VISHWAKARMA PUBLICATIONS (VP)

Vishwakarma Publications is proud to be one of the most efficient and growing publishers in Pune. It was founded in 2013 with the aim to provide a platform to budding and established writers in the Marathi, Hindi and English language.

At Vishwakarma Publications, we partner with our authors all through the publishing process. We publish across categories, genres, languages and borders with equal attention to the book and its author.

To us, a book is a source of wonder, imagination, knowledge and hope. Right from getting that raw manuscript in our hands to feeling the touch of a freshly printed book, our staff pours their heart, hard work and soul into each book, into every dream of our author.

With an ever-growing distribution network the books are made available globally. We hope to widen and enrich the community of readers with our diverse collection of books from several genres and inculcate the joyous habit of reading through our book clubs, festivals and literature.

To promote the habit of reading, we sponsor book clubs, festivals and literary events irrespective of places. As a matter of fact, Vishwakarma Publications is one of the official Title Sponsors of the Pune International Literary Festival (PILF). Every year, as our bit to encourage writers, we choose selected authors from PILF to publish their stories.

Vishwakarma Publications strives to be as interactive as possible. Through our blog we provide news and updates about authors, their books, book events, awards and trends in the publishing industry.
