this dynamic and ever-changing industry.

What You Learn: 2 yrs

- Network design, implementation and maintenance
- Routing and switching networks
- Wired and wireless networking
- Network troubleshooting
- Server operations
- Operating systems (client and server)

What You Learn: 3 yrs

- Work placement
- Exchange server networking
- Multi-layer switching

RENOVATION TECHNIQUES

Construction Carpentry

28 Weeks - Ontario College Certificate

Your Experience: Theoretical and practical training with a focus on safety and sustainability.

The construction industry is booming, and now is the time to get the skills you need to work in this diverse field. From foundation to framing, learn how to construct and retrofit new buildings in one of the largest construction labs in the province.

Program Contact

Jill Rydall, Professor

📞 705.474.7600 ext. 5677

✉️ mary.rydall@canadorecollege.ca

Your Future Career

- Commercial or residential construction
- Carpentry and general contracting
- Homebuilding companies
- Woodworking shops
- Restoration
- Lumberyards and hardware stores

What You Learn

- Carpentry skills
- Portable and stationary power tools
- Building materials
- Site layout
- Foundation systems
- Wood framing
- Ontario Building Code

Electrical Techniques

28 Weeks - Ontario College Certificate

Your Experience: Project-based training on industry-standard tools.

Skilled workers trained in residential and commercial wiring are in demand. Get the training you need in Canadore's versatile 2,200 sq. ft. electrical lab where you will learn essential skills such as service installations, pipe bending and armoured cable practices on industry-standard tools. There is a heavy focus on real-world practical experience so you can enter the job market with knowledge and confidence.

Note: Successful completion is equivalent to Level 1 Apprenticeship in-class portion.

Your Future Career

- Independent contractor
- Construction and maintenance worker
- Electrical apprentice
- Electrical distributor
- Network/telephone cable installer
- Pole line

What You Learn

- Electrical theory and practice
- Trades calculations
- Blueprint reading
- Safety and electrical code

MECHANICAL TECHNICIAN

Machinist

42 Weeks - Ontario College Diploma

Your Experience: Learn how to produce custom parts for any type of vehicle or machinery.

Take control of your future by training in this highly in-demand career field. You will be taught by our industry-trained faculty and staff in our 8,000 sq. ft. lab. Students receive extensive training on manual machines as well as automated Computer Numerical Control (CNC) machining equipment and gain skills to produce custom parts for virtually any type of vehicle or machinery. Mechanical technicians are sought after in a number of industries including automotive, mining, forestry and aviation, to name a few.

Includes a two-week work placement.

Note: Successful completion is equivalent to Level 1 Apprenticeship in-class portion.

Flexible Exit Option: Receive a Mechanical Techniques Ontario College Certificate after 28 weeks.

Your Future Career

- Machinist
- Tool and die maker
- Mould and die maker
- CNC machinist
- CNC programmer
- Jobber shop machinist

What You Learn

- CNC machining and programming
- Operation of precision tools
- Blueprint reading and interpretation
- Technical mathematics
- Workshop technology theory and practice

Motive Power Technician

40 Weeks - Ontario College Diploma

Your Experience: Small classes and industry relevant professors.

Become skilled in motive power by training with industry-standard tools, diagnostic equipment, and lifts. You will learn to operate, diagnose and service all types of vehicles, from standard automobiles to industrial heavy-duty equipment, and have the opportunity to work on the latest technology by way of vehicle donations. You will perform actual service procedures on a wide variety of components found in the power train of heavy vehicles, install and set up clutches, and tear down and assess the condition of manual transmissions.

Includes a two-week work placement.

Note: Successful completion is equivalent to Levels 1 and 2 (automobile) and Level 1 (truck and coach) Apprenticeship in-class portion.

Your Future Career

- Automotive service technician
- Truck and coach technician
- Heavy equipment technician
- Parts technician
- New vehicle sales and leasing

What You Learn

- Gasoline and diesel engine operation
- Fuel delivery systems
- Electrical systems and engine controls
- Steering, suspension and brakes
- Hydraulic and air brake systems
- Hybrid systems

- Dealer services

What You Learn

- Steering, suspension and brakes
- Engine systems
- Drive train systems
- Electrical and electronic systems
- Fuel systems

MECHANICAL TECHNIQUES

Plumbing

28 Weeks - Ontario College Certificate

Your Experience: Train hands-on in a simulated lab.

Get the skills you need in Canadore's combined 1,800 sq. ft. plumbing labs, which are set up to simulate multi-levels of an actual residence and equipped with industry-specific tools. Individually and in teams, students have the opportunity to build residential and commercial plumbing systems, install fixtures and test all systems. You will gain a variety of trade-specific skills including installing, maintaining and repairing plumbing systems, and soldering.

Note: Successful completion is equivalent to Level 1 Apprenticeship in-class portion.

Your Future Career

- Commercial and industrial plumbing
- Plumbing service and maintenance
- Sales and marketing
- Manufacturing
- Residential plumbing

What You Learn

- Plumbing theory and practical
- Trade specific materials and tools
- Plumbing installation and repairs
- Blueprint reading
- Ontario Plumbing Code
- Viega VTEN curriculum

Product Engineering – Advanced Manufacturing and Robotics **NEW**

Three Years - Ontario College Advanced Diploma

Your Experience: Work on a research project with a real company.

Start your career in the exciting and emerging field of advanced manufacturing. Learn to design and prototype new products using a variety of 3D technologies including specialized 3D design software and printers. You will examine how artificial intelligence, robot cells, collaborative robotics, process control, big data and process optimization play key roles in modern manufacturing. The program provides you with a unique combination of theory and practical lab work.

Your Future Career

- Industrial product design
- Process automation
- Manufacturing
- Robotics
- Research and development

What You Learn

- Artificial intelligence in manufacturing
- Robotics
- Product design, prototyping and testing
- 3D scanning and printing
- Advanced manufacturing processes
- Big data in manufacturing

MECHANICAL TECHNICIAN

Welder-Fitter

42 Weeks - Ontario College Diploma

Your Experience: Learn multiple welding processes and prepare for CWB exams.

Skilled welders are highly sought after and well paid. Learn the specialized skills of the trade on industry-standard machines in our 4,700 sq. ft. lab. You will learn multiple welding processes at one of the 33 individual welding stations, including shield metal arc welding (SMAW), Flux Cored Arc Welding (FCAW), gas metal arc (GMAW) and gas tungsten arc welding (GTAW), FUSION welding, brazing and cutting techniques. Skills learned are highly transferable and versatile as welding is used in several trades including electrical and automotive. Graduates will have completed all position welding training and possible Canadian Welding Bureau Certification.

Flexible Exit Option: Receive a Welder-Fitter Mechanical Techniques Ontario College Certificate after 30 weeks.

Note: Successful completion is equivalent to Level 1 Apprenticeship in-class portion.

Your Future Career

- Welding and fabrication
- Repair shops
- Mining
- Iron worker
- Pipe welding

What You Learn

- Welding theory and practice
- 3D modelling
- Metallurgy and rigging
- Layout and fitting
- Manufacturing quality control and assurance
- Blueprint reading

ALUMNI PROFILE

Kody Craig Budge
Certified Welder-Fitter Technician

Mechanical Technician – Welder-Fitter Graduate

“I got hired right out of college by the global mining company, Rotacan. They took me on as a junior welder as well as trained me on ABB robotic welders. It’s been a constant learning process. Canadore College gives you the skills and knowledge to be able to transition, adapt and advance.”

Canada is experiencing a critical shortage of skilled trades workers. Employers need highly skilled workers now, and graduates from trades apprenticeship programs are in demand. A career in trades can offer you a promising future in a secure, well-paid and challenging occupation.

Earn while you learn! Apprenticeship is a combination of in-school training and on-the-job experience. About 90 per cent of your time is spent learning practical skills while being supervised by a qualified journeyman. Apprenticeship training is flexible and accessible.

Speak with the Ministry of Labour, Training and Skills Development – Apprenticeship Branch (Employment Ontario)

Canadore offers the in-school portion of the training for the following apprenticeships:

Automotive Service Technician

3 levels

Gain the skills and training needed to challenge the Certificate of Qualification exam. Earn while you learn. This program is run in a day release format to allow the apprentice to continue to work in the trade while learning one day per week. This training is a stepping stone to several other trades.

Level 1 now available in an online format.

Your Future Career

- Automotive services technician
- Service manager
- Service writer

What You Learn

- Engine systems
- Electrical, electronics and emission control systems
- Drive train systems
- Suspension, steering and brake systems

Child Development Practitioner

Earn while you learn with this flexible delivery option. There is an increasing demand for child development practitioners. The majority of the training takes place while working on the job as a paid apprentice, and the formal education portion can be taken via distance education. This program can be completed in as little as three years.

Your Future Career

- Child care centres or nursery schools
- Kindergarten programs
- Resource and learning access programs
- Specialty early learning schools

What You Learn

- Child development
- Infant, toddler, pre-school and school-aged curricula
- Interpersonal communications
- Health, safety and nutrition
- Administration

Cook Apprenticeship 2 levels

Earn while you learn! Receive valuable in-school training while you work in a paid culinary position. The culinary industry is growing and there is a shortage of professionally-trained cooks and chefs.

Your Future Career

- Chef de partie
- First cook
- Sous chef
- Chef de cuisine

What You Learn

- Baking and advanced pastry arts
- Food, beverage and kitchen management
- Restaurant food production
- Food preparation and culinary skills
- Wines

General Carpenter 3 levels

Receive specialized training in one of the largest training facilities in Ontario. Apprentices will be trained to use hand and power tools while working with different wood types and products and a variety of construction materials. You will learn the latest installation methods along with the best practices and workplace safety relevant in today's construction industry.

Your Future Career

- General contracting
- Construction companies
- Residential and ICI sectors
- Furniture and cabinet manufacturers

What You Learn

- Advanced wood joinery, building processes and fastening systems
- Forming, framing and stair construction
- Installation of windows, doors and cabinets
- Interior and exterior finishes
- Plan reading, estimating, construction surveying and project layout

General Machinist 3 levels

Learn all aspects of the operation of numerous industry standard machines including drill presses, surface and cylindrical grinders, CNC mill and lathe, and horizontal and vertical band saws. Earn while you learn! The day release delivery format allows students to learn while continuing to work in the trade.

Your Future Career

- Automotive
- Mining
- Aircraft manufacturing

What You Learn

- Operation of vertical and horizontal milling machines
- Layout equipment and procedures
- Measuring equipment and inspection techniques
- Basic metallurgy and heat treatment
- Safe working practices

Information Technology - Networking Technician 2 levels

Complete the theory portion of this program entirely online. Each level has 360 hours of theory learning and takes one and a half years to complete.

Your Future Career

Information technology and network support for:

- IT firms
- Public corporations
- Private corporations

What You Learn

- Operating systems
- Microcomputer applications
- Basic electrical and electronics
- Desktop and mobile platforms
- Basic network systems

Marine and Small Engine Technician 3 levels

Become a Small Engine or Marine Engine Technician and gain the skills to challenge the Certificate of Qualification exam. All students in class are working in the trade, providing an excellent opportunity for networking. The program can act as a great stepping stone to several other trades.

Your Future Career

- Small/marine engine technician
- Service manager
- Service writer
- Marina operator (level 3)

What You Learn

- Electrical and electronic systems
- Fuel systems, engine systems
- Braking, transmission and auxiliary power systems
- Propulsion systems (level 3)
- Electronic fuel management systems (level 3)
- Handling, rigging, running and storing auxiliary systems (level 3)

Metal Fabricator 3 levels

The in-school training at Canadore will prepare you to be successful in industry and develop leadership skills for supervisory roles. The program focuses primarily on welding, layout and fitting techniques used in the welding and fabrication industry. Earn while you learn. This is a day release program. Students can work and earn an income while in class.

Your Future Career

- Welder/fitter or iron worker
- Supervisor
- Quality control

What You Learn

- CNC shape cutting and break press
- Oxy fuel cutting and plasma cutting
- Air carbon arc gouging
- SMAW, GMAW, FCAW/MCAW, TIG
- Rigging, layout and fitting
- Project management
- Quality control assurance

Motorcycle Technician 2 levels

Become a motorcycle technician and gain the skills required for this exciting industry. In Canada, there is a shortage of certified technicians for this in-demand field. Train hands-on and learn the industry requirements of the trade.

Your Future Career

- Motorcycle technician
- Service manager
- Service writer
- Parts person
- Sales person

What You Learn

- Electrical and electronic systems
- Fuel systems
- Engine systems
- Powertrains
- Motorcycle chassis

Railway Car Technician 3 levels

Canadore College is the only college in the province of Ontario to offer this program. Canadore College was integral in the development of this program in conjunction with stakeholders and leaders within this industry.

Your Future Career

- Service/parts manager
- Equipment purchaser
- Operations manager
- Section foreperson

What You Learn

- Personal and workplace safety
- Invasive and non-invasive diagnostic techniques
- Related computer operations for diagnostic purposes
- Interpreting government regulations
- Job estimating and scheduling

Truck and Coach Technician 3 levels

Train in a professional atmosphere with other students working in the trade. Canadore College has close working relationships within the trucking industry and has strong support from its local repair facilities. The College was integral in the development of this program in conjunction with other colleges and primary manufacturers and transportation leaders within this industry.

Your Future Career

- Truck and coach technician
- Service/parts manager
- Equipment purchaser
- Maintenance director
- Shop foreperson

What You Learn

- Invasive and non-invasive diagnostic techniques
- Related computer operations for diagnostic purposes
- Interpreting government regulations
- Job estimating and scheduling

Canadore College is a proud member of

Academic Concentrations

Round out your education and improve your employability with the Canadore Credential Concentration!

Students in Canadore College diploma and advanced diploma programs will have the unique opportunity to earn a concentration in one of the following themes, at no additional cost.

- Cultural Diversity - Indigenous
- Human Relations and Personal Understanding
- Innovation and Entrepreneurship
- Technology and Environment
- Arts, Civic Life and Cultural Understanding

By clustering the general education credits within your program into one of these streams, you will differentiate your education by completing specialized training that complements your core program credential.

Set yourself up for success and achieve your career goals faster with the Canadore Credential Concentration.
