WHY REAL VALLADOLID FOOTBALL CLUB?

Because it meets the requirements we seek to ensure our young students receive the best possible training:

EXPERIENCE : with over 80 years competing at the highest level, is clear reference in the Spanish football. It is a Club that has managed to reinvent itself within the generational changes to keep on competing and even opting and winning titles, both nationally and internationally

PROFESSIONALISM : because we deal with minors, this part is of vital importance to us. The club has captured the importance of training, both sporting and academic, to offer this new service to young people around the world.

SECURITY : The students will be monitored 24 hours a day, since they already have experience with their own players from the Youth Football section.

SOCIAL-SPOTING STRUCTURE : In addition to training, it is important to have a structure to ensure that such training is carried out in the best way possible: facilities, personnel and organization are optimal for young students to develop their full potential while in Valladolid.
