You will study at the same pace as a full-time undergraduate degree student. Be sure to view our academic year structure and timetable on pages 18-19 and 20-21.

**Start dates:** Sept/Nov/Jan.

Step Forward is our free six-week course designed to provide an access route to higher education for those with skills and knowledge gained from their life and work experiences.

The programme will develop your confidence and academic abilities to prepare you for degree-level study.

You'll also benefit from your own personal development tutor throughout. On successful completion you will be eligible to study on a UA92 degree or Certificate of Higher Education course.

Find out more at [UA92.ac.uk/step-forward](http://UA92.ac.uk/step-forward)

### ACCELERATED DEGREES

Accelerated degrees at UA92 allow you to study full-time for an undergraduate degree in two years so that you are ready to enter full-time employment sooner.

You will study six blocks each year and have shorter breaks than those on the three-year degree programmes so you can complete your studies in two years. Visit page 72 to view the degree subjects available in this study mode.

For information on the academic year structure for accelerated degrees, see pages 22-23.

## OUR OTHER PARTNERS INCLUDE:

# OUR EDUCATIONAL APPROACH

We put character and personal development at the core of your learning experience with a strong emphasis on work ethic. You'll build your resilience and your ability to solve problems and face challenges.

## LEARN THROUGH EXPERIENCE

As a reflective learner, you'll take positive learning from an experience even when things don't go to plan. Your communication skills will be developed to engage and influence at different levels, one-to-one, in small groups, or with large audiences. You'll learn to respect the views and perspectives of others in a complex global and digital world. You'll grow as a team player and collaborator and develop your confidence and leadership skills.

## OUR APPROACH TO TEACHING

As well as dedicated modules around character and personal development, a significant amount of your time will be spent focusing on your chosen subject. Here you will study topics in depth, often working in small groups with academic experts or advanced practitioners. Study of underlying theory will be complemented with practical and project work as well as industry insight days. Placement opportunities will also help you gain a better understanding of the professional work environment.

By combining academic development with a core of character and personal development, you will be prepared for lifelong learning, whether progressing to further study at postgraduate level, establishing your career, or through life in general.

For more information on how you will study, go to pages 18-19 to view our academic year structure.

This is threefold and includes Target Talent Curriculum modules, personal development coaching and access to industry through insight days and work experience.

The Target Talent Curriculum modules are an integral part of your degree, that must be completed and passed. They will develop your cognitive, emotional and social intelligence, your understanding of physical and mental well-being, and your preparedness for employment. This will be enhanced by engaging and reflecting on work placements and industry insight days, and via regular support from your Personal Development Coach. This approach is designed to put you in the best possible place for your university-level studies and to prepare you for a strong career path after, or even before, graduation.

Our campus was designed around our educational approach, so there's no large lecture theatres. Courses are taught in small groups, mostly in classrooms or labs/studios. Our spacious communal study areas provide a light and airy learning environment.

During 2020/21 UA92 was able to keep delivering teaching on campus, with all students receiving eight hours of face-to-face teaching each week.

In response to the Covid-19 pandemic, we have taken a number of further health and safety measures on the UA92 campus.

## THESE INCLUDE:

Social distancing in the classroom and communal areas with signs and advice, along with clear systems for navigating around campus.

Enhanced levels of cleaning in all classrooms and common areas.

Frequent cleaning of touch points throughout the day.

Hand sanitising stations placed in key areas such as entrances, exits and outside rooms.

Only teaching approximately 25% of our student body on campus at any one time.

A fully electronic library and learning resources system.

# SPORT AT UA92

There's no denying that Manchester and Old Trafford are entrenched in sporting greatness.

With world-class sporting venues in the shape of Manchester United's home, 'The Theatre of Dreams,' where our co-founders are considered legends, and Emirates Old Trafford Cricket Ground just next door, we're certainly in good company.

Together with rivals Manchester City, we are a city bustling with football greatness. Salford City Football Club and the National Football Museum call Greater Manchester home and are within easy reach of our campus, but there is of course much more to Manchester's sporting offer than football alone.

This great city is also home to the national centres of excellence for cycling, gymnastics, squash and taekwondo, with rugby league soon to join them. These facilities provide UA92 students with the possibility to enjoy sport in some of the best venues in the world, with many also offering volunteering and paid work opportunities alongside your studies and long-term graduate careers. A number of our current students work as Football Coaches for Foundation 92 alongside their studies.

Our straightforward timetable and academic year structure for full time undergraduate degrees has been formally recognised by TASS (Talented Athlete Scholarship Scheme). We received TASS Dual Career Accreditation in 2020, meaning we're perfectly set up to accommodate and support athletes as Dual Career Student Athletes.\*

UA92 has teams registered to compete in the British Universities and Colleges Sport leagues in a number of sports including Football, Futsal and Basketball, with individuals also representing us at national championships.

If we don't already have a team in your sport, or you compete in an individual sport, we will support you in pursuing your sporting ambition.

For information on costs for other study modes, visit [UA92.ac.uk/courses](https://ua92.ac.uk/courses)

We will announce our fees for 2022 entry online so please check our website for the latest information.

Remember: these fees\* only cover the teaching side of things. You'll also need to budget for your accommodation (if you decide to move away from home), trips, travel, and living expenses like IT, sports kit, food and drink, and some money for fun.

**FOR MORE INFORMATION VISIT  
[UA92.AC.UK/STUDY-WITH-US/FEES-AND-FINANCE](https://ua92.ac.uk/study-with-us/fees-and-finance)**

\*UA92 operates a 'no hidden costs' approach and all compulsory course costs are included within your tuition fees.  
\*\*This may change in line with government guidelines.

## ESTIMATED LIVING COSTS

Wondering about the cost of living? It depends on your lifestyle and your budget, but to give you an idea, we've put together an estimate of what UA92 life might look like financially. Here are the typical living costs for a student per week at UA92:

Accommodation	£150-200
Food and toiletries	£30-40
Laundry	£5
Mobile phone	£5-10
Leisure activities	£20

You'll also need to budget for one-off costs like setting up your room with bedding, pots, pans and crockery, clothes, and essentials like insurance and a laptop or tablet. Manchester's a bargain-hunter's paradise though, so if you're thrifty, you can do much of this on a budget.

## HOW TO PAY FOR YOUR DEGREE

Most students will choose to take out a student loan to cover the cost of their fees and help with living costs while studying. You can find out how student loans work in detail at [gov.uk/student-finance](https://gov.uk/student-finance)

In line with the government threshold, you will only repay a student loan after you have left your course and have a job with a salary of more than £26,575 per year.\*\* The student finance website is filled with more details on this.

## REDUCING YOUR COSTS

There are lots of ways to make simple savings, like buying only what you need from local markets to reduce your food costs and checking out the charity shops for funky vintage clothes and homeware. You can get active when it comes to transport – it's easy and free to cycle if you bring your bike from home and our student accommodation is within easy walking distance. Socialising needn't be expensive either. Many arts and cultural venues are free to access, while most cinemas, gig venues, theatres, pubs, clubs and restaurants do great student deals to help you stretch your loan too!

## HOW DO I APPLY FOR A STUDENT LOAN?

You can apply online at Student Finance England, [gov.uk/student-finance](https://gov.uk/student-finance)

Applying is not dependent on an offer, so you can get a headstart on the process as soon as it opens for applications.

## WHEN DO I PAY THIS BACK?

You don't start paying the loan back until you're working and earning over a set threshold, currently £26,575\*\* – how much you pay depends on your salary.

## IS THERE A LOAN FOR LIVING COSTS AND ACCOMMODATION?

Eligible UK students can apply for a Maintenance Loan, again through Student Finance England, up to approximately £8,700 a year for students living away from home to help with the costs of living. Repayment of this works in the same way as your tuition fees – they actually combine together into one sum so it's easy to manage.

## CAN I GET FINANCIAL ADVICE OR SUPPORT DURING MY TIME AT UA92?

We have a Student Support Team on campus who can support you with budgeting and financial advice to help you manage your money while studying with us. What's more, as part of our Target Talent Curriculum, you'll learn about financial literacy. We also work in partnership with financial education provider, Blackbullion, who provide all our students with access to their great resources.

## IS THERE ANY OTHER FINANCIAL HELP AVAILABLE?

There are other government grants – financial support that you don't have to pay back – these are normally available to help students with disabilities or dependants come to university. You can find out more about what's available and access this support at [gov.uk/student-finance](https://gov.uk/student-finance)

## CAN FEES CHANGE OR INCREASE?

We review tuition fees each year. For UK students, if Parliament permits an increase in tuition fees, UA92 – along with other HEIs in England – may increase fees for each subsequent year of study. For international students, UA92 will fix the tuition fee for the duration of your course when studied continuously. For the most up to date information on our fees, visit [UA92.ac.uk/study-with-us/fees-and-finance](https://ua92.ac.uk/study-with-us/fees-and-finance)
