MESSAGE FROM THE EXECUTIVE DIRECTOR

I am pleased to invite you to study with NIT Australia.

NIT Australia was established in 2015, with an objective to transform the lives of students by helping them in achieving their career goals in business and technology and becoming global citizens. We offer industry relevant training with smaller class sizes, student welfare and support services, comprehensive career development opportunities which have been carefully designed to deliver our commitment for high quality, effective and relevant education.

Our teachers are driven by passion for education and have industry experience that brings real-world experience into the classrooms. Their acumen and NIT Australia's commitment for excellence in education ensures that our students will be given the best possible opportunity to achieve the skills required to succeed in their chosen profession.

As NIT students, you will have access to not just the finest people and technology, but also a range of support services to help you realise your full potential. Students studying Information Technology courses at NIT Australia also have access to our excellent Internship Program, designed to give you invaluable experience in the workforce and help shape your practical skills and understanding as you move towards your future career.

We understand that choosing an education institute is an important decision for you. Our team are available to assist you in making this important decision.

I look forward to seeing you on NIT Australia campus and am truly excited to see what we can accomplish together.

Hari Sethi MACS (Snr.) CP
Executive Director

NIT AUSTRALIA
Helping People and Organizations Achieve Performance
through Education and Training

ABOUT NIT

ABOUT US

NIT Australia prides itself on providing real-world education and training that is relevant to the needs of the modern workplace. Our students come from all over the world, from many different cultures and backgrounds. At NIT Australia, we have designed and developed our courses to prepare you for the future – in employment or in your pathway to further studies.

Our focus is to help you develop the skills and knowledge you need to get a job or advance your career. Our learning outcomes are industry focused to prepare you for a highly competitive business world. Our unique learning environment allows you to enjoy student life and our team works closely with you to help you achieve success.

EXTRA CURRICULUM ACTIVITIES

There is a number of initiatives aimed at supporting NIT students and enhancing their employability skills, together with boosting their career opportunities. All of the activities are FREE for our students.

At NIT you have access to free English support classes which help students to improve their writing, speaking, reading and listening skills. We also have PTE and IELTS preparation classes which help the students who need to achieve better results in their English Proficiency Test.

MICROSOFT MASTERCLASS

WORD
EXCEL
POWER POINT

Microsoft Office is the most widely used tool for sharing/presenting professional information across the world. Understanding the importance of that, NIT has developed a series of Microsoft Masterclasses to help you improve your skills and be prepared for the job market.

“Help You Prepare For Employment” is a series of workshops that cover employability skills, career planning, and professional workplace skills. The workshops provide expert advice on creating your personalised resume, cover letter, LinkedIn profile, preparing for interviews and gaining professional workplace culture skills. The Job Mentoring Program is aimed to equip students with the necessary skills and tools to get their desired job.

INTERNSHIP PROGRAM

NIT has an Internships Team to help place our students in an Australia-based organisation. Internship is a valuable opportunity which allows the student to gain knowledge and local work experience. We have a large number of companies on board with us taking our students and helping them to be ready for the job market.

OUR AFFILIATIONS

Accredited Program

OUR INTERNSHIP PROGRAM

NIT offers an Internship Program* that will give you an opportunity for an industry internship placement to gain work-ready skills while you are still studying. The work experience will give you a chance to:

- Observe and engage in real projects and day-to-day work, under the guidance of a supervisor,
- Develop professional and practical skills in your field, and
- Understand what it means to apply your knowledge in a real work setting.

100+ HOST ORGANISATIONS

NIT has successfully placed students in a variety of companies and from diverse industries, including the sectors listed below:

ASX Listed

Technology Providers including Fintech, Managed Serviced Providers, Software Companies and Tech Consultancies.

Education and Training Industry

Healthcare Industry

Research Industry

Mining Industry

Energy Industry

Builders Industry

Telecommunications Industry

Disability Sector

Shipping Industry

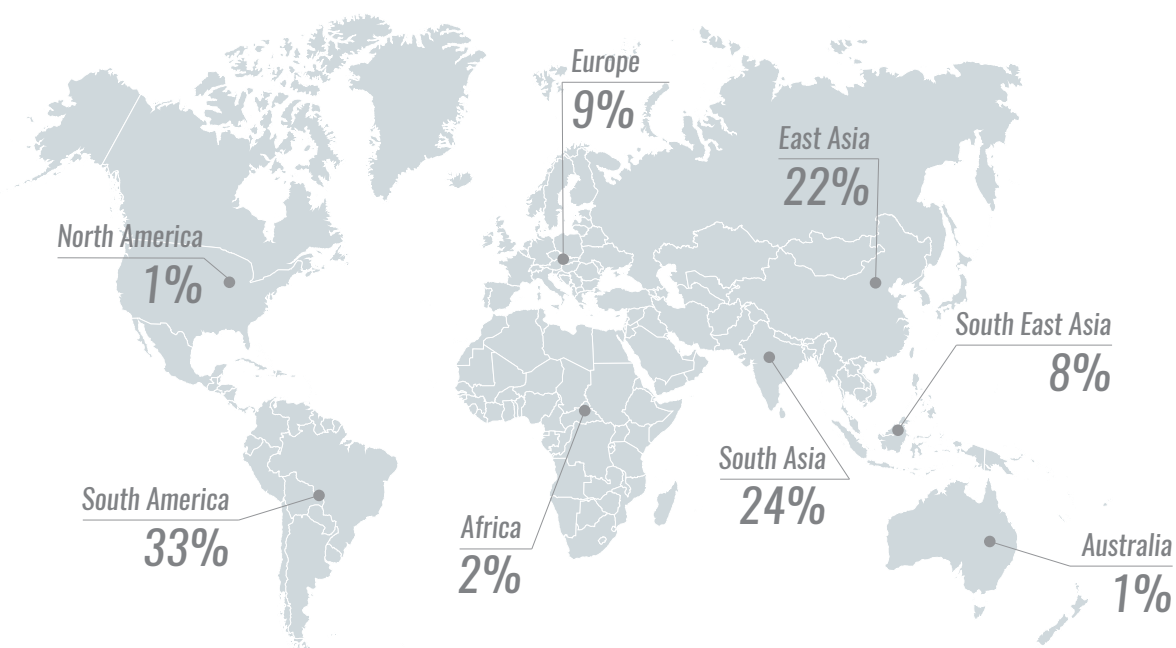

STUDENT MIX

Studying overseas is an important experience that will change you forever, as a student and as an individual. Your time abroad will teach you more than what is in the classroom. It is about turning your international experience into a valuable asset for a future plan, learning other cultures and growing as a global citizen. NIT has an incredible campus where students find a multicultural, safe and welcoming environment. Supporting a diverse learning atmosphere, our staff members and students are from all over the globe. When the world is your classroom, you will gain an unparalleled education.

46 NATIONALITIES ON CAMPUS

(Based on our enrolment statistics from June 2019)

*Students need to meet the eligibility criteria.

OUR CAMPUS

Located in Perth city with a close proximity to Perth Central Business District (CBD), NIT Australia campus has easy access to public transport, international student accommodation, cafes, restaurants, shops, entertainment outlets and the State Library of Western Australia. Our campus offers the perfect balance between studying, work and play. The campus has excellent teaching and learning facilities that include modern computer labs, networking labs, wireless internet, a reference library and a student lounge equipped with a video game console and a TV.

WE LOVE PERTH

Cheapest Australian capital city

Work opportunities

Mediterranean climate
Warm summer, mild winter

Great mix of nationalities and lots of Aussies

94% of the students feel safe in Perth
National average is 92%

(StudyPerth)

For the past 13 years Perth has been ranked in the top 10 most liveable cities, placed 7th in 2017

The Economist Intelligence Unit, 2004-2017

Measured by stability, healthcare, culture, education and infrastructure

Ranked #21 of 230 world cities for quality of life

Mercer Quality of Life Survey, 2019

Measured by stability, healthcare, culture & environment, education and infrastructure

WEATHER

The sunniest capital in Australia with clear, blue skies 70% of the year!
(studyperth.com.au)

WA is home to some of the BEST BEACHES in the world.
(visitwa.com.au, 2016)

Perth has a warm sunny climate, perfect for exploring up to the 19 sandy beaches or taking a bike ride along the beautiful Swan River.

Season	Months	Average MAX temperature	Average MIN temperature
Summer	Dec/Jan/Feb	30° C	17° C
Autumn	Mar/Apr/May	26° C	14° C
Winter	Jun/Jul/Aug	19° C	8° C
Spring	Sep/Oct/Nov	23° C	12° C

CULTURAL DIVERSITY

Perth offers a safe and friendly environment. People of more than 200 different nationalities live, work and study in WA, speaking more than 170 languages. (studypertth.com.au)

COST OF LIVING

Perth is considered the cheapest Australian Capital City to live in. Far cheaper than Sydney, Melbourne, Brisbane and Adelaide which are the 10th, 14th, 26th and 30th most expensive cities to live in the world.

The Economist Intelligence Unit, Worldwide Cost of Living Survey, 2017

Accommodation	Average cost per week (in AUD)
Hostels and Guesthouses	90 to 150
Shared Rental	85 to 215
Homestay	235 to 325
Rental	165 to 440

General Cost of Living	Average cost per week (in AUD)
Groceries and eating out	80 to 280
Gas, electricity	35 to 140
Phone and Internet	20 to 55
Public transport	15 to 55
Entertainment	80 to 150

Cost of living depends on each student's preferences. (studypertth.com.au)

TRANSPORT

Perth has the best practices in student-travel concessions:

- 40% discount on all public transport (students can save \$800-\$1,000 a year!)
- Central Area Transit (CAT) buses are free in Perth, Joondalup and Fremantle CBD areas. You may get on and off them as often as you like without paying a fare. (transperth.wa.gov.au)

ENTERTAINMENT

There is plenty of attractions to choose from in Perth and surrounds areas with fun-filled activities for everyone. From amazing man-made attractions and beautiful parklands, to nature and marine life, history and science. You'll find plenty of activities to have fun and to love in Perth.

USEFUL INFORMATION

Accommodation

NIT partners with two major student accommodation providers in Perth, which are located in close proximity to our campus and Perth city. These accommodations are reliable, safe, close to the buzzing city life and just 5-minute walking distance from our campus. If you would like us to help you arrange your accommodation with them, please inform us on your application form.

campusperth.com

thestudenthousingcompany.com.au

Student VISA

While studying at NIT, international students are required to comply with their student visa requirements. NIT cannot provide advice on visas and migration issues. Please visit <http://www.border.gov.au/> for any information related to student visas or migration.

Orientation

All new students are required to attend an orientation before starting the classes at NIT. The orientation provides important information about your course including policies, procedures and guidelines that will assist you in meeting the requirements of your course at NIT Australia. This will be a good opportunity for you to meet key staff and discover what supports and services are available to you while studying at NIT.

Overseas Student Health Cover (OSHC)

All international students studying in Australia are required to have OSHC for the entire duration of their student visa in Australia. Any accompanying family members must obtain OSHC too. You can choose from different health insurers providing affordable health insurance for international students.

You can compare and check which OSHC is best for you here: <https://oshcaustralia.com.au/en>

NIT has a partnership with AHM and Medibank and we can assist organising OSHC for you with these providers. If you wish NIT to arrange OSHC for you, please inform us on your application.

Work rights

Student visa holders can work part-time for up to 40 hours per fortnight and full-time during the official study breaks. Students must not commence to work before their course or studies have commenced. To get complete information on student visas work rights visit: www.homeaffairs.gov.au.

Australia has workplace and minimum wage laws to protect the rights of the workers including those on Student visas. For more information, visit: www.fairwork.gov.au.

A group of four people, three men and one woman, are gathered around a computer monitor in a dimly lit office. They are all looking intently at the screen, which displays a complex interface with various data visualizations, including a large bar chart and several smaller charts. The man in the foreground has his hand on his chin, appearing thoughtful. The overall atmosphere is one of focused collaboration and technical work.

INFORMATION TECHNOLOGY *& TELECOMMUNICATIONS*

CERTIFICATE IV IN INFORMATION TECHNOLOGY NETWORKING

ICT40418
CRICOS CODE 099862B

COURSE OVERVIEW

In this course you will gain hands-on practical skills and knowledge which will enable you to install and configure computer networks. This includes learning on how to work with popular operating systems, wireless technologies, cloud technologies, network security and virtual machines. You will attain valuable skills in user support, understanding client needs, writing technical documentation and workplace health and safety.

You will be provided with an access to CISCO Net Academy course materials for an opportunity to prepare Cisco CCNA or CompTIA A+ Certifications.

LEARNING & ASSESSMENT METHODS

Learning methods may include presentations and discussions, demonstrations, individual and group activities, skills practice, role plays, case studies, simulated scenarios, research activities and industry visits.

Assessment methods generally include practical observation of tasks, written or oral assessments, case studies, role plays, reports, research projects, presentations, etc.

Santiago Rocha
Colombia

"My journey at NIT has been fantastic. Trainers and staff are always there to help you out on any situation you may come across. My experience studying Cert IV in Information Technology Networking was great, trainers are well prepared, and every time I had any difficulties understanding a topic, they were there to help me out. Due to my study performance and dedication, I had the opportunity to work with the NIT's IT team and learnt a lot from them."

Lhendup Thshering
Bhutan

"The internship program offered by NIT opens a lot of career opportunities for NIT's students. I strongly recommend NIT because this school offers interesting and fun courses that involve practical and visual learning, has great and qualified trainers and a multi-cultural classroom environment where I get to learn with classmates from different countries."

DIPLOMA OF INFORMATION TECHNOLOGY NETWORKING

ICT50418
CRICOS CODE 099939G

COURSE OVERVIEW

In this course, you will develop knowledge and skills associated with computer networks management, virtual computing environment, Windows and Linux Servers, and ICT project management.

In order to deliver strong practical skill-set, we start our course with IT essentials which cover fundamentals of Information Technology, followed by technical training in servers, virtualisation, routing, switching and advanced networking. You will also gain knowledge and skills in project management methodologies and tools, which will prepare you for the real work environment.

You will be provided with an access to CISCO Net Academy course materials for an opportunity to prepare Cisco CCNA or CompTIA A+ Certifications.

 **Nikola Kirsty Parsons**
United Kingdom

"I was studying at a different college which I didn't enjoy and I was scared I may have the same experience at NIT, but it was the opposite when I came here which I am happy about. I never thought I would understand programming but gradually I am gaining more knowledge in this field better than I ever thought I would. The trainers work very hard to ensure students get the help we need and I feel like we are a part of a family here."

ADVANCED DIPLOMA OF TELECOMMUNICATIONS NETWORK ENGINEERING

ICT60615
CRICOS CODE 099131D

COURSE OVERVIEW

In this course, you will gain high level knowledge and skills needed to plan, design and administer telecommunications networks. This includes forecast network growth for enterprise network planning; design and manage IP based network telecommunications equipment; implement convergence technologies in enterprise telecommunications networks; and design and manage optical and wireless network telecommunications architectures for high speed broadband capability.

After achieving the **ICT60615 Advanced Diploma of Telecommunications Network Engineering**, candidates may undertake further related studies in VET at a Graduate Certificate levels or seek articulation into a relevant University program.

CAREER PROSPECTS

Job roles and titles vary across different industry sectors. Possible job titles relevant to this qualification include:

- Telecommunications Network Administrator
- Telecommunications Network Planner
- Telecommunications Network Designer
- Telecommunications Technical Officer
- Telecommunications Technologist

COURSE STRUCTURE

Telecommunication Fundamentals and Network Design

ICTNWK517 Determine best-fit topology for a wide area network

ICTTEN611 Produce an ICT network architecture design

Optical Fibre Networks

ICTOPN601 Manage optical ethernet transmission

ICTOPN603 Design a dense wavelength division multiplexing system

ICTTEN603 Undertake network traffic management

Telecommunications WAN Plan and Design

ICTNPL601 Plan the development and growth of the telecommunications network

ICTSUS601 Integrate sustainability in ICT planning and design projects

Enterprise Telecom Plan and Design

ICTPMG610 Develop a project management plan

ICTPMG611 Prepare a detailed design brief

ICTTEN610 Design and configure an IP-MPLS network with virtual private network tunnelling

Note: Course structure, units and content are subject to change during the delivery period due to change in legislative requirements or due to NIT's course review process.

LEARNING & ASSESSMENT METHODS

Learning methods may include presentations and discussions, demonstrations, individual and group activities, skills practice, role plays, case studies, simulated scenarios, research activities and industry visits.

Assessment methods generally include practical observation of tasks, written or oral assessments, case studies, role plays, reports, research projects, presentations, etc.

Vinicius Medeiros de Almeida

Brazil

"After researching many education providers in Australia, I was sure NIT would be the right choice due to its commitment to bring innovation to its students. The difference I have noticed while studying at NIT started from the fact that students are prepared for the job opportunities in Australia through dynamic activities, use of real equipment and even the experience of visiting companies to understand how everyday operations are performed. Those opportunities gave me the confidence I needed to apply for jobs and now I work in the field, where I can put my knowledge into practice."

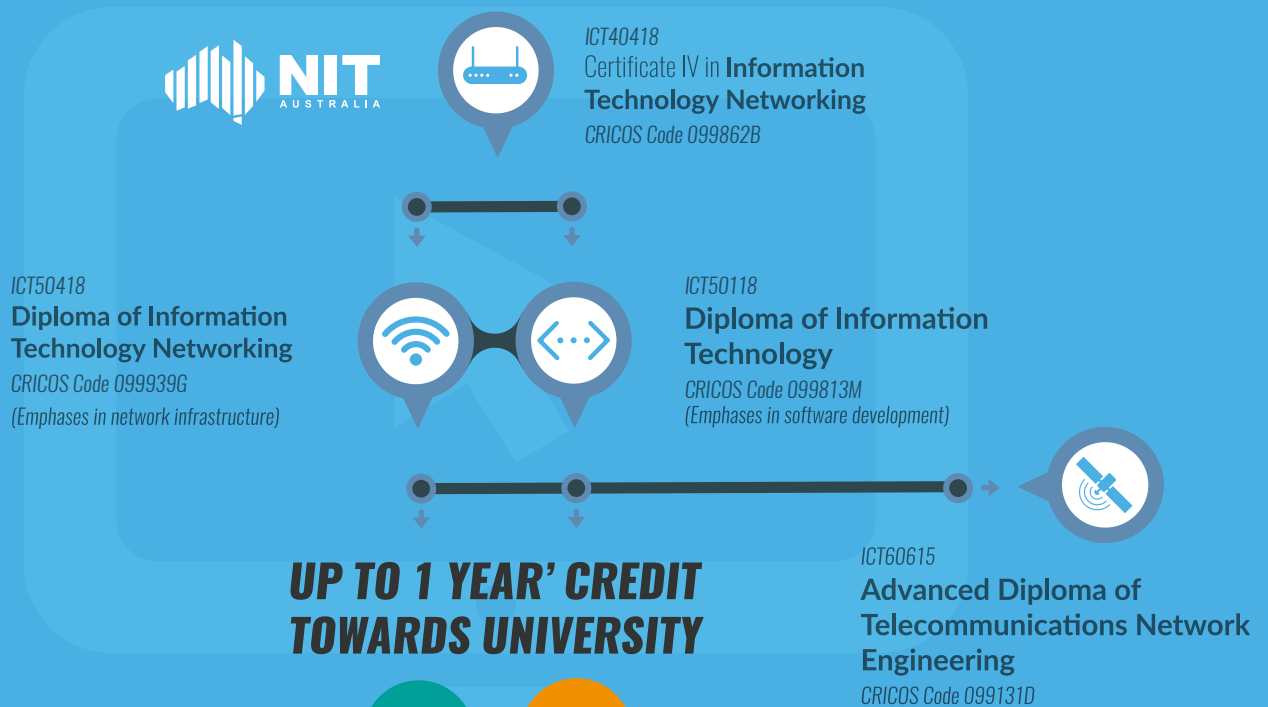

Rosario

Italy

"I have a background in the ICT sector from my country where I used to work an ICT Project Manager, in which I was completely involved in developing ICT Projects. Technologies have been developed in many ways in the last decade. I am doing the Advanced Diploma of Telecommunications Network Engineering course to learn more about fibre technologies. Dense Wavelength Division Multiplexing (DWDM) technologies are going to be the future of Telecom. I am learning relevant information about how to manage fibre to complete an entire project using DWDM technologies. The trainers are fully prepared and highly competent, and well equipped with many years of experience in the mining sector developing telecom solutions. Classes are very interesting with a lot of contents and resources. I would strongly recommend this course at NIT Australia to all students interested in future technologies in a dynamic environment."

"I have learned a great overview of many aspects of how a business works and I enjoy the mix of formal and informal learning styles. I have also made a lot of new friends from different cultures. I recommend studying at NIT to improve yourself and learn new things with a quality provider."

 **Heidi Asri Kumala Yunita**
Indonesia

"Initially, I had some doubts joining NIT because it specialises in IT, but I was wrong! My course is really interesting and my trainer brings a lot of energy and delivers effectively in class. NIT has also helped to place me in an internship, which is very important for me as an international student to gain work experience in Australia."

ADVANCED DIPLOMA OF BUSINESS

BSB60215
CRICOS CODE 089153C

COURSE OVERVIEW

If you are planning to enhance your skills further in business or want to step up the corporate ladder and aiming for a senior administrative or managerial position, this course at NIT Australia will help you achieve your goals by developing your skills and knowledge across various business functions at strategic and higher management levels.

It will help you in attaining skills and knowledge in many of the business functions such as business sustainability, human resources, marketing, finances and information management.

 **Cleo Laurent**
France

"The course is interesting and I am learning something new during every class. NIT is very close to the train station and there is free parking around, too.

I have been to three different schools in Australia, and honestly, NIT is the best because of so many things including engaging trainers and quality courses that are useful."

 **Gaurav Rana**
India

"The trainers are very knowledgeable and have helped to improve my communication skills, business knowledge and skills for my career development. I love the environment here and the personalised experience I get from my trainers."

**ACS PROFESSIONAL YEAR
PROGRAM**

COURSE OVERVIEW

ACS's PYear Program gives international ICT/computing graduates from Australian universities the practical job skills and training needed to enhance their career prospects. A practical pathway from university to employment, PYear ensures that graduates are job-ready. NIT's Professional Year program is an exciting program designed to equip the new IT professional with a set of highly sought-after professional skills that will help you on your way to a new career while paving the migration pathway for those seeking to make Australia their new home.

COURSE DURATION

- 44-52 WEEKS
(including 10-12 weeks of internship)

INTAKE DATES

Please check intakes on our website

STUDY MODE

- Face to face: Coursework and Internship components
- Online: Professional Environments component

BENEFITS

5 Migration Points

Gain 5 extra points upon successful completion of the PYear program*.

Migration Skills Assessment

The Professional Year is equivalent to one year of work experience for ACS skills assessment.

IT Internship

Gain work experience through a hands-on internship with an Australian company.

STUDYING AT NIT

IT Specialist

We specialise in ICT training and education. NIT is a professional partner of Australian Computer Society (ACS), an authorised CISCO Academy, VMware Academy, CompTIA Academy, IBM Academic Initiative Partner and Microsoft Imagine Partner.

Get career advice in the IT field

Our IT career advisors and trainers have guided many students in overcoming their struggles in deciding their best specialisation pathway or pinning their first IT job in Australia.

100% of our students get an internship

NIT has more than 100 companies on board, our internship consultants work with you to get you a relevant IT internship opportunity where you gain hands-on IT experience in an Australian organization.

Ace your job interviews

One of our highly demanded events is where we invite real IT professionals and managers to conduct practice interviews (Mock interviews) This helps you to gain real exposure and an opportunity to connect with these professionals from the IT industry.

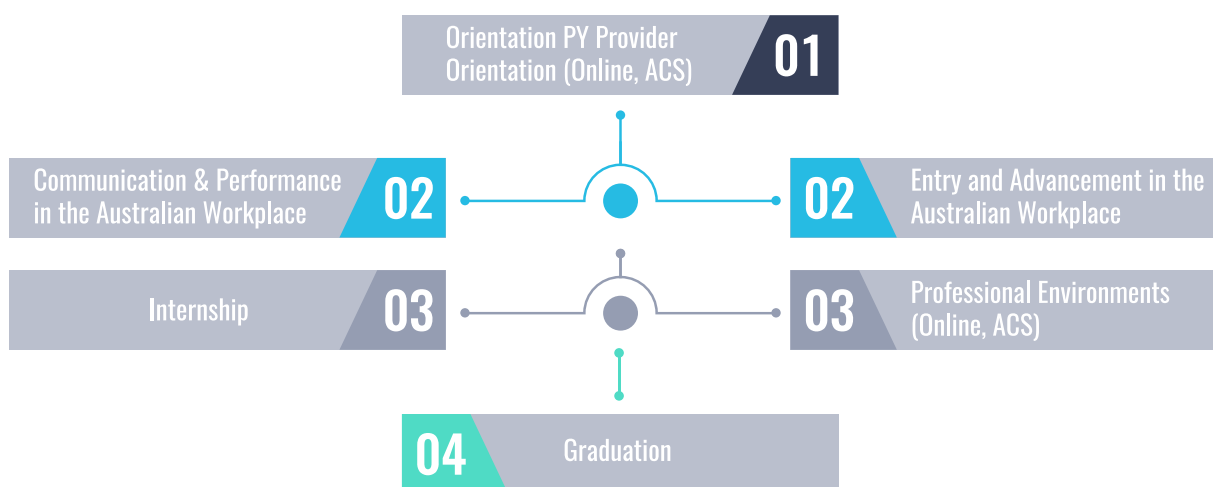

Learn from professionals

Our trainers are highly experienced in Business and IT industry and bring relevant case studies into the classroom. We groom our students to be able to communicate and engage professionally, and adapt to the Australian workplace culture.

Build your professional networks

We work closely with many Australian IT businesses, organisations and associations. We are able to help you engage with people from industry to maximise your chances of employment success. You also get a free ACS Student membership for 12 months.

COURSE STRUCTURE

02 Communication and Performance in the Australian Workplace (CPW)

CPW1 – Performance in business meetings
CPW2 – Workplace communication
CPW3 – Presentations
CPW4 – Business writing
CPW5 – Reporting to managers

02 Entry and Advancement in the Australian Workplace (EAW)

EAW1 – Australian workplace culture
EAW2 – Workplace relationships
EAW3 – Professional Performance
EAW4 – Prepare a tailored job application
EAW5 – Interview preparation

03 Professional Environments (PE online, provided by the ACS)

Professionalism in ICT is designed to demonstrate what it means to be a professional in a chosen field. This online module will provide the opportunity to develop and maintain an e-portfolio, which can be built on following completion of the Professional Year program. Issues related to Business, Legal and Ethical content in the workplace is also covered. The online module is for 13 weeks and runs parallel to the student internship.

03 Internship

One of the most significant aspects of the Professional Year program, an internship placement will be for a minimum period of 240 hours and is normally 12 weeks and can be part-time or full-time. This provides practical ICT workplace experience in an Australian based organisation.

ENTRY REQUIREMENTS FOR PROFESSIONAL YEAR

Applicants are required to attend an interview as part of the application process. They must:

- Have successfully attained and completed an ICT-related Bachelor or Master degree or higher from an Australian tertiary institution (minimum two years' full-time study in Australia);
- Have completed their principal course of study (on a Student Visa) prior to commencing the Professional Year Program;
- Hold a current and valid passport and visa (485 Temporary Graduate visa*) that allows full work and study rights whilst undertaking the ACS Professional Year Program;
- Hold a current and valid IELTS minimum band score of 6.0 (Academic or General), no band below 5.0 (or equivalent);
- Undertake an application interview with NIT to ensure course suitability and viability.

For more details on entry requirements, visit NIT website (<https://www.nitaustralia.edu.au/professional-year-perth/>).

ADMISSIONS REQUIREMENTS FOR VET COURSES

Entry requirement for Vocational Courses

COURSE LEVEL	ACADEMIC PRE-REQUIREMENT	ENGLISH PRE-REQUIREMENT
Certificates	Year 11 or equivalent	5.5 or equivalent
Diplomas	Year 12 or equivalent	5.5 or equivalent
Diploma leading to Curtin University	Year 12 or equivalent	5.5 with no band less than 5.5 or equivalent

English Language Test accepted by NIT and Table of Equivalence

ENGLISH LANGUAGE TEST	Test score	Minimum test score where combined with at least 10 weeks' ELICOS	Minimum test score where combined with at least 20 weeks' ELICOS
IELTS	5.5	5	4.5
TOEFL (ibt)	46	35	32
CAE (Cambridge)	162	154	147
PTE-Academic	42	36	30
NIT Placement Test <i>(acceptable for some nationalities)</i>	U	D+	D
OET	A score of at least B for each test component of the OET		

OR Successful completion of the Senior Secondary Certificate of Education or studies at the Certificate IV or higher level in an English language in Australia within last two years.

OR Successful result in NIT's Placement Test. NIT Placement Test is acceptable for certain nationalities only.
bit.ly/NITplacementtest

TOEFL paper based test will only be accepted in limited circumstances. To confirm whether your test can be accepted, you can email a copy to admissions@nitaustralia.edu.au. Depending on your nationality, the Australian Department of Home Affairs might only accept a formal English language test result (such as IELTS, TOEFL and PTE) as proof of English competency for student visa purposes. Please refer to homeaffairs.gov.au/trav/visa-1/500- for details. Students can apply for a course package with Vocational Courses and English Courses. For students enrolling in English as a pathway, student can opt to enrol on General English course without pre-test and once they achieve a higher level of English, they can move towards EAP, PTE or IELTS after passing on our NIT Placement Test.

Credit Transfer/ Recognition of Prior Learning (RPL) Credit Transfer: You may be eligible for Credit Transfer if you are able to demonstrate that you have achieved competency in the same or equivalent unit/s in a Nationally Recognised Training from any Registered Training Organisation. Recognition of Prior Learning (RPL): If you think that you have already gained the skills and experience for a unit or entire qualification, you can apply for RPL to get recognised as competent for parts or a whole nationally recognised qualification. Not everyone will get credited for their skills and knowledge. Successful applicants will need to demonstrate a reasonable amount of experience in the area their course covers. To know more about our RPL process, contact us via email: admissions@nitaustralia.edu.au.

HOW TO APPLY

1. FIND A COURSE

Choose from our range of courses and get in touch if you need any assistance. We provide a great range of Vocational Training Courses leading to undergraduate courses at universities which you can package. Visit our website for latest information about courses and entry requirements.

2. CHECK ENTRY REQUIREMENTS

Make sure you meet entry requirements of the course you intent to study before making an application.

3. SUBMIT THE APPLICATION

Submit your application online with the relevant documentation. Please, read NIT Student Handbook, Fees and Refund Policy and Information for International Students prior to submission. You can apply by yourself or using the assistance of one of our educational agents:

ONLINE APPLICATION
bit.ly/ApplyNowNIT

EDUCATION AGENT
bit.ly/FindAgentNIT

4. RECEIVE OFFER LETTER

Once your application is assessed you may receive a Letter of Offer. Please check any conditions on the letter and ensure that you can meet the required conditions.

5. ACCEPT OFFER LETTER

Once you receive an offer letter from NIT, you can sign and make the deposit payment.

6. RECEIVE CONFIRMATION OF ENROLMENT (e-CoE)

Availability of places are confirmed after you have signed and returned the Offer Letter, made deposit payment and met any conditions then you will receive your e-CoE.

7. APPLY FOR YOUR VISA

To apply for your student visa, visit the Department of Home Affairs website <https://immi.homeaffairs.gov.au/visas/getting-a-visa/visa-listing/student-500> At this site you can find the visa requirements to study at NIT Australia (CRICOS Provider 03420M) for your passport nationality using the 'Document Checklist Tool'.

8. WELCOME TO NIT!

Receive your student visa and come to Perth, WA, to start your journey. Make sure to check the orientation date of your course before you make travel arrangements. You must arrive on time for orientation.
