Who We Are

Anderson College is one of Canada's oldest colleges, having first opened its doors in 1885. Over the past 138 years, it has been the partner to more than 100,000 students who have overcome career challenges and transitioned to the next phase of their lives.

Anderson knows first-hand how stressful and frightening it can be for students to establish a career in a new country, or to build a career in a country they've spent years in. Our environment of comradery and community provides a much-needed respite from the stresses of starting over. We are more than our programs and our facilities; we are a team of dedicated and caring individuals who are deeply committed to helping our students.

Our high-calibre faculty, comprised of industry experts, deliver practical programs and real-life career training, which enables graduates to become skillful, confident, and in-demand employees.

SINCE 1885

Our Mission

To provide a life-enriching learning experience that prepares students to succeed academically and professionally as engaged citizens of the world.

Our Values

Relevance

In-demand programs. Hands-on training. Real-world experience.

Quality

Industry-expert instructors. Passionate, caring team.

Empowerment

Students job ready, in demand, in months. Career services support for life. Financial aid options to make study accessible and stress free.

Innovation

Industry leader input. Community and education, partnerships pave the way for graduates.

Who We Serve

- Our students come to us from all corners of the globe, and each has a unique story to tell.
- We celebrate their individuality and support them as they strive to overcome challenges and create a better life for themselves and their families.
- Within our community, we build a culture of equality and care.

Our Commitment to Excellence

Excellence in Education

Consistent quality improvement through stakeholder feedback is at the core of our beliefs and processes and drives our Continuous Quality Improvement Plan (CQIP).

CQIP is a highly structured and organized process of harnessing and analyzing program and course information to assist us in making judgements about the level of service, effectiveness and relevance of our programs.

From start to finish, our students have access to a team of caring professionals who guide them through, step-by-step, to success.

Excellence in Student Services

Admissions

Our team is ready to take inquiry calls, guide students in determining the best program fit for their career goals, and ensure they have all the details they need to launch their dreams for the future with us.

Finance

This expert team connects students to all the information and forms required to navigate their best financial options, empowering them to focus on their education, worry free.

Career Services

Support for students, from resume writing, job search and interview preparation to job fairs and networking opportunities, is available ... for life!

Mental Wellness Support

We know that for students to achieve success, there may be times when they need support as they navigate school and life. Our keep. MeSAFE service is a virtual, easy-to-use mental health service, offering multilingual support for students 24/7 to help deal with school, health, and other concerns.

Excellence in Community Engagement

For us, success is about so much more than just quality courses and accredited programs. For our global students, those pursuing a second career, and even new students, feeling part of a caring community is key to their connecting and thriving. Our team is always on the lookout for opportunities to engage, support and celebrate, and to give back in our community ... it's what makes college life and our work rewarding!

- From contests for cash prizes to encourage students to share their inspiring stories, our Thanksgiving campaigns expressing gratitude for faculty and fellow students, to Career Fair and Scientific Days, we want students and staff to feel honoured.
- From our Fight COVID-19 empowering-story initiative, leading to \$10,000 donated to St. Michael's Courage Fund, and 50,000 masks donated to our healthcare heroes, to contributing to local sports teams, we want our community members to feel appreciated.

Our Programs

Anderson College offers over 30 programs, taught by industry experts, in communities that provide the support students need to grow professionally and personally. Programs can be accessed at one of our 11 locations in Ontario or British Columbia, or online.

Student Testimonials

We believe our students have what it takes to succeed, we just prove that they can. Everyday, every member of our team works toward that end.

Beyond the practical programs, real-life career training, and our end goal to ensure students are skilled, confident and in demand, Anderson College creates a community - a family - of support and provides a fun, rewarding and life-altering experience.

But don't take our word for it. Our students say it best ...

Starting a new life in Canada is a huge challenge all immigrants must face; I was one of them. Finding a good job, adopting a new culture, speaking a new language, away from your family and raising your children in a new country these are some of the difficulties. This journey, for me, was not just about graduating and getting a diploma; it meant a lot to me – it changed my life. I got hired as an account manager at an insurance company and life now is like a dream. I'm so happy I chose Anderson College to help me build my career and life as a new Canadian!

Bahareh

I was in the middle of switching careers, and choosing the right path was crucial. I received an email from Anderson College inviting me to come for a personal interview. The rest is history. I acquired training from dedicated professionals and came away far richer and with lifelong peers. Thank you to the administrators, professors, and staff for being instrumental in our success.

Duane

Studying in college was one of the biggest "life changers" I have ever experienced. This whole new atmosphere, meeting new people, and starting a new life, all made me feel quite nervous at the beginning. The teachers and staff helped me become more independent and to develop my individual goals. The greatest part of studying at Anderson College was having the opportunity to learn new life-changing skills in the medical laboratory field, which I always wanted to be part of. In fact, studying at Anderson College was not just preparation for life; it was life itself.

Maryam

I worked at a retail store for many years, and always thought of going back to school. The only thing stopping me was my own fear; I didn't think I could succeed. My Admissions Advisor encouraged me to start and not give up. I chose the Early Childcare Assistant program because I love children and would be thrilled to work with them. After joining Anderson College, I was introduced to my amazing teacher. She changed me; I went from being someone who didn't believe in themselves and their abilities, to someone confident. And yes, I did succeed!

Fedaa

“

After many rewarding years of staying home to raise my four children I decided to go back to school but was hesitant about what to study. I met my Anderson College Advisor; she gave me great advice and even introduced me to the Early Childcare Assistant instructor who explained the program details. I felt so comfortable, and the program seemed like so much fun. It was! I gained a lot of experience in class and in my placement, and now I get to put my skills and passion to work everyday.

Doha

I was a newcomer with a master's degree in medicine; I wanted a new career in Canada that was similar to my previous profession. I met my instructor and she motivated me to start the Cardiology Technology Program. This was the best decision I could have made. During the program, I encountered stressful life situations, but coming to college was stress relieving and it felt like a new home in a new country with a warm and caring mother. My instructor was always there for, and motivated, us. Finally, I got my CSCT certificate and now I can work in a career that I love, in my new country.

Ani

“

I have always had a vision for my career but did not believe that it was attainable. Instead, I made conservative choices. I got safe jobs but felt no job satisfaction. I visited Anderson college in search of a career I was truly passionate about. By joining the Business program, my self-realization began. ... Today, I work at an organization that is taking me one step closer to the vision I always had. All of this started with a visit to Anderson College. I will remain forever grateful

Oluwademilade

It all started with a visit to Anderson College. Now I'm a successful Dental Sterilization Technician at one of the greatest Orthodontics Clinics in Ontario and every day I'm applying what I learned in my Dental Assisting program. As a new immigrant in Canada, Anderson provided me with a powerful opportunity to learn and grow as a healthcare professional. The excellent instructors, my Campus Director, the administrative staff, classmates, and everyone in our community, were all so supportive and encouraging. I'm grateful for my experience and for Anderson College!
