

AGENT CRM

Smartest Way to Run Your
EDUCATION CONSULTANCY BUSINESS

WHY UNIAGENTS CRM ? FOR EDUCATION CONSULTANTS

We all use some sort of technology these days to manage our data like Excel sheets, Emails, WhatsApp or may be some online/offline software's. Every business requires an industry specific technology. For example Banking software's, Robotics software's and software's to manage aviation industry. Similarly UniAgents develops technologies only for Academic Industry and with core specialisation on agent/consultant management. UniAgents CRM is a pioneering technology solution for education consultants/study abroad agents, this allow consultants to operate effectively, efficiently and professionally to experience higher conversion rate. Use of this technology can guarantee extra students and happier students.

1 extra student = 5 years subscription

- Better control to the owners of the Business
- Find out intelligent details about your Business
- More freedom and better tools for Counsellors
- Best Experience for Students
- Transparency and Trust with Institutions
- Run the entire System from your own Website
- Do not miss any chance of Better Conversion
- Tailor made Experience

FEATURES AND BENEFITS

UniAgents offers educational consultants an opportunity to experience flawless and streamlined office operations. By using our Agent CRM the consultants will be able to manage and control all their branch offices and counsellors working in respective offices. You can manage all your institutions which you represent, define your own country specific application process, track all your applications and enjoy the flexibility, transparency and control of office operations as never before. Operate like a multinational organisation. Track your website visitor on real-time basis and use our state of the art counsellor tools to give students an experience beyond their expectations.
