MESSAGE FROM THE CEO

OUR MISSION

The new concept of leisure civilization makes the catering industry a unique growing business offering a large number of career opportunities at all levels.

The continued growth of the sector has driven demand for qualified personnel who can take up positions with a minimum training.

Our high quality Swiss education training program provides the knowledge and skills necessary to meet industry expectations in this regard.

With the total value of more than 4 trillion of dollars, 1 out of 9 people will be recruited to work within the hospitality industry in the coming years. With more than millions jobs opportunities globally, many available on a seasonal or flexible basis, there has never been a better time to acquire the necessary skills to enter this dynamic and growing sector.

With the idea to overcome the urgent need of the catering industry with restaurant staff, we have tailored and designed with our Swiss expertise and our French experience the perfect and unique training with globally recognized professional certifications so that participants can confront their chosen profession with confidence.

At FBSTI we firmly believe that theoretical knowledge must be underpinned by practical experience and our programs are designed to provide each participant with the opportunity hone their skills through operational experience in our institutes as well as through external partnerships. This approach has proven successful in bridging the gap between theory and practice, further demonstrating our innovative approach to meeting the needs of our student's, as well as providing highly skilled personnel ready to meet the challenges of this dynamic industry.

The program of FBSTI is based on the development of four fundamental themes:

The knowledge: The development of theoretical competency in every field of the catering industry.

The skill: The development of practical skills in all sectors of the service environment.

Communication: build the capacity of each individual to communication effectively in order to aid the delivery of service quality, as well as to enhance public relations and customer care.

Flexibility: to foresee and confront changes, to be open to a demanding and dynamic environment, to take ownership of issues arising as a result operating in a customer oriented role.

No matter where participants come from, they will find that the catering industry has the most favorable conditions for rapid professional integration and development. This is making the catering industry a promising and logical choice for young people today. F&B Service Training International is the most affordable and fastest solution for the participants to find quickly the perfect job and escape their everyday to live a crazy and amazing adventure anywhere in the world.

We are providing our stunning courses everywhere in the world on demand.

- Food and Hygiene Certificate Level 2 (compulsory to work in the restaurant industry in most countries around the world)

GRADUATION: Graduation ceremony at the end of the course

+ INTERNSHIP WORK PLACEMENT

FBSTI will provide assistance to find a paid internship in some of the finest restaurants around the world.

Participants are welcome to find also their own internship.
(Internship fees will then be refund)

INTERNSHIP IS NOT
COMPULSORY to pass the
examination.

During the course participant will be given addresses and contacts to find for sure the most suitable internship. Addresses of companies who are recruiting, social networks groups and professionals who are advertising for internship, addresses of internship available, internship coordinator from different countries, human resources of large companies, hotel chains and cruise lines.

Internship can be from 3 months to 12 months

Not all countries and establishments are paying the same wages. Students can received between 0 € to 2000 € per month, however some companies do not offer accommodation.

Additional costs borne by the participant: (some of those costs are in some cases paid by the establishment who is providing the work experience)

Travel expenses

Visa expenses

Internship coordinator or placement companies (other than FBSTI)

Be sure to inform yourself of Placement fees in advance: Some companies can charge from 1-month salary to 30% of the first six month of working.

Of course, students will love to have an internship in a dream land, with a high salary but even if sometime this will be possible students will have to keep in mind that the internship is part of their future careers/experience and should not think about compensation as the most important part.

Example: London and Paris are not desirable as most hotels do not pay and do not provide accommodation.

Students will have also to keep in mind that they will pay taxes in the country where they are doing their internship.

The F&B department is a good opportunity for the interns to make more money (tips). They will learn in the course how to do so and increase their income.

The internship must be seen as an opportunity to experience the real life environment and a starting point toward a new career. This is also an open door to the world.

The longer the internship, the more benefits (financially and experiences) students will get out of it.

Keeping in mind that a lot of countries do not allow workers under 18 of age. Some countries (or cruise ships) even required being 21 (legal drinking age) as they would be serving alcohol.
