

DIPLOMA IN ENROLLED NURSING

Enrolled nurses work under the direction and delegation of a registered nurse in a variety of health and disability settings.

Enrol now!

This programme provides theory and hands-on experience to develop the skills required to become an enrolled nurse.

Enrolled nurses assist registered nurses to deliver nursing care to individuals in community, residential and hospital settings. They perform delegated interventions from the nursing care plan to provide care and comfort for individuals and groups, assist and support clients with the activities of daily living, observe and report changes in individual/group conditions and behaviours, safeguard dignity and promote independence and health and safety. Enrolled nurses contribute to nursing assessment, care planning, implementation and evaluation.

Programme Information

This programme is a combination of theory, which is undertaken at our Porirua campus and supported clinical experience, which is undertaken in a variety of community and hospital settings.

It is taught in two parts as follows:

Part one

The foundation component is taught in the first 12 months of the programme with the overall aim being to provide foundational knowledge and the skills required to enable students to work as part of the health care team with clients/patients/residents in a range of hospital and community settings.

Part two

Students will work towards being prepared to work effectively, efficiently and safely with a variety of broad practice areas including hospitals and community settings.

Students prepare for State Final Examinations that are conducted by the Nursing Council of New Zealand for Enrolled Nurse registration.

Further study Options

Graduates can apply to enrol in further Nursing and Health study at Whitireia.

Career Opportunities

An enrolled nurse can work in any nursing and health setting under the direction and delegation of a registered nurse.

Qualification

Graduates gain a Diploma in Enrolled Nursing and Enrolled Nurse status.
