SCIENCES**

In the fast changing world, it is hard to predict the jobs of the future. Students now need to learn to create value, while remaining adaptive and agile.

Founded in 1986, Global School for Entrepreneurship is now on a mission to revolutionise entrepreneurial education. We will teach students the practical skills and secrets of meaningful entrepreneurship.

Students choosing for Global School for Entrepreneurship want to become:

- **meaningful entrepreneurs**
- **impactful social entrepreneurs**
- **intrapreneurs**
- **family business successors**

OUR TEACHERS ARE ENTREPRENEURS

Over 75% of our teaching staff are entrepreneurs; students are taught by both subject and field experts, all under the personal guidance of their learning coach.

SMALL SCALE, MASSIVE IMPACT

Global School for Entrepreneurship is a private university, where groups are kept small and innovation of the curriculum is key. The founders all have a unique background in education

and entrepreneurship which comes apparent when you experience how they run their university; they put APPLIED first in University of Applied Sciences.

GROW YOUR BUSINESS

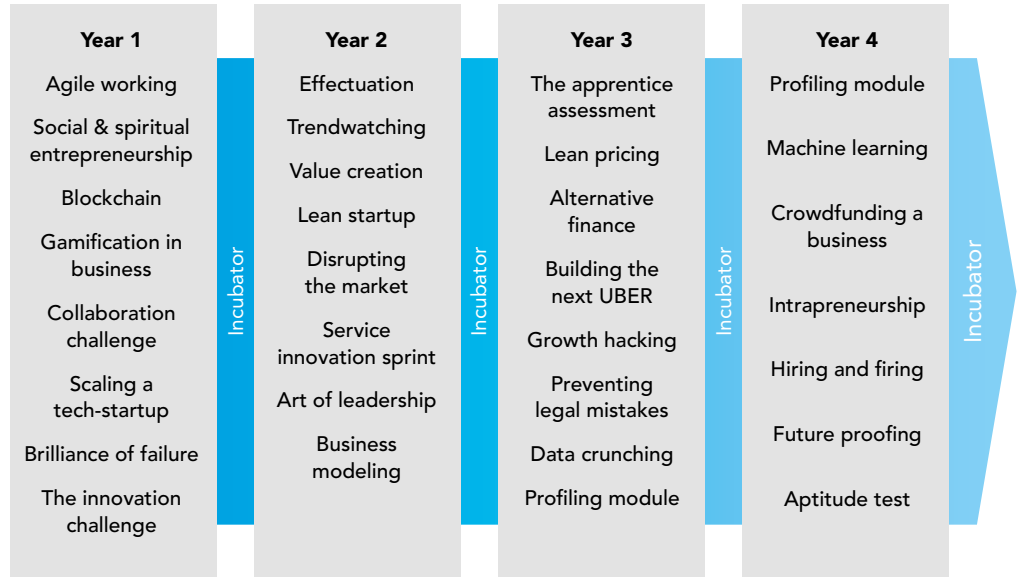

From DAY ONE students have access to the incubator space to further develop their ideas or existing business. At Global School for Entrepreneurship, Europe is your classroom, the world is your learning environment and Entrepreneurship your future.

BACHELOR ENTREPRENEURSHIP AND INNOVATION

We are passionate about reinventing entrepreneurship education.

We know the needs of every entrepreneur is different:

- come to the course with an idea, we will facilitate it to go from idea to a real business.
- if you don't have an idea, we will teach you how to create and discover new ideas.

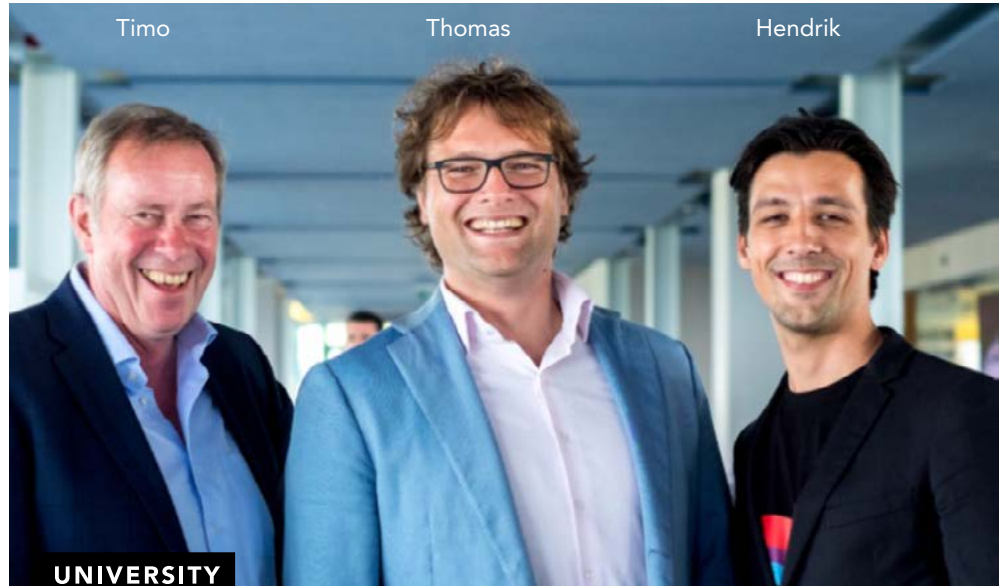

'become COMFORTABLE WITH BEING UNCOMFORTABLE'

Teaching in the heart of the startup scene: Global School for Entrepreneurship operates from Amsterdam and has, through its partnership with Get in the Ring, partners in over 100 countries around the world. This means that students are not taught in one school building – they are taught in accelerators all over the world.

We are a private university and we offer a maximized personal approach: every student has a personal learning coach accompanying the student through the entire programme. In our incubator the student is mentored by multiple entrepreneurs.

Global School for Entrepreneurship shouldn't feel like a school. Students shouldn't behave like students. Let's make it better, together! We are looking to develop tomorrow's entrepreneurs. Will you join our movement in Entrepreneurial Education?
