

BACHELOR OF APPLIED ARTS (MUSIC)

Play an instrument as a soloist and part of a band. Study composition, recording and production. Learn about the music business and develop relevant communication skills.

ENROL NOW!

Develop the skills and knowledge to begin a career in the music industry.

This Programme offers training to musicians and DJs wanting to be leaders in the music industry. It offers three specialities:

- > Music performance
- > Music creation and composition
- > Music recording and production

PROGRAMME INFORMATION

- > **Year one** students select an instrument, perform in groups and study composition and music recording and production.
- > **Year two** students start to specialise through a range of electives.
- > **Year three** students research and create a major body of work.

Core modules covered are:

- > **Contextual studies** with a particular emphasis on Māori, Pacific and contemporary music
- > **Creative enterprise** with an emphasis on the skills to develop ideas and creativity into commercial success

Music modules covered include:

- > Instrument studies
- > Group performance
- > Composition
- > Music theory
- > MIDI and recording
- > Music production
- > Improvisation theory and practice
- > Analysing and rearranging music

Music facilities students will learn in rooms designed for the teaching of rock music and include:

- > Recording studios
- > Digi labs with Apple computers
- > Music production suites
- > Performance room equipped with lighting, PA, projector and large screen and performance equipment
