## STUDENT TESTIMONIAL

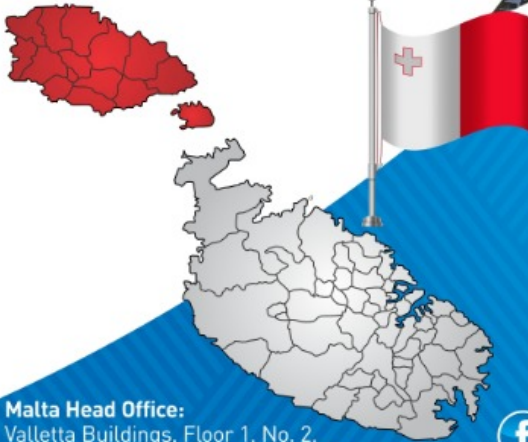

**Elnara Abassova**  
(Stavropol, Russia)

"I would like to thank all of the secretaries and other eie Academic staff members. I am really grateful for your encouragement and support given to me whilst working through my degree. You were always there when I needed help. I can honestly say that I will never forget my time there. I've met a lot of interesting people and have had some great experiences too. I am happy to have chosen Malta as a place to study and mostly eie, as this institute made all the difference for my future!"

**Rolf Grindstuen**  
Country: Sel, Norway  
Internship: St. James Hospital

"I have good experiences with eie. It is a professional company that takes care of their students and I think they have a policy to do too much rather than too little for their students. Now I am in the emergency unit a hospital and to gain experience and take your knowledge to a higher level in this game you have to get emergency jobs all the time and be evaluated. In a summary about Malta I have to say that I think Malta is a good country to be a student in!"
